COMMANDANT INSTRUCTION M16465.12 (old CG-446-2)

Subj: Manual Two of the Chemical Hazards Response Information System (CHRIS)

1. PURPOSE. This revision adds 500 chemicals, corrects errors, and adds new data to CHRIS. A further expansion from the present 900 to approximately 1000 chemicals will be made in the future. This manual provides the On-Scene Coordinator or other officials with some of the technical information necessary to properly respond to discharges of hazardous chemicals. The information provided in this manual may also be used for contingency planning and orientation. This manual is one part of CHRIS and is fully effective only when used in conjunction with the other system elements, COMDTINST's M16465.11, .13 and .14 (series).

2. DIRECTIVES AFFECTED. Manual Two of the Chemical Hazards Response Information System (CG-446-2) is hereby cancelled.

3. ACTION. District Commanders and appropriate unit commanding officers shall ensure that proper training in the use of CHRIS is conducted frequently for all response personnel.

4. CHANGES. The submittal of recommended changes and corrections to COMMANDANT (G-WEP) is encouraged.

1. INTRODUCTION

The Chemical Hazard Response Information System (CHRIS) is designed to provide information needed for decision-making by responsible Coast Guard personnel during emergencies that occur during the water transport of hazardous chemicals. CHRIS also provides much information that can be used by the Coast Guard in its efforts to achieve better safety procedures and so prevent accidents.

CHRIS consists of four handbooks or manuals, a hazard assessment computer system (HACS), and technical support personnel located at Coast Guard headquarters. These components and their relations to one another are described in Section 2 of this manual.

2. COMPONENTS OF CHRIS

2.1 A CONDENSED GUIDE TO CHEMICAL HAZARDS

The Condensed Guide contains information needed to help personnel make the proper *response* in an emergency situation; it is the only CHRIS handbook that will be carried to the actual scene of an accident. It is intended for use by port security personnel and others who may be the first to arrive at the site of an accidental discharge or fire and who need readily available and easily understood information about the hazardous properties of the chemical involved. It will be used to determine the proper actions that should be taken immediately to safeguard life and property and to prevent contamination of the environment.

The Condenced Guide briefly describes the chemical and biological hazards of various materials so that personnel at the scene of an accident can assess the danger and consider the appropriate large-scale response. It also lists the on-scene information needed for proper use of the Hazard Assessment Handbook. Selected information on each chemical covered by CHRIS is summarized from the more extensive material in the Hazardous Chemical Data Manual and is presented on a single page

2.2 HAZARDOUS CHEMICAL DATA

This manual is the cornerstone of CHRIS. For each substance, it lists the specific chemical, physical, and biological data needed for the preparation and use of the other components of the system. It can also be used after the initial response action, when there is sufficient time to use more detailed information.

The Hazardous Chemical Data Manual is intended for use primarily by the On-Scene Coordinator (OSC) and by Regional and National Response Centers for devising, evaluating, and carrying out response plans.

Much of the quantitave information found in the Hazardous Chemical Data Manual is needed for the hazard assessment calculations described in the Hazard Assessment Handbook. The Hazardous Chemical Data Manual contains the so-called Hazard Assessment Code which directs the user of the Hazard Assessment Handbook to the appropriate calculation procedure. The Hazardous Chemical Data Manual also suggests general responses to an accidental discharge wnich summarize the detailed information given in the Response Methods Handbook.

2.3 HAZARD ASSESSMENT HANDBOOK (CG-446-3)

The Hazard Assessment Handbook describes procedures to be used for estimating the quantity of a hazardous chemical that may be released accidentally during shipment. It also describes how to estimate its concentration in air and in water as a function of time and distance from the discharge. Methods for predicting the resulting toxicity, fire, and explosion effects are also described. The calculations use data from the Hazardous Chemical Data Handbook.

2.4 HAZARD ASSESSMENT COMPUTER SYSTEM

The Hazard Assessment Computer System (HACS) is a computerized version of the Hazard Assessment Handbook. It permits trained headquarters specialists to obtain very detailed hazard evaluations quickly, when requested by OSC personnel. Methods for using HACS are described in the Hazard Assessment Handbook.

Although HACS and the Hazardous Chemical Data Handbook are based on the same original body of data, differences will occasionally arise because HACS is more readily updated than the printed manual.

2.5 RESPONSE METHODS HANDBOOK

The Response Methods Handbook is written specifically for Coast Guard OSC personnel who have had some training or experience in hazard and pollution response. The handbook describes cautionary and corrective response methods for reducing and eliminating hazards that result from chemical discharge.

Although general types of response are suggested in the Hazardous Chemical Data Handbook, the specific response, to be chosen from among those described in the Response Methods Handbook, should be determined by the results from the Hazard Assessment Handbook.

2.6 REGIONAL DATA BASE

The Coast Guard's Regional Contingency Plans, although not considered a part of CHRIS, are an important adjunct to the system. Each Regional Contingency Plan contains a section (Annex XX) that presents data on a specific region, sub-region, or locale. These data, which are intended for use by OSC personnel, include such information as the following:

- An inventory of physical resources and strike forces;
- Vulnerable or exposed resources (critical water-use areas);
- Potential pollution sources;
- Geographic and environmental features;
- Cooperating organizations;
- Recognized experts with identified skills.

3. EXPLANATION OF TERMS

This section explains the special terms used in the data sheets in Section 11, gives the sources of specific items, and includes other information that will be useful to the reader in interpreting the data. The paragraphs below are keyed to the relevant portions of Section 11 by the subheading and number used in the data sheets.

The expression "Not pertinent" means that the data item either has no real meaning (such as the flash point of a nonflammable chemical) or is not required for assessing a hazardous situation. The expression "Data not available" means that the information sought was not found in the general or specialized data sources listed in Section 10 of this manual. In a few cases where important data were not available, values were estimated by usually reliable procedures: all such values are labeled "(est.)". If more accurate values for those items are found, they will be included in later revisions.

The *name* used for each of the chemicals included in the CHRIS manuals is either (1) that specified in the Code of Federal Regulations, Title 46, Table 151.01-10(b) (Compounds Regulated by Subchapter O) and Table 151.01-10(d) (Compounds to be Regulated by Subchapter D) or (2) a common name for those chemicals not now regulated by Subchapters O and D but known to be hazardous during shipment. The data sheets are arranged in alphabetical order by chemical name, not by the 3-letter code.

The *3-letter code* is designed to facilitate correct identification of chemicals in oral or written communication. The code should be used only *in addition* to the compound name: it should not be used alone. For transmitting the code, use the phonetic alphabet given in the "International Code of Signals."

1. RESPONSE TO DISCHARGE

In every case of a discharge or leak, it is obvious that an effort should be made to reduce, stop, or contain the flow of material at its source if this can be done safely. The purpose of the terms used in this section is to describe in a general way the cautionary and corrective responses that are described in greater detail in the Response Methods Handbook.

- *"Issue warning"* is used when the chemical is a *poison*, has a *high flammability*, is a *water contaminant*, is an *air contaminant* (so as to be hazardous to life), is an *oxidizing material*, or is *corrosive*. In the Response Methods Handbook the italicized properties are the bases for cautionary responses to restrict ignition, and to restrict contaminated water for human use, farm use, and industrial use.

- *"Restrict access"* is used only for those chemicals that are unusually and immediately hazardous to personnel unless they are protected properly by gas masks, eye goggles, protective clothing, etc. In the Response Methods Handbook this cautionary response is sometimes used in a broader sense to ensure exclusion of spectators and others who might ignite flammable compounds.

- *"Evacuate area"* is used primarily for unusually poisonous chemicals or those that ignite easily. The same expression is used in the Response Methods Handbook for this cautionary response.

- *"Mechanical containment"* is used for water-insoluble chemicals that float and do not evaporate readily. In the Response Methods Handbook the corresponding corrective response is "Contain".

- *"Should be removed"* is used for chemicals that cannot be allowed to disperse because of their harmful effect on humans or on the ecological system in general. The term is not used unless there is a reasonable chance of preventing dispersal, after a discharge or leak, by chemical and physical treatment.

- *"Chemical and physical treatment"* is recommended for chemicals that can be removed by skimming, pumping, dredging, burning, neutralization, absorption, coagulation, or precipitation. The corrective response may also include the use of dispersing agents, sinking agents, and biological treatment. Specific procedures to be followed are found in the Response Methods Handbook. Cleaning of the shoreline is also specified there for some compounds.

- *"Disperse and flush"* is used for chemicals that can be made non-hazardous to humans by simple dilution with water; a corresponding corrective response is used in the Response Methods Handbook. In a few cases the response is indicated even when the compound reacts with water because, when proper care is taken, dilution is still the most effective way of removing the primary hazard.

2. LABELS

The labels illustrated in Section 2 are those specified by the United Nations Labelling System (see Code of Federal Regulations, Title 49, Part 172). Labels are shown for all chemicals that are listed by name in the Code of Federal Regulations and also for most flammable chemicals that fall under listed generic categories, such as "Solvents," "Distillates," or "Alcohols."

3. CHEMICAL DESIGNATIONS

3.1 Synonyms –Alternative systematic chemical names and commonly used trivial names are given. Commercial or trade names are shown in a few cases where they are in common use. An index of synonyms is included in this manual (Section 8); it includes only those names given in Section 3.1.

3.2 Coast Guard Compatibility Classification – An entry is made when the chemical has been assigned to one of the 43 cargo groups listed in Navigation and Vessel Inspection Circular No. 4-75, "Guide to Compatibility of Chemicals." Appropriate parts of the Guide are included in this manual. Some chemicals not now included in the Guide were assigned to a group by the Cargo and Hazardous Materials Division, Coast Guard Headquarters. If the chemical is not a liquid carried in bulk in ships' tanks, this data item is "Not applicable."

3.3 Chemical Formula – This has been limited to a commonly used one-line formula. In the case of some organic compounds it has not been possible to represent chemical structure within such a limitation.

3.4 IMCO/United Nations Numerical Designation – The designation is that of the "International Maritime Dangerous Goods Code" published by the Inter-Governmental Maritime Consultative Organization (IMCO), London, 1972.

4. OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped) – All chemicals that are listed in Code of Federal Regulations, Title 46, Tables 151.01-10(b) and 151.01-10(d) are shipped as liquids. Other designations include liquefied gas, liquefied compressed gas, and solid. Where a compound may be shipped either as a liquid or solid, both designations are given.

4.2 Color – All color descriptions found in the common reference sources are included. The color description is that for pure material. Occasionally the color of a chemical changes when it dissolves in water or becomes a gas.

4.3 Odor – All odor descriptions found in the common reference sources are included. The expression "characteristic" is used only when no other reasonable description was found. The odor description is that for pure material.

5. HEALTH HAZARDS

5.1 Personal Protective Equipment – The items listed are those recommended by (a) manufacturers, either in technical bulletins or in Material Safety Data Sheets, (b) the Manufacturing Chemists Association, or (c) the National Safety Council, for use by personnel while responding to fire or accidental discharge of the chemical. They are intended to protect the lungs, eyes, and skin. Safety showers and eyewash fountains are considered to be important protective equipment for the handling of almost all chemicals; they are not usually listed.

5.2 Symptoms Following Exposure – These are brief descriptions of the effects observed in humans when the vapor (gas) is inhaled, when the liquid or solid is ingested (swallowed), and when the liquid or solid comes in contact with the eyes or skin.

5.3 Treatment for Exposure – "First-aid" procedures are recommended. They deal with exposure to the vapor (gas), liquid, or solid and include inhalation, ingestion (swallowing) and contact with eyes or skin. The instruction "Do NOT induce vomiting" is given if an unusual hazard is associated with the chemical being sucked into the lungs (aspiration) while the patient is vomiting. "Seek medical attention" or "Call a doctor" is recommended in those cases where only competent medical personnel can treat the injury properly. In all cases of human exposure, seek medical assistance as soon as possible.

5.4 Toxicity by Inhalation (Threshold Limit Value) – The threshold limit value (TLV) is usually expressed in units of parts per million (ppm) – i.e., the parts of vapor (gas) per million parts of contaminated air by volume at 25°C (77°F) and atmospheric pressure. For a chemical that forms a fine mist or dust, the concentration is given in milligrams per cubic meter (mg/m^3). The TLV is defined as the concentration of the substance in air that can be breathed for five consecutive eight-hour workdays (40-hour work week) by most people without adverse effect.* As some people become ill after exposure to concentrations lower than the TLV, this value cannot be used to define exactly what is a "safe" or "dangerous" concentration.

No entry appears when the chemical is a mixture; it is possible to calculate the TLV for a mixture only when the TLV for each component of the mixture is known and the composition of the mixture by weight is also known.

---

*American Conference of Governmental Industrial Hygienists, "Threshold Limit Values for Substance in Workroom Air, Adopted by ACGIH for 1972"

5.5 Short-Term Inhalation Limits – The parts of vapor (gas per million parts of contaminated air by volume at 25°C (77°F) and atmospheric pressure is given. The limits are given in milligrams per cubic meter for chemicals that can form a fine mist or dust. The values given are the maximum permissible average exposures for the time periods specified. Most of the data came from the Commonwealth of Pennsylvania, Department of Environmental Resources, Title 25, Article IV, Chapter 201 (1971). Some of the data (called "Emergency Exposure Limits") were provided by the Committee on Toxicology, National Academy of Science – National Academy of Engineering, National Research Council.

In some instances the values disagree, or the short-term limits overlap the TLV given in 5.4. These are not errors; the values were supplied by several laboratories, each of which used its own experimental techniques and methods of calculation.

5.6 Toxicity by Ingestion – The Grade and corresponding LD_{50} value are those defined by the National Academy of Sciences, Committee on Hazardous Materials, "Evaluation of the Hazard of Bulk Water Transportation of Industrial Chemicals, A Tentative Guide," Washington, D.C., 1972. Data were also collected from other sources and converted to the appropriate Grade before entry in this manual. The term LD_{50} signifies that about 50% of the animals given the specified dose by mouth will die. Thus, for a Grade 4 chemical (below 50 mg/kg) the toxic dose for 50% of animals weighing 70 kg (150 lb) is 70 x 50 = 3500 mg = 3.5 g, or less than 1 teaspoonful; it might be as little as a few drops. For a Grade 1 chemical (5 to 15g/kg), the LD_{50} would be between a pint and a quart for a 150-lb man. All LD_{50} values have been obtained using small laboratory animals such as rodents, cats, and dogs. The substantial risks taken in using these values for estimating human toxicity are the same as those taken when new drugs are administered to humans for the first time.

5.7 Late Toxicity – Where there is evidence that the chemical can cause cancer, mutagenic effects, teratogenic effects, or a delayed injury to vital organs such as the liver or kidney, a qualitative description of the effect is given.

5.8 Vapor (Gas) Irritant Characteristics – The most appropriate of five statements listed below is given. (Source: National Academy of Sciences, Committee on Hazardous Materials, "Evaluation of the Hazard of Bulk Water Transportation of Industrial Chemicals, A Tentative Guide," Washington, D.C., 1970.)

(1) Vapors are nonirritating to eyes and throat.

(2) Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

(3) Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

(4) Vapors are moderately irritating such that personnel will not usually tolerate moderate or high concentrations.

(5) Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.

5.9 Liquid or Solid Irritant Characteristics – The most appropriate of the following five statements is given (same source as 5.8 above):

(1) No appreciable hazard. Practically harmless to the skin.

(2) Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of skin.

(3) Causes smarting of the skin and first-degree burns on short exposure; may cause second-degree burns on long exposure.

(4) Fairly severe skin irritant. May cause pain and second-degree burns after a few minutes' contact.

(5) Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes.

5.10 Odor Threshold – This is the lowest concentration in air that most humans can detect by smell. The value cannot be relied on to prevent over-exposure, because human sensitivity to odors varies over wide limits, some chemicals cannot be smelled at toxic concentrations, odors can be masked by other odors, and some compounds rapidly deaden the sense of smell.

6. FIRE HAZARDS

6.1 Flash Point – This is defined as the lowest temperature at which vapors above a volatile combustible substance will ignite in air when exposed to a flame. Depending on the test method used, the values given are either Tag closed cup (C.C.) (ASTM D56) or Cleveland open cup (O.C.) (ASTM D93). The values, along with those in 6.2 and 6.7 below, give an indication of the relative flammability of the chemical. In general, the open cup value is about 10° to 15°F higher than the closed cup value.

6.2 Flammable Limits in Air – The percent concentration in air (by volume) is given for the lower (LFL) and upper (UFL) limit. The values, along with those in 6.1 and 6.7, give an indication of the relative flammability of the chemical. The limits are sometimes referred to as "lower explosive limit" (LEL) and "upper explosive limit" (UEL).

6.3 Fire Extinguishing Agents – The agents are listed in decreasing order of importance. The general capabilities of all agents are described by G.H. Tryon, "Fire Protection Handbook," 13th ed., National Fire Protection Association, Boston, Mass., 1969.

6.4 Fire Extinguishing Agents Not to be Used – The agents listed must not be used because they react with the chemical and create an additional hazard. In some cases they are listed because they are ineffective in putting out the fire.

6.5 Special Hazards of Combustion Products -- Some chemicals decompose or burn to give off toxic and irritating gases. Such gases may also be given off by chemicals that vaporize in the heat of a fire without either decomposing or burning. If no entry appears, the combustion products are thought to be similar to those formed by the burning of oil, gasoline, or alcohol; they include carbon monoxide (poisonous), carbon dioxide, and water vapor. The specific combustion products are usually not well known over the wide variety of conditions existing in fires; some may be hazardous.

6.6 Behavior in Fire – Any characteristic behavior that might increase significantly the hazard involved in a fire is described. The formation of dense smoke or flammable vapor clouds, and the possibility of polymerization and explosions is stated. Unusual difficulty in extinguishing the fire is also noted.

6.7 Ignition Temperature – This is the minimum temperature at which the material will ignite without a spark or flame being present. Along with the values in 6.1 and 6.2 above, it gives an indication of the relative flammability of the chemical. It is sometimes called the "autoignition temperature." The method of measurement is given in ASTM D-2155.

6.8 Electrical Hazard – The ease with which the chemical is ignited by electrical equipment is indicated by the *Group* and *Class* assignment made in "Fire Codes," Vol. 5, National Fire Protection Association, Boston, Mass., 1972, pp. 70-289. This information is available for relatively few chemicals, so an absence of data does not necessarily mean that the substance is not hazardous in the presence of electrical equipment.

6.9 Burning Rate – The value is the rate (in millimeters per minute) at which the depth of a pool of liquid decreases as the liquid burns. Details of measurement are given by D.S. Burgess, A. Strasser, and J. Grumer, "Diffusive Burning of Liquid Fuels in Open Trays," Fire Research Abstracts and Reviews, 3, 177 (1961).

7. CHEMICAL REACTIVITY

7.1 Reactivity with Water – The term "No reaction" means that no hazard results when the chemical reacts or mixes with water. Where a hazard does result, it is described.

7.2 Reactivity with Common Materials – This is limited to hazardous reactions with fuels and with common materials of construction such as metal, wood, plastics, cement, and glass. The nature of the hazard, such as severe corrosion or formation of a flammable gas, is described.

7.3 Stability During Transport – The term "Stable" means that the chemical will not decompose in a hazardous manner under the conditions of temperature, pressure, and mechanical shock that are normally encountered during shipment; the term does *not* apply to fire situations. Where there is a possibility of hazardous decomposition, an indication of the conditions and the nature of the hazard is given.

7.4 Neutralizing Agents for Acids and Caustics – In all cases involving accidental discharge, dilution with water may be followed by use of the agent specified, particularly if the material cannot be flushed away; the agent specified need not necessarily be used. More detailed information for this kind of response is given in the Response Methods Handbook, CG-446-4.

7.5 Polymerization – A few chemicals can undergo rapid polymerization to form sticky, resinous materials, with the liberation of much heat. The containers may explode. For these chemicals the conditions under which the reaction can occur are given. See Section 13.16 for quantitative data.

7.6 Inhibitor of Polymerization – The chemical names and concentrations of inhibitors added by the manufacturer to prevent polymerization are given.

8. WATER POLLUTION

8.1 Aquatic Toxicity – The form of data presentation used by the Environmental Protection Agency's "Oil and Hazardous Material-Technical Assistance Data System (OHM-TADS)" is used here. Reading from left to right and separated by slashes (/) are the following data:

- Concentration in parts per million by weight (or milligrams per liter) at which the chemical was tested;

- Time of exposure in hours;

- Name of the aquatic species studied;

- Effect observed; LC_{50} means that approximately 50% of the fish will die under the conditions of concentration and time given. TL_m (Median Tolerance Limit) means that approximately 50% of the fish will show abnormal behavior (including death) under the conditions of concentration and time given; the term EC_{50} (Effective Concentration$_{50}$) is used sometimes instead of TL_m;

- The kind of water used in the test (fresh or salt).

Some chemicals have been tested with many species of fish. Where the data were available, the data sheet cites one illustrative test in fresh water and one in salt water.

8.2 Waterfowl Toxicity –Very little information is available. In a few cases there is entered the LD_{50} value, which indicates the dose (in milligrams per kilogram of body weight) that is lethal to about half the waterfowl tested.

8.3 Biological Oxygen Demand (BOD) – Also called "biochemical oxygen demand," this is a standard way of describing how much oxygen dissolved in water is consumed by biological oxidation of the chemical during the stated period of time. The unit *lb/lb* indicates the pounds of oxygen consumed by each pound of chemical during the time stated. When given in *percent,* the values indicate the pounds of oxygen consumed by each 100 pounds of chemical during the time stated. If the percentage is followed by "(theor.)", it indicates the pounds of oxygen theoretically required to completely oxidize 100 pounds of the chemical.

8.4 Food Chain Concentration Potential – If the chemical is consumed by fish, marine plants, waterfowl, etc., that are in turn eaten by other species, the substance may accumulate and ultimately be consumed by humans. Where this occurs, an indication of the potential hazard and its significance is given.

9. SELECTED MANUFACTURERS

Three manufacturers are named wherever possible. When production data for the chemical were available, the manufacturers were selected from among the major producers. The "1972 Directory of Chemical Producers, United States of

America" (Chemical Information Services, Stanford Research Institute, Menlo Park, California) and "Buyers Guide Issue," *Chemical Week,* 111, No. 7, Part Two (October 25, 1972) were the sources used.

10. SHIPPING INFORMATION

10.1 Grades or Purity – The grades USP (United States Pharmacopoeia) and CP (chemically pure) are quite pure. Where "Technical" or "Commercial" grades are given, the percent by weight of the pure chemical present is usually indicated. In a few cases the identity of the major impurities is given. If the properties of the less pure grades differ significantly from those of the pure substance, the differences in properties are described in general terms.

10.2 Storage Temperature – The range of temperatures at which the chemical is normally shipped in bulk by water transport is given. "Ambient" means the temperature of the surroundings.

10.3 Inert Atmosphere – The terms used are "inerted," "padded," "ventilated (forced)," "ventilated (natural)," and "no requirement." They are given when found in the Code of Federal Regulations, Title 46, beginning in Part 151.05.

10.4 Venting – The terms used are "open," "pressure-vacuum," and "safety relief" (same source as 10.3 above).

11. HAZARD ASSESSMENT CODE

The code designates the assessment calculation route to be used in the Hazard Assessment Handbook when evaluating the hazard.

12. HAZARD CLASSIFICATIONS

12.1 Code of Federal Regulations – This is the hazard class specified in the Code of Federal Regulations, Title 49, Part 172, December 31, 1976. Chemicals not specifically listed therein have been classified as "Flammable" if their flash point (closed cup) is below 100°F.

12.2 NAS Hazard Rating for Bulk Water Transportation – The indicated ratings are given in "Evaluation of the Hazard of Bulk Water Transportation of Industrial Chemicals, A Tentative Guide," National Academy of Sciences, Committee on Hazardous Materials, Washington, D.C., 1972. An outline of the rating system is given in Table 1.

TABLE 1

EXPLANATION OF NAS HAZARD RATINGS

		Health		
Rating	Fire	Vapor Irritant	Liquid or Solid Irritant	Poisons
0	No hazard	No effect	No effect	No effect
1	Flash point (C.C.) above 140°F	Slight effect	Causes skin smarting	Slightly toxic
2	Flash point (C.C.) 100 to 140°F	Moderate irritation; temporary effect	First-degree burns, short exposure	Intermediate toxicity
3	Flash point (C.C.) below 100°F; boiling point above 100°F	Irritating; cannot be tolerated	Second-degree burns, few minutes' exposure	Moderately toxic
4	Flash point (C.C.) below 100°F; boiling point below 100°F	Severe effect; may do permanent injury	Second-degree and third-degree burns	Severely toxic

	Water Pollution		
Rating	Human Toxicity	Aquatic Toxicity	Aesthetic Effect
0	Nontoxic; $LD_{50} > 15$ g/kg	Acute threshold limits above 10,000 ppm	No significant pollution; gases and odorless liquids
1	Practically nontoxic; LD_{50} 5 to 15 g/kg	Threshold limits 1,000 to 10,000 ppm	Mild-odored light oils and soluble chemicals
2	Slightly toxic; LD_{50} 0.5 to 5 g/kg	Threshold limits 100 to 1,000 ppm	Mild-odored, colorless, water-insoluble oils; boiling point 150-450°F
3	Moderately toxic; LD_{50} 50 to 500 mg/kg	Threshold limits 1 to 100 ppm	Light-colored high-boiling oils; odorous water-soluble compounds
4	Toxic; $LD_{50} < 50$ mg/kg	Threshold limits below 1 ppm	Heavy oils, colored or bad odors

TABLE 1 (Continued)

Rating	Reactivity		
	Other Chemicals	Water	Self-reaction
0	Inactive; may be attacked by materials rated 4	No reaction	No reaction
1	React only with materials rated 4	Mild reaction; unlikely to be hazardous	Mild self-reaction under some conditions
2	React with materials rated 3 or 4	Moderate reaction	Will undergo self-reaction if contaminated; do not require stabilizer
3	React with each other and with materials rated 2 or 4	More vigorous reaction; may be hazardous	Vigorous self-reaction; require stabilizer
4	React with each other and materials rated 0-3	Vigorous reaction; likely to be hazardous	Self-oxidizing chemical; capable of explosion or detonation

12.3 NFPA Hazard Classifications – The indicated ratings are given in "Fire Protection Guide on Hazardous Materials," Code 704M, 4th ed., National Fire Protection Association, Boston, Mass., 1972. Changes in the rating that are described in "1973 NFPA Technical Committee Reports, Volume A" are included. The classifications are defined in Table 2 below. The symbol used in conjunction with these ratings is illustrated in Section 4.2.

TABLE 2

EXPLANATION OF NFPA HAZARD CLASSIFICATIONS

Classification Health Hazard (blue)	Definition
4	Materials which on very short exposure could cause death or major residual injury even though prompt medical treatment were given.
3	Materials which on short exposure could cause serious temporary or residual injury even though prompt medical treatment were given.
2	Materials which on intense or continued exposure could cause temporary incapacitation or possible residual injury unless prompt medical treatment is given.
1	Materials which on exposure would cause irritation but only minor residual injury even if no treatment is given.
0	Materials which on exposure under fire conditions would offer no hazard beyond that of ordinary combustible material.
Flammability (red)	
4	Materials which will rapidly or completely vaporize at atmospheric pressure and normal ambient temperature, or which are readily dispersed in air and which will burn readily.
3	Liquids and solids that can be ignited under almost all ambient temperature conditions.
2	Materials that must be moderately heated or exposed to relatively high ambient temperatures before ignition can occur.

TABLE 2 (Continued)

Classification	Definition
Flammability (red) cont'd	
1	Materials that must be preheated before ignition can occur.
0	Materials that will not burn.
Reactivity (yellow)	
4	Materials which in themselves are readily capable of detonation or of explosive decomposition or reaction at normal temperatures and pressures.
3	Materials which in themselves are capable of detonation or explosive reaction but require a strong initiating source or which must be heated under confinement before initiation or which react explosively with water.
2	Materials which in themselves are normally unstable and readily undergo violent chemical change but do not detonate. Also materials which may react violently with water or which may form potentially explosive mixtures with water.
1	Materials which in themselves are normally stable, but which can become unstable at elevated temperatures and pressures or which may react with water with some release of energy but not violently.
0	Materials which in themselves are normally stable, even under fire exposure conditions, and which are not reactive with water.
Other (white)	
~~W~~	Materials which react so violently with water that a possible hazard results when they come in contact with water, as in a fire situation. Similar to Reactivity Classification 2.
Oxy	Oxidizing material; any solid or liquid that readily yields oxygen or other oxidizing gas, or that readily reacts to oxidize combustible materials.

13. PHYSICAL AND CHEMICAL PROPERTIES

13.1 Physical State at 15°C and 1 atm – The statement indicates whether the chemical is a solid, liquid, or gas after it has reached equilibrium with its surroundings at "ordinary" conditions of temperature and pressure.

13.2 Molecular Weight – The value given is the weight of a molecule of the chemical relative to a value of 12 for one atom of carbon.

The molecular weight is useful in converting from molecular units to weight units, and in calculating the pressure, volume and temperature relationships for gaseous materials. The ratio of the densities of any two gases is approximately equal to the ratio of their molecular weights (see 13.10).

The molecular weights of mixtures can be calculated if both the identity and quantity of each component of the mixture are known. Because the composition of mixtures described in this manual is not known exactly, or because it varies from one shipment to another, no molecular weights are given for such mixtures.

13.3 Boiling Point at 1 atm – The value is the temperature of a liquid when its vapor pressure is 1 atm. For example, when water is heated to 100°C (212°F) its vapor pressure rises to 1 atm and the liquid boils.

The boiling point at 1 atm indicates whether a liquid will boil and become a gas at any particular temperature and sea-level atmospheric pressure.

13.4 Freezing Point – The freezing point is the temperature at which a liquid changes to a solid. For example, liquid water changes to solid ice at 0°C (32°F). Some liquids solidify very slowly even when cooled below their freezing point. When liquids are not pure (for example, salt water) their freezing points are lowered slightly.

13.5 Critical Temperature – The maximum temperature at which a liquid can exist, no matter what the pressure on it, is called the critical temperature. For example, the critical temperature of water is 372°C (705°F). The value can be used to estimate many properties whose values are not immediately available.

13.6 Critical Pressure – The vapor pressure of a chemical at the critical temperature (see 13.5) is called the critical pressure. For example, the critical pressure of water is 218 atm. Values are given in pounds per square inch absolute, atmospheres, and meganewtons per square meter. The value can be used for estimating many property values that are not immediately available.

13.7 Specific Gravity – The specific gravity of a chemical is the ratio of the weight of the solid or liquid to the weight of an equal volume of water at 4°C (or at some other specified temperature).

If the specific gravity is less than 1.0 (or less than 1.03 in seawater) the chemical will float; if higher, it will sink. Where the change in the value with temperature is important, more data are found in 13.17.

13.8 Liquid Surface Tension – This property is a measure of the tensile force at the surface of a liquid that tends to shape liquid fragments into spherical drops. Values are expressed in dynes per centimeter and newtons per meter. Liquids with high surface tensions show less tendency to spread. Water has a surface tension of about 73 dynes/cm; seawater has a slightly higher value.

13.9 Liquid-Water Interfacial Tension – The value is a measure of the tensile forces existing at the interface between a liquid and water. Approximately, it is the difference between the individual surface tension of the liquid and that of water. Low values of the interfacial tension indicate that the chemical spreads readily on a water surface. The units are the same as in 13.8.

13.10 Vapor (Gas) Specific Gravity – The value is the ratio of the weight of vapor to the weight of an equal volume of dry air at the same conditions of temperature and pressure. Buoyant vapors have a vapor specific gravity less than one. The value may be approximated by the ratio M/29, where M is the molecular weight of the chemical (see 13.2).

In some cases the vapor may be at a temperature different from that of the surrounding air. For example, the vapor from a container of boiling methane at -172°F sinks in warm air, even though the vapor specific gravity of methane at 60°F is about 0.6.

For the effect of temperature on vapor density, see 13.23.

13.11 Ratio of Specific Heats of Vapor (Gas) – This property is the ratio of the specific heat at constant pressure (C_p) to the specific heat at constant volume (C_v); its value is always greater than one. In most cases it was calculated by use of the expression $\frac{C_p}{C_v} = \frac{C_p}{(C_p - R)}$

where R is the Universal Gas Constant.

The ratio varies slightly with temperature; the value given is at 20°C (68°F). The ratio is often of value in estimating temperature changes when gases are compressed or expanded. Higher values of the ratio lead to larger temperature changes for a given pressure change.

13.12 Latent Heat of Vaporization – The value is the heat that must be added to the specified weight of a liquid before it can change to vapor (gas). It varies with temperature; the value given is that at the boiling point at 1 atm (see 13.3). The units used are Btu per pound, calories per gram, and joules per kilogram.

No value is given for chemicals with very high boiling points at 1 atm, because such substances are considered essentially nonvolatile.

13.13 Heat of Combustion – The value is the amount of heat liberated when the specified weight is burned in oxygen at 25°C. The products of combustion, including water, are assumed to remain as gases; the value given is usually referred to as the "lower heat value." The negative sign before the value indicates that heat is given off when the chemical burns. Units are the same as in 13.12.

13.14 Heat of Decomposition – The value is the amount of heat liberated when the specified weight decomposes to more stable substances. The value is given for very few chemicals, because most are stable and do not decompose under the conditions of temperature and pressure encountered during shipment. The negative sign before the value simply indicates that heat is given off during the decomposition. The value does *not* include heat given off when the chemical burns. Units are the same as in 13.13.

13.15 Heat of Solution – The value represents the heat liberated when the specified weight of chemical is dissolved in a relatively large amount of water at 25°C ("infinite dilution"). A negative sign before the value indicates that heat is given off, causing a rise in temperature. (A few chemicals absorb heat when they dissolve, causing the temperature to fall.) Units are the same as in 13.12.

In those few cases where the chemical reacts with water and the reaction products dissolve, the heat given off during the reaction is included in the heat of solution.

13.16 Heat of Polymerization – The value is the heat liberated when the specified weight of the compound (usually called the monomer) polymerizes to form the polymer. In some cases the heat liberated is so great that the temperature rises significantly, and the material may burst its container or

catch fire. The negative sign before the value indicates that heat is given off during the polymerization reaction. Units are the same as in 13.12.

Items 13.17 through 13.24 consist of graphs. The temperature range over which each graph is reliable is indicated by the length of the curve.

13.17 Saturated Liquid Density – The value is the weight (in pounds) of one cubic foot of liquid that is in equilibrium with its vapor. Liquid densities decrease slightly with an increase in temperature; where literature data or reliable estimation methods were applicable, a graph shows this effect.

13.18 Liquid Heat Capacity – The value is the heat (in Btu) required to raise the temperature of one pound of the liquid one degree Fahrenheit at constant pressure. For example, it requires almost 1 Btu to raise the temperature of 1 pound of water from 68°F to 69°F. The value is useful in calculating the increase in temperature of a liquid when it is heated, as in a fire. The value increases slightly with an increase in temperature; the graph shows this effect.

13.19 Liquid Thermal Conductivity – The value is a measure of the ability of a liquid to conduct heat. It represents the number of Btu per hour that pass through an area of liquid one square foot in cross-section when the temperature gradient is 1°F per inch of depth. Higher values indicate that the liquid conducts heat more readily.

Liquid thermal conductivities decrease slightly with an increase in temperature. Where applicable, the graph shows this effect.

A basic law of heat conduction states that the energy flow per unit area per unit time is proportional to the gradient in temperature. The constant of proportionality is the liquid thermal conductivity.

13.20 Liquid Viscosity – The value (in centipoise) is a measure of the ability of a liquid to flow through a pipe or a hole; higher values indicate that the liquid flows less readily under a fixed pressure head. For example, heavy oils have higher viscosities (i.e., are more viscous) than gasoline.

Liquid viscosities decrease rapidly with an increase in temperature. In some cases a graph is given to show the effect. In other cases only a single data point was found in the literature.

A basic law of fluid mechanics states that the force per unit area needed to shear a fluid is proportional to the velocity gradient. The constant of proportionality is the viscosity.

13.21 Solubility in Water – The value represents the pounds of a chemical that will dissolve in 100 pounds of pure water. Solubility usually increases when the temperature increases; where the change has been measured, a graph is given to show the effect. The following terms are used when numerical data are either unavailable or not applicable:

The term "Miscible" means that the chemical mixes with water in all proportions. The term "Reacts" means that the substance reacts chemically with water; thus, its solubility has no real meaning. "Insoluble" usually means that one pound of the chemical does not dissolve entirely in 100 pounds of water. (Weak solutions of "Insoluble" materials may still be hazardous to humans, fish, and waterfowl, however.)

13.22 Saturated Vapor Pressure – The value is the pressure (in pounds per square inch absolute) of the vapor in equilibrium with the liquid form at the specified temperature. Vapor pressure values can be used to estimate the relative volatility of chemicals at a given temperature, and to calculate the pressure over a liquid that is shipped in a closed container.

The vapor pressure increases as temperature increases; a graph is given to show this effect. Note that the vapor pressure scale is logarithmic.

13.23 Saturated Vapor Density – The value is the weight (in pounds) of one cubic foot of vapor that is in equilibrium with the liquid form.

If it is assumed that the vapor behaves as an ideal gas, the relation pM/RT holds, where p is the vapor pressure, M is the molecular weight, R is the gas constant, and T is the temperature (in absolute units).

Since the vapor pressure varies with temperature (see 13.22), the saturated vapor density also varies with temperature, as shown on the graph. Note that the density scale is logarithmic.

13.24 Ideal Gas Heat Capacity – The value is the number of Btu needed to raise the temperature of one pound of gas by 1° Fahrenheit. The property can be used only when the pressure of the gas is less than about 10 atm. The ideal gas heat capacity is not a function of pressure (below about 10 atm), but it does increase with temperature, and a graph is given to show the effect.

4. OTHER INFORMATION SYSTEMS

4.1 CHEMICAL TRANSPORTATION EMERGENCY CENTER (CHEMTREC)

The Manufacturing Chemists Association operates CHEMTREC 24 hours a day. By calling the appropriate toll-free number listed below, one can consult experts on chemicals and spill response.

Continental United States (except Alaska & District of Columbia)	800-424-9300
Alaska, Hawaii, and District of Columbia	202-483-7616

4.2 NATIONAL FIRE PROTECTION ASSOCIATION (NFPA)

The NFPA's "Recommended System for the Identification of the Fire Hazards of Materials" (NFPA No. 704M) provides basic warning information to fire fighters in industrial plants and storage facilities. This system uses a diamond-shaped warning symbol (Figure 4.1). The top, left, and right boxes refer to flammability, health, and reactivity hazards respectively and contain a number from 0 to 4. The exact meaning of each number is explained in Section 3 (¶ 12.3) of this manual, and the applicable numbers for each chemical are listed in Section 11 under "NFPA Hazard Classifications." The bottom box is used for special hazards; the most common of these is a warning against the use of water. indicated by the symbol W.

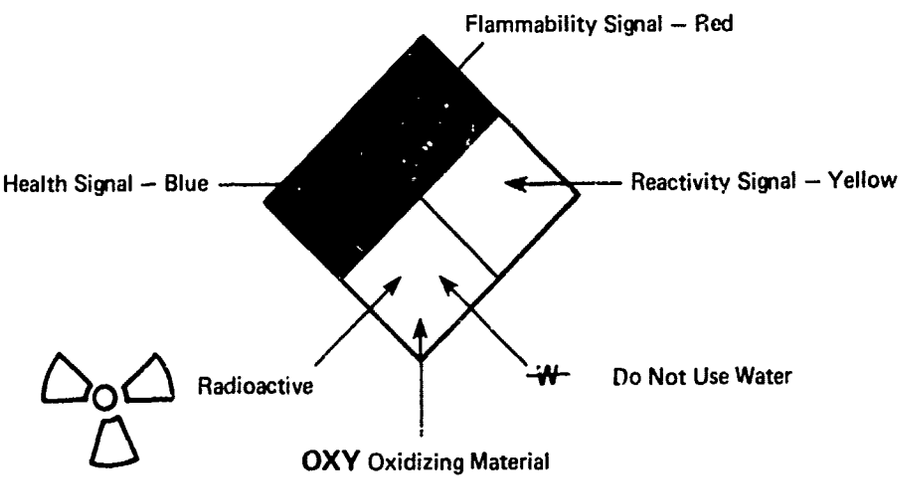

FIGURE 4.1 NFPA 704M SYMBOL

4.3 INTERNATIONAL MARITIME CONSULTATIVE ORGANIZATION (IMCO)

Foreign vessels using U.S. waterways generally utilize, in addition to U.S. requirements, an international labeling system developed by IMCO. This system consists of 15 diamond-shaped labels (Figure 4.2). Each identifies a particular hazard by a descriptive picture, a word, and a distinctive color.

The number at the bottom of each diamond identifies the class to which IMCO has assigned the chemical and is the same as the first digit in the IMCO/UN numerical designation, one of the items given under "Chemical Designations" in Section 11 of this manual.

4.4 DEPARTMENT OF TRANSPORTATION (DOT)

At the time this manual was in preparation, a Hazard Information (HI) System had been proposed by the Department of Transportation – Hazardous Materials Regulation Board. It uses IMCO-type warning labels with a number between 1 and 89 added at the bottom of the diamond. This number refers to the section number in a guide containing general hazard and response information for 89 categories of chemicals. The information is similar to that provided in this manual, except that it does not consider water pollution. At the time of publication of this manual, the HI System had not yet been adopted.

4.5 NATIONAL ACADEMY OF SCIENCES (NAS)

A booklet entitled "Evaluation of the Hazard of Bulk Water Transportation of Industrial Chemicals – A Tentative Guide" was prepared for the USCG by the Committee on Hazardous Materials of the National Academy of Sciences, National Research Council. It rates the fire, health, water pollution, and radioactivity hazards of over 200 chemicals on a scale of 0 to 4; the meaning of each number is explained in Section 3 of this manual, and the applicable numbers for each chemical are listed in Section 11 under "NAS Hazard Rating for Bulk Water Transportation." No response guidance is provided.

4.6 OHM-TADS (EPA)

The Oil and Hazardous Materials Technical Assistance Data System (OHM-TADS) has been developed by the Environmental Protection Agency (EPA) to provide information on physical and chemical properties, hazards, pollution characteristics, and shipping information for over 800 hazardous materials. OHM-TADS consists of a computerized data base which can be accessed from terminals at the 10 EPA Regional Offices and from EPA Headquarters in Washington, D.C. The System can provide either information on specifically requested properties for a material, or it can print all the information in its files for that material.

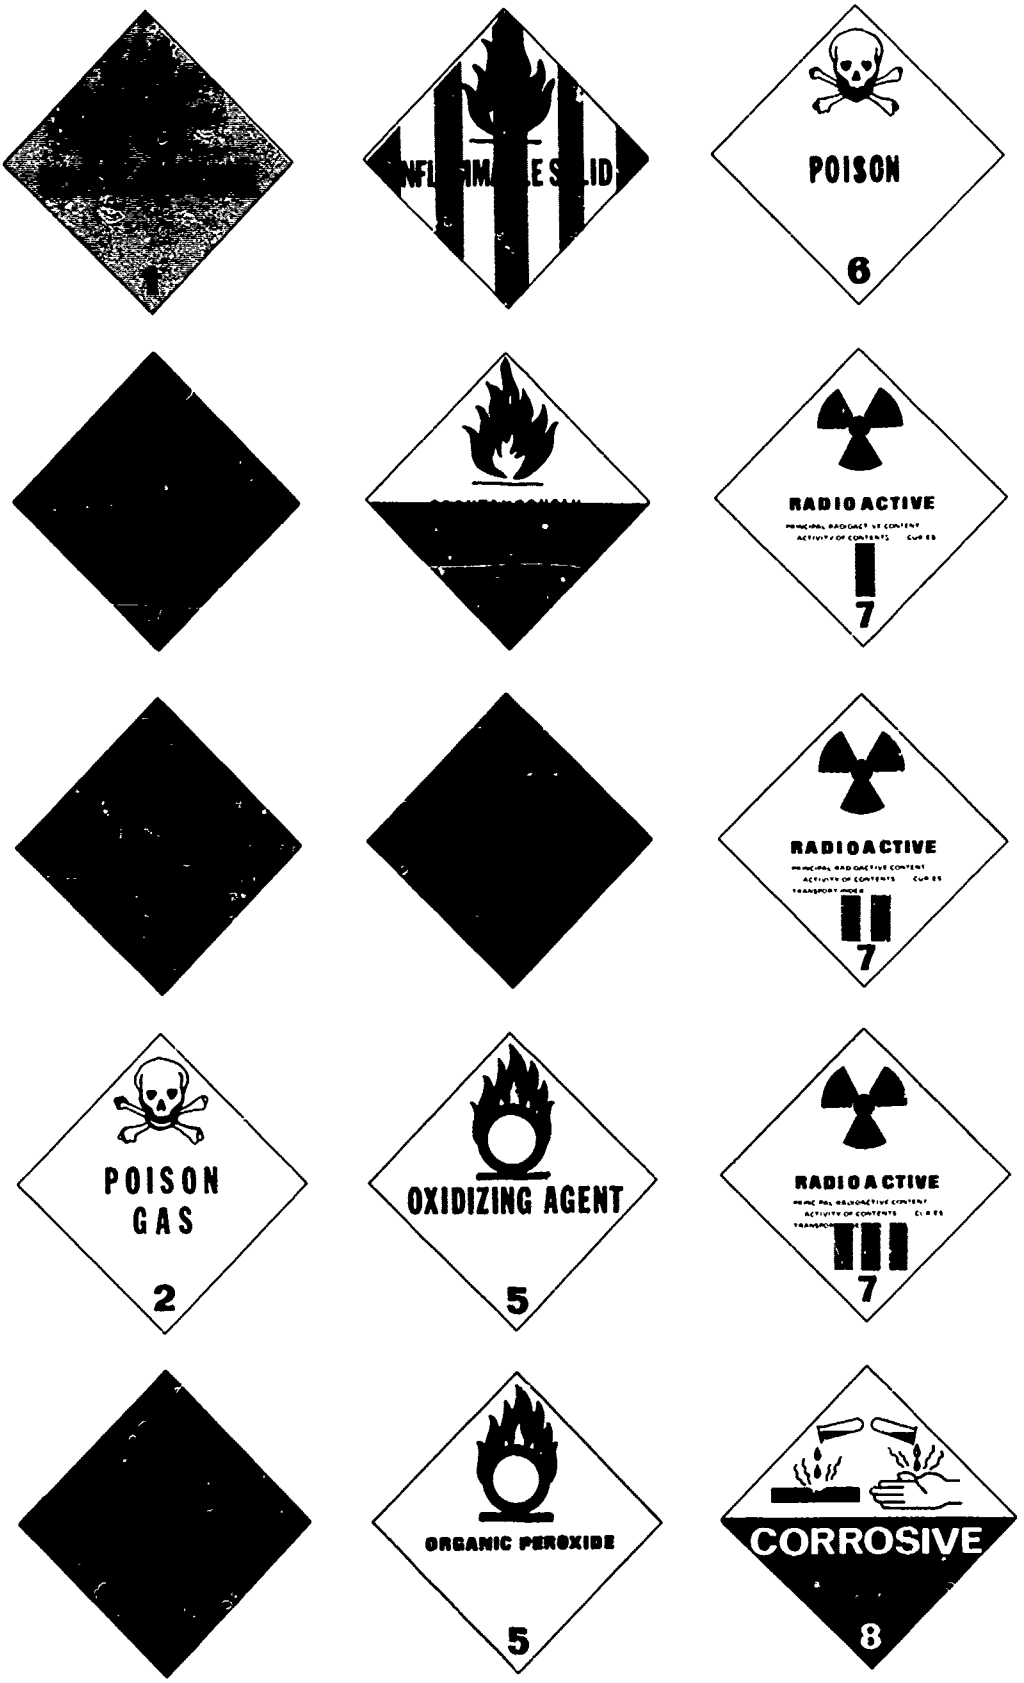

FIGURE 4-2
IMCO SHIPPING LABELS

Some of the same information appears in both this manual and OHM-TADS, but each contains some information not found in the other.

4.7 POISON CONTROL CENTERS

Throughout the country, local Poison Control Centers are maintained at hospitals. These Centers can provide information on the chemical composition, appearance, and toxicity of common poisonous materials as well as information on the symptoms of exposure and on the emergency procedures recommended in the event of exposure. The information available at these centers deals mainly with common household materials.

Poison Control Centers are coordinated through the Department of Health, Education and Welfare in Washington, D.C., but information should be requested through the local centers.

The telephone number of the local Poison Control Center can be found in a local telephone directory or in the Regional Contingency Plan.

6. SELECTED PROPERTIES OF FRESH WATER, SEA WATER, ICE, AND AIR

The following properties are useful for engineering calculations described in the Hazard Assessment Handbook. The values for *fresh water* are those recorded for pure water. The values for the water of lakes and streams differ somewhat from those of pure water, but since no "standard" fresh water has ever been defined, the values for pure water must be used.

A "standard" *sea water* has been defined as one containing 35 grams of salts per kilogram of solution. The values for the water of tidal estuaries differ somewhat from those of "standard" sea water because the water has a salinity somewhere between those of fresh and sea waters.

The value for the density of *air* was derived from the ideal gas law: the air is assumed to be dry and at 1 atmosphere pressure.

7. GUIDE TO COMPATIBILITY OF CHEMICALS

The Guide is based in part upon information provided to the Coast Guard by the National Academy of Sciences – U.S. Coast Guard Advisory Committee on Hazardous Materials and represents the latest information available to the Coast Guard on chemical compatibility.

The accidental mixing of one chemical cargo with another can in some cases be expected to result in a vigorous and hazardous chemical reaction. The generation of toxic gases, the heating, overflow, and rupture of cargo tanks, and fire and explosion are possible consequences of such reactions.

The purpose of the Compatibility Chart is to show chemical combinations believed to be dangerously reactive in the case of accidental mixing. It should be recognized, however, that the Chart provides a broad grouping of chemicals with an extensive variety of possible binary combinations. Although one group, generally speaking, can be considered dangerously reactive with another group where an "X" appears on the Chart, there may exist between the groups some combinations which would not dangerously react. The Chart should therefore not be used as an infallible guide. It is offered as an aid in the safe loading of bulk chemical cargoes, with the recommendation that proper safeguards be taken to avoid accidental mixing of binary mixtures for which an "X" appears on the Chart. Proper safeguards would include consideration of such factors as avoidance of the use of common cargo and vent lines and carriage in adjacent tanks having a common bulkhead.

The following procedure explains how the Guide should be used in determining compatibility information:

(1) Determine the reactivity group of a particular product by referring to the alphabetical list in Table 7.1.

(2) Enter the Chart with the reactivity group. Proceed across the page. An "X" indicates a reactivity group that forms an unsafe combination with the product in question.

For example, crotonaldehyde is listed in Table 7.1 as belonging in Group 19 (Aldehydes). The Chart shows that chemicals in this group should be segregated from sulfuric and nitric acids, caustics, ammonia, and all types of amines (aliphatic, alkanol, and aromatic). According to note A, crotonaldehyde is also incompatible with non-oxidizing mineral acids.

It is recognized there are wide variations in the reaction rates of individual chemicals within the broad groupings shown reactive by the Compatibility Chart. Some individual materials in one group will react violently with some of the materials in another group and cause great hazard; others will react slowly, or not at all. Accordingly, a useful addition to the Guide would be the identification of specific binary combinations which are found *not* to be dangerously reactive, even though an "X" appears on the chart for those two chemicals. A few such combinations are listed in Table 7.3; other safe combinations will be listed in subsequent revisions.

NOTE. . COMPATIBILITY CHART: REACTIVITY DIFFERENCE (DEVIATIONS) WITHIN CHEMICAL GROUPS

A Acrolein (19), Crotonaldehyde (19), and 2-Ethyl-3-propyl acrolein (19) are not compatible with Group 1, Non-Oxidizing Mineral Acids.

B Isophorone (18), and Mesityl Oxide (18) are not compatible with Group 8, Alkanolamines.

C Acrylic Acid (4) is not compatible with Group 9, Aromatic Amines.

D Allyl Alcohol (15) is not compatible with Group 12, Isocyanates.

E Furfuryl Alcohol (20) is not compatible with Group 1, Non-oxidizing Mineral Acids.

F Furfuryl Alcohol (20) is not compatible with Group 4, Organic Acids.

G Dichloroethyl Ether (36) is not compatible with Group 2, Sulfuric Acid.

H Trichloroethylene (36) is not compatible with Group 5, Caustics.

I Ethylenediamine (7) is not compatible with Ethylene Dichloride (36).

Diethylene Glycol
Diethylene Glycol Monobutyl Ether
Diethylene Glycol Monoethyl Ether
Diethylene Glycol Monomethyl Ether
Dipropylene Glycol
Ethoxy Triglycol
Ethylene Glycol Monobutyl Ether
Ethylene Glycol Monethyl Ether
Ethylene Glycol Monomethyl Ether
Nonylphenol, Ethoxylated
Polyethylene Glycols
Polypropylene Glycols
Polypropylene Glycol Methyl Ether
Soybean Oil, Epoxidized
Tetraethylene Glycol
Triethylene Glycol
Tripropylene Glycol

41. Ethers

Butyl Ether
1,4-Dioxane
Ethyl Ether
Methyl Formal (Dimethyl Formal)
Propyl Ether
Tetrahydrofuran

42. Nitrocompounds

(mono-) Nitrobenzene
1- or 2-Nitropropane
Nitrotoluene

43. Miscellaneous Water Solutions

Ammonium Nitrate, Urea, Water Solutions (not containing Ammonia)
Corn Syrup
Dextrose Solution
Latex Solutions
Tetrasodium Salt of EDTA Solution

TABLE 7.3

COMBINATIONS NOT DANGEROUSLY REACTIVE
(as tested in accordance with procedure outlined in NVC 5-70)

Acetone (8)	Caustic soda solution (3)
Acrylonitrile (inhibited) (14)	Methyl alcohol (6)
Acrylonitrile (inhibited) (14)	Niax polyol (6)*
Acrylonitrile (inhibited) (14)	Polyol 3030 (6)*
Acrylonitrile (inhibited) (14)	Propylene glycol (6)
Acrylonitrile (inhibited) (14)	Voranol CP 4100 (6)*
Benzene (10)	Phosphoric acid (1)
Butyl acetate (n-, iso-*) (13)	Caustic soda solution (3)
Butyl acrylate (inhibited) (14)	Methyl alcohol (6)
Butyl acrylate (inhibited) (14)	Voranol CP 4100 (6)*
n-Butyl alcohol (6)	Styrene (inhibited) (14)
n-Butyl alcohol (6)	Vinyl acetate (inhibited) (14)
Carbon tetrachloride (5)	Caustic soda solution (3)
Caustic soda solution (3)	Acetone (8)
Caustic soda solution (3)	Butyl acetate (iso-*, n-) (13)
Caustic soda solution (3)	Carbon tetrachloride (5)
Caustic soda solution (3)	Oils, edible: coconut (13)*
Caustic soda solution (3)	Oils, edible: cottonseed (13)
Caustic soda solution (3)	Dichloropropane (5)
Caustic soda solution (3)	Dichloropropene (5)
Caustic soda solution (3)	Diisodecyl phthalate (13)*
Caustic soda solution (3)	Di-normal-alkyl phthalate (13)*
Caustic soda solution (3)	Dioctyl phthalate (13)
Caustic soda solution (3)	Ethyl acetate (13)
Caustic soda solution (3)	Ethylene dichloride (5)
Caustic soda solution (3)	Oils, edible: fish (13)
Caustic soda solution (3)	Grease (inedible, yellow) (13)*
Caustic soda solution (3)	Lard (edible) (13)*
Caustic soda solution (3)	Linseed oil (raw) (13)*
Caustic soda solution (3)	Methylene chloride (5)*
Caustic soda solution (3)	Methyl ethyl ketone (8)
Caustic soda solution (3)	Methyl isobutyl ketone (8)
Caustic soda solution (3)	Palm oil (13)*
Caustic soda solution (3)	Perchloroethylene (5)*
Caustic soda solution (3)	Propyl acetate (iso-*, n-) (13)
Caustic soda solution (3)	Oils, edible: soya bean (13)
Caustic soda solution (3)	Oils, miscellaneous: sperm
Caustic soda solution (3)	Styrene (inhibited) (14)
Caustic soda solution (3)	Tallow (13)
Caustic soda solution (3)	Trichloroethane (5)
Dichloropropane (5)	Caustic soda solution (3)
Dichloropropene (5)	Caustic soda solution (3)
Diisodecyl phthalate (13)*	Caustic soda solution (3)
Di-normal-alkyl phthalate (13)*	Caustic soda solution (3)
Dimethylformamide (4)	Furfural (7)
Dimethylformamide (4)	Phenol (15)
Dioctyl phthalate (13)	Caustic soda solution (3)
Dioctyl phthalate (13)	Ethylenediamine (4)
Diphenylmethanediisocyanate	Ethylene dichloride (5)
Ethyl acetate (13)	Caustic soda solution (3)
Ethyl acrylate (inhibited) (14)	Ethylene glycol (6)
Ethyl acrylate (inhibited) (14)	2-Ethyl hexanol (6)
Ethyl acrylate (inhibited) (14)	Voranol CP 4100 (6)*
Ethyl alcohol (6)	Methyl methacrylate (inhibited) (14)
Ethylenediamine (4)	Dioctyl phthalate (13)
Ethylene dichloride (5)	Caustic soda solution (3)
Ethylene dichloride (5)	Diphenylmethanediisocyanate
Ethylene glycol (6)	Ethyl acrylate (inhibited) (14)
Ethylene glycol (6)	Styrene (inhibited) (14)
Ethylene glycol (6)	Vinyl acetate (inhibited) (14)

*Not presently included in CHRIS.

TABLE 7.3

COMBINATIONS NOT DANGEROUSLY REACTIVE (Continued)

2-Ethyl hexanol (6)	Ethyl acrylate (inhibited) (14)
2-Ethyl hexanol (6)	Styrene (inhibited) (14)
Furfural (7)	Dimethylformamide (4)
Furfural (7)	Isopropyl alcohol (6)
Furfural (7)	Methyl ethyl ketone (8)
Grease (inedible, yellow) (13)*	Caustic soda solution (3)
Isobutyl alcohol (6)	Styrene (inhibited) (14)
Isobutyl alcohol (6)	Vinyl acetate (inhibited) (14)
Isodecyl alcohol (6)	Vinyl acetate (inhibited) (14)
Isooctyl alcohol (6)	Methyl methacrylate (inhibited) (14)
Isooctyl alcohol (6)	Styrene (inhibited) (14)
Isooctyl alcohol (6)	Vinyl acetate (inhibited) (14)
Isopropyl alcohol (6)	Furfural (7)
Isopropyl alcohol (6)	Styrene (inhibited) (14)
Isopropyl alcohol (6)	Vinyl acetate (inhibited) (14)
Lard (edible) (13)*	Caustic soda solution (3)
Linseed oil (raw) (13)*	Caustic soda solution (3)
Methyl alcohol (6)	Acrylonitrile (inhibited) (14)
Methyl alcohol (6)	Butyl acrylate (inhibited) (14)
Methyl alcohol (6)	Styrene (inhibited) (14)
Methyl alcohol (6)	Vinyl acetate (inhibited) (14)
Methylene chloride (5)*	Caustic soda solution (3)
Methyl ethyl ketone (8)	Caustic soda solution (3)
Methyl ethyl ketone (8)	Furfural (7)
Methyl isobutyl ketone (8)	Caustic soda solution (3)
Methyl methacrylate (inhibited) (14)	Ethyl alcohol (6)
Methyl methacrylate (inhibited) (14)	Isooctyl alcohol (6)
Niax polyol (6)*	Acrylonitrile (inhibited) (14)
Niax polyol (6)*	Vinyl acetate (inhibited) (14)
Oils, edible: coconut (13)*	Caustic soda solution (3)
Oils, edible: cottonseed (13)	Caustic soda solution (3)
Oils, edible: fish (13)	Caustic soda solution (3)
Oils, edible: soya bean (13)	Caustic soda solution (3)
Oils, miscellaneous: sperm	Caustic soda solution (3)
Palm oil (13)*	Caustic soda solution (3)
Perchloroethylene (5)*	Caustic soda solution (3)
Phenol (15)	Dimethyl formamide (4)
Phosphoric acid (1)	Benzene (10)
Phosphoric acid (1)	Toluene (10)
Phosphoric acid (1)	Xylene (10)
Polyol 3030 (6)*	Acrylonitrile (inhibited) (14)
Propyl acetate (iso-*, n-) (13)	Caustic soda solution (3)
Propylene glycol (6)	Acrylonitrile (inhibited) (14)
Propylene glycol (6)	Styrene (inhibited) (14)
Styrene (inhibited) (14)	n-Butyl alcohol (6)
Styrene (inhibited) (14)	Caustic soda solution (3)
Styrene (inhibited) (14)	Ethylene glycol (6)
Styrene (inhibited) (14)	2-Ethyl hexanol (6)
Styrene (inhibited) (14)	Isobutyl alcohol (6)
Styrene (inhibited) (14)	Isooctyl alcohol (6)
Styrene (inhibited) (14)	Isopropyl alcohol (6)
Styrene (inhibited) (14)	Methyl alcohol (6)
Styrene (inhibited) (14)	Propylene glycol (6)
Styrene (inhibited) (14)	Trichloroethylene (5)
Tallow (13)	Caustic soda solution (3)
Toluene (10)	Phosphoric acid (1)
Trichloroethane (5)	Caustic soda solution (3)
Trichloroethylene (5)	Styrene (inhibited) (14)
Vinyl acetate (inhibited) (14)	n-Butyl alcohol (6)
Vinyl acetate (inhibited) (14)	Ethylene glycol (6)

*Not presently included in CHRIS.

TABLE 7.3

COMBINATIONS NOT DANGEROUSLY REACTIVE (Continued)

Vinyl acetate (inhibited) (14)	Isobutyl alcohol (6)
Vinyl acetate (inhibited) (14)	Isodecyl alcohol (6)
Vinyl acetate (inhibited) (14)	Isooctyl alcohol (6)
Vinyl acetate (inhibited) (14)	Isopropyl alcohol (6)
Vinyl acetate (inhibited) (14)	Methyl alcohol (6)
Vinyl acetate (inhibited) (14)	Niax polyol (6)*
Vinyl acetate (inhibited) (14)	Voranol CP 4100 (6)*
Voranol CP 4100 (6)*	Acrylonitrile (inhibited) (14)
Voranol CP 4100 (6)*	Butyl acrylate (inhibited) (14)
Voranol CP 4100 (6)*	Ethyl acrylate (inhibited) (14)
Voranol CP 4100 (6)*	Vinyl acetate (inhibited) (14)
Xylene (10)	Phosphoric acid (1)

Toluene 2,4-diisocyanate (TDI), diphenylmethanediisocyanate (MDI), and polymethylene polyphenyl isocyanate (PAPI)* are considered compatible with reactivity groups 9, 10, 11, 12, 18, and 21.

*Not presently included in CHRIS.

8. INDEX OF SYNONYMS

SYNONYM		COMPOUND NAME
AATREX HERBICIDE	=	ATRAZINE
ABSORBENT OIL	=	OIL: ABSORPTION
ACETALDEHYDE	=	ACETALDEHYDE
ACETIC ACID	=	ACETIC ACID
ACETIC ACID, AMMONIUM SALT	=	AMMONIUM ACETATE
ACETIC ACID, BUTYL ESTER	=	N-BUTYL ACETATE
ACETIC ACID, CUPRIC SALT	=	COPPER ACETATE
ACETIC ACID, DIMETHYLAMIDE	=	DIMETHYLACETAMIDE
ACETIC ACID, ETHYL ESTER	=	ETHYL ACETATE
ACETIC ACID, ISOBUTYL ESTER	=	ISOBUTYL ACETATE
ACETIC ACID, ISOPROPYL ESTER	=	ISOPROPYL ACETATE
ACETIC ACID, METHYL ESTER	=	METHYL ACETATE
ACETIC ACID, NICKEL (II) SALT	=	NICKEL ACETATE
ACETIC ACID, PROPYL ESTER	=	N-PROPYL ACETATE
ACETIC ACID, SEC-BUTYL ESTER	=	SEC-BUTYL ACETATE
ACETIC ACID,ZINC SALT	=	ZINC ACETATE
ACETIC ALDEHYDE	=	ACETALDEHYDE
ACETIC ANHYDRIDE	=	ACETIC ANHYDRIDE
ACETIC ESTER	=	ETHYL ACETATE
ACETIC ETHER	=	ETHYL ACETATE
ACETOACETIC ACID, ETHYL ESTER	=	ETHYL ACETOACETATE
ACETOACETIC ESTER	=	ETHYL ACETOACETATE
ACETONE	=	ACETONE
ACETONE CYANOHYDRIN	=	ACETONE CYANOHYDRIN
ACETONITRILE	=	ACETONITRILE
ACETOPHENONE	=	ACETOPHENONE
ACETYLACETONE	=	ACETYLACETONE
ACETYLBENZENE	=	ACETOPHENONE
ACETYL BROMIDE	=	ACETYL BROMIDE
ACETYL CHLORIDE	=	ACETYL CHLORIDE
ACETYLENE	=	ACETYLENE
ACETYLENE DICHLORIDE	=	1,2-DICHLOROETHYLENE
ACETYLENE TETRACHLORIDE	=	TETRACHLOROETHANE
ACETYLENOGEN	=	CALCIUM CARBIDE
ACETYL HYDROPEROXIDE	=	PERACETIC ACID
ACETYL PEROXIDE SOLUTION	=	ACETYL PEROXIDE SOLUTION
ACID AMMONIUM CARBONATE	=	AMMONIUM BICARBONATE
ACID AMMONIUM FLUORIDE	=	AMMONIUM BIFLUORIDE
ACID CALCIUM PHOSPHATE	=	CALCIUM PHOSPHATE
ACRALDEHYDE	=	ACROLEIN
ACRIDINE	=	ACRIDINE
ACROLEIN	=	ACROLEIN
ACRYLALDEHYDE	=	ACROLEIN
ACRYLAMIDE	=	ACRYLAMIDE
ACRYLIC ACID	=	ACRYLIC ACID
ACRYLIC ACID, BUTYL ESTER	=	N-BUTYL ACRYLATE
ACRYLIC ACID, ETHYL ESTER	=	ETHYL ACRYLATE
ACRYLIC ACID, 2-ETHYLHEXYL ESTER	=	2-ETHYLHEXYL ACRYLATE, INHIBITED
ACRYLIC ACID, ISOBUTYL ESTER	=	ISO-BUTYL ACRYLATE
ACRYLIC ACID, METHYL ESTER	=	METHYL ACRYLATE
ACRYLIC ALDEHYDE	=	ACROLEIN
ACRYLIC AMIDE 50 PER CENT	=	ACRYLAMIDE
ACRYLONITRILE	=	ACRYLONITRILE
ACTIVATED CHARCOAL	=	CHARCOAL
ADACENE-12	=	1-DODECENE
ADIPIC ACID	=	ADIPIC ACID
ADIPIC ACID, BIS(2-ETHYLHEXYL) ESTER	=	DIOCTYL ADIPATE
ADIPINIC ACID	=	ADIPIC ACID
ADIPOL 2 EH	=	DIOCTYL ADIPATE
ADIPONITRILE	=	ADIPONITRILE
ADRONAL	=	CYCLOHEXANOL
AEROSOL SURFACTANT	=	DIOCTYL SODIUM SULFOSUCCINATE
AEROTHENE	=	TRICHLOROETHANE

SYNONYM	COMPOUND NAME
AFICIDE	BENZENE HEXACHLORIDE
AGROCIDE	BENZENE HEXACHLORIDE
ALBONE	HYDROGEN PEROXIDE
ALBUS	MERCURIC AMMONIUM CHLORIDE
ALCOHOL	ETHYL ALCOHOL
ALCOHOL C-10	N-DECYL ALCOHOL
ALCOHOL C-8	OCTANOL
ALDEHYDE C-10	DECALDEHYDE
ALDEHYDE-COLLIDINE	METHYLETHYLPYRIDINE
ALDEHYDINE	METHYLETHYLPYRIDINE
ALDIFEN	2,4-DINITROPHENOL
ALDRIN	ALDRIN
ALFA-TOX	DIAZINON
ALGYLEN	TRICHLOROETHYLENE
ALKAWAY LIQUID ALKALINE DERUSTER	BOILER COMPOUND, LIQUID
ALKYLBENZENESULFONIC ACIDS	ALKYLBENZENESULFONIC ACIDS
ALKYLBENZENESULFONIC ACID, SODIUM SALT	SODIUM ALKYLBENZENESULFONATES
ALLENE-METHYLACETYLENE MIXTURE	METHYLACETYLENE - PROPADIENE MIXTURE
ALLOMALEIC ACID	FUMARIC ACID
ALLYL ALCOHOL	ALLYL ALCOHOL
ALLYL BROMIDE	ALLYL BROMIDE
ALLYL CHLORIDE	ALLYL CHLORIDE
ALLYL CHLOROCARBONATE	ALLYL CHLOROFORMATE
ALLYL CHLOROFORMATE	ALLYL CHLOROFORMATE
ALLYLSILICONE TRICHLORIDE	ALLYLTRICHLOROSILANE
ALLYLTRICHLOROSILANE	ALLYLTRICHLOROSILANE
ALROWET D65	DIOCTYL SODIUM SULFOSUCCINATE
ALUMINUM CHLORIDE	ALUMINUM CHLORIDE
ALUMINUM ETHYL DICHLORIDE EADC	ETHYLALUMINUM DICHLORIDE
ALUMINUM ETHYL DICHLORIDE	ETHYLALUMINUM DICHLORIDE
ALUMINUM FLUORIDE	ALUMINUM FLUORIDE
ALUMINUM NITRATE	ALUMINUM NITRATE
ALUMINUM NITRATE NONAHYDRATE	ALUMINUM NITRATE
ALUMINUM SULFATE	ALUMINUM SULFATE
ALUMINUM TRIETHYL	TRIETHYLALUMINUM
ALUMINUM TRIISOBUTYL	TRIISOBUTYLALUMINUM
AMCHLOR	AMMONIUM CHLORIDE
AMERICAN PALM KERNEL OIL	OILS EDIBLE: TUCUM
AMINOBENZENE	ANILINE
1-AMINOBUTANE	N-BUTYLAMINE
AMINOCAPROIC LACTAM	CAPROLACTAM, LIQUID
1-AMINO-4-CHLOROBENZENE	P-CHLOROANILINE
2-AMINO-5-CHLOROTOLUENE	4-CHLORO-O-TOLUIDINE
AMINOCYCLOHEXANE	CYCLOHEXYLAMINE
AMINOETHANE	ETHYLAMINE
2-AMINOETHANOL	MONOETHANOLAMINE
BETA-AMINOETHYL ALCOHOL	MONOETHANOLAMINE
2-((2-AMINOETHYL)AMINO)ETHANOL	AMINOETHYLETHANOLAMINE
N-(2-AMINOETHYL)ETHANOLAMINE	AMINOETHYLETHANOLAMINE
AMINOETHYLETHANOLAMINE	AMINOETHYLETHANOLAMINE
AMINOFORM	HEXAMETHYLENETETRAMINE
2-AMINOISOBUTANE	TERT-BUTYLAMINE
AMINOMERCURIC CHLORIDE	MERCURIC AMMONIUM CHLORIDE
AMINOMETHANE	METHYLAMINE
2-AMINO-1-METHYLBENZENE	O-TOLUIDINE
1-AMINO-2-METHYLPROPANE	ISOBUTYLAMINE
2-AMINO-2-METHYLPROPANE	TERT-BUTYLAMINE
1-AMINONAPHTHALENE	1-NAPHTHYLAMINE
1-AMINONAPHTHALENE ALPHA-NAPHTHYLAMINE	1-NAPHTHYLAMINE
1-AMINO-2-NITROBENZENE	2-NITROANILINE
1-AMINO-4-NITROBENZENE	4-NITROANILINE
2-AMINOPROPANE	ISOPROPYLAMINE
1-AMINO-2-PROPANOL	MONOISOPROPANOLAMINE
2-AMINOTOLUENE	O-TOLUIDINE
ALPHA-AMINOTOLUENE	BENZYLAMINE

SYNONYM	COMPOUND NAME
AMMATE	AMMONIUM SULFAMATE
AMMOFORM	HEXAMETHYLENETETRAMINE
AMMONERIC	AMMONIUM CHLORIDE
AMMONIA ANHYDROUS	AMMONIA ANHYDROUS
AMMONIA SOAP	AMMONIUM OLEATE
AMMONIATED MERCURY	MERCURIC AMMONIUM CHLORIDE
AMMONIA WATER	AMMONIUM HYDROXIDE
AMMONIOFORMALDEHYDE	HEXAMETHYLENETETRAMINE
AMMONIUM ACETATE	AMMONIUM ACETATE
AMMONIUM ACID FLUORIDE	AMMONIUM BIFLUORIDE
AMMONIUM AMIDOSULFONATE	AMMONIUM SULFAMATE
AMMONIUM AMIDOSULPHATE	AMMONIUM SULFAMATE
AMMONIUM BENZOATE	AMMONIUM BENZOATE
AMMONIUM BICARBONATE	AMMONIUM BICARBONATE
AMMONIUM BICHROMATE	AMMONIUM DICHROMATE
AMMONIUM BIFLUORIDE	AMMONIUM BIFLUORIDE
AMMONIUM CARBONATE	AMMONIUM CARBONATE
AMMONIUM CHLORIDE	AMMONIUM CHLORIDE
AMMONIUM CITRATE	AMMONIUM CITRATE
AMMONIUM CITRATE, DIBASIC	AMMONIUM CITRATE
AMMONIUM DECABORATE OCTAHYDRATE	AMMONIUM PENTABORATE
AMMONIUM DICHROMATE	AMMONIUM DICHROMATE
AMMONIUM DISULFATO-NICKELATE (II)	NICKEL AMMONIUM SULFATE
AMMONIUM FERRIC CITRATE	FERRIC AMMONIUM CITRATE
AMMONIUM FERRIC OXALATE TRIHYDRATE	FERRIC AMMONIUM OXALATE
AMMONIUM FERROUS SULFATE	FERROUS AMMONIUM SULFATE
AMMONIUM FLUORIDE	AMMONIUM FLUORIDE
AMMONIUM FLUOSILICATE	AMMONIUM SILICOFLUORIDE
AMMONIUM FORMATE	AMMONIUM FORMATE
AMMONIUM GLUCONATE	AMMONIUM GLUCONATE
AMMONIUM HYDROGEN CARBONATE	AMMONIUM BICARBONATE
AMMONIUM HYDROGEN FLUORIDE	AMMONIUM BIFLUORIDE
AMMONIUM HYDROGEN SULFIDE SOLUTION	AMMONIUM SULFIDE
AMMONIUM HYDROXIDE	AMMONIUM HYDROXIDE
AMMONIUM HYPO	AMMONIUM THIOSULFATE
AMMONIUM HYPOSULFITE	AMMONIUM THIOSULFATE
AMMONIUM IODIDE	AMMONIUM IODIDE
AMMONIUM IRON SULFATE	FERROUS AMMONIUM SULFATE
AMMONIUM LACTATE	AMMONIUM LACTATE
AMMONIUM LACTATE SYRUP	AMMONIUM LACTATE
AMMONIUM LAURYL SULFATE	AMMONIUM LAURYL SULFATE
AMMONIUM MOLYBDATE	AMMONIUM MOLYBDATE
AMMONIUM MURIATE	AMMONIUM CHLORIDE
AMMONIUM NICKEL SULFATE	NICKEL AMMONIUM SULFATE
AMMONIUM NITRATE	AMMONIUM NITRATE
AMMONIUM NITRATE-PHOSPHATE MIXTURE	AMMONIUM NITRATE-PHOSPHATE MIXTURE
AMMONIUM NITRATE-SULFATE MIXTURE	AMMONIUM NITRATE-SULFATE MIXTURE
AMMONIUM NITRATE-UREA SOLUTION	AMMONIUM NITRATE-UREA SOLUTION
AMMONIUM OLEATE	AMMONIUM OLEATE
AMMONIUM OXALATE	AMMONIUM OXALATE
AMMONIUM OXALATE HYDRATE	AMMONIUM OXALATE
AMMONIUM PENTABORATE	AMMONIUM PENTABORATE
AMMONIUM PENTABORATE TETRAHYDRATE	AMMONIUM PENTABORATE
AMMONIUM PENTACHLOROZINCATE	ZINC AMMONIUM CHLORIDE
AMMONIUM PERCHLORATE	AMMONIUM PERCHLORATE
AMMONIUM PEROXYDISULFATE	AMMONIUM PERSULFATE
AMMONIUM PERSULFATE	AMMONIUM PERSULFATE
AMMONIUM PHOSPHATE	AMMONIUM PHOSPHATE
AMMONIUM PHOSPHATE, DIBASIC	AMMONIUM PHOSPHATE
AMMONIUM RHODANATE	AMMONIUM THIOCYANATE
AMMONIUM RHODANIDE	AMMONIUM THIOCYANATE
AMMONIUM SILICOFLUORIDE	AMMONIUM SILICOFLUORIDE
AMMONIUM STEARATE	AMMONIUM STEARATE
AMMONIUM STEARATE DISPERSION	AMMONIUM STEARATE
AMMONIUM SULFAMATE	AMMONIUM SULFAMATE

10. DATA SOURCES

The source of every item of data contained in Section 11 is recorded in master data files and is available on request. The principal sources are listed below. Many other sources were consulted, but most of them provided only a few items and are not given here. In a few cases the information given is based on an analogy with that for a closely related chemical; the analogy was drawn by an expert in the field, whose identity appears in the master data file.

Where a source was used for a single category of data, the source is given in Section 3 ("Explanation of Terms") and is not repeated here.

10.1 GENERAL SOURCES

The following sources contained data for many of the 13 data categories used:

1. Manufacturers' Technical Bulletins – This is usually the best single source of general information about the chemical. All bulletins were solicited in late 1972 and contain the most recent data. Bulletins were not available for a few chemicals that are not items of commerce but are intermediates shipped from one manufacturing site to another.

2. Material Safety Data Sheets – These were provided by the manufacturer using the U.S. Department of Labor Form OSHA-20 or an approved modification.

3. Code of Federal Regulations – Office of the Federal Register, Archives and Record Service, Washington, D.C., 1972. Titles 46 (Shipping) and 49 (Transportation) were used in the most recent revision available, in all cases since January 1, 1971.

4. Chemical Safety Data Sheets – Manufacturing Chemists Association, Washington, D.C.

5. Industrial Safety Data Sheets – National Safety Council, Chicago, Illinois.

6. International Maritime Dangerous Goods Code – Inter-Governmental Maritime Consultative Organization (IMCO), London, 1972.

7. Petroleum Products Handbook – V.B. Guthrie (ed.), McGraw-Hill, New York, 1960.

8. Glossary of Terms Used in Petroleum Refining – 2nd edition, American Petroleum Institute, New York, 1962.

9. The Handling and Storage of Liquid Propellants – Office of Defense Research and Engineering, U.S. Government Printing Office, Washington, D.C., 1963.

10. Industrial Chemicals – W.L. Faith, D.B. Keyes, and R.L. Clark, 3rd edition, Wiley, New York, 1965.

11. Chemical Technology of Petroleum – W.A. Gruse and D.R. Stevens, 3rd edition, McGraw-Hill, New York, 1960.

12. Chemical Rocket/Propellant Hazards – CPIA Publication No. 194, Vol. III, 1970.

13. Organic Solvents – J.A. Riddick and W.B. Bunger, 3rd edition, Wiley-Interscience, New York, 1970.

14. Transport of Dangerous Goods – (4 vols) United Nations, New York, 1970.

15. Kirk-Othmer Encyclopedia of Chemical Technology – 1st edition (1947-1960) and 2nd edition (1963-1970), Interscience-Wiley, New York.

16. Evaluation of the Hazard of Bulk Water Transportation of Industrial Chemicals, A Tentative Guide – National Academy of Sciences, Washington, D.C., 1970; includes supplement with additions to March 1972.

17. Matheson Gas Data Book – 5th edition, Matheson Gas Products, East Rutherford, New Jersey, 1971.

18. Explosive and Toxic Hazardous Materials – J. H. Meidl, Glencoe Press, Beverly Hills, California, 1969.

20. Organic Phosphorus Compounds – G. M. Kosolapoff and L. Maier (6 Vols.), Wiley-Interscience, New York.

21. The Chemistry of Organo-Phosphorus Pesticides – C. Fest and K. J. Schmidt, Springer-Verlag, New York, 1973.

10.2 CHEMICAL DESIGNATIONS

1. Commercial Organic Chemical Names – Compiled by the Synthetic Organic Chemical Manufacturers Association (SOCMA), Chemical Abstracts Service, Columbus, Ohio, 1965.

2. Chemical Synonyms and Trade Names – W. Gardner and E.I. Cooke, 7th edition, CRC press, Cleveland, Ohio, 1971.

3. The Merck Index of Chemicals and Drugs – 8th edition, Merck and Co., Rahway, New Jersey, 1968.

10.3 HEALTH HAZARDS

1. Industrial Hygiene and Toxicology – F.A. Patty, 2nd edition, Vol. II, Interscience, New York, 1963.

2. Toxicity and Metabolism of Industrial Solvents – E. Browning, Elsevier, New York, 1965.

3. Practical Toxicology of Plastics – R. Lefaux, CRC Press, Cleveland, Ohio, 1968.

4. Industrial Toxicology – L.T. Fairhall, Williams and Wilkins, 2nd edition, Baltimore, Maryland, 1957.

11. CHEMICAL-SPECIFIC INFORMATION

AAD ACETALDEHYDE

Common Synonyms
Acetic aldehyde
Ethanal

Watery liquid | Colorless | Sharp fruity odor

Floats and mixes with water. Flammable, irritating vapor is produced. Boiling point is 69° F

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause nausea, vomiting, headache, difficult breathing, or loss of consciousness.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability.
Disperse and flush.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Acetic aldehyde; Ethanal; Ethyl aldehyde
3.2 **Coast Guard Compatibility Classification:** Aldehyde
3.3 **Chemical Formula:** CH_3CHO
3.4 **IMCO United Nations Numerical Designation:** 3.1 1089

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Penetrating fruity sharp pungent

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber gloves, eye goggles, and other equipment to prevent any contact with body. Organic canister or air pack as required.
5.2 **Symptoms Following Exposure:** Breathing vapors will be irritating and may cause nausea, vomiting, headache and unconsciousness. Contact with eyes may cause burns. Skin contact from clothing wet with the chemical causes burns or severe irritation.
5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air; if breathing has stopped give artificial respiration. If breathing difficult give oxygen; call a physician at once. SKIN: wash with soap and water. EYES: flush with water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm
5.5 **Short-Term Inhalation Limits:** 50 ppm for 60 min.
5.6 **Toxicity by Ingestion:** Grade 2. LD$_{50}$: 0.5 g/kg (rats).
5.7 **Late Toxicity:** Data not available.
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors moderately irritating such that personnel will not usually tolerate moderate or high concentrations.
5.9 **Liquid or Solid Irritant Characteristics:** Moderate hazard. Repeated contacting and allowed to remain may cause smarting and reddening of the skin.
5.10 **Odor Threshold:** 0.21 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** −36°F C.C. = −56°F O.C.
6.2 **Flammable Limits in Air:** 4 - 60%
6.3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Produces irritating vapor when heated
6.6 **Behavior in Fire:** Vapors are heavier than air and may travel a considerable distance to a source of ignition and flash back
6.7 **Ignition Temperature:** 365°F
6.8 **Electrical Hazard:** Class I, Group C
6.9 **Burning Rate:** 3.1 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** May occur. Avoid heat, dust, strong oxidizing or reducing substances, strong acids and bases
7.6 **Inhibitor of Polymerization:** None

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 53 ppm/96 hr/sunfish/TLm/fresh water; 70 ppm/24 hr/perch/TLm/salt water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** 63-12% 5 days
8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

AAC	# ACETIC ACID

Glacial acetic acid
Ethanoic acid
Vinegar acid

Watery liquid | Colorless | Strong vinegar odor

Sinks and mixes with water. Irritating vapor is produced. Freezing point is 62° F.

Fire

Combustible
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to nose and throat
If inhaled, will cause coughing, nausea, vomiting, or difficult breathing.

LIQUID OR SOLID
Will burn skin and eyes.
Harmful if swallowed.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Toxic vapor; corrosive
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 Synonyms:
Ethanoic acid
Glacial acetic acid
Vinegar acid

3.2 Coast Guard Compatibility Classification:
Organic acid

3.3 Chemical Formula: CH_3COOH

3.4 IMCO/United Nations Numerical Designation: UN 2789

4. OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped): Liquid

4.2 Color: Colorless

4.3 Odor: Characteristic sharp, pungent vinegar-like odor

5 HEALTH HAZARDS

5.1 Personal Protective Equipment: Protective clothing should be worn when skin contact might occur. Respirators protection necessary when exposed to vapor. Complete eye protection.

5.2 Symptoms Following Exposure: Breathing of vapors causes coughing, chest pain and irritation of nose and throat; may cause nausea and vomiting. Contact with skin causes burns.

5.3 Treatment of Exposure: INHALATION: move victim to fresh air. If breathing becomes difficult give oxygen. Get medical care quickly. INGESTION: if victim is conscious, have him drink water or milk. Do NOT induce vomiting. SKIN OR EYE CONTACT: flush immediately with plenty of clean running water; wash eyes for at least 15 min. and get medical care as quickly as possible. Remove contaminated clothing and launder before wearing again.

5.4 Toxicity by Inhalation (Threshold Limit Value): 10 ppm

5.5 Short-Term Inhalation Limits: 40 ppm for 5 min.

5.6 Toxicity by Ingestion: Grade 2; LD50 = 3.0 g/kg (rat)

5.7 Late Toxicity: Data not available

5.8 Vapor (Gas) Irritant Characteristics: Vapors cause moderate eye irritation with lacrimation and mild irritation of nose and throat at high concentrations. Irritation is temporary.

5.9 Liquid or Solid Irritant Characteristics: Liquid causes severe skin irritation; may cause pain and second degree burns after a few minutes of contact.

5.10 Odor Threshold: 1.0 ppm

6 FIRE HAZARDS

6.1 Flash Point: 112°F (OC) 104°F (CC)

6.2 Flammable Limits in Air: 5.4% - 16.0%

6.3 Fire Extinguishing Agents: Water, alcohol foam, dry chemical or carbon dioxide

6.4 Fire Extinguishing Agents Not to be Used: None

6.5 Special Hazards of Combustion Products: Irritating vapor generated when heated

6.6 Behavior in Fire: Not pertinent

6.7 Ignition Temperature: 800°F

6.8 Electrical Hazard: Not pertinent

6.9 Burning Rate: 1.6 mm/min

7. CHEMICAL REACTIVITY

7.1 Reactivity with Water: No reaction

7.2 Reactivity with Common Materials: Corrosive particularly when diluted. Attacks most common metals including most stainless steels. Excellent solvent for many synthetic resins or rubber.

7.3 Stability During Transport: Stable

7.4 Neutralizing Agents for Acids and Caustics: Dilute with water; rinse with sodium bicarbonate solution.

7.5 Polymerization: Not pertinent

7.6 Inhibitor of Polymerization: Not pertinent

8 WATER POLLUTION

8.1 Aquatic Toxicity:
Tolerance limit bluegill: 11 ppm fresh water; 49 ppm Pacific goldfish: 11 ppm fresh water; 189-330 ppm 48 hr shrimp: 13 ppm aerated water

8.2 Waterfowl Toxicity: Not pertinent

8.3 Biological Oxygen Demand (BOD): 52-62% 5 days

8.4 Food Chain Concentration Potential: None noted

NOTES

ACA — ACETIC ANHYDRIDE

Common Synonyms
Ethanoic anhydride

Watery liquid Colorless Strong vinegar odor

Sinks and reacts slowly with water. Irritating vapor is produced.

Fire

Combustible.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Will burn eyes.
Irritating to nose and throat.
If inhaled, will cause tearing, vomiting, or difficult breathing.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: isolate.
Disperse and flush.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Ethanoic anhydride
3.2 **Coast Guard Compatibility Classification:** Organic anhydride
3.3 **Chemical Formula:** $CH_3COOCOCH_3$
3.4 **IMCO United Nations Numerical Designation:** No. 1715

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Very strong, pungent, vinegar-like characteristic

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective clothing when skin contact might occur. Respiratory protection necessary for all exposures; complete eye protection.
5.2 **Symptoms Following Exposure:** Liquid is irritating and causes a burning sensation. Unprotected skin contact causes severe burns when clothing is wet with the chemical. Vapor causes severe burning sensation of eyes, severe burns and irritation to respiratory tract. Nausea and vomiting may develop after exposure.
5.3 **Treatment for Exposure:** INHALATION: move victim to fresh air. If breathing becomes difficult, give oxygen. Get medical care quickly. INGESTION: do NOT induce vomiting. SKIN OR EYE CONTACT WITH LIQUID OR VAPOR: flush immediately with plenty of clean running water. Remove clothing as soon as possible. Wash skin and get medical care quickly.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 2: Moderately toxic
5.7 **Late Toxicity:** Not pertinent
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors immediately irritating to eyes. Not pertinent. Not generally irritating to skin. Not pertinent. Not generally irritating to upper respiratory tract. Not generally irritating to lower respiratory tract.
5.9 **Liquid or Solid Irritant Characteristics:** Liquid irritating to eyes. May cause pain and severe burns after a few minutes of contact.
5.10 **Odor Threshold:** 0.4 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 116°F O.C., 120°F C.C.
6.2 **Flammable Limits in Air:** 2.7% - 10.0%
6.3 **Fire Extinguishing Agents:** Water spray, dry chemical, alcohol foam, or carbon dioxide.
6.4 **Fire Extinguishing Agents Not to be Used:** Water and foam react, but heat liberated is not enough to create a hazard. Dry chemical forced below the surface can cause foaming and boiling.
6.5 **Special Hazards of Combustion Products:** Irritating vapors are generated when heated.
6.6 **Behavior in Fire:** Not pertinent
6.7 **Ignition Temperature:** 600°F
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** 4.5 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts slowly with water; considerable heat liberated when water spray is used.
7.2 **Reactivity with Common Materials:** Corrosive to steel and other metals.
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Dilute with water and solid bicarbonate; solution to rinse.
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 96 ppm/96 hr/bluegill/Tm/fresh water; 100-300 ppm/24 hr/shrimp/LC/salt water
8.2 **Waterfowl Toxicity:** Not pertinent
8.3 **Biological Oxygen Demand (BOD):** 53% 5 days
8.4 **Food Chain Concentration Potential:** None noted

(Continued on page 7 and 8)

NOTES

REVISED 1978

ACT

ACETONE

Common Synonyms
Dimethyl Ketone
Propanone

Watery liquid | Colorless | Sweet odor

Floats and mixes with water. Flammable, irritating vapor is produced.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

CALL FOR MEDICAL AID.

VAPOR
Irritating to eyes, nose and throat.
If inhaled, may cause difficult breathing or loss of consciousness.

LIQUID
Irritating to eyes.
Not irritating to skin.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4.

Isolate material. Stop flammables.
Dispose and Clean.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Dimethyl Ketone; 2-Propanone
3.2 **Coast Guard Compatibility Classification:** Acetone
3.3 **Chemical Formula:** CH_3COCH_3
3.4 **IMCO Uniform Nations Numerical Designation:** 1090

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Sweetish, pleasant, somewhat ether-like odor at low concentrations; pungent, sharp, penetrating odor at higher concentrations.

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic vapor canister or air-supplied mask; synthetic rubber gloves; chemical safety goggles or face splash shield.
5.2 **Symptoms Following Exposure:** INHALATION: vapor irritating to eyes and mucous membranes; acts as an anesthetic in very high concentrations. INGESTION: same order of toxicity but very irritating to mucous membranes. SKIN: prolonged excessive contact causes defatting of the skin, possibly leading to dermatitis.
5.3 **Treatment for Exposure:** INHALATION: if symptoms appear, remove to fresh air and call a physician. If not breathing, administer artificial respiration; if breathing is irregular or stopped, INGESTION: if victim has swallowed large amounts, and is conscious, induce vomiting and get medical help promptly. No specific antidote known. SKIN: wash well with water. EYES: flush with water immediately for at least 15 min. Consult a physician.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 1000 ppm
5.5 **Short-Term Inhalation Limits:** 1000 ppm for 30 min
5.6 **Toxicity by Ingestion:** Grade 1. LD_{50} (oral, rat): 5.8 g/kg
5.7 **Late Toxicity:** Not pertinent.
5.8 **Vapor (Gas) Irritant Characteristics:** If present in high concentrations, vapors cause moderate irritation of the eyes, respiratory system. Effect is temporary.
5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin because it is very volatile and evaporates quickly from the skin.
5.10 **Odor Threshold:** 100 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 4°F (O.C.), 0°F (C.C.)
6.2 **Flammable Limits in Air:** 2.6% - 12.8%
6.3 **Fire Extinguishing Agents:** Alcohol foam, dry chemical, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water is ineffective but stream will scatter and spread fire and should not be used.
6.5 **Special Hazards of Combustion Products:** Not pertinent.
6.6 **Behavior in Fire:** Not pertinent.
6.7 **Ignition Temperature:** 869°F
6.8 **Electrical Hazard:** Class I, Group D
6.9 **Burning Rate:** 3.9 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent.
7.5 **Polymerization:** Not pertinent.
7.6 **Inhibitor of Polymerization:** Not pertinent.

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 4,250 ppm/24 hr/fathead minnow/soft water; 8,300 ppm/48 hr/mosquito fish/turbid water
8.2 **Waterfowl Toxicity:** Not pertinent.
8.3 **Biological Oxygen Demand (BOD):** 1.16 oz/lb (115% in 5 days)
8.4 **Food Chain Concentration Potential:** None noted.

NOTES

REVISED 1978

ACY — ACETONE CYANOHYDRIN

Common Synonyms
2-Methyl lactonitrile
Alpha-hydroxy isobutyronitrile

Watery liquid | Colorless | Mild almond odor

Floats and mixes with water. Poisonous vapor is produced

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY.
Wear chemical protective suit and self-contained breathing apparatus
Stop discharge if possible
Stay upwind and keep out of low areas
Call fire department
Isolate and deny entry to unprotected personnel
Notify authorities if spill enters water

Fire

Combustible
POISONOUS GASES ARE PRODUCED WHEN HEATED
Vapor may explode if ignited in an enclosed area

WEAR CHEMICAL PROTECTIVE SUIT WITH SELF-CONTAINED BREATHING APPARATUS
Cool containers with water spray until well after fire is out
Extinguish with water. Chemical agents may react to release toxic gas
Cool exposed containers with water

Exposure

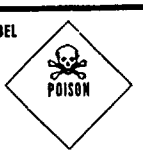
CALL FOR MEDICAL AID
VAPOR
POISONOUS IF INHALED
Irritating to eyes, nose and throat

Move victim to fresh air
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen
LIQUID
POISONOUS IF SWALLOWED
Will burn skin and eyes

Remove contaminated clothing at once
Flush eyes with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do not give anything by mouth

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes



Notify local health and wildlife officials
Notify operators of canals, water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison
Restrict access
Should be removed: human toxicity

2 LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms** alpha Hydroxyisobutyronitrile
2 Methyllactonitrile
3 2 **Coast Guard Compatibility Classification:** Cyanohydrin
3 3 **Chemical Formula** $(CH_3)_2COHCN$
3 4 **IMCO/United Nations Numerical Designation:** 6 1 1541

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid
4 2 **Color.** Colorless
4 3 **Odor** Characteristic, distinct, strong cyanide

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Air supplied mask with canister approved for use with acetonitrile in less than 2% concentrations; rubber or plastic gloves; cover goggles or face mask; rubber boots; slicker suit; inlets taped.

5 2 **Symptoms Following Exposure:** At low dosages the earliest symptoms may be weakness, headaches, confusion and occasionally nausea and vomiting. Respirators rate and depth will usually be increased at the beginning and at later stages become slow and gasping.

5 3 **Treatment for Exposure:** Call a physician for all cases of exposure. INHALATION: remove victim to fresh air. (Rescuer should wear suitable mask.) INGESTION: if victim is conscious, induce vomiting by having him drink strong salt water. SKIN: remove contaminated clothing and wash affected skin thoroughly with soap and water. EYES: hold eyelids apart and wash with continuous gentle stream of water for at least 15 min.
If breathing has stopped, give artificial respiration until physician arrives. If victim is unconscious, administer amyl nitrite by crushing an ampule in a cloth and holding it under his nose for 15 seconds in every minute. Do not interrupt artificial respiration during this procedure. Replace ampule when its strength is spent. Continue treatment until victim's condition improves or physician arrives.

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short-Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion:** Grade 4, below 50 mg/kg (mice)

5 7 **Late Toxicity:** Causes liver damage in rats

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors irritate the eyes and respiratory system if present in high concentrations. The effect is temporary.

5. HEALTH HAZARDS (Cont'd)

5 9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first degree burns on short exposure and may cause secondary burns on long exposure
5 10 **Odor Threshold:** Data not available

ATN	# ACETONITRILE

Common Synonyms
Methyl cyanide
Cyanomethane
Ethanenitrile

Watery liquid | Colorless | Sweet odor

Floats and mixes with water. Flammable, irritating vapor is produced.

Fire

FLAMMABLE.
POISONOUS GASES MAY BE PRODUCED WHEN HEATED.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause difficult breathing.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook. CG 446-6)

Issue warning. High flammability.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Ethanenitrile
Ethyl nitrile
Cyanomethane
Methyl cyanide

3.2 **Coast Guard Compatibility Classification:**
Nitrile

3.3 **Chemical Formula.** CH_3CN

3.4 **IMCO/United Nations Numerical Designation.** 6.1/1648

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Sweet, ethereal

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Wear self-contained breathing apparatus.

5.2 **Symptoms Following Exposure.** Exposure to 160 ppm for 4 hrs causes flushing of the face and a feeling of constriction in the chest. 500 ppm for brief periods is irritating to the nose and throat. Severe exposures cause irritability, skin eruptions, confusion, delirium, convulsions, paralysis and death due to central nervous system depression.

5.3 **Treatment for Exposure:** Remove victim from contaminated atmosphere. Give artificial respiration and oxygen if respiration is impaired.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 40 ppm

5.5 **Short-Term Inhalation Limits.** 40 ppm for 60 min

5.6 **Toxicity by Ingestion.** Grade 3. LD50 = 500 mg/kg (guinea pig)

5.7 **Late Toxicity:** Not pertinent

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause slight smarting of the eyes or respiratory system if present in high concentrations. Effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of the skin.

5.10 **Odor Threshold.** 4 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 42°F, CC

6.2 **Flammable Limits in Air:**
4.4% - 16%

6.3 **Fire Extinguishing Agents:** Alcohol foam, dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used.** Water may be ineffective

6.5 **Special Hazards of Combustion Products.** Toxic vapors are generated when heated.

6.6 **Behavior in Fire.** Vapor heavier than air and may travel a considerable distance to a source of ignition and flash back.

6.7 **Ignition Temperature.** 975°F

6.8 **Electrical Hazard:** Not pertinent.

6.9 **Burning Rate:** 2.7 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport.** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 1180 ppm/24 hr/fathead minnow/Flow hard water

8.2 **Waterfowl Toxicity.** Not pertinent

8.3 **Biological Oxygen Demand (BOD):** 1.76 % days

8.4 **Food Chain Concentration Potential.** None noted

NOTES

ACP	# ACETOPHENONE

Common Synonyms
Acetylbenzene
Methyl phenyl ketone

Liquid | Colorless | Flowery, sweet odor

Sinks slowly in water. Freezing point is 68° F

Fire

Combustible.

Exposure

CALL FOR MEDICAL AID

LIQUID OR SOLID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
Floating to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Disperse and flush

2 LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Acetylbenzene
Methyl phenyl ketone

3 2 **Coast Guard Compatibility Classification:** Ketone

3 3 **Chemical Formula:** $C_6H_5COCH_3$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Persistent like orange blossoms and jasmine

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Protect eyes and skin from direct contact

5 2 **Symptoms Following Exposure:** No toxicity expected from inhalation or ingestion except slight narcotic effect. Liquid can cause eye and skin irritation on contact

5 3 **Treatment for Exposure:** SKIN OR EYE CONTACT: Irrigate affected area with water for 15 min

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2. LD$_{50}$ 0.5 to 5 g/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Nonirritating to the eyes and throat

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin

NOTES

REVISED 1978

ATA

ACETYLACETONE

Common Synonyms
2,4-Pentanedione
Diacetylmethane

Liquid | Colorless | Unpleasant Odor

Floats and mixes slowly with water. Flammable, irritating vapor is produced.

Shut off ignition sources. Call fire department.
Stop discharge if possible. Keep people away.
Avoid contact with liquid and vapor.
Isolate and ventilate discharge material.
Notify local health and pollution control agencies.

Fire

Combustible
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Wear goggles and self-contained breathing apparatus.
Extinguish with dry chemicals, alcohol foam, carbon dioxide.
Water may be ineffective on fire.
Cool containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes.
If inhaled will cause dizziness, coughing, headache, or loss of consciousness.
If in eyes, hold eyelids open and flush with plenty of water.
If victim is not breathing, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Diacetylmethane; 2,4-Pentanedione
3 2 **Coast Guard Compatibility Classification.** Not listed

A P G

12. HAZARD CLASSIFICATIONS

12 1 **Code of Federal Regulations:** Not listed
12 2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed
12 3 **NFPA Hazard Classifications:**

Category	Classification
Health Hazard (Blue)	2
Flammability (Red)	2
Reactivity (Yellow)	0

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Liquid
13 2 **Molecular Weight:** 100.12
13 3 **Boiling Point at 1 atm:** 284.7°F = 140.4°C = 413.6°K
13 4 **Freezing Point:** −10.3°F = −23.5°C = 249.7°K
13 5 **Critical Temperature:** Not pertinent
13 6 **Critical Pressure.** Not pertinent
13 7 **Specific Gravity:** 0.975 at 20°C
13 8 **Liquid Surface Tension:** 31.2 dynes/cm = 0.0312 N/m at 20°C
13 9 **Liquid-Water Interfacial Tension:** Not pertinent
13 10 **Vapor (Gas) Specific Gravity:** 3.45
13 11 **Ratio of Specific Heats of Vapor (Gas):** (est.) 1.072
13 12 **Latent Heat of Vaporization.** 194 Btu/lb = 108 cal/g = 4.52×10^5 J/kg
13 13 **Heat of Combustion:** −11 070 Btu/lb = −6 150 cal/g = -257×10^5 J/kg
13 14 **Heat of Decomposition:** Not pertinent
13 15 **Heat of Solution:** −11.5 Btu/lb = −6.4 cal/g = -0.27×10^5 J/kg
13 16 **Heat of Polymerization.** Not pertinent

Continued on page 5 and 6

NOTES

ABM

ACETYL BROMIDE

Common Synonyms	Liquid	Colorless	Sharp unpleasant odor
	Flammable, irritating vapor is produced		

AVOID CONTACT WITH LIQUID AND VAPOR KEEP PEOPLE AWAY
[illegible]

Fire

FLAMMABLE
Irritating gases are produced when heated
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
[illegible] (including gloves)
Extinguish with dry chemical, foam or carbon dioxide
DO NOT USE WATER ON FIRE

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause difficult breathing
In case of contact immediately flush eyes with plenty of water for at least 15 minutes
If not breathing, give artificial respiration
If breathing is difficult, give oxygen

LIQUID
Will burn skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes
Flood affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do not induce vomiting; keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-1)

Issue warning: corrosive
Restrict access
Evacuate area
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** CH_3COBr
3.4 **IMCO/United Nations Numerical Designation:** 8/1716

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Acrid and sharp

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Safety goggles, gloves, adequate ventilation, provisions for flushing eyes or skin with water
5.2 **Symptoms Following Exposure:** Inhalation produces primary irritation of the respiratory tract, symptoms of lung damage may be delayed. Contact with liquid produces primary irritation of eyes and severe skin damage; delayed blistering is not uncommon
5.3 **Treatment for Exposure:** INHALATION: remove victim from exposure, if breathing has stopped give artificial respiration, if breathing is difficult, give oxygen, watch for delayed lung damage. EYES: flush with water for at least 15 min., get medical attention. SKIN: flush with water, treat burns as needed
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 2; oral rat LD_{50} = 3,310 mg/kg; caustic acid. Decomposes violently in water, forming bromic acid and acetic acid)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** 5.0×10^{-1} ppm

5. FIRE HAZARDS

6.1 **Flash Point:** Data not available
6.2 **Flammable Limits in Air:** Data not available
6.3 **Fire Extinguishing Agents:** Carbon dioxide, dry chemical
6.4 **Fire Extinguishing Agents Not to be Used:** Water
6.5 **Special Hazards of Combustion Products:** Toxic and irritating hydrogen bromide fumes may form in fires
6.6 **Behavior in Fire:** Do not apply water to adjacent fires. Reacts with water to produce toxic and irritating gases
6.7 **Ignition Temperature:** Data not available
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts violently forming corrosive and toxic fumes of hydrogen bromide
7.2 **Reactivity with Common Materials:** Attacks and corrodes wood and most metals in the presence of moisture. Flammable hydrogen gas may collect in enclosed spaces
7.3 **Stability During Transport:** Stable if protected from moisture
7.4 **Neutralizing Agents for Acids and Caustics:** Flood with water, rinse with dilute sodium bicarbonate or soda ash solution
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

1 Eastman Organic Chemicals
343 State Street
Rochester, N.Y. 14650

2 Aldrich Chemical Co.
940 W. Saint Paul Ave.
Milwaukee, Wis. 53233

3 Gallard Schlesinger Chemical Mfg. Co.
584 Mineola Ave.
Carle Place, N.Y. 11514

10 SHIPPING INFORMATION

10.1 **Grades of Purity:** Analytical, Commercial
10.2 **Storage Temperature:** Ambient
10.3 **Inert Atmosphere:** Padded
10.4 **Venting:** Pressure-vacuum

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 446-3)

A-O

12 HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:** Corrosive liquid
12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed
12.3 **NFPA Hazard Classifications:** Not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm.:** Liquid
13.2 **Molecular Weight:** 122.95
13.3 **Boiling Point at 1 atm:** 169°F = 76°C = 349°K
13.4 **Freezing Point:** −141.7°F = −96.5°C = 176.7°K
13.5 **Critical Temperature:** Not pertinent
13.6 **Critical Pressure:** Not pertinent
13.7 **Specific Gravity:** 1.66 at 16°C (liquid)
13.8 **Liquid Surface Tension:** Not pertinent
13.9 **Liquid-Water Interfacial Tension:** Not pertinent
13.10 **Vapor (Gas) Specific Gravity:** 4.24
13.11 **Ratio of Specific Heats of Vapor (Gas):** (est.) 1.144
13.12 **Latent Heat of Vaporization:** 106 Btu/lb = 59 cal/g = 2.5×10^5 J/kg
13.13 **Heat of Combustion:** Data not available
13.14 **Heat of Decomposition:** Not pertinent
13.15 **Heat of Solution:** Data not available
13.16 **Heat of Polymerization:** Not pertinent

Continued on page 5 and A

NOTES

ACC

ACETYL CHLORIDE

Common Synonyms

Liquid | Colorless | Sharp odor

Reacts violently with water. Irritating visible vapor cloud is produced.

Fire

FLAMMABLE
POISONOUS GASES ARE PRODUCED IN FIRE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause difficult breathing

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 448-4)

Issue warning - high flammability
corrosive
Restrict access
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** CH_3COCl
3 4 **IMCO/United Nations Numerical Designation:** 1717

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Pungent

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Safety goggles, rubber or plastic gloves, self contained breathing apparatus
5 2 **Symptoms Following Exposure:** Vapor irritates mucous membranes. Ingestion of liquid or contact with eyes or skin causes severe irritation
5 3 **Treatment for Exposure:** INHALATION: remove from exposure, seek medical attention. EYES: flush with copious amounts of water. SKIN: flush with copious amounts of water. INGESTION: give pints of water, do NOT induce vomiting
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Readily hydrolyzes to form hydrochloric and acetic acids. Oral human LD_{LO} = 1470 mg/kg (acetic acid). Grade 2 oral rat LD_{50} = 3310 mg/kg (acetic acid)
5 7 **Late Toxicity:** None
5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations
5 9 **Liquid or Solid Irritant Characteristics.** Severe skin irritant. Causes second and third-degree burns on short contact and is very injurious to the eyes
5 10 **Odor Threshold:** Acetic acid 1 ppm, hydrochloric acid 1 ppm

6 FIRE HAZARDS

6 1 **Flash Point:** 40°F C.C.
6 2 **Flammable Limits in Air:** Data not available
6 3 **Fire Extinguishing Agents.** Carbon dioxide, dry chemical
6 4 **Fire Extinguishing Agents Not to be Used:** Water, foam
6 5 **Special Hazards of Combustion Products:** When heated to decomposition, hydrogen chloride and phosgene, extremely poisonous gases, are evolved
6 6 **Behavior in Fire:** Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back
6 7 **Ignition Temperature:** 734°F
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate:** 2.6 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts vigorously with water, evolving hydrogen chloride fumes (hydrochloric acid)
7 2 **Reactivity with Common Materials:** Is highly corrosive to most metals in the presence of moisture
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Following dilution with water, limestone or sodium bicarbonate can be used
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD).** Data not available
8 4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm.** Liquid
13 2 **Molecular Weight:** 78.5
13 3 **Boiling Point at 1 atm:** 124°F = 51°C = 324°K
13 4 **Freezing Point:** −170°F = −112°C = 161°K
13 5 **Critical Temperature:** (est.) 475°F = 246°C = 519°K
13 6 **Critical Pressure:** (est.) 845 psia = 57 atm = 5.83 MN/m²
13 7 **Specific Gravity:** 1.1029 at 21°C (liquid)
13 8 **Liquid Surface Tension:** 26 dynes/cm = 0.026 N/m at 20°C
13 9 **Liquid-Water Interfacial Tension:** Not pertinent
13 10 **Vapor (Gas) Specific Gravity:** 3
13 11 **Ratio of Specific Heats of Vapor (Gas):** 1.1467
13 12 **Latent Heat of Vaporization:** 160 Btu/lb = 88 cal/g = 3.7 × 10⁵ J/kg
13 13 **Heat of Combustion:** −6 000 Btu/lb = −3 300 cal/g = −140 × 10⁵ J/kg
13 14 **Heat of Decomposition.** Not pertinent
13 15 **Heat of Solution:** (est.) 54 Btu/lb = −30 cal/g = −1.3 × 10⁵ J/kg
13 16 **Heat of Polymerization:** Not pertinent

Continued on pages 5 and 6

NOTES

ACE	# ACETYLENE

Common Synonyms
Ethyne
Ethine

Compressed gas | Colorless | Mild garlic odor

This flammable gas is slightly lighter than air and will disperse slowly unless confined

Fire

FLAMMABLE.
Containers may explode in fire
Flashback along gas trail may occur
May explode if ignited in an enclosed area

Exposure

GAS
Not irritating to eyes, nose or throat
If inhaled will cause headache, difficult breathing or loss of consciousness.

Water Pollution

Not harmful to aquatic life

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Ethine
Ethyne

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** C_2H_2

3.4 **IMCO United Nations Numerical Designation:** 2.0 1001

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Compressed gas

4.2 **Color:** Colorless

4.3 **Odor:** Distinctive garlic like

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air supplied respirator in areas of high concentration. Avoid all sources of ignition

5.2 **Symptoms Following Exposure:** Headache, dizziness and loss of consciousness may occur. Death from smothering may occur if oxygen content of the air is severely reduced by dilution with acetylene

5.3 **Treatment for Exposure:** INHALATION: no specific antidote known; remove victim to fresh air. Keep him warm and quiet and call doctor; recovery usually rapid. If patient is unconscious, administer oxygen; if breathing has stopped, give artificial respiration

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 500 ppm (suggested)

5.5 **Short-Term Inhalation Limits:** 100,000 ppm for 30 - 60 min

5.6 **Toxicity by Ingestion:** Not pertinent

5.7 **Late Toxicity:** Not pertinent

5.8 **Vapor (Gas) Irritant Characteristics:** None

5.9 **Liquid or Solid Irritant Characteristics:** Not pertinent

5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** Gas

6.2 **Flammable Limits in Air:**
2.5% - 80%

6.3 **Fire Extinguishing Agents:** Stop flow of gas

6.4 **Fire Extinguishing Agents Not to be Used:** Carbon dioxide, dry chemical and water sprays are not generally recommended because the discharged gas or volatile liquid may create a more serious explosion hazard

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** May explode in fire

6.7 **Ignition Temperature:** 581°F

6.8 **Electrical Hazard:** Class I, Group A

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** Under certain conditions forms spontaneously explosive compounds with copper

7.3 **Stability During Transport:** Stable as shipped

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 1000 cc 1 Ehr sunfish not killed fresh water

8.2 **Waterfowl Toxicity:** Not pertinent

8.3 **Biological Oxygen Demand (BOD):** Not pertinent

8.4 **Food Chain Concentration Potential:** Not pertinent

9. SELECTED MANUFACTURERS

1. Monochem Inc
P O Box 488
Geismar, Louisiana 70734
2. Monsanto Co
Monsanto Polymers & Petrochemicals Co
800 North Lindbergh Blvd
St Louis, Mo 63166
3. Union Carbide Corp
Chemicals & Plastics Div
270 Park Ave
New York, N Y 10017

10. SHIPPING INFORMATION

10.1 **Grades or Purity:** Commercial grade acetylene is supplied dissolved in acetone under pressure in cylinders

10.2 **Storage Temperature:** Data not available

10.3 **Inert Atmosphere:** Data not available

10.4 **Venting:** Data not available

11 HAZARD ASSESSMENT CODE

See Hazard Assessment Handbook CG 446-3

A B C

12. HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:** Flammable compressed gas

12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

Reactivity (Yellow)	2

13. PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Compressed gas

13.2 **Molecular Weight:** 26.04

13.3 **Boiling Point at 1 atm.:** −119°F = −84.0°C = 189.2°K

13.4 **Freezing Point:** Not pertinent

13.5 **Critical Temperature:** 95.3°F = 35.2°C = 308.4°K

13.6 **Critical Pressure:** 890.7 psia = 60.59 atm = 6.138 MN/m²

13.7 **Specific Gravity:** 0.613 at −81°C (liquid)

13.8 **Liquid Surface Tension:** Not pertinent

13.9 **Liquid-Water Interfacial Tension:** Not pertinent

13.10 **Vapor (Gas) Specific Gravity:** 0.9

13.11 **Ratio of Specific Heats of Vapor (Gas):** 1.23

13.12 **Latent Heat of Vaporization:** Not pertinent

13.13 **Heat of Combustion:** −20,747 Btu/lb = −11,526 cal/g = −482.57 × 10³ J/kg

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Not pertinent

Continued on page 5 and 6

NOTES

REVISED 1978

AFS

ACETYL PEROXIDE SOLUTION

Common Synonyms			
Diacetyl peroxide solution	Liquid	Colorless	Sharp odor
	Sinks in water		

Fire

Combustible
May explode on contact with combustibles.
Containers may explode in fire

Exposure

VAPOR
Irritating to eyes, nose and throat

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning. Oxidizing material
water contaminant
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Diacetyl peroxide solution

3.2 **Coast Guard Compatibility Classification.** Not applicable

3.3 **Chemical Formula:** $CH_3COOOOCCH_3$; dimethyl peroxide

3.4 **IMCO/United Nations Numerical Designation:** 5.2/1549

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Pungent

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective gloves, rubber apron and glasses

5.2 **Symptoms Following Exposure:** Contact with liquid causes irritation, reddening and blistering of eyes and skin. Ingestion irritates mouth and stomach

5.3 **Treatment for Exposure:** EYES: wash with plenty of water for at least 15 minutes and get medical attention. SKIN: wash with plenty of soap and water. Medical attention should be sought if irritation persists. INGESTION: induce vomiting; drink milk, egg white or water

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion.** Data not available

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics.** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 111°F O.C.

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Water, dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** May explode. Burns with accelerating intensity

6.7 **Ignition Temperature:** Explodes

6.8 **Electrical Hazard.** Data not available

6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** May ignite combustible materials such as wood

7.3 **Stability During Transport:** Heat and shock sensitive; stable; may separate at very low temperatures during transport

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)** Data not available

Continued on page 5 and 6

NOTES

ACD

ACRIDINE

Common Synonyms
Dibenzo[b,e]pyridine
10-Azaanthracene
Benzo[b]quinoline

Solid | Yellow | Weak irritating odor

Sinks in water

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: water contaminant
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 10-Azaanthracene
Benzo(b)quinoline
Dibenzo[b,e]pyridine

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** $C_{13}H_9N$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** Yellow

4 3 **Odor:** Weak, somewhat irritating

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust respirator, chemical goggles, rubber gloves

5 2 **Symptoms Following Exposure:** Inhalation irritates respiratory system and causes sneezing, coughing, and vomiting. Contact with liquid irritates eyes, skin, and mucous membranes. At high temperature and during sun exposure, damage to the cornea, skin, and mucous membranes may occur following the liberation of acridine vapor.

5 3 **Treatment for Exposure:** INHALATION: remove victim to fresh air; if breathing has stopped, give artificial respiration; if breathing is difficult, give oxygen. EYES: wash with copious amounts of water for 20 min.; seek medical attention. SKIN: wash with large amounts of water for 20 min.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2; oral rat LD_{50} = 1,000 mg/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** Not pertinent (combustible solid)

6 2 **Flammable Limits in Air:** Not pertinent

6 3 **Fire Extinguishing Agents:** Water, foam, monoammonium phosphate, dry chemical

6 4 **Fire Extinguishing Agents Not to be Used:** Carbon dioxide and other dry chemicals may not be effective

6 5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fire

6 6 **Behavior in Fire:** Sublimes before melting

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

NOTES

ARL

ACROLEIN

Common Synonyms
Acraldehyde
Acrylic aldehyde
Allyl aldehyde
Ethylene aldehyde
2-propenal
Acrylaldehyde

Water liquid | Colorless to light yellow | Sharp irritating odor

Floats and mixes with water. Poisonous flammable vapor is produced.

Fire

FLAMMABLE
POISONOUS GASES ARE PRODUCED WHEN HEATED
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
POISONOUS IF INHALED
Irritating to eyes, nose and throat

LIQUID
POISONOUS IF SWALLOWED
Will burn eyes
Irritating to skin

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - high flammability
Air contaminant
Restrict access
Evacuate area
Disperse and flush

2. LABELS

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Acraldehyde
Acrylic aldehyde
2 Propenal
Acrylaldehyde

3.2 **Coast Guard Compatibility Classification:** Aldehyde

3.3 **Chemical Formula:** $CH_2=CH-CHO$

3.4 **IMCO/United Nations Numerical Designation:** UN 1092

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless to slightly yellow

4.3 **Odor:** Extremely sharp, lachrymatory, piercing disagreeable extremely irritating acrid pungent

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical safety goggles and face shield; self-contained breathing apparatus, positive pressure hose mask, gas mask or industrial canister type gas mask; rubber safety shoes; clothing made of rubber or other impervious material

5.2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat, a feeling of pressure in the chest and shortness of breath, Nausea and vomiting are usually seen. Loss of consciousness. Exposure has been sufficiently great. Congestion in the chest may be present, causing air spaces and fluid may collect in the lungs. Causes external severe exposed person. Vapor also causes severe eye irritation, redness, weeping, and swelling of eyelid. Liquid [illegible] causes, with severe cases, reddening, blistering. Ingestion causes severe irritation of mouth and stomach.

5.3 **Treatment for Exposure:** Keep patient warm. Do not induce vomiting. Call physician immediately. *Antidote for this compound.* INHALATION: remove patient to fresh air. If breathing becomes difficult give oxygen. If breathing has stopped, start artificial respiration. EYES: immediately flush eyes with water for at least 5 minutes or until medical attention is not immediately available. Continue eye irrigation for another 15 minutes. Upon completion of the first 5 minutes of irrigation, a 1% procaine solution may be used to facilitate effective irrigation. Use eye anesthetic for short period. No other ointments should be used unless ordered by the physician. SKIN: flush at once with large volumes of water. While washing, slightly abrasive and large quantities of running water. INGESTION: Induce vomiting if large amounts of water. Induce vomiting by tickling back of throat. Do not give mechanical or chemical emetics. Dilute with glass of water. Keep patient warm and quiet.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.1 ppm

Continued on page 4

6. FIRE HAZARDS

6.1 **Flash Point:** [illegible]

6.2 **Flammable Limits in Air:** [illegible]

6.3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Poisonous vapor of acrolein is formed from hot liquid

6.6 **Behavior in Fire:** Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back. Polymerization may take place and containers may explode in fire

6.7 **Ignition Temperature:** 468°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 3.8 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable when inhibited

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Undergoes uncatalyzed polymerization reaction around 200°C. Light promotes polymerization

7.6 **Inhibitor of Polymerization:** Hydroquinone 0.10 to 0.25%

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 0.08 ppm/24hr sunfish TL$_m$ fresh water
0.055 ppm 96 hr oyster EC$_{50}$ salt water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** 33% 10 days

8.4 **Food Chain Concentration Potential:** None

13.13 **Heat of Combustion:** −12,500 Btu/lb = −6,950 cal/g = −290 × 10^5 J/kg

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** (est.) −50 Btu/lb = −28 cal/g = −1.2 × 10^5 J/kg

5 HEALTH HAZARDS (Cont'd)

5.5 **Short-Term Inhalation Limits:** [illegible] ppm for 0.2 ppm for 60 min

5.6 **Toxicity by Ingestion:** Grade 4, LD$_{50}$ below 50 mg/kg

5.7 **Late Toxicity:** Grade 4 oral rat LD$_{50}$ = 46 mg/kg. Grade 4 oral rabbit LD$_{50}$ = 7 mg/kg

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even in low concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first-degree burns on short exposure; may cause severe and deep burns on long exposure.

5.10 **Odor Threshold:** 0.21 ppm

AAM ACRYLAMIDE

Common Synonyms
Propenamide (50%)
Acrylic acid amide (50%)

Liquid | Colorless | Odorless

Sinks and mixes with water

Fire

Not flammable

Exposure

VAPOR
Irritating to eyes, nose and throat
Harmful if inhaled

LIQUID
Will warm skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Acrylic amide 50%
Propenamide 50%

3 2 **Coast Guard Compatibility Classification:** Not Listed

3 3 **Chemical Formula:** $CH_2=CHCONH_2$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Clear

4 3 **Odor:** None

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Safety glasses with side shields, clear body covering clothing, rubber gloves, boots, apron as dictated by circumstances, in absence of proper environmental control, use approved dust respirator

5 2 **Symptoms Following Exposure:** Has produced central nervous system damage, which is partly reversible. Effects can be produced by oral or skin contact as well as by injection. Chronic acrylamide poisoning can cause midbrain disturbance and peripheral neuropathy. Contact with liquid can cause moderate irritation of eyes and skin and may cause moderate transient corneal injury.

5 3 **Treatment for Exposure:** INHALATION: If ill effects occur, immediately get patient to fresh air. Keep him quiet and warm, and get medical help. INGESTION: If ingested, immediately give large amounts of water (or milk if immediately available), then induce vomiting and get medical help. EYES: Immediately flush with plenty of water for at least 15 min. and get medical help promptly. SKIN: Immediate, continuous and thorough washing in flowing water is imperative, preferably deluge shower with abundant soap; if burns are present, get medical help; discard all contaminated clothing and wearing accessories.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.3 mg/m

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 3, Oral rat LD_{50} = 170 mg/kg

5 7 **Late Toxicity:** Repeated exposure to small amounts may cause essentially reversible neurological effects

(Continued on page 4)

6. FIRE HAZARDS

6 1 **Flash Point:** Not flammable

6 2 **Flammable Limits in Air:** Not flammable

6 3 **Fire Extinguishing Agents:** Not pertinent

5 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

ACR	# ACRYLIC ACID

Common Synonyms			
Propenoic Acid	Watery liquid	Colorless	Irritating odor

Sinks and mixes with water. Irritating vapor is produced. Freezing point is 54° F.

Fire

Combustible.
POISONOUS GAS MAY BE PRODUCED IN FIRE.
Containers may explode when heated.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.

LIQUID OR SOLID
Will burn skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Isolate hazard area.
Restrict access.
Disperse and flush.

2 LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Propenoic acid
3.2 **Coast Guard Compatibility Classification:** Organic acid
3.3 **Chemical Formula:** $CH_2CHCOOH$
3.4 **IMCO United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Acrid

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical respirator at ambient temperatures to avoid inhalation of mist or fumes, rubber gloves if exposed to wet material, and goggles or face shield for splash exposure; safety shower and eye fountain may be required.

5.2 **Symptoms Following Exposure:** May burn skin or eyes upon short contact. INHALATION: eye and nasal irritation and lacrimation. INGESTION: may cause severe damage to the gastrointestinal tract.

5.3 **Treatment for Exposure:** Get medical attention promptly for all exposures. INHALATION: remove victim to fresh air. INGESTION: do NOT induce vomiting. SKIN OR EYES: flush with water for at least 15 min.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2. LD$_{50}$: 0.5 to 5 g/kg (rats)

5.7 **Late Toxicity:** Not pertinent

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating, such that personnel will not usually tolerate moderate or high vapor concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Full severe skin irritant; may cause burn and second degree burns after a few minutes of contact.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** (Glacial) 68°F (C.C.)
6.2 **Flammable Limits in Air:** (Tech.) 2.4% (V)
6.3 **Fire Extinguishing Agents:** Water spray, alcohol foam, dry chemical or carbon dioxide.
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent.
6.5 **Special Hazards of Combustion Products:** Toxic vapors are generated when heated.
6.6 **Behavior in Fire:** May polymerize and explode.
6.7 **Ignition Temperature:** 438°F
6.8 **Electrical Hazard:** Not pertinent.
6.9 **Burning Rate:** [illegible]

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Normally stable but will not dot state
7.4 **Neutralizing Agents for Acids and Caustics:** Wash with water; rinse with sodium bicarbonate solution.
7.5 **Polymerization:** May react violently on contact with acids, iron salts, or at elevated temperatures and release high energy rapidly; may cause explosion under confinement.
7.6 **Inhibitor of Polymerization:** Monomethyl ether of hydroquinone (MEHQ) 200 ppm, phenothiazine (for tech grade) 1000 ppm, hydroquinone (0.1%), methylene blue (0.15%), N,N-di-sec-butyl-p-phenylenediamine (0.05%).

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** 30% 10 days

(Compare Liquids)

NOTES

REVISED 1978

ACN — ACRYLONITRILE

Common Synonyms

Watery liquid | Colorless to light yellow | Irritating odor

Floats on water | Poisonous flammable vapor is produced

Fire

FLAMMABLE
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
POISONOUS IF INHALED
Irritating to eyes

LIQUID
POISONOUS IF SWALLOWED
Irritating to skin and eyes

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Fouling to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Isolate hazard area, deny entry
Cover liquid with plastic sheeting to reduce vaporization
Ventilate area
Dispose of by burning in approved incinerator equipped with afterburner and scrubber

2. LABELS

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Cyanoethylene
Fumigran
Ventox
Vinylcyanide

3.2 **Coast Guard Compatibility Classification:** Substituted allyl

3.3 **Chemical Formula:** CH_2CHCN

3.4 **IMCO United Nations Numerical Designation:** 1093

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Mild pungent odor. Odor threshold is 17 ppm

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Wear supplied mask, hood or coveralls in combination with supplied air mask for concentrations in low ppm range. For concentrations less than 25 ppm wear rubber or plastic gloves, chemical goggles or face mask, rubber boots, shaker suit or apron.

5.2 **Symptoms Following Exposure:** Symptoms of high concentration exposure: Vapor irritating to eyes, mucous membranes and respiratory tract. Headache, sneezing, abdominal pain, and vomiting. Nausea, weakness, dizziness, and collapse may follow. Liquid or vapor absorbed through the skin may cause irritation and redness of skin and eyes. Liquid may cause severe irritation and damage to eyes. Ingestion produces nausea, vomiting and abdominal pain.

5.3 **Treatment for Exposure:** Standard medical treatment is recommended for all routes of exposure.
INHALATION: Remove victim to fresh air. Keep victim warm and quiet. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing.
INGESTION: Induce vomiting by having victim drink two glasses of water and then touching back of throat with finger. Never induce vomiting or give anything by mouth to an unconscious person. Call physician immediately.
SKIN: Immediately flush skin with plenty of water for at least 15 minutes while removing contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse.
EYES: Immediately flush eyes with plenty of water for at least 15 minutes, then get prompt medical attention.
Do not store or consume food, beverages or tobacco products where this material is handled, processed or stored. Wash thoroughly after handling. Remove and wash contaminated clothing promptly. Educate employees about hazards, precautions, first aid procedures, personal protection and sanitation practices.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 20 ppm

5.5 **Short-Term Inhalation Limits:** 40 ppm for 30 minutes

5.6 **Toxicity by Ingestion:** Grade 3 LD$_{50}$ = 93 mg/kg

5.7 **Late Toxicity:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 30°F C.C. 0°C

6.2 **Flammable Limits in Air:** 3.0% - 17.0%

6.3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water or foam may cause frothing

6.5 **Special Hazards of Combustion Products:** When heated to decomposition ACN may emit poisonous fumes of cyanide and oxides of nitrogen

6.6 **Behavior in Fire:** Vapor is heavier than air and travels a considerable distance to source of ignition and flash back. May explode in fire and explode

6.7 **Ignition Temperature:** 898°F

6.8 **Electrical Hazard:** Class I, Group D

6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** Mixtures of acrylonitrile and copper alloys (brass, monel, etc.) should not be used. Peroxides, caustics, ammonia, and other amines should be destroyed. Mixtures with sulfuric acid, nitric acid, oleum, sulfur trioxide, and chlorosulfonic acid may polymerize violently.

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** May occur spontaneously in absence of oxygen or air saturated with water, especially when in contact with the products of alkali. Pure ACN, when stored in glass containers and exposed to light, may polymerize with rapid pressure development. The polymer or products may be hazardous and may explode. See section 10.

7.6 **Inhibitor of Polymerization:** Methylhydroquinone (35-45 ppm)

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 48 ppm 24 hr at the 50% kill point in fresh water
0.05 ppm 24 hr threshold lethal limit in salt water

8.2 **Waterfowl Toxicity:** Not pertinent

8.3 **Biological Oxygen Demand (BOD):** Not known

8.4 **Food Chain Concentration Potential:** Not indicated

13. PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid

13.2 **Molecular Weight:** 53.06

13.3 **Boiling Point at 1 atm:** 171°F = 77°C = 350°K

13.4 **Freezing Point:** -13°F = -25°C = 248°K

13.5 **Critical Temperature:** 366°F = 241°C = 514°K

13.6 **Critical Pressure:** 710 psia = 48 atm = 4.8 MN/m²

13.7 **Specific Gravity:** 0.806 at 20°C (liquid)

13.8 **Liquid Surface Tension:** 28 dynes/cm

13.9 **Liquid-Water Interfacial Tension:** Not known

13.10 **Vapor (Gas) Specific Gravity:** 1.8

13.11 **Ratio of Specific Heats of Vapor (Gas):** 1.4

13.12 **Latent Heat of Vaporization:** 265 Btu/lb = 147 cal/g = 6.15 x 10⁸ J/kg

13.13 **Heat of Combustion:** -14,300 Btu/lb = -7930 cal/g = -332 x 10⁸ J/kg

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Not pertinent

Continued on next card

5. HEALTH HAZARDS (Cont'd.)

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating such that personnel will not readily tolerate moderate or high vapor concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** If spilled on clothing and allowed to remain in contact, smarting and reddening of the skin. Large amounts may be absorbed through the skin and cause poisoning.

5.10 **Odor Threshold:** 21 ppm (vapor of chemical purity)

REVISED 1978

ADIPIC ACID

ADA

Common Synonyms	Solid crystals	White	Odorless
Adipic acid 1,4-Butanedicarboxylic acid Hexanedioic acid	Sinks and mixes slowly with water		

Fire

Combustible
Dust cloud may explode if ignited in an enclosed area

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing.

SOLID
Irritating to skin and eyes.
Harmful if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if entire water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Adipic acid
1,4-Butanedicarboxylic acid
Hexanedioic acid

3.2 **Coast Guard Compatibility Classification:** Data not available

3.3 **Chemical Formula:** HOOC(CH$_2$)$_4$COOH

3.4 **IMCO/UN Regulations Numerical Designation:** Data not available

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Crystalline

4.2 **Color:** White

4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Normal protection against exposure is finely divided organic solids (rubber gloves, plastic goggles)

5.2 **Symptoms Following Exposure:** Inhalation of vapor irritates mucous membranes of the nose and throat, causes coughing and sneezing. Contact with liquid irritates eyes and has a pronounced drying effect on the skin. May produce dermatitis.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air, get medical attention if irritation persists. EYES: flush with water for at least 15 min. SKIN: flush with water

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 1 Oral mouse LD_{50} = 1 900 mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** Combustible solid
401°F (C.C.) 196°C (C.C.)

6.2 **Flammable Limits in Air:** Data not available
10.15 mg/l

6.3 **Fire Extinguishing Agents:** Foam, water fog, carbon dioxide or dry chemical

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Melts and may decompose to give volatile acids, vapors of valeric acid and other substances. Dust may form explosive mixture with air

6.7 **Ignition Temperature:** 880°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** Not pertinent

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Rinse with dilute sodium bicarbonate or soda ash solution

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** <330 ppm, 24 hr, Sheepshead Minnow, fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Theoretically 1.35, 0.5 days

8.4 **Food Chain Concentration Potential:** None

NOTES

ADN — ADIPONITRILE

Common Synonyms			
1,4-Dicyanobutane	Liquid	Colorless to light yellow	Odorless
	Floats on water. Freezing point is 36° F		

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
Vapor may explode if ignited in an enclosed area

Exposure

LIQUID OR SOLID
Irritating to skin and eyes
If swallowed will cause nausea or vomiting

Water Pollution

Dangerous to aquatic life in high concentrations
Fouling to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook. CG 446-4)

Issue warning: poison, water contaminant
Mechanical containment
Should be removed

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms** 1,4-Dicyanobutane
3 2 **Coast Guard Compatibility Classification:** Nitrile
3 3 **Chemical Formula.** $C_6H_8N_2$
3 4 **IMCO/United Nations Numerical Designation.** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Water white to light yellow
4 3 **Odor:** Practically odorless

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Rubber gloves and clothing giving full body and face protection to avoid contact with skin. Air or oxygen mask.

5 2 **Symptoms Following Exposure.** Ingestion of a few ml may cause weakness, mental confusion, vomiting, rapid respiration, and tachycardia and convulsions. Headache and convulsions can result from exposure to vapor.

5 3 **Treatment for Exposure.** Symptomatic treatment. Cell physician. Thiosulfate should be considered. Administer vapor or amyl nitrite if patient is unconscious.

5 4 **Toxicity by Inhalation (Threshold Limit Value).** 50 ppm

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion.** Data not available

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** If present in high concentrations, vapors can cause slight smarting of the eyes or respiratory system and may also cause more severe symptoms such as headache and convulsions.

5 9 **Liquid or Solid Irritant Characteristics.** If spilled on clothing and allowed to remain may cause smarting and reddening of the skin. If absorbed by skin may cause more severe symptoms such as headache and convulsions.

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point.** 199°F O.C.
6 2 **Flammable Limits in Air:** LFL = 1.0% at 200°C
6 3 **Fire Extinguishing Agents.** Water spray, dry chemical, foam, or carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used.** Not pertinent
6 5 **Special Hazards of Combustion Products:** Toxic gases are generated in fire.
6 6 **Behavior in Fire.** Not pertinent
6 7 **Ignition Temperature.** Data not available
6 8 **Electrical Hazard.** Not pertinent
6 9 **Burning Rate.** 2.7 mm/min.

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water.** No reaction
7 2 **Reactivity with Common Materials.** No reaction
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization.** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** 1250 ppm 24 hr sunfish TL_m fresh water
8 2 **Waterfowl Toxicity.** Data not available.

NOTES

REVISED 1978

ALD — ALDRIN

Common Synonyms			
1,2,3,4,10,10-hexachloro-1,4,4a,5,8,8a-hexahydro-1,4-endo-exo-5,8-dimethanonaphthalene	Solid crystals or solution	Light to dark brown	Mild chemical odor
	Solid sinks in water; solution floats on water		

AVOID CONTACT WITH LIQUID OR SOLID. KEEP PEOPLE AWAY.
Wear goggles; self-contained breathing apparatus; and rubber overclothing (including gloves).
Stop discharge if possible.
Call fire department if water has been discharged.
Inform local health and pollution control agencies.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

Fire

Solid is not flammable but usually is dissolved in a combustible liquid.
POISONOUS GASES ARE PRODUCED WHEN HEATED.
Wear goggles; self-contained breathing apparatus; and rubber overclothing (including gloves).
Extinguish with water, dry chemical, foam or carbon dioxide.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID.
SOLID OR SOLUTION.
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED.
Irritating to skin, eyes.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have vomiting induced.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning; poison, water contaminant; liquid forms are flammable.
Mechanical containment (of liquid form) should be removed.

2. LABEL

POISON

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.**
endo-exo-1,2,3,4,10,10-hexachloro-1,4,4a,5,8,8a-hexahydro-1,4,5,8-dimethanonaphthalene
HHDN

3 2 **Coast Guard Compatibility Classification.** Not applicable

3 3 **Chemical Formula:** $C_{12}H_8Cl_6$

3 4 **IMCO/United Nations Numerical Designation** 6/1542

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** Tan to dark brown

4 3 **Odor:** Mild chemical

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** During prolonged exposure to mixing and loading operations wear clean synthetic rubber gloves and mask or respirator of the type passed by the U.S. Bureau of Mines for aldrin protection.

5 2 **Symptoms Following Exposure:** Ingestion, inhalation, or skin absorption of a toxic dose will induce nausea, vomiting, hyperexcitability, tremors, epileptiform convulsions, and ventricular fibrillation. Aldrin may cause temporary reversible kidney and liver injury. Symptoms may be seen after ingestion of less than 1 gram in an adult; ingestion of 25 mg has caused death in children.

5 3 **Treatment for Exposure:** SKIN CONTACT: Wash with soap and running water. If material gets into eyes, wash immediately with running water for at least 15 minutes; get medical attention. INGESTION: Call physician immediately; induce vomiting immediately. Repeat until vomit fluid is clear. Never give anything by mouth to an unconscious person. Keep patient prone and quiet. PHYSICIAN: administer barbiturates, intravenously; anticonvulsant therapy. Observe patient carefully because repeated treatment may be necessary.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.25 mg/m³

5 5 **Short-Term Inhalation Limits:** 1 mg/m³ for 30 min

5 6 **Toxicity by Ingestion** (grade 3; LD50 to 500 mg/kg (rat))

5 7 **Late Toxicity:** Chronic exposure produces benign tumors in mice.

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause slight smarting of the eyes or respiratory system if present in high concentrations. Effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of the skin.

5 10 **Odor Threshold:** Data not available.

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable

6 2 **Flammable Limits in Air.** Not pertinent

6 3 **Fire Extinguishing Agents.** Water spray, dry chemical, foam or carbon dioxide for fires involving solutions of aldrin in hydrocarbon solvents

6 4 **Fire Extinguishing Agents Not to be Used.** Not pertinent

6 5 **Special Hazards of Combustion Products:** Irritating fumes of hydrochloric acid and chlorinated decomposition products are given off.

6 6 **Behavior in Fire:** Not pertinent

6 7 **Ignition Temperature:** Not pertinent

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

CALL FOR MEDICAL AID
VAPOR
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
Irritating to eyes, nose and throat

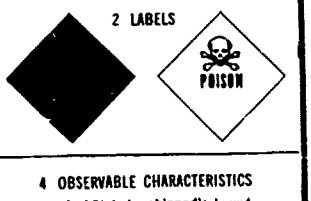
Move to fresh air
If in eyes, hold eyelids open and flush with plenty of water
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Will burn eyes

Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes



Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability, poison
Restrict access
Disperse and flush

2 LABELS

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:**
2 Propen 1-ol
Vinylcarbinol

3 2 **Coast Guard Compatibility Classification:**
Substituted allyl

3 3 **Chemical Formula:** $CH_2=CHCH_2OH$

3 4 **IMCO/United Nations Numerical Designation.** 3 2 1098

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Characteristic pungent sharp causes tears

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Organic canister or air pack, rubber gloves, goggles, other protective equipment as required to prevent all body contact

5 2 **Symptoms Following Exposure:** Vapors are quite irritating to eyes, nose and throat. Excessive exposure may be accompanied by complaints of photophobia and pain in the eyeball; pain may not begin until 1 to 4 hours after exposure. Liquid may cause first- and second-degree burns of the skin with blister formation; underlying part will become swollen and painful, and local muscle spasms may occur

5 3 **Treatment for Exposure:** INHALATION: remove victim from contaminated area and administer oxygen; get medical attention immediately. SKIN: remove liquid with soap and water. EYES: flush with continuous stream of water for 15 min

5 4 **Toxicity by Inhalation (Threshold Limit Value)** 2 ppm

5 5 **Short-Term Inhalation Limits:** 5 ppm for 30 min

5 6 **Toxicity by Ingestion.** Grade 3 LD$_{50}$ 50 to 500 mg/kg (mouse, rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations

5 9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first degree burns on short exposure; may cause secondary burns on long exposure

5 10 **Odor Threshold:** 0.78 ppm

6 FIRE HAZARDS

6 1 **Flash Point:** 72°F C.C., 90°F O.C.

6 2 **Flammable Limits in Air:**
2.5% - 18%

6 3 **Fire Extinguishing Agents.** Dry chemical, alcohol foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:**
Water may be ineffective

6 5 **Special Hazards of Combustion Products.**
Toxic vapors are generated when heated

6 6 **Behavior in Fire:** Vapor heavier than air and may travel a considerable distance to a source of ignition and flash back

6 7 **Ignition Temperature:** 829°F

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** 2.7 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:**
No reaction

7 3 **Stability During Transport:** Stable at ordinary temperatures and pressures

7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization**
Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity.**
10 ppm/*/threshold/fresh water
2.5 ppm/*/bivalve larvae/lethal/salt water
*Time period not specified

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):**
57% 10 days, 20% 5 days

8 4 **Food Chain Concentration Potential**
None noted

NOTES

REVISED 1978

ABR

ALLYL BROMIDE

Common Synonyms
3-bromopropene
Bromallylene
3-bromopropylene

Liquid | Colorless to light yellow | Irritating odor

Sinks in water. Flammable, irritating vapor is produced

Fire

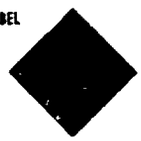
FLAMMABLE
POISONOUS GASES MAY BE PRODUCED IN FIRE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache, dizziness, coughing or difficult breathing

LIQUID
Irritating to skin and eyes

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - high flammability
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Bromallylene
3-Bromopropene
3-Bromopropylene

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $CH_2 = CH \cdot CH_2Br$

3.4 **IMCO/United Nations Numerical Designation:** 3.2/1099

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless to light yellow

4.3 **Odor:** Irritating, unpleasant, pungent

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles and face shield, protective clothing, self-contained breathing apparatus for high vapor concentrations

5.2 **Symptoms Following Exposure:** Inhalation of vapor irritates mucous membranes and causes dizziness, headache, and lung irritation. Contact with liquid irritates eyes and skin. Ingestion causes irritation of mouth and stomach

5.3 **Treatment for Exposure:** INHALATION: remove from exposure, if breathing is difficult, give oxygen, call physician. EYES: flush with water for at least 15 min, and call physician. SKIN: flush with water, get medical attention for skin irritation. INGESTION: do NOT induce vomiting, get medical attention

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 4, oral LD_{50} = 30 mg/kg (guinea pig)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations

5.9 **Liquid or Solid Irritant Characteristics:** Fairly severe skin irritant. May cause pain and second degree burns after a few minutes' contact

5.10 **Odor Threshold:** Data not available

NOTES

ALC

ALLYL CHLORIDE

Common Synonyms
3-Chloropropene
3-Chloropropylene

Liquid Colorless to yellowish brown Sharp irritating odor or red

Floats on water Flammable irritating vapor is produced

Avoid contact with liquid and vapor. Keep people away.
Stop leak if safe to do so. Dike and collect liquid.
Water spray may be useful in controlling vapors.
Small amounts of liquid spills may be absorbed into paper towels and evaporated in a fume hood.
Do not flush to sewer or allow to enter waterways.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
POISONOUS GASES ARE PRODUCED IN FIRE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Dry agents, sand, earth, foam, water fog or spray may be used to fight fire.
Avoid water stream. It may scatter and spread fire.
Use water spray to cool fire-exposed containers.

Exposure

CALL FOR MEDICAL AID
VAPOR
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
Irritating to eyes, nose and throat.
Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.
LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Will burn eyes
Keep victim quiet and warm.
Flush eyes with plenty of water.
IF IN EYES: Hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim CONSCIOUS: Induce vomiting; drink water or milk.
IF SWALLOWED and victim UNCONSCIOUS OR HAVING CONVULSIONS: Do not induce vomiting.
Keep victim warm and quiet.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-6)

Isolate hazard area.
Keep unauthorized personnel away.
Stay upwind.
Keep out of low areas.
Ventilate closed spaces before entering.
Water spray may be useful in controlling vapors.
Small amounts of liquid spills may be absorbed into paper towels and evaporated in a fume hood.
Do not flush to sewer or allow to enter waterways.
Notify local health and pollution control agencies.

2 LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms**
3-Chloropropene
3-Chloropropylene

3.2 **Coast Guard Compatibility Classification**
Substituted allyl

3.3 **Chemical Formula** CH_2CHCH_2Cl

3.4 **IMCO United Nations Numerical Designation.** 3.1 1100

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid

4.2 **Color:** Colorless to yellowish brown or red

4.3 **Odor** Sharp pungent irritating characteristic pungent

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Respiratory protection: Up to 2 ppm: chemical cartridge full face mask and canister (greater concentrations) self-contained breathing apparatus or its equivalent. Rubber or neoprene gloves, apron, boots, clean body covering clothes, chemical goggles, gas-tight goggles or equivalent, full face shield.

5.2 **Symptoms Following Exposure** Causes irritation of eyes, nose and throat. Breathing effects may be delayed.

5.3 **Treatment of Exposure:** INHALATION: if all effects disappear, no further treatment necessary. Keep warm and quiet. Get medical attention immediately. Start artificial respiration if breathing stops. INGESTION: prompts induce vomiting. Get medical attention immediately. No known antidote, treat symptoms. Call. EYES: immediately flush with plenty of water for at least 15 min. get medical attention. prompts. SKIN: remove clothing and flush affected area thoroughly.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** 1 ppm

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion:** Grade 2 LD50 = 0.8 g/kg (rat)

5.7 **Late Toxicity:** Lung, liver and kidney damage in experimental animals

5.8 **Vapor (Gas) Irritant Characteristics.** Vapor is moderately irritating, causing tearing, burning, inflammation; usually tolerate moderate, higher vapor concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Causes severe irritation of the skin and eyes; can be absorbed in harmful amounts. Prolonged exposure and may cause secondary burns on. Long exposure.

5.10 **Odor Threshold** 0.47 ppm

6 FIRE HAZARDS

6.1 **Flash Point** -20°F (-29°C)

6.2 **Flammable Limits in Air**
2.9% to 11.1%

6.3 **Fire Extinguishing Agents**
Foam, dry chemical, carbon dioxide.

6.4 **Fire Extinguishing Agents Not to be Used**
Water jet.

6.5 **Special Hazards of Combustion Products**
Reacts with strong hydroxides, alkali metals, amines, oxidizing agents.

6.6 **Behavior in Fire.** Not reported

6.7 **Ignition Temperature.** 459°F (237°C)

6.8 **Electrical Hazard** Not reported

6.9 **Burning Rate** Data not available

NOTES

REVISED 1978

ACF	# ALLYL CHLOROFORMATE

Common Synonyms
Allyl chlorocarbonate

Watery liquid Colorless Extremely irritating odor

Sinks in water. Flammable irritating vapor is produced.

Fire

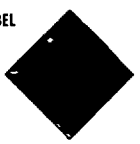
FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause difficult breathing.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Water Pollution



Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning, as appropriate.
Restrict access.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Allyl chlorocarbonate

3.2 **Coast Guard Compatibility Classification.** Not applicable

3.3 **Chemical Formula** $CH_2=CH-CH_2-O-COCl$

3.4 **IMCO/United Nations Numerical Designation:** 1722

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Extremely irritating causes tears; pungent

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Vapor proof protective goggles and face shield; plastic or rubber gloves, shoes and clothing; gas mask or self-contained breathing apparatus.

5.2 **Symptoms Following Exposure.** Vapor irritates eyes and respiratory tract. Contact with liquid causes eye and skin irritation and necrosis; irritates mouth and stomach.

5.3 **Treatment for Exposure.** INHALATION: remove from exposure, support respiration if necessary, call physician. EYES: if contacted, flush with vapor or liquid; flush with water for at least 15 min. SKIN: wash with large amounts of water for at least 15 min. INGESTION: do NOT induce vomiting, give water, call physician.

5.4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available.

5.5 **Short-Term Inhalation Limits.** Data not available.

5.6 **Toxicity by Ingestion:** Grade 3. LD$_{50}$: 500–5000 mg/kg.

5.7 **Late Toxicity:** Data not available.

5.8 **Vapor (Gas) Irritant Characteristics.** Vapor is severely irritating such that persons will not usually tolerate moderate or high vapor concentrations.

5.9 **Liquid or Solid Irritant Characteristics.** Liquid is severely irritant. May cause pain, reddening, second degree burns after a few minutes contact.

5.10 **Odor Threshold.** 1.4 ppm.

6 FIRE HAZARDS

6.1 **Flash Point.** 92°F (O.C.), 88°F (C.C.)

6.2 **Flammable Limits in Air.** Data not available.

6.3 **Fire Extinguishing Agents.** Dry chemical, foam, carbon dioxide.

6.4 **Fire Extinguishing Agents Not to be Used.** Water may be ineffective.

6.5 **Special Hazards of Combustion Products.** When heated to decomposition, emits highly toxic, phosgene gas.

6.6 **Behavior in Fire.** Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back.

6.7 **Ignition Temperature.** Data not available.

6.8 **Electrical Hazard.** Data not available.

6.9 **Burning Rate.** 4 mm/min. (est.)

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts slowly, generating hydrogen chloride.

7.2 **Reactivity with Common Materials.** Corrodes metals.

7.3 **Stability During Transport:** Stable.

7.4 **Neutralizing Agents for Acids and Caustics.** Flush with water, rinse with lime or sodium bicarbonate solution.

7.5 **Polymerization.** Not pertinent.

7.6 **Inhibitor of Polymerization.** Not pertinent.

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available.

8.2 **Waterfowl Toxicity:** Data not available.

NOTES

ATC

ALLYLTRICHLOROSILANE

Common Synonyms
Allyltrichlorosilane trichloride

Liquid | Colorless | Sharp, irritating odor

Reacts violently with water. Irritating visible vapor cloud is produced.

Fire

Combustible.
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

VAPOR

Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing.

LIQUID

Will burn skin and eyes.
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

4.3 **Odor:** Sharp pungent irritating like hydrochloric acid

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Acid vapor type respirators, protective rubber gloves, chemical goggles, other equipment necessary to protect skin and eyes

5.2 **Symptoms Following Exposure:** Inhalation of vapor irritates mucous membranes. Liquid causes severe burns of eyes and skin and severe internal burns if ingested.

5.3 **Treatment for Exposure:** Get medical attention after all exposures to this compound. INHALATION: remove from exposure, support respiration. EYES: flush with water 15 min. SKIN: flush with water. INGESTION: do NOT induce vomiting, give water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 3, LD_{50} 50 to 500 mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and can cause eye or lung injury. They cannot be tolerated even at low concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes.

5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** 100°F (O.C.), 95°F (C.C.)

6.2 **Flammable Limits in Air:** Data not available

6.3 **Fire Extinguishing Agents:** Dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water

6.5 **Special Hazards of Combustion Products:** Irritating vapors of hydrogen chloride and phosgene may form

6.6 **Behavior in Fire:** Difficult to extinguish. Re-ignition may occur

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 2.2 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts vigorously generating hydrogen chloride (hydrochloric acid)

7.2 **Reactivity with Common Materials:** Corrodes metal because of hydrochloric acid formed

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water, rinse with sodium bicarbonate

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

NOTES

ACL

ALUMINUM CHLORIDE

Common Synonyms Anhydrous aluminum chloride	Solid crystals or powder Yellow-orange to grayish-white Irritating odor Sinks in water Poisonous gas is produced on contact with water

[illegible]

Fire

Not flammable

[illegible]

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
Harmful if inhaled

[illegible]

SOLID
Will burn skin and eyes
Harmful if swallowed

[illegible]

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

[illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-6)

Disperse and flush with care
Issue water for corrosive

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Anhydrous aluminum chloride

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** $AlCl_3$

3 4 **IMCO United Nations Numerical Designation:** NO 1726

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** Orange to yellow through gray to white

4 3 **Odor:** Like hydrogen chloride (like hydrochloric acid

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** All personnel in the area should wear safety clothing, including fully closed goggles, rubber or plastic coated gloves, rubber shoes and overalls of a chemical resistant material. An acid vapor canister mask should be carried in case of emergency. In certain applications it may be advisable to wear this equipment in a standing base.

5 2 **Symptoms Following Exposure:** Contact with the skin or eyes in the presence of moisture causes thermal and acid burn

5 3 **Treatment for Exposure:** INGESTION: If victim is conscious have him drink water or milk. Do NOT induce vomiting. SKIN: flush immediately with plenty of water. For eye contact, flush with water for at least 15 mins. and get medical attention immediately

5 4 **Toxicity L_D Inhalation (Threshold Limit Value)** 5 ppm (hydrogen chloride)

5 5 **Short-Term Inhalation Limits:** 5 ppm for 5 min 50 ppm for 0 min 20 ppm for 20 min 10 ppm for 60 min (all for hydrogen chloride)

5 6 **Toxicity by Ingestion:** No systemic effects but severe burn of mouth

5 7 **Late Toxicity:** None recognized

5 8 **Vapor (Gas) Irritant Characteristics:** Vapor of hydrogen chloride is moderately irritating and trained personnel will not usually tolerate moderate or high vapor concentrations

5 9 **Liquid or Solid Irritant Characteristics:** Has severe skin irritant may cause pain and second-degree burns after a few minutes contact

5 10 **Odor Threshold:** 1 5 ppm hydrogen chloride

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable

6 2 **Flammable Limits in Air:** Not flammable

6 3 **Fire Extinguishing Agents:** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used:** Do not use water on adjacent fires

6 5 **Special Hazards of Combustion Products.** Not pertinent

6 6 **Behavior in Fire:** Reacts violently with water used in extinguishing adjacent fires

6 7 **Ignition Temperature:** Not flammable

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not flammable

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts violently with water liberating hydrogen chloride gas and heat

7 2 **Reactivity with Common Materials:** None if dry If wet it attacks metals because of hydrochloric acid formed flammable hydrogen is formed

7 3 **Stability During Transport:** Stable if kept dry and protected from atmospheric moisture

7 4 **Neutralizing Agents for Acids and Caustics:** Hydrochloric acid formed by reaction with water can be flushed away with water Rinse with sodium bicarbonate or lime solution

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Not pertinent

8 2 **Waterfowl Toxicity:** Not pertinent

8 3 **Biological Oxygen Demand (BOD)** Not pertinent

8 4 **Food Chain Concentration Potential.** Not pertinent

NOTES

AEA AMINOETHYLETHANOLAMINE

Common Synonyms
N-(2-Aminoethyl)-ethanolamine
2-[(2-Aminoethyl)amino] ethanol
N-(2-Hydroxyethyl)-ethylenediamine
N-Hydroxyethyl-2-ethanediamine

Liquid | Colorless | Mild ammonia odor

Sinks and mixes with water

Fire

Combustible

Exposure

LIQUID
Will burn skin and eyes.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Dispersal and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
2-(2-Aminoethylamino)ethanol
N-(2-Aminoethyl)ethanolamine
N-beta-Hydroxyethylethylenediamine
N-Hydroxyethyl-2-ethanediamine

3.2 **Coast Guard Compatibility Classification:**
Miscellaneous

13.15 **Heat of Solution:**
(est.) = 4 Btu/lb = 2 cal/g
= 8.37 × 10^3 J/kg

13.16 **Heat of Polymerization:** Not pertinent

(Continued on page 7 and 8)

NOTES

AMA	# AMMONIA, ANHYDROUS

Common Synonyms
Liquid Ammonia

Liquefied compressed gas Colorless Ammonia odor

Floats and boils on water. Poisonous vapor cloud is produced.

Fire

Combustible

Exposure

VAPOR
POISONOUS IF INHALED
Irritating to eyes, nose and throat

LIQUID
Will burn skin and eyes
Harmful if swallowed
Will cause frostbite

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

REVISED 1978

AAT	# AMMONIUM ACETATE

Common Synonyms			
Acetic acid, ammonium salt	Solid	White	Weak ammonia odor
	Sinks and mixes with water		

[illegible]

Fire

Not flammable
Irritating gases may be produced when heated
[illegible]

Exposure

CALL FOR MEDICAL AID
DUST
Irritating to eyes, nose and throat
If inhaled will cause difficult breathing
[illegible]
SOLID
Irritating to skin and eyes
If swallowed will cause nausea
[illegible]

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes.
[illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms** Acetic acid, ammonium salt

NOTES

ABF AMMONIUM BIFLUORIDE

Common Synonyms
Ammonium hydrogen fluoride
Acid ammonium fluoride
Ammonium acid fluoride

Solid — White — Odorless

Sinks and mixes with water

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Will burn skin and eyes.
If swallowed will cause nausea or vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - corrosive water contaminant
Restrict access
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.**
Acid ammonium fluoride
Ammonium acid fluoride
Ammonium hydrogen fluoride

3 2 **Coast Guard Compatibility Classification**
Not listed

3 3 **Chemical Formula** NH_4HF_2

3 4 **IMCO/United Nations Numerical Designation** 8127

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Solid

4 2 **Color** White

4 3 **Odor** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Bu Mines approved respirator, rubber gloves, safety goggles

5 2 **Symptoms Following Exposure** Inhalation of gas may cause irritation of the respiratory system. Ingestion causes irritation of mouth and stomach, vomiting, abdominal pain, convulsions, collapse, acute toxic nephritis. Contact with dust irritates eyes and may cause burns; irritation or skin. High concentrations of fluorine in the urine have been reported following skin contact.

5 3 **Treatment for Exposure** *Begin first aid as quickly as possible.* INHALATION remove victim to fresh air, INGESTION perform gastric lavage with dilute water or 1% calcium chloride solution, support respiration, call physician. EYES flush with water for at least 15 min, consult physician. In SKIN flush with water, treat burns. OTHER remove all contaminated clothing in the shower at once.

5 4 **Toxicity by Inhalation (Threshold Limit Value)** 2.5 mg/m³ (as fluorine)

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion.** Grade 3, LD_{50} = 50 mg/kg (as rat) (see p. 60 for explanation)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold.** Data not available

6 FIRE HAZARDS

6 1 **Flash Point** Not flammable

6 2 **Flammable Limits in Air** Not flammable

6 3 **Fire Extinguishing Agents** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used.** Do not apply water to adjacent fires

6 5 **Special Hazards of Combustion Products** Toxic ammonia and hydrogen fluoride gases may form in fire

NOTES

AMC — AMMONIUM CHLORIDE

Common Synonyms
Ammonium muriate
Sal ammoniac
Salmiac
Amchloride
Ammonyx

Solid | White | Odorless

Sinks and mixes slowly with water

[illegible]

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE
Irritating gases may be produced when heated
Wear goggles and self-[illegible] breathing [illegible]

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes nose and throat
If inhaled will cause coughing or difficult breathing
[illegible]

SOLID
Irritating to skin and eyes
If swallowed will cause nausea
[illegible]
IN EYES [illegible]
IF SWALLOWED [illegible] UNCONSCIOUS OR HAVING CONVULSIONS
[illegible]

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Amchlor, Ammonex, Ammonium muriate, Sal ammoniac, Salmiac
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** NH_4Cl
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Gloves of any material, safety glasses or chemical safety goggles, dust mask or respirator as necessary
5 2 **Symptoms Following Exposure:** Inhalation of fumes irritates respiratory passages. Ingestion irritates mouth and stomach. Fumes are irritating to eyes. Contact with skin may cause irritation
5 3 **Treatment for Exposure:** INHALATION: remove to fresh air. INGESTION: give large amount of water, get medical attention if irritation persists. EYES OR SKIN: flush with plenty of water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 10 mg/m³
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 2, oral rat LD_{50} = 1650 mg/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Odorless

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents:** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** Toxic and irritating ammonia and hydrogen chloride gases may form in fire
6 6 **Behavior in Fire:** May volatilize and condense on cool surfaces
6 7 **Ignition Temperature:** Not pertinent
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:**

NOTES

AMD — AMMONIUM DICHROMATE

Common Synonyms
Ammonium bichromate

Solid crystals or powder Orange to red Odorless

Sinks and mixes with water

Fire

FLAMMABLE
May cause fire on contact with combustibles
Containers may explode in fire

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Manual, CG-446-4

Isolate and deny entry to unprotected personnel
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Ammonium bichromate
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** $(NH_4)_2Cr_2O_7$
3.4 **IMCO/United Nations Numerical Designation:** None

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** Orange to red; hygroscopic orange-red
4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Use respiratory protective devices as necessary.
5.2 **Symptoms Following Exposure:** Inhalation causes irritation of mucous membranes. Chronic inhalation may cause perforation of the nasal septum. Ingestion causes irritation of the mouth, throat and stomach. External contact can cause irritation and ulceration of the skin and eyes. Repeated contact may cause skin sensitization.
5.3 **Treatment for Exposure:** INHALATION remove victim to fresh air and administer oxygen if breathing is difficult. EYES immediately flush with water for at least 15 minutes, occasionally lifting upper and lower lids. SKIN flush with water. Remove contaminated clothing and shoes. INGESTION induce vomiting if victim is conscious. Do not induce vomiting if victim is unconscious or convulsing. Give large quantities of water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.1 mg/m³
5.5 **Short-Term Inhalation Limits.** Not pertinent
5.6 **Toxicity by Ingestion.** Data not available
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Not pertinent

NOTES

AFR

AMMONIUM FLUORIDE

Common Synonyms
Neutral ammonium fluoride

Solid White Odorless

Sinks and mixes with water

[illegible] IN CASE OF FIRE, KEEP PEOPLE AWAY

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE
[illegible]

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
[illegible]

SOLID
POISONOUS IF SWALLOWED
Will burn skin and eyes
[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
[illegible]

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-6

Issue warning - water contaminant
Dispose of safely

2. LABELS

Hazard label required
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Neutral ammonium fluoride
3.2 **Coast Guard Compatibility Classification.** Not listed
3.3 **Chemical Formula** NH_4F
3.4 **IMCO/United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Solid
4.2 **Color** White
4.3 **Odor** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust mask if exposed to dust, safety goggles
5.2 **Symptoms Following Exposure:** Inhalation of dust causes irritation of the upper respiratory tract. Ingestion is harmful; readily soluble; relatively rapid absorption from the gastrointestinal tract. Contact with eyes causes irritation; chronic exposure may cause corneal damage. High concentrations may cause pulmonary edema. Skin contact may cause irritation.
5.3 **Treatment for Exposure:** Remove victim from exposure. If not breathing, INHALATION: give artificial respiration. If breathing is difficult, give oxygen. INGESTION: induce vomiting. Call physician immediately. EYES: Flush with plenty of water for at least 15 minutes. Call physician. SKIN: Wash with soap and water. Remove contaminated clothing. Wash clothing before reuse. Call physician.
5.4 **Toxicity by Inhalation (Threshold Limit Value)** 2.5 mg/m³
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion.** Data not available
5.7 **Late Toxicity** Data not available

AMH — AMMONIUM HYDROXIDE

(< 28% AQUEOUS AMMONIA)

Common Synonyms
Ammonia water
Aqueous ammonia

Water-white liquid [illegible] Ammonia odor

Floats and mixes with water. Irritating vapor is produced.

Fire

Not flammable

Exposure

VAPOR
Irritating to skin, eyes, nose and throat.
If inhaled, will cause severe vomiting, difficult breathing or loss of consciousness.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

NOTES

REVISED 1978

AID

AMMONIUM IODIDE

[illegible]	Solid	White	Odorless
	Sinks and mixes with water		

Fire

Not Flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE
Irritating gases may be produced when heated

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Issue warning - water contaminated
Dispose as litter

2. LABELS

No hazard identification label
under Federal regulations

3 CHEMICAL DESIGNATIONS

3.1 Synonyms: None
3.2 Coast Guard Compatibility Classification: Not listed

NOTES

ALT

AMMONIUM LACTATE

Common Synonyms			
DL-Lactic acid, ammonium salt Ammonium lactate syrup	Solid or liquid Sinks and mixes with water	White	Odorless

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE.

Exposure

DUST
Irritating to eyes, nose and throat.
If inhaled will cause coughing or difficult breathing.

LIQUID OR SOLID
Irritating to skin and eyes.
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

NOTES

AMN — AMMONIUM NITRATE

Common Synonyms	Solid pellets or flakes	White to light gray or brown	Odorless
Nitrate	Sinks and mixes with water		

Call Fire Department. Keep people away.
[illegible]

Fire

May cause fire and explode on contact with combustibles
CONTAINERS MAY EXPLODE IN FIRE
POISONOUS GASES MAY BE PRODUCED WHEN HEATED
[illegible]

Exposure

CALL FOR MEDICAL AID
DUST
Irritating to eyes, nose, and throat
If inhaled, may cause coughing or difficult breathing
[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
[illegible]

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-4

[illegible]

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 Synonyms: [illegible]
3.2 Coast Guard Commodity Classification: Ammonia
3.3 Chemical Formula: NH_4NO_3
3.4 IMCO United Nations Numerical Designation: [illegible]

4 OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped): [illegible]
4.2 Color: [illegible]
4.3 Odor: [illegible]

5 HEALTH HAZARDS

5.1 Personal Protective Equipment: Wear self-contained breathing apparatus
5.2 Symptoms Following Exposure: Irritation of eyes and mucous membranes
Absorption via ingestion or inhalation causes urination and acid urine. Large amount causes systemic acidosis and methemoglobinemia (abnormal hemoglobin)
5.3 Treatment for Exposure: Remove from exposure — symptoms reversible
5.4 Toxicity by Inhalation (Threshold Limit Value): [illegible]
5.5 Short-Term Inhalation Limits: [illegible]
5.6 Toxicity by Ingestion: [illegible]
5.7 Late Toxicity: [illegible]
5.8 Vapor (Gas) Irritant Characteristics: [illegible]
5.9 Liquid or Solid Irritant Characteristics: [illegible]
5.10 Odor Threshold: [illegible]

6 FIRE HAZARDS

6.1 Flash Point: [illegible]
6.2 Flammable Limits in Air: [illegible]
6.3 Fire Extinguishing Agents: Use flooding amounts of water in early stages of fire. When large quantities are involved in massive fires, control efforts should be confined to protection of exposures
6.4 Fire Extinguishing Agents Not to Be Used: [illegible]
6.5 Special Hazards of Combustion Products: [illegible]
6.6 Behavior in Fire: Mass explodes in fire. Supports combustion of many materials
6.7 Ignition Temperature: [illegible]
6.8 Electrical Hazard: [illegible]
6.9 Burning Rate: [illegible]

7 CHEMICAL REACTIVITY

7.1 Reactivity with Water: [illegible]
7.2 Reactivity with Common Materials: [illegible]
7.3 Stability During Transport: Heated strongly decomposes, giving off toxic gases and gases which support combustion. Undergoes detonation if heated under confinement
7.4 Neutralizing Agents for Acids and Caustics: [illegible]
7.5 Polymerization: [illegible]
7.6 Inhibitor of Polymerization: [illegible]

8 WATER POLLUTION

8.1 Aquatic Toxicity: Data not available
8.2 Waterfowl Toxicity: Data not available
8.3 Biological Oxygen Demand (BOD): Data not available
8.4 Food Chain Concentration Potential: None

NOTES

REVISED 1978

ANP — AMMONIUM NITRATE-PHOSPHATE MIXTURE

Common Synonyms	Solid	Grayish white	Odorless
	Sinks and mixes with water		

Fire

Not flammable
Will increase the intensity of a fire
POISONOUS GASES MAY BE PRODUCED IN FIRE
Irritating gases may be produced when heated
Containers may explode in fire

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes.
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning oxidizing material
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** NH_4NO_3 $(NH_4)_2HPO_4$ $NH_4H_2PO_4$ $CaHPO_4$ KCl K_2SO_4
3 4 **IMCO/United Nations Numerical Designation:** 9/

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Grayish white
4 3 **Odor:** Characteristic

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained breathing apparatus must be used when fighting fires At other times a dust mask is adequate
5 2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat Contact with eyes causes irritation
5 3 **Treatment for Exposure.** INHALATION move to fresh air EYES flush with water for 15 min
5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion.** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics.** Data not available
5 10 **Odor Threshold:** Odorless

6 FIRE HAZARDS

6 1 **Flash Point:** Not pertinent
6 2 **Flammable Limits in Air:** Not pertinent
6 3 **Fire Extinguishing Agents:** Water
6 4 **Fire Extinguishing Agents Not to be Used** Steam inert gases foam dry chemical
6 5 **Special Hazards of Combustion Products:** Toxic and irritating oxides of nitrogen may form in fires
6 6 **Behavior in Fire:** Will increase intensity of fire when in contact with combustible material Containers may explode
6 7 **Ignition Temperature:** Not pertinent
6 8 **Electrical Hazard** Not pertinent
6 9 **Burning Rate.** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** Corrodes metals to same degree as ordinary fertilizer the reaction is not hazardous
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization.** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD)** Data not available
8 4 **Food Chain Concentration Potential** None

9. SELECTED MANUFACTURERS

Chevron Chemical Co
940 Hensley Street
Richmond Calif 94804

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** Several grades of varying composition all of which contain less than 70% of ammonium nitrate the only hazardous ingredient
10 2 **Storage Temperature:** Ambient
10 3 **Inert Atmosphere:** Ventilated (natural)
10 4 **Venting** Open

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 446-3)

SS

12. HAZARD CLASSIFICATIONS

12 1 ***Code of Federal Regulations:*** Oxidizing material
12 2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed
12 3 **NFPA Hazard Classifications** Not listed

13. PHYSICAL AND CHEMICAL PROPERTIES

NOTES

ANU — AMMONIUM NITRATE-UREA SOLUTION

Common Synonyms

Liquid | Colorless | Slight ammonia odor

Sinks and mixes with water

Fire

Not flammable

Exposure

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

Dispersal Water

2. LABELS

Not specifically listed in Hazardous Materials Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Nitrogen solutions
Nitrogen solutions (non-pressure)

3.2 **Coast Guard Compatibility Classification**
Mix with like substances

3.3 **Chemical Formula:**
$NH_4NO_3 \cdot NH_2CONH_2 \cdot H_2O$

3.4 **IMCO/United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid

4.2 **Color** Colorless

4.3 **Odor** Weak ammonia

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Goggles or face shield, rubber gloves

5.2 **Symptoms Following Exposure** Liquid or solution is primary irritant to skin, eyes and mucous membranes. Solutions containing more than 2% free ammonia are more irritating

5.3 **Treatment for Exposure** EYES: wash with plenty of water for at least 15 minutes and seek medical attention. SKIN: remove contaminated clothing and wash skin with soap and water. INGESTION: induce vomiting immediately by giving two glasses of water and sticking finger down throat. Call physician immediately. Do not induce vomiting or give anything by mouth to unconscious person. INHALATION: remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Call physician.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5.5 **Short-Term Inhalation Limits** Data not available

5.6 **Toxicity by Ingestion** Grade 2 LD50 (rat) 3.0 g/kg

5.7 **Late Toxicity** None

5.8 **Vapor (Gas) Irritant Characteristics** Vapor or mist is irritating to eyes, mucous membranes and upper respiratory tract.

5.9 **Liquid or Solid Irritant Characteristics** Mild irritant to skin, eyes and mucous membranes. Prolonged contact may cause burns.

5.10 **Odor Threshold** Not specific

6 FIRE HAZARDS

6.1 **Flash Point** Not flammable

6.2 **Flammable Limits in Air** Not applicable

6.3 **Fire Extinguishing Agents** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used**
Not pertinent

6.5 **Special Hazards of Combustion Products**
Not pertinent

6.6 **Behavior in Fire** Water may boil violently, evaporate and decomposition products may be expelled.

6.7 **Ignition Temperature** Not pertinent

6.8 **Electrical Hazard** Not pertinent

6.9 **Burning Rate** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials**
No reaction

7.3 **Stability During Transport** Stable

7.4 **Neutralizing Agents for Acids and Caustics** Not pertinent

7.5 **Polymerization** Not pertinent

7.6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity** Data not available

8.2 **Waterfowl Toxicity** Data not available

8.3 **Biological Oxygen Demand (BOD)**
Data not available

8.4 **Food Chain Concentration Potential** None

9 SELECTED MANUFACTURERS

Mid-South Agricultural Chemicals
Inc.
P.O. Box
Memphis, Tennessee

W.R. Grace & Co.
Agricultural Chemicals Group
P.O. Box
Memphis, Tennessee

10 SHIPPING INFORMATION

10.1 **Grades or Purity:** Data are for non-pressure solutions containing 41.3% ammonium nitrate, 45.4% urea and 13% water. Other grades contain 0.70% free ammonia and 0.3% urea or are free ammonia and water. Those containing more than 2% free ammonia are stored under pressure or cooled to -108°F for hazards of these see Ammonium Hydroxide

10.2 **Storage Temperature.** Ambient

Continued on page 4

AOL

AMMONIUM OLEATE

Common Synonyms
Oleic acid, ammonium salt
Ammonia soap

Solid paste | Yellow brown | Weak ammonia odor

Sinks and mixes with water

Stop discharge if possible. Keep people away.
Avoid contact with solid.
Isolate and deny unauthorized access.
Notify local health and wildlife officials.

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Wear goggles and self-contained breathing apparatus.
Extinguish with dry chemical, CO2, water.

Exposure

CALL FOR MEDICAL AID
SOLID
Irritating to skin and eyes.
Harmful if swallowed
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES: Hold eyelids apart and flush with plenty of water.
IF SWALLOWED and victim CONSCIOUS, have victim drink water.
IF SWALLOWED and victim UNCONSCIOUS OR HAVING CONVULSIONS:
do not give anything by mouth.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of potable water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Disperse and flash

2. LABELS

No hazard label required by Code of Federal Regulations

NOTES

APB AMMONIUM PENTABORATE

Common Synonyms
Ammonium pentaborate tetrahydrate
Ammonium decaborate octahydrate

Solid | White | Odorless

Sinks and mixes slowly with water

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE.

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes.
If swallowed will cause nausea and vomiting.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:**
Ammonium decaborate octahydrate
Ammonium pentaborate tetrahydrate

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** $NH_4B_5O_8 \cdot 4H_2O$ or $(NH_4)_2B_{10}O_{16} \cdot 8H_2O$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** White

4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Disposable type respirator, side shield safety spectacles, full brimmed hard hat, goggles, ammonia gas mask

5 2 **Symptoms Following Exposure:** Inhalation of dust may result in non specific irritation of upper respiratory tract. Ingestion of large quantities may produce symptoms of non specific irritation of the gastrointestinal tract: nausea, vomiting, cramps, diarrhea. Contact with dust causes moderate eye irritation and minor skin irritation.

5 3 **Treatment for Exposure:** INHALATION: move from contaminated atmosphere, if respiratory discomfort persists see a physician. INGESTION: give large amounts of water or warm salty water to induce vomiting and continue until vomitus is clear, obtain medical attention if abdominal discomfort persists. EYES: flush with large quantities of running water for a minimum of 15 min, obtain medical help if irritation persists. SKIN: immediately flush affected areas with water, obtain medical help if irritation persists.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 10 mg/m³ (as boric oxide)

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

NOTES

© USAMRIID, Fort Detrick, Frederick, MD 21701

AMP	# AMMONIUM PERCHLORATE

Common Synonyms

Solid crystals White Odorless

Sinks and mixes with water

Wear goggles and self-contained breathing apparatus
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

May cause fire and explode on contact with combustibles
CONTAINERS MAY EXPLODE IN FIRE
POISONOUS GASES MAY BE PRODUCED IN FIRE
Wear goggles and self-contained breathing apparatus
Evacuate surrounding area
Combat large fires from protected location with unmanned hose holder or monitor nozzle

Exposure

FIRST AID

SOLID
Irritating to eyes and skin
Harmful if swallowed
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water (two glasses)

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Isolate hazard area and deny entry
Issue warning - oxidizing material
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** NH_4ClO_4
3.4 **IMCO United Nations Numerical Designation.** 9.1442

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** White
4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Data not available
5.2 **Symptoms Following Exposure:** Irritating to skin and mucous membranes
5.3 **Treatment for Exposure:** Data not available
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent
5.5 **Short-Term Inhalation Limits:** Not pertinent
5.6 **Toxicity by Ingestion.** Grade 2, oral rat LD_{50} = 3500 mg/kg
5.7 **Late Toxicity:** Not pertinent
5.8 **Vapor (Gas) Irritant Characteristics:** Not pertinent
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Water from protected location
6.4 **Fire Extinguishing Agents Not to be Used.** Not pertinent
6.5 **Special Hazards of Combustion Products.** Toxic gases are produced in fire
6.6 **Behavior in Fire:** May explode when involved in fire or exposed to shock or heat
6.7 **Ignition Temperature:** Not flammable
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not flammable

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** If contaminated with combustible material or water it can become an explosive which is sensitive to shock and friction. Readily detonates or explodes
7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** None
8.4 **Food Chain Concentration Potential:** None

13.13 **Heat of Combustion:** Not pertinent
13.14 **Heat of Decomposition:** Not pertinent
13.15 **Heat of Solution:** Not pertinent
13.16 **Heat of Polymerization:** Not pertinent

Continued on next page

NOTES

REVISED 1978

APE

AMMONIUM PERSULFATE

Common Synonyms
Ammonium peroxydisulfate
Peroxydisulfuric acid, diammonium salt

Solid | Light straw to colorless | Mild unpleasant odor

Sinks and mixes with water

Fire

Not flammable
Will increase the intensity of a fire
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
Harmful if inhaled

SOLID
Irritating to skin and eyes
Harmful if swallowed.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning. Avoid dusting material.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Ammonium peroxydisulfate; Peroxydisulfuric acid, diammonium salt
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** $(NH_4)_2S_2O_8$
3.4 **IMCO/United Nations Numerical Designation:** 9-1326

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** Light straw to colorless
4.3 **Odor:** Slight acrid

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** U.S. Bu. M. approved toxic dust mask, chemical goggles, rubber gloves, neoprene coated shoes
5.2 **Symptoms Following Exposure:** Inhalation produces slight toxic effects. Contact with dust irritates eyes and causes skin rash.
5.3 **Treatment for Exposure:** INHALATION: remove to fresh air. EYES: wash with water for 20 min. call a physician. SKIN: wash with water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 2; rat oral LD_{50} = 2 g/kg
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Not pertinent
6.2 **Flammable Limits in Air:** Not pertinent
6.3 **Fire Extinguishing Agents:** Water
6.4 **Fire Extinguishing Agents Not to be Used.**
6.5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen and sulfur may be produced in fire.
6.6 **Behavior in Fire:** Decomposes on heating to give off gas that increases pressure in fire.
6.7 **Ignition Temperature:** Not pertinent
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** Contact with grease, wood and other combustibles may result in a fire.
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 320 ppm, 48 hr daphnia TL_m, fresh water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** None
8.4 **Food Chain Concentration Potential:** None

13.16 **Heat of Polymerization:** Not pertinent

(Continued on page 5 and 6)

NOTES

APP

AMMONIUM PHOSPHATE

Common Synonyms
Monoammonium orthophosphate
Ammonium phosphate, dibasic
Secondary ammonium phosphate
Diammonium hydrogen phosphate
Diammonium orthophosphate

Solid | White | Weak ammonia odor

Sinks and mixes with water

Fire

Not flammable
Irritating gases may be produced when heated

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Personnel Protection Handbook CG-446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Ammonium phosphate, dibasic
Diammonium hydrogen phosphate
Diammonium orthophosphate
Monoammonium orthophosphate
Secondary ammonium phosphate

3.2 **Coast Guard Compatibility Classification:** Not Listed

3.3 **Chemical Formula:** $NH_4H_2PO_4$ and $(NH_4)_2HPO_4$

(Continued on page 4)

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** White
4.3 **Odor:** Diammonium: faint ammonia
Monoammonium: faint acid

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust mask, protective gloves and goggles. When diammonium phosphate is stored in closed area, self contained breathing apparatus is required to protect against ammonia fumes

5.2 **Symptoms Following Exposure:** Inhalation of monoammonium form causes irritation of mucous membranes. Inhaled diammonium form ammonia vapors can cause pulmonary edema and asphyxia. Contact with solid or with ammonia gas causes irritation of eyes and skin

5.3 **Treatment for Exposure:** INHALATION of exposed to ammonia fumes from diammonium phosphate: give artificial respiration and oxygen if needed; endotracheal. EYES: flush with water for at least 15 min. If irritation persists, get medical attention. SKIN: flush with water

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Data not available

ASL

AMMONIUM SILICOFLUORIDE

Common Synonyms
Ammonium fluosilicate

Solid | White | Odorless

Sinks and mixes slowly with water

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE
Irritating gases may be produced when heated

Exposure

CALL FOR MEDICAL AID

DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
Inhaled will cause coughing or difficult breathing

SOLID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

(Continued on page 3 and 4)

NOTES

ASM

AMMONIUM SULFAMATE

Common Synonyms
Amnate
Sulfamic acid, monoammonium salt
Ammonium amidosulfonate
Ammonium amidosulphate
AMS

Solid | White or brownish gray | Odorless

Sinks and mixes with water

Stop discharge if possible. Keep people away.
Avoid contact with solid and dust.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Wear goggles and self contained breathing apparatus.

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat.
If inhaled will cause coughing or difficult breathing.
If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

SOLID
Irritating to skin and eyes.
If swallowed will cause nausea or vomiting.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Amnate, Ammonium amidosulfonate, Ammonium amidosulphate, AMS, Sulfamic acid, monoammonium salt

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** $NH_2SO_3NH_4$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** White or brownish gray

4 3 **Odor:** None

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, goggles or face shield, rubber gloves

5 2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat. Ingestion causes gastrointestinal disturbances. Dust irritates eyes.

5 3 **Treatment for Exposure:** INHALATION: remove to fresh air. INGESTION: give large amount of water, get medical attention. EYES: flush with water for 15 min. SKIN: flush with water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 10 mg/m

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion:** Grade 2, oral rat LD_{50} = 1,600 mg/kg

5 7 **Late Toxicity:** Data not available

NOTES

REVISED 1978

ASF

AMMONIUM SULFIDE

Common Synonyms			
Ammonium sulfide solution Ammonium hydrogen sulfide solution Ammonium sulfhydrate solution	Liquid	Colorless to yellow	Strong odor of rotten eggs and ammonia
	Mixes with water. Irritating vapor is produced. Boiling point is 104°F		

Fire

FLAMMABLE.
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause dizziness, headache, coughing, or difficult breathing.

LIQUID
Will burn skin and eyes.
If swallowed will cause nausea

DO NOT INDUCE VOMITING

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: air contaminant, water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Ammonium hydrogen sulfide solution, Ammonium sulfhydrate solution, Ammonium sulfide solution

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** $(NH_4)_2S$, NH_4SH, H_2O

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Yellow to orange (fuming solutions); colorless to yellow

4 3 **Odor:** Strong odor of sulfide and ammonia

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained breathing apparatus, rubber or plastic gloves, splash goggles, rubber shoes

5 2 **Symptoms Following Exposure:** Inhalation of 500 ppm for 30 min. produces headaches, dizziness, bronchial pneumonia; 600 ppm for 30 min. can cause death. Ingestion causes severe irritation of mucous membranes and stomach. Contact with liquid causes severe burns of eyes and severe skin irritation. May be absorbed through skin and cause hydrogen sulfide poisoning.

5 3 **Treatment for Exposure:** *Get medical attention following all overexposures to this compound.* INHALATION: move victim to fresh air, give artificial respiration, oxygen, consult physician. INGESTION: give large amount of water. EYES OR SKIN: wash with large quantities of water for 15 min., consult physician.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics.** Data not available

5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** 72°F C C

6 2 **Flammable Limits in Air:** 4% - 46% (hydrogen sulfide)

6 3 **Fire Extinguishing Agents.** Water, dry chemical, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:**

6 5 **Special Hazards of Combustion Products:** Toxic hydrogen sulfide gas is released when solution is heated. If ignited, this will form irritating sulfur dioxide gas.

6 6 **Behavior in Fire:**

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** Severely corrodes copper, zinc and their alloys

7 3 **Stability During Transport:** Stable, but toxic hydrogen sulfide and ammonia gases may collect in enclosed spaces

7 4 **Neutralizing Agents for Acids and Caustics:** Dilute with water. Do not attempt to neutralize with acid.

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** 100 ppm/72 hr/goldfish/killed/fresh water; 248 ppm/48 hr/mosquitofish/TL_m/fresh water

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential:** None

NOTES

AMF	# AMMONIUM SULFITE

Common Synonyms

Solid White Odorless

Sinks and mixes slowly with water

Stop discharge if possible. Keep people away.
Avoid contact with solid and dust.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Wear goggles and self-contained breathing apparatus.

Exposure

CALL FOR MEDICAL AID.

DUST
Irritating to eyes, nose and throat.
If inhaled will cause coughing or difficult breathing.
If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

SOLID
Irritating to skin and eyes.
If swallowed will cause nausea.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
IF SWALLOWED and victim is NOT CONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

NOTES

ATR AMMONIUM TARTRATE

Common Synonyms
1 Tartaric acid, ammonium salt

Solid | White | Odorless

Sinks and mixes with water

Stop discharge if possible. Keep people away.
Call fire department.
Avoid contact with solid and dust.
Solid and liquid discharged are dangerous.
Notify local health and pollution control agencies.

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Wear goggles and self-contained breathing apparatus.
Extinguish with water.

Exposure

CALL FOR MEDICAL AID.
DUST
Irritating to eyes, nose and throat.
Harmful if inhaled.
If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.
SOLID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do not give anything by mouth.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

13 15 **Heat of Solution:** Data not available
13 16 **Heat of Polymerization:** Not pertinent

(Continued on pages 5 and 6)

NOTES

AMT — AMMONIUM THIOCYANATE

Common Synonyms
Ammonium sulfocyanate
Ammonium rhodanate
Ammonium rhodanide
Ammonium sulfocyanide
Thiocyanic acid, ammonium salt

Solid or solution (in water) | White | Odorless

Sinks and mixes with water

[illegible] discharge if possible. Keep people away
[illegible] Department
Avoid [illegible] material [illegible]
Avoid [illegible] with [illegible]
Isolate [illegible] for [illegible] hours
Notify [illegible] if [illegible] discharge occurs

Fire

Combustible Solid. Solution not flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE
Wear gloves and [illegible] clothing. Avoid [illegible] dust. Do not breathe dust
Extinguish with water

Exposure

CALL FOR MEDICAL AID
VAPOR OR DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing.
Remove victim to fresh air and flush with plenty of water
Treatment is symptomatic and supportive
Do not induce vomiting
LIQUID OR SOLID
Irritating to skin and eyes.
If swallowed will cause nausea or vomiting
Avoid [illegible] dust. Avoid [illegible]
Flush area [illegible] with [illegible] water
IF IN EYES [illegible] with [illegible] water [illegible]
IF SWALLOWED [illegible] — CONSCIOUS [illegible] water [illegible] or milk
IF SWALLOWED [illegible] UNCONSCIOUS OR HAVING CONVULSIONS [illegible] Bring victim to [illegible]

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify [illegible] authorities [illegible]
Notify [illegible] water [illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 448-4)

Issue warning — water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Ammonium rhodanate, Ammonium rhodanide, Ammonium sulfocyanate, Ammonium sulfocyanide, Thiocyanic acid, ammonium salt

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula.** NH_4SCN

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid, or solution in water

4 2 **Color:** White

4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber or plastic gloves, rubber or plastic apron, standard goggles

5 2 **Symptoms Following Exposure:** Inhalation of dust causes irritation of nose and throat. Ingestion causes dizziness, cramps, nervous disturbances. Dust irritates eyes. Can be absorbed through skin, prolonged contact may produce various skin eruptions, dizziness, cramps, nausea, and mild to severe disturbance of the nervous system

5 3 **Treatment for Exposure:** INHALATION: move to fresh air. INGESTION: give large amount of water, get medical attention. EYES OR SKIN: wash with water, consult physician

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2, oral rat LD_{50} = 854 mg/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** Solid mass be combustible, solution is not flammable

6 2 **Flammable Limits in Air:** Not pertinent

6 3 **Fire Extinguishing Agent:** Water

6 4 **Fire Extinguishing Agents Not to be Used:**

6 5 **Special Hazards of Combustion Products:** Decomposes to form ammonia, hydrogen sulfide, and hydrogen cyanide. Oxides of nitrogen may also form. All of these products are toxic

6 6 **Behavior in Fire:**

6 7 **Ignition Temperature:** Not pertinent

6 8 **Electrical Hazard:** Not pertinent.

6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:**

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:**
280 - 300 ppm/1 hr orange-spotted sunfish/killed fresh water
420 ppm/48 hr mosquitofish/TL m/fresh water

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD)**
< 0.6 to 0.10 lb lb 5 days

8 4 **Food Chain Concentration Potential**
None

9. SELECTED MANUFACTURERS

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** Reagent, Technical
50 - 65% solution, in water

10 2 **Storage Temperature:** Ambient

10 3 **Inert Atmosphere:** No requirement

10 4 **Venting:** Open

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 445-3)

A P S S

12. HAZARD CLASSIFICATIONS

12 1 **Code of Federal Regulations:** Not listed

12 2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

12 3 **NFPA Hazard Classifications:** Not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Solid or liquid

13 2 **Molecular Weight:** 76.12

13 3 **Boiling Point at 1 atm:** (solid on solid decomposes) 230°F = 110°C = 383°K

13 4 **Freezing Point:** (solid) 320°F = 160°C = 433°K

13 5 **Critical Temperature:** Not pertinent

13 6 **Critical Pressure:** Not pertinent

13 7 **Specific Gravity:**
> 1.1 at 20°C (solid)
1.1 - 1.15 at 20°C (solution)

13 8 **Liquid Surface Tension:** Not pertinent

13 9 **Liquid-Water Interfacial Tension:** Not pertinent

13 10 **Vapor (Gas) Specific Gravity:** Not pertinent

13 11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent

13 12 **Latent Heat of Vaporization:** Not pertinent

13 13 **Heat of Combustion:** Not pertinent

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution:**
133 Btu/lb = 75 cal/g = 3.1 × 10⁵ J/kg

13 16 **Heat of Polymerization:** Not pertinent

(Continued on page 7 of 8)

NOTES

ATF

AMMONIUM THIOSULFATE

Common Synonyms			
Ammonium hyposulfite	Solid or solution (in water)	Colorless liquid or white solid	Ammonia odor
	Sinks and mixes with water		

Stop discharge if possible. Keep people away.
Avoid contact with liquid and solid.
Avoid contact with solid and dust.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Wear goggles and self-contained breathing apparatus.

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat.
If inhaled will cause difficult breathing.
If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

SOLUTION OR SOLID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IN EYES, hold eyelids open and flush with plenty of water.
SWALLOWED (conscious) INDUCE VOMITING (give victim 1 or 2 glasses of water or milk).
IF SWALLOWED (unconscious or having convulsions) DO NOTHING except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Ammonium hypo, Ammonium hyposulfite
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** $(NH_4)_2S_2O_3$
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid, or solution in water
4.2 **Color:** Clear, colorless
4.3 **Odor:** Ammonia

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Respirator, rubber gloves, safety glasses, face shield, rubber apron, shield or suit as necessary to prevent skin contact
5.2 **Symptoms Following Exposure:** Inhalation of dust may irritate respiratory system. Ingestion could be harmful. Contact with eyes or skin may cause irritation.
5.2 **Treatment for Exposure:** INHALATION: move to fresh air. INGESTION: get medical attention at once. EYES: flush with plenty of water for at least 15 min. and get immediate medical attention. SKIN: wash with water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Data not available
5.7 **Late Toxicity:** Data not available

(Continued on pages 5 and 6)

NOTES

AML

AMYL ACETATE

Common Synonyms
Acetic acid
n-amyl ester

Watery liquid Colorless to yellow Banana odor

Floats on water. Flammable irritating vapor is produced.

Shut off ignition sources and call fire department.
Stop discharge if possible. Keep people away.
Avoid contact with liquid and vapor.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemical, alcohol foam, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID.

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause nausea, headache or dizziness.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and pollution control officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-6)

Issue warning: high flammability.
Mechanical containment.
Chemical and physical treatment.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Amyl acetate, mixed isomers; Pentyl acetates
3.2 **Coast Guard Compatibility Classification:** Ester
3.3 **Chemical Formula:** $CH_3COOC_5H_{11}$
3.4 **IMCO United Nations Numerical Designation.** 3.2 1104

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless to yellow
4.3 **Odor:** Pleasant banana-like; mild characteristic banana or pear-like odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air-supplied mask or chemical cartridge respirator; protective gloves; goggles; safety shower and eye bath.
5.2 **Symptoms Following Exposure:** Irritation of eyes, nose and throat. Dizziness, nausea, headache.
5.3 **Treatment for Exposure:** INHALATION: move victim to fresh air; call physician; administer oxygen. SKIN OR EYES: flush with water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 200 ppm
5.5 **Short-Term Inhalation Limits.** 200 ppm for 30 min
5.6 **Toxicity by Ingestion:** Grade 1; LD_{50} = 6.5 g/kg (rat)
5.7 **Late Toxicity:** None
5.8 **Vapor (Gas) Irritant Characteristics.** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentration. The effect is temporary.
5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin. If spilled on clothing and allowed to remain may cause smarting and reddening of the skin.
5.10 **Odor Threshold:** 0.08* ppm

6 FIRE HAZARDS

6.1 **Flash Point.** [illegible] 91°F C.C.
6.2 **Flammable Limits in Air:** 1.1 to 7.5% (v)
6.3 **Fire Extinguishing Agents:** Alcohol foam, dry chemical, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water in straight hose stream; water and sodium acid carbonate should not be used
6.5 **Special Hazards of Combustion Products:** Not pertinent
6.6 **Behavior in Fire:** Not pertinent
6.7 **Ignition Temperature:** 775°F (413°C)
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** 4.1 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
120 ppm 48 hr. daphnia; 11 ppm, tolerated water
180 ppm, 96 hr. scenedesmus; 11 ppm, fresh water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** 0.5, 0.8 lb/lb/5 days
8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

AAN n-AMYL ALCOHOL

Common Synonyms
Pentyl alcohol
1-Pentanol
n-Butylcarbinol

Liquid Colorless Mild sweet odor

Floats on water Flammable irritating vapor is produced

Stay upwind and keep out of low areas
Ventilate closed spaces before entering
Keep unnecessary people away
Isolate hazard area and deny entry
Stay away from ends of tanks
Wear self-contained breathing apparatus and rubber protective clothing
Notify local health and pollution control officials
Prevent runoff from fire control or dilution from entering streams, sewers or drinking water supply
Notify operators of downstream water intakes
Notify local authorities and pollution control agencies
Keep combustibles (wood, paper, oil, etc.) away from spilled material
Use water spray to reduce vapors or divert vapor cloud drift
Avoid all contact with liquid and vapor
Stay upwind
Keep out of low areas
Ventilate closed spaces before entering
Wear self-contained breathing apparatus and rubber protective clothing
Do not get water inside containers
Cool containers with flooding quantities of water until well after fire is out
Withdraw immediately in case of rising sound from venting safety device or discoloration of tank
Stay away from ends of tanks

Fire

FLAMMABLE.
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Extinguish with dry chemical, alcohol foam, carbon dioxide
Water may be ineffective on fire
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing, nausea, headache, or difficult breathing
Move to fresh air
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

LIQUID
Irritating to eyes
Harmful if swallowed
Not irritating to skin

Flush affected areas with plenty of water
IF IN EYES, hold eyelid open and flush with a steady stream of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes
Notify local health and pollution control officials
Notify operators of downstream water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
1-Amylalcohol
n-Butylcarbinol
1-Pentanol
Pentyl alcohol

3.2 **Coast Guard Compatibility Classification:** Alcohol

3.3 **Chemical Formula:** $CH_3(CH_2)_3CH_2OH$

3.4 **IMCO United Nations Numerical Designation.** 3.2 1105

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Like alcohol causes coughing

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Face splash shield, goggles, protective clothing, and cartridge respirator

5.2 **Symptoms Following Exposure:** Irritation to skin, eyes and respiratory tract, headache and vertigo, dyspnea and cough, nausea, vomiting and diarrhea. Drowsiness, deafness, delirium and occasionally fatal poisoning preceded by severe nervous symptoms, have been reported. Coma, glycosuria and methemoglobinemia can occur.

5.3 **Treatment for Exposure:** SKIN: remove chemical by thorough washing with soap and water. EYES: wash promptly with large quantities of water for at least 15 min. Call a doctor.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** 150 ppm for 30 min

5.6 **Toxicity by Ingestion:** Grade 2, 1 Dg/Kg to 5 g/kg

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin.

NOTES

AMY	n-AMYL CHLORIDE

Common Synonyms
Amyl chloride
1-Chloropentane
n-Butylcarbinyl chloride
1-Pentyl chloride
Chloride of amyl

Liquid | Colorless to purple | Pleasant odor

Floats on water | Flammable vapor is produced

Fire

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Irritating gases may be produced when heated

Exposure

VAPOR
Irritating to eyes, nose and throat

LIQUID
Irritating to skin and eyes

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Mechanical containment
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Amyl chloride, Chloropentane, n-Butylcarbinyl chloride, Pentyl chloride, Chloride of amyl

3.2 **Coast Guard Compatibility Classification:** Halogenated compounds (5)

3.3 **Chemical Formula:** $CH_3CH_2CH_2CH_2CH_2Cl$

3.4 **IMCO/United Nations Numerical Designation:** 1107

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless straw deep purple

4.3 **Odor:** Aromatic

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective goggles or face shield; rubber gloves

5.2 **Symptoms Following Exposure:** Inhalation causes mild irritation of mucous membranes. Ingestion of liquid or contact with vapor or eyes causes mild irritation.

5.3 **Treatment for Exposure:** INHALATION: remove to fresh air; apply artificial respiration if required. EYES: flush with water. SKIN: wash well with soap and water. INGESTION: induce vomiting; give water.

5.4 **Toxicity by Inhalation, (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 1 LD$_{50}$ Not 2.15 g/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** 95°F (35°C) CC

6.2 **Flammable Limits in Air:** 1.4 - ? %

6.3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Irritating hydrogen chloride and toxic phosgene may be formed in fires

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 900°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 4.5 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** Not reactive

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

1. Eastman Kodak Co.
Eastman Organic Chemicals
Rochester, N.Y. 14650

2. Lachat Chemicals, Inc.
20936 Ashland Avenue
Chicago Heights, Ill. 60411

3. Pfaltz and Bauer, Inc.
126-04 Northern Boulevard
Flushing, N.Y. 11368

10. SHIPPING INFORMATION

10.1 **Grades of Purity:** Commercial

10.2 **Storage Temperature:** Ambient

10.3 **Inert Atmosphere:** No requirement

10.4 **Venting:** Open (flame arrester)

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG-446-3)

ATU

12. HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:** Flammable liquid

12.2 **NAS Hazard Rating for Bulk Water Transportation:**

Category	Rating

Reactivity (Yellow)	0

13. PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid

13.2 **Molecular Weight:** 106.6

13.3 **Boiling Point at 1 atm:**
226°F = 108°C = 381°K

13.4 **Freezing Point:**
-136°F = -99°C = 174°K

13.5 **Critical Temperature:** Not pertinent

13.6 **Critical Pressure:** Not pertinent

13.7 **Specific Gravity:** 0.8834 at 20°C (liquid)

13.8 **Liquid Surface Tension:**
24.9 dynes/cm = 0.0249 N/m at 20°C

13.9 **Liquid-Water Interfacial Tension:**
reg 1.35 dynes/cm = 0.015 N/m at 20°C

13.10 **Vapor (Gas) Specific Gravity:** 3.7

13.11 **Ratio of Specific Heats of Vapor (Gas):**
1.0650

13.12 **Latent Heat of Vaporization:**
132.1 Btu/lb = 73.45 cal/g
= 3.073 × 10^5 J/kg

13.13 **Heat of Combustion:** -13,500 Btu/lb
= -7500 cal/g = -314 × 10^5 J/kg

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Not pertinent

(Continued on pages 5 and 6)

NOTES

AMM

n-AMYL MERCAPTAN

Common Synonyms
1-Pentanethiol
Amyl hydrosulfide
Amyl sulfhydrate
Amyl thioalcohol

Liquid | Colorless to yellow | Strong garlic odor

Floats on water. Flammable vapor is produced.

Fire

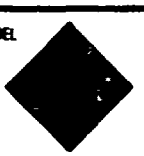
FLAMMABLE.
POISONOUS GASES ARE PRODUCED IN FIRE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Containers may explode in fire.

Exposure

VAPOR

LIQUID
Irritating to skin and eyes.

Water Pollution



Effect of low concentrations on aquatic life is unknown.
Foaming in shoreline.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-448-4)

Hazard rating: high flammability
Mechanical containment
Should be recovered
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1-Pentanethiol, Amyl hydrosulfide, Amyl sulfhydrate, Amyl thioalcohol

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** $CH_3CH_2CH_2CH_2CH_2SH$

3.4 **IMCO/United Nations Numerical Designation:** 12 1071

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless, water white to yellow

4.3 **Odor:** Strong offensive garlic

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Plastic gloves, goggles

5.2 **Symptoms Following Exposure:** Inhalation may cause nausea because of offensive odor; contact with eyes or skin causes slight irritation. Ingestion may cause vomiting.

5.3 **Treatment for Exposure:** INHALATION: remove to fresh air; apply artificial respiration if required. EYES: wash with water; see a physician. SKIN: wash with soap and water. INGESTION: induce vomiting if the does not involve unconsciousness.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** 0.3 mg/m³

6. FIRE HAZARDS

6.1 **Flash Point:** 0°F O.C.

6.2 **Flammable Limits in Air:** Data not available

6.3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Sulfur dioxide gas is formed

6.6 **Behavior in Fire:** Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 4.7 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

(Continued on page 5 and 6)

NOTES

AMK	n-AMYL METHYL KETONE

Methyl amyl Ketone
2-Heptanone
2-Acetylpentane
Methyl pentyl Ketone
Pentyl methyl ketone

Liquid | White | Penetrating fruity odor

Floats and mixes slowly with water

Fire

Combustible

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause dizziness, headache, or difficult breathing

LIQUID
Irritating to skin and eyes.
If swallowed will cause nausea or vomiting

Water Pollution

Effects of low concentrations on aquatic life is unknown
Foaming in shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Isolate warning water containment
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 2-Heptanone, 2-Ketoheptane, Methyl amyl ketone, Methyl pentyl ketone, Pentyl methyl ketone

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** $CH_3CH_2CH_2CH_2CCH_3O$

3.4 **IMCO/United Nations Numerical Designation:** 1110

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Characteristic

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Gloves and goggles

5.2 **Symptoms Following Exposure:** Inhalation of concentrated vapor may have narcotic effect. Ingestion causes gastrointestinal disturbances. Contact with eyes causes irritation. Prolonged and repeated contact with skin may cause defatting with resultant irritation.

5.3 **Treatment for Exposure:** INHALATION: move to fresh air. INGESTION: give medical attention. EYES: flush with water for 15 to 20 min. SKIN: flush affected areas with water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm suggested

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 650 mg/kg (rats)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** 0.037 ppm

6. FIRE HAZARDS

6.1 **Flash Point:** 109°F (C.C.) (42.8°C)

6.2 **Flammable Limits in Air:** 1.1% - 7.9%

6.3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

(Continued on page 7-AMK-2)

NOTES

ANT

n-AMYL NITRATE

Common Synonyms
Mixed primary amyl nitrates
Diesel ignition improver

Liquid | Colorless to light straw | Ether like odor

May float or sink in water

Stop discharge if possible. Keep people away.
Avoid contact with liquid and vapor.
Shut off ignition sources. Call fire department.
Stay upwind. Use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
May explode if exposed to heat or flames

Wear goggles and self contained breathing apparatus.
Extinguish with dry chemicals, foam, water or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache

If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
If swallowed will cause nausea or headache

Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: air contaminant
Restrict access
Mechanical containment
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms** Diesel ignition improver, Mixed primary amyl nitrates
3 2 **Coast Guard Compatibility Classification.** Not listed
3 3 **Chemical Formula:** $C_5H_{11}ONO_2$
3 4 **IMCO/United Nations Numerical Designation:** 3 3/1112

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid
4 2 **Color:** Light straw, water white
4 3 **Odor** Ethereal

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Respirator with canister for vapors at high concentrations
5 2 **Symptoms Following Exposure:** Inhalation or ingestion may cause headache, methemoglobin and nausea. Liquid and vapor irritate eyes. Contact with skin may cause slight irritation.
5 3 **Treatment for Exposure.** INHALATION: move to fresh air, support respiration, get medical attention. INGESTION: induce vomiting, get medical attention. EYES: irrigate thoroughly with water. SKIN: wash with soap and water.
5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available
5 5 **Short-Term Inhalation Limits** Data not available
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** Data not available

(Continued on pages 5 and 6)

NOTES

iso-AMYL NITRITE

CG Common Synonyms

Isopentyl estrite
Amyl nitrite
3-Methylbutyl nitrite

Liquid | Colorless to light yellow | Pleasant fruity odor

Floats on water. Poisonous gas is produced on contact with water.

Shut off ignition sources. Call fire department.
Wear goggles, self-contained breathing apparatus and rubber overclothing.
Ventilate area.
Avoid contact with liquid. Keep upwind.
Stop discharge if possible.
Isolate and remove the spilled material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE

POISONOUS GASES ARE PRODUCED IN FIRE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
DO NOT USE WATER ON FIRE
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
POISONOUS IF INHALED
Irritating to eyes, nose and throat.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Will burn skin and eyes
If swallowed will cause dizziness, headache or loss of consciousness
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water (two glasses at most).
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and pollution control agencies.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability
Restrict access
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Isopentyl nitrite
Amyl nitrite
3-Methylbutyl nitrite

3.2 **Coast Guard Compatibility Classification.** Not applicable

3.3 **Chemical Formula.** $(CH_3)_2CHCH_2CH_2ONO$

3.4 **IMCO/United Nations Numerical Designation.** 3.1/1113

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Light yellow, transparent

4.3 **Odor:** Pleasant, fragrant, fruity

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective goggles or face shield, self contained breathing apparatus, protective gloves and clothing

5.2 **Symptoms Following Exposure:** Inhalation or ingestion causes flushing of the face, pulsatile headache, disturbing tachycardia, cyanosis (methemoglobinemia), weakness, confusion, restlessness, faintness, and collapse. Contact with eyes or skin causes irritation.

5.3 **Treatment for Exposure:** INHALATION or INGESTION: place patient in recumbent position, if necessary, administer oxygen. For treatment of severe methemoglobinemia: transfuse with whole blood or give I.V. or I.M. a dose of 1.2 mg/kg methylene blue or an oral dose of 3.5 mg/kg. EYES: after contact with liquid, irrigate with large quantities of water for 15 min., call physician. SKIN: after contact with liquid, wash with large amounts water. Call physician.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 1; LD_{50} 5 to 15 g/kg

5.7 **Late Toxicity:** Methemoglobinemia may occur

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are nonirritating to the eyes and throat

5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes.

5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** 0°F O.C.

6.2 **Flammable Limits in Air:** Data not available

6.3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used.** Water

6.5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen are formed

6.6 **Behavior in Fire:** Containers may explode

6.7 **Ignition Temperature:** 410°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 3.4 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Decomposes on exposure to air, light, or water, evolving toxic oxides of nitrogen which are orange in color

7.2 **Reactivity with Common Materials:** May corrode metals if wet

7.3 **Stability During Transport:** Stable if kept sealed and not exposed to light

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization.** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD).** Data not available

8.4 **Food Chain Concentration Potential.** None

NOTES

ATS

n-AMYLTRICHLOROSILANE

Common Synonyms
Trichloropentylsilane
Pentylsilicon trichloride
Trichloroamylsilane

Liquid | Colorless | Sharp irritating odor

Reacts violently with water. Irritating visible vapor cloud is produced.

Avoid contact with liquid and vapor. Keep people away.
Wear goggles and self-contained breathing apparatus and rubber protective clothing, gloves.
Stop discharge if possible.
Call fire department.
Isolate and remove unmanned material.
Notify local health and pollution control agencies.

Fire

Combustible
POISONOUS GASES ARE PRODUCED IN FIRE
Wear goggles and self-contained breathing apparatus.
Extinguish with dry chemicals or carbon dioxide.
DO NOT USE WATER OR FOAM ON FIRE.

Exposure

Call for medical aid.

VAPOR

Irritating to eyes, nose and throat
If inhaled will cause difficult breathing

Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID

Will burn skin and eyes
Harmful if swallowed

Remove contaminated clothing, shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold lids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of public water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: corrosive
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Trichloropentylsilane
Pentylsilicon trichloride
Trichloroamylsilane

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** $CH_3CH_2CH_2CH_2CH_2SiCl_3$

3 4 **IMCO/United Nations Numerical Designation.** 8/1728

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Sharp, like hydrochloric acid pungent acrid

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Acid vapor type respiratory protection, rubber gloves, chemical worker's goggles

5 2 **Symptoms Following Exposure:** Inhalation causes irritation of mucous membrane. Contact of liquid with eyes or skin causes severe burns, and ingestion causes severe burns of mouth and stomach.

5 3 **Treatment for Exposure:** Get medical attention immediately after exposure to this compound. INHALATION: remove from exposure, support respiration. EYES: flush with water for 15 min. SKIN: flush with water. INGESTION: give large amounts of water.

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2, oral rat LD_{50} = 2,340 mg/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations.

5 9 **Liquid or Solid Irritant Characteristics.** Severe skin irritant. Causes second and third degree burns on short contact and is very injurious to the eyes.

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point.** 145°F O.C.

6 2 **Flammable Limits in Air:** Data not available

6 3 **Fire Extinguishing Agents:** Dry chemical, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used.** Water, foam

6 5 **Special Hazards of Combustion Products:** Irritating hydrogen chloride and toxic phosgene may be formed.

6 6 **Behavior in Fire.** Difficult to extinguish. Re-ignition may occur.

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** 2.5 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts vigorously to generate toxic hydrogen chloride gas (hydrochloric acid)

7 2 **Reactivity with Common Materials:** Corrodes metal

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** After flushing with water, rinse with sodium bicarbonate solution or lime water.

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential:** None

(Continued on page 5 and 6)

NOTES

ANL

ANILINE

Common Synonyms
Aminobenzene
Aniline oil
Phenylamine
Blue oil

Oily liquid | Colorless to yellowish brown | Weak odor

Sinks slowly in water

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY.
Wear chemical protective suit with self-contained breathing apparatus.
Stop discharge if possible.
Stay upwind and use water spray to "knock down" vapor.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible.
POISONOUS GAS IS PRODUCED WHEN HEATED.
Vapor may explode if ignited in an enclosed area.
Wear chemical protective suit with self-contained breathing apparatus.
Extinguish with water, dry chemical, foam or carbon dioxide.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID.

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED.
Irritating to eyes.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning - poison, water contaminant.
Restrict access.
Should be removed.
Chemical and physical treatment.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Aminobenzene
Aniline oil
Blue oil
Phenylamine

3.2 **Coast Guard Compatibility Classification.**
Aromatic amine

3.3 **Chemical Formula:** $C_6H_5NH_2$

3.4 **IMCO/United Nations Numerical Designation:** 6.1, 1547

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless to pale brown

4.3 **Odor:** Aromatic amine, like characteristic peculiar, strongly amine like

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Respirator for organic vapors, splashproof goggles, rubber gloves, boots.

5.2 **Symptoms Following Exposure:** ACUTE EXPOSURE: Blue discoloration of finger tips, cheeks, lips and nose, nausea, vomiting, headache and drowsiness followed by delirium, coma and shock. CHRONIC EXPOSURE: Loss of appetite, loss of weight, headaches, visual disturbances, skin lesions.

5.3 **Treatment for Exposure:** Remove victim to fresh air and call a physician at once. SKIN EYE CONTACT: immediately flush skin or eyes with plenty of water for at least 15 min. If excessive is present, shower with soap and warm water, with special attention to scalp and fingernails. Administer oxygen until physician arrives.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm

5.5 **Short-Term Inhalation Limits.** 50 ppm for 30 min; 5 ppm for 8 hr

5.6 **Toxicity by Ingestion:** Grade 3, LD_{50} 50 to 500 mg/kg

5.7 **Late Toxicity:** None recognized

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics.** If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** 0.5 ppm

6. FIRE HAZARDS

6.1 **Flash Point:** 160°F (O.C.), 158°F (C.C.)

6.2 **Flammable Limits in Air:** 1.3% (U.L.)

6.3 **Fire Extinguishing Agents.** Water, foam, dry chemical or carbon dioxide.

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent.

6.5 **Special Hazards of Combustion Products:** Toxic vapors are generated when heated.

6.6 **Behavior in Fire:** Not pertinent.

6.7 **Ignition Temperature:** 1418°F

6.8 **Electrical Hazard:** Not pertinent.

6.9 **Burning Rate:** 3.0 mm/min.

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction.

7.2 **Reactivity with Common Materials:** No reaction.

7.3 **Stability During Transport:** Stable.

7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water and rinse with dilute acetic acid.

7.5 **Polymerization:** Not pertinent.

7.6 **Inhibitor of Polymerization:** Not pertinent.

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
1020 ppm/1 hr/catfish/killed/fresh water
10 ppm/96 hr/goldfish/killed/fresh water

8.2 **Waterfowl Toxicity:** Data not available

Antimony (V) chloride
Antimony perchloride

Liquid | Colorless to brown | Unpleasant odor

Soaks in water. Irritating vapor is produced. Freezing point is 37° F.

[illegible]

Fire

Not flammable.
POISONOUS GASES ARE PRODUCED WHEN HEATED.
DO NOT USE WATER ON ADJACENT FIRES.

Exposure

[illegible] medical aid.

VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause coughing or difficult breathing.
[illegible]

LIQUID
Will burn skin and eyes.
If swallowed will cause nausea, vomiting or loss of consciousness.
[illegible]
IF IN EYES, [illegible] with plenty of water.
IF SWALLOWED, [illegible] CONSCIOUS, [illegible] water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
[illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: corrosive
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Antimony (V) chloride
Antimony perchloride

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** $SbCl_5$

3 4 **IMCO/United Nations Numerical Designation:** [illegible] 1730

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless to medium brown, yellow red brown

4 3 **Odor:** Pungent, offensive

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Organic vapor acid gas type canister mask, rubber, neoprene vinyl etc. gloves, chemical safety goggles, plus face shield where appropriate, acid resistant clothing, plus apron for splash protection, rubber safety shoes or boots, hard hat.

5 2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat. Contact of liquid with eyes or skin causes severe burns. Ingestion causes vomiting and severe burns of mouth and stomach. Overexposure by any route can cause bleeding, weak, slow pulse, low blood pressure, coma, convulsions, cardiac arrest.

5 3 **Treatment for Exposure:** INHALATION: remove to clean air, rinse mouth and gargle with water. If overexposure is serious, get prompt medical attention. EYES: flush eyes and eye lids thoroughly with large amounts of water, get prompt medical attention. SKIN: flush thoroughly with water, remove contaminated clothing, wash affected area with soap and water. If overexposure is serious, get prompt medical attention. INGESTION: dilute by drinking water, if vomiting occurs, administer more water. If overexposure is serious, get prompt medical attention.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.5 mg/m³ as antimony

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2, oral LD_{50} = 1,115 mg/kg (oral, 900 mg [illegible] ea pig)

5 7 **Late Toxicity:** An immunosuppressing may result

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations.

13 13 **Heat of Combustion:** Not pertinent

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution:** −211.9 Btu/lb = −117.7 cal/g = −4.92 × 10⁵ J/kg

13 16 **Heat of Polymerization:** Not pertinent

(Continued on page 5 and 6)

5. HEALTH HAZARDS (Cont'd.)

5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant, causes second and third-degree burns on short contact and is very injurious to the eyes

5 10 **Odor Threshold:** Data not available

APF ANTIMONY PENTAFLUORIDE

Common Synonyms

Liquid | Colorless | Sharp odor

Reacts violently with water. Poisonous gas is produced on contact with water. Freezing point is 45° F.

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY.
Wear goggles and self-contained breathing apparatus.
Stop discharge if possible.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable.
May cause fire on contact with combustibles.
POISONOUS GASES ARE PRODUCED WHEN HEATED.
DO NOT USE WATER OR FOAM ON FIRE OR ON ADJACENT FIRES.
Extinguish with dry chemicals or carbon dioxide.

Exposure

CALL FOR MEDICAL AID.

VAPOR

POISONOUS IF INHALED.
Irritating to eyes, nose and throat.
Move victim to fresh air.
If not breathing, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID

POISONOUS IF SWALLOWED.
Will burn skin and eyes.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids apart and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning; contain air contaminant.
Restrict access.
Disperse and flush.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms.
3.2 **Coast Guard Compatibility Classification:** Not applicable.
3.3 **Chemical Formula:** SbF_5
3.4 **IMCO/United Nations Numerical Designation:** No. 1732.

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid.
4.2 **Color:** Colorless.
4.3 **Odor:** Pungent.

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Acid gas type canister mask; rubber gloves; protective clothing; safety goggles and face shield.
5.2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat. Contact of liquid with eyes or skin causes severe burns. Ingestion causes vomiting and severe burns of mouth and throat. Overexposure by any route can cause bloody stools, slow pulse, low blood pressure, coma, convulsions, cardiac arrest.
5.3 **Treatment for Exposure:** INHALATION: remove to fresh air, rinse mouth with water, give oxygen if necessary to assist breathing, get medical attention. EYES: irrigate with copious amounts of water for at least 15 min., get medical attention. SKIN: flush with copious amounts of water, wash well with soap and water. INGESTION: dilute by drinking water if vomit has not occurred, drink more water, get medical attention promptly.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.5 mg/m³ as antimony.
5.5 **Short-Term Inhalation Limits:** Data not available.
5.6 **Toxicity by Ingestion:** Data not available.
5.7 **Late Toxicity:** Antimony poisoning may result.
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available.
5.9 **Liquid or Solid Irritant Characteristics:** Data not available.
5.10 **Odor Threshold:** Data not available.

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable (but see 2).
6.2 **Flammable Limits in Air:** Not flammable.
6.3 **Fire Extinguishing Agents:** Not pertinent.
6.4 **Fire Extinguishing Agents Not to be Used:** Do not use water or foam on adjacent fires.
6.5 **Special Hazards of Combustion Products:** Not pertinent.
6.6 **Behavior in Fire:** Gives off toxic hydrogen fluoride fumes when water is used to extinguish adjacent fire.
6.7 **Ignition Temperature:** Not pertinent.
6.8 **Electrical Hazard:** Not pertinent.
6.9 **Burning Rate:** Not pertinent.

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts vigorously to form toxic hydrogen fluoride (hydrofluoric acid).
7.2 **Reactivity with Common Materials:** When moisture is present, causes severe corrosion of metals (except steel) and glass. If confined and wet can cause explosion. May cause fire in contact with combustible material.
7.3 **Stability During Transport:** Stable.
7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water, rinse with sodium bicarbonate or lime solution.
7.5 **Polymerization:** Not pertinent.
7.6 **Inhibitor of Polymerization:** Not pertinent.

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available.
8.2 **Waterfowl Toxicity:** Data not available.
8.3 **Biological Oxygen Demand (BOD):** None.
8.4 **Food Chain Concentration Potential:** None.

(Continued on pages 5 and 6)

NOTES

APT	ANTIMONY POTASSIUM TARTRATE

Common Synonyms
Tartar emetic
Tartrated antimony
Tartarized antimony
Potassium antimonyl tartrate

Solid White Odorless

Sinks in water

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY
Wear dust respirator, rubber coveralls, and rubber gloves
Stop discharge if possible
Isolate and limit access to discharged material
Notify local health and pollution control agencies

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID

DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
If inhaled will cause dizziness, headache, coughing, or difficult breathing
In case of contact, immediately flush skin with plenty of water
If dust in eyes, wash out with plenty of water
If dust on clothing, remove clothing

SOLID
Will burn skin and eyes
If swallowed will cause nausea, dizziness, loss of consciousness
In case of contact, immediately flush skin with plenty of water
IF IN EYES, flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water
Induce vomiting and repeat flushing
IF SWALLOWED and victim is NOT CONSCIOUS OR HAVING CONVULSIONS
Do not induce vomiting; keep victim warm

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify public if on land or in water
Notify operators of water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4)

Issue warning: prevent use of contaminant
Restrict access
Dispose of flush

2. LABELS

5 HEALTH HAZARDS

Note *The respiratory system is the chief avenue of entrance of antimony and its compounds into the body.*

5.1 **Personal Protective Equipment:** Bu Mines approved respirator, chemical safety goggles or shield, leather or rubber safety shoes, rubber apron, rubber gloves

5.2 **Symptoms Following Exposure:** Inhalation of small amounts may cause irritation of the nose, throat and air passages, large exposures result in severe air passage irritation. Ingestion causes vomiting, purging with bloody stools, skin pulse and low blood pressure, slow shallow breathing, coma and convulsions, sometimes followed by death. Contact with eyes causes severe eye burns or at least severe eye irritation. Contact of dry chemical with skin may result in deep chemical burns.

5.3 **Treatment for Exposure:** INHALATION remove victim at once to fresh air and keep him warm but not hot, call a physician immediately, nasal passages may be irrigated from a gentle flowing hose. INGESTION induce vomiting by giving large quantities of warm salt water, have a physician see the patient at once. EYES flush with copious amounts of water for at least 15 minutes, call physician at once. SKIN flush with large quantities of flowing water followed by washing of skin surfaces with soap and water, remove all contaminated clothing promptly.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.5 mg/m³ as antimony

5.5 **Short-Term Inhalation Limits.** Data not available

4.2 **Color:** White
4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Approved respirator, rubber gloves
5.2 **Symptoms Following Exposure:** Resemble those of lead and arsenic poisoning. ACUTE POISONING: irritation of the mouth, nose, stomach and intestines, vomiting, purging with bloody stools, slow pulse and low blood pressure, slow, shallow breathing, coma and convulsions sometimes followed by death from cardiac and respiratory exhaustion. CHRONIC POISONING: dryness of throat, pain on swallowing, occasional vomiting and persistent nausea, susceptibility to fainting, diarrhea, loss of appetite and weight, giddiness, dermatitis, either pustular or ulcerative, anemia
5.3 **Treatment for Exposure:** If any symptoms, however slight, are noticed, the affected individual should be removed from contact with the chemical and placed under the care of a physician who is versed in the treatment necessary.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.5 mg/m
5.5 **Short-Term Inhalation Limits:** Not pertinent
5.6 **Toxicity by Ingestion:** Grade 3. LD$_{50}$ 50 to 500 mg/kg (guinea pig)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Not pertinent
5.9 **Liquid or Solid Irritant Characteristics:** Fairly severe skin irritant. May cause pain and second-degree burns after a few minutes' contact
5.10 **Odor Threshold:** Not pertinent

6. FIRE HAZARDS

6.1 **Flash Point:** Not flammable
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Not pertinent
6.6 **Behavior in Fire:** Not pertinent
6.7 **Ignition Temperature:** Not flammable
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not flammable

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 300 ppm/24 hr/fish/fresh water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** Data not available

NOTES

REVISED 1978

ATX	# ANTIMONY TRIOXIDE

Common Synonyms
Dantimony trioxide
Senarmontite
Valentinite
Exitelite
Weissspiessglanz

Solid | White | Odorless

Sinks in water

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY
Wear SCBA and rubber overclothing and gloves.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID

DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
If inhaled will cause coughing, difficult breathing or loss of consciousness.
If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

SOLID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
If swallowed will cause dizziness, nausea, vomiting or loss of consciousness.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk, and have victim induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning - person
Restrict access
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Dantimony trioxide
Exitelite
Flowers of antimony
Senarmontite
Valentinite
Weissspiessglanz

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** Sb_2O_3

3.4 **IMCO/United Nations Numerical Designation:** 6.1 1549

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White

4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber gloves, safety goggles, dust mask

5.2 **Symptoms Following Exposure:** Inhalation causes inflammation of upper and lower respiratory tract including pneumonitis. Ingestion causes irritation of the mouth, throat, stomach and intestines, vomiting, purging with bloody stools, slow pulse and low blood pressure, slow shallow breathing, coma and convulsions, sometimes followed by death. Contact with eyes causes conjunctivitis. Contact with skin causes dermatitis and thirsty.

5.3 **Treatment for Exposure:** *If any of the symptoms of poisoning given right are noticed, the affected individual should be removed from contact with the chemical and placed under observation.* INGESTION: induce vomiting. EYES: flush with water for at least 15 min. SKIN: wash well with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.5 mg/m³ (as antimony)

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 0, oral rat LD_{50} = 20,000 mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** Not flammable

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:**

6.6 **Behavior in Fire:**

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:**

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** >80 ppm/48 hr/Bluegill/soft water; >1 ppm/48 hr/Bluegill/hard or soft fresh water; Practically nontoxic

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** None

8.4 **Food Chain Concentration Potential:** High

9. SELECTED MANUFACTURERS

1. J. T. Baker Chemical Co.
Phillipsburg, N.J. 08865

2. McKesson Chemical Co.
1200 Terminal Tower
Cleveland, Ohio 44113

3. Gallard-Schlesinger Chemical Mfg. Co.
584 Mineola Ave.
Carle Place, N.Y. 11514

10. SHIPPING INFORMATION

10.1 **Grades of Purity:** Reagent, 99+%
Optical grade

10.2 **Storage Temperature:** Ambient

10.3 **Inert Atmosphere:** No requirement

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Not pertinent

(Continued on page 7 and 8)

NOTES

ASA	ARSENIC ACID

Common Synonyms			
Orthoarsenic acid Arsenic peroxide	Solid crystals or solution	White or colorless	Odorless
	Sinks and mixes with water. Freezing point is 95° F		

AVOID CONTACT WITH SOLUTION, SOLID AND DUST
KEEP PEOPLE AWAY
Wear rubber coveralls, including gloves
Stop discharge if possible
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID
DUST
POISONOUS IF INHALED
Irritating to eyes, nose and throat
Move victim to fresh air
If in eyes, hold eyelids open and flush with plenty of water
Breathing artificially if victim is not breathing
SOLUTION OR SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water, milk of milk and have victim induce vomiting
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: potable water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Arsenic peroxide
Orthoarsenic acid

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $As_2O_5 \cdot xH_2O$
$H_3AsO_4 \cdot \frac{1}{2}H_2O$

3.4 **IMCO/United Nations Numerical Designation:** No. 1553

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid, a concentrated water solution is sometimes shipped

4.2 **Color:** White

4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Calamine lotion and zinc oxide powder on burns and other skin areas, rubber gloves, U. S. Bureau of Mines approved dust respirator

5.2 **Symptoms Following Exposure:** Ingestion causes irritation, stomach weakness, other gastrointestinal symptoms. Overdose can cause uremia, poisoning. Not symptoms are delayed

5.3 **Treatment for Exposure:** Get medical attention after all exposures to this compound. Be alert for uremia, poisoning symptoms. SKIN: wash well with soap and water. INGESTION: induce vomiting, drink freely lime water, milk or raw egg, give cathartic

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.5 mg/m³ as As

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 4, oral LD_{50} = 48 mg/kg (rat)

5.7 **Late Toxicity:** Arsenic compounds may be carcinogenic

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are concentrating to eyes and throat

5.9 **Liquid or Solid Irritant Characteristics:** Moderate hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin

5.10 **Odor Threshold:** Odorless

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

NOTES

ARD

ARSENIC DISULFIDE

Common Synonyms
Realgar
Red arsenic glass
Red arsenic sulfide
Red orpiment
Ruby arsenic

Solid — Red brown — Odorless

Sinks in water

AVOID CONTACT OF SPILLED MATERIAL with people and animals

Fire

Not Flammable

Exposure

CALL FOR MEDICAL AID
DUST
POISONOUS IF INHALED
Harmful to skin
SOLID
POISONOUS IF SWALLOWED
Will burn eyes and skin

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** As_2S_2
3.4 **IMCO/United Nations Numerical Designation:** 1557

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** Red brown
4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Approved respirator, goggles, rubber gloves, clean protective clothing
5.2 **Symptoms Following Exposure:** Acute and sub-acute poisoning are not common. Repeated inhalation causes irritation of nose, laryngitis, mild bronchitis. Ingestion causes weakness, loss of appetite, gastrointestinal disturbances, peripheral neuritis, occasional hepatitis. Contact with eyes causes irritation. Irritates skin, especially where moist, if not treated may cause ulceration.
5.3 **Treatment for Exposure:** *Consult physician after all overexposure to this compound.* INHALATION: move to fresh air. INGESTION: induce vomiting by giving warm salt water, repeat until vomit is clear. EYES: flush with water for at least 15 min. SKIN: wash well with water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.5 mg/m³ (as arsenic)
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 4 LD_{50} < 50 mg/kg
5.7 **Late Toxicity:** Possible skin and lung cancer
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Odorless

NOTES

AST

ARSENIC TRICHLORIDE

Common Synonyms
Fuming liquid arsenic
Arsenic (III) trichloride
Arsenic chloride
Arsenous chloride
Caustic arsenic chloride

Liquid | Colorless | Unpleasant odor

Sinks and reacts in water. Poisonous visible vapor cloud is produced.

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY.
Wear goggles and self contained breathing apparatus.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not Flammable.
POISONOUS GASES ARE PRODUCED WHEN HEATED.

Exposure

CALL FOR MEDICAL AID.
VAPOR
POISONOUS IF INHALED.
Move victim to fresh air.
If breathing is difficult, give oxygen.
LIQUID
POISONOUS IF SWALLOWED.
Irritating to skin and eyes.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify health, wildlife and pollution control agencies.
Notify persons using nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison, water contaminant, corrosive.
Restrict access.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** Arsenic (III) trichloride, Arsenic chloride, Arsenous chloride, Arsenous chloride, Butter of arsenic, Caustic arsenic chloride, Caustic oil of arsenic, Fuming liquid arsenic
3.2 **Coast Guard Compatibility Classification** Not applicable
3.3 **Chemical Formula** $AsCl_3$
3.4 **IMCO/United Nations Numerical Designation** 6.1, 1560

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid
4.2 **Color** Colorless
4.3 **Odor** Acrid

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment** Safety goggles and face shield; acid type canister gas mask; rubber gloves; protective clothing.
5.2 **Symptoms Following Exposure.** Inhalation causes irritation of nose and throat. Contact of liquid with eyes or skin causes severe irritation. Ingestion causes weakness and severe irritation of mouth and stomach. Overdose can cause arsenic poisoning, but symptoms are delayed.
5.3 **Treatment for Exposure** Get medical attention after all exposures to this compound. Be alert for arsenic poisoning symptoms. INHALATION: remove to fresh air, give artificial respiration if needed. EYES: flush with water for at least 15 min. SKIN: flush with water. INGESTION: give large amounts of water, then induce vomiting, give lime water, milk, or raw egg, give a cathartic.
5.4 **Toxicity by Inhalation (Threshold Limit Value)** 0.5 mg/m³ as arsenic
5.5 **Short-Term Inhalation Limits.** Data not available
5.6 **Toxicity by Ingestion:** Grade 3, oral rat LD_{50} = 1.58 mg/kg, fatal human dose 70-180 mg depending on weight
5.7 **Late Toxicity:** Arsenic compounds may be carcinogenic
5.8 **Vapor (Gas) Irritant Characteristics.** Data not available
5.9 **Liquid or Solid Irritant Characteristics** Data not available
5.10 **Odor Threshold.** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable
6.2 **Flammable Limits in Air** Not flammable
6.3 **Fire Extinguishing Agents.** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used** Avoid water on adjacent fires
6.5 **Special Hazards of Combustion Products:** Irritating and toxic hydrogen chloride formed when involved in fire
6.6 **Behavior in Fire** Becomes gaseous and causes irritation. Forms hydrogen chloride (hydrochloric acid) by reaction with water used on adjacent fires.
6.7 **Ignition Temperature.** Not pertinent
6.8 **Electrical Hazard** Not pertinent
6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts with water to generate hydrogen chloride (hydrochloric acid)
7.2 **Reactivity with Common Materials** Corrodes metal
7.3 **Stability During Transport** Stable
7.4 **Neutralizing Agents for Acids and Caustics** Flush with water, rinse with sodium bicarbonate or lime solution
7.5 **Polymerization.** Not pertinent
7.6 **Inhibitor of Polymerization** Not pertinent

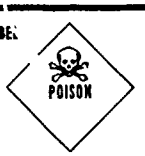
DUST

POISONOUS IF INHALED
Irritating to eyes, nose and throat
Move victim to fresh air
If in eyes hold eyelids open and flush with plenty of water
If breathing is difficult, give oxygen

SOLID

POISONOUS IF SWALLOWED
Irritating to skin and eyes.
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have victim drink water or milk and have victim induce vomiting
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do nothing except keep victim warm

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials
Notify operators of nearest water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison, water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** Arsenous acid, Arsenous acid anhydride, Arsenous oxide, Arsenic sesquioxide, White arsenic

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula.** As_2O_3

3.4 **IMCO/United Nations Numerical Designation** 6.1/1561

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Solid

4.2 **Color:** White

4.3 **Odor:** Like garlic, none

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Bureau of Mines approved respirator, protective gloves, eye protection, full protective coveralls

5.2 **Symptoms Following Exposure:** Ingestion causes irritation of mucous membrane, weakness, loss of appetite, gastrointestinal disturbances. Overdose can cause arsenic poisoning, but symptoms are delayed

5.3 **Treatment for Exposure:** Get medical attention after all exposures to this compound. Be alert for arsenic poisoning symptoms. SKIN: wash thoroughly with soap and water; remove contaminated clothing and shower with soap and water. For irritations, except for mild cases which disappear in a day or two, should have medical attention. INGESTION: vomiting should be induced and a physician should be called at once; drink freely of fresh water, sweet milk or raw eggs, followed by castor oil or any brisk cathartic

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.5 mg/m³ as arsenic

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 4, oral mouse LD_{50} = 45 mg/kg

5.7 **Late Toxicity:** Arsenic compounds may be carcinogenic

5.8 **Vapor (Gas) Irritant Characteristics.** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Odorless

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable

6.2 **Flammable Limits in Air.** Not flammable

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Toxic fumes of arsenic, trioxide and arsine may be formed in fire situations

6.6 **Behavior in Fire:** May volatilize and form toxic fumes of arsenic trioxide

6.7 **Ignition Temperature.** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water

7.5 **Polymerization.** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 5 Amg/l 96 hrs: salmon/harmful *
*Type of water not specified

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

ARSENIC TRISULFIDE

Common Synonyms			
Arsenic yellow King's gold King's yellow Orpiment Yellow arsenic sulfide	Solid	Yellow orange	Odorless
	Sinks in water		

AVOID CONTACT WITH SOLID AND DUST. Keep people away.
Wear chemical protective suit with self-contained breathing apparatus.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable
Wear chemical protective suit with self-contained breathing apparatus

Exposure

CALL FOR MEDICAL AID
DUST
POISONOUS IF INHALED
Harmful to skin
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.
SOLID
POISONOUS IF SWALLOWED
Will burn eyes and skin
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk, and have victim induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do not induce vomiting or give anything by mouth.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** As_2S_3
3 4 **IMCO/United Nations Numerical Designation.** 6.1/1557

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Yellow orange
4 3 **Odor.** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained breathing apparatus, goggles, rubber gloves, clean protective clothing
5 2 **Symptoms Following Exposure:** (Acute and sub-acute poisoning are not common.) Repeated inhalation causes irritation of nose, laryngitis, mild bronchitis. Ingestion causes weakness, loss of appetite, gastrointestinal disturbances, peripheral neuritis, occasional hepatitis. Contact with eyes causes irritation. Irritates skin, especially where moist, if not treated, may cause ulceration.
5 3 **Treatment for Exposure:** *Consult physician after all overexposures to this compound.* INHALATION: move to fresh air. INGESTION: induce vomiting by giving warm salt water, repeat until vomit is clear. EYES: flush with water for at least 15 min. SKIN: wash well with water.
5 4 **Toxicity by Inhalation (Threshold Limit Value).** 0.5 mg/m³ (as arsenic)
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 4. LD_{50} < 50 mg/kg
5 7 **Late Toxicity:** Possible skin and lung cancer

NOTES

ASP — ASPHALT

Common Synonyms
Asphaltic bitumen
Bitumen
Petroleum asphalt

Thick liquid (generally heated) Dark Brown to black Tar odor

May float or sink in water Rubbery solid is produced when cooked

Stop discharge if possible
Avoid contact with liquid
Call fire department
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible

Extinguish with water fog, foam, carbon dioxide
Cool exposed containers with water

Exposure

LIQUID
Will burn skin and eyes

Flush affected areas with plenty of water

Water Pollution

Effect of low concentrations on aquatic life is unknown
FOULING TO SL. RELINE
May be dangerous if it enters water intakes

Notify local health and pollution control agencies
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 448-4)

NOTES

REVISED 1978

ATZ	# ATRAZINE

Common Synonyms:
2-Chloro-4-ethylamino-6-isopropylamino-s-triazine
Aatrex Herbicide

Solid crystals — White

Sinks in water

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY.
Wear goggles and self-contained breathing apparatus.
Stay upwind. Use water spray to keep gas/vapor down.
[illegible]

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED WHEN HEATED

Exposure

CALL FOR MEDICAL AID

DUST
POISONOUS IF INHALED
Irritating to eyes, nose and throat
[illegible]
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim CONSCIOUS have victim drink water
to [illegible]
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do nothing except keep victim warm

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes
[illegible]
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim CONSCIOUS have victim drink water
to [illegible]
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do nothing except keep victim warm

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning. Water contamination
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 2-Chloro-4-ethylamino-6-isopropylamino-S-triazine, Aatrex herbicide
3 2 **Coast Guard Compatibility Classification:** To be developed
3 3 **Chemical Formula.** $C_8H_{14}ClN_5$
3 4 **IMCO/United Nations Numerical Designation.** 6 1 1609

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White
4 3 **Odor:** Data not available

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, goggles, rubber gloves
5 2 **Symptoms Following Exposure.** Irritates eyes and skin. If ingested, irritates mouth and stomach
5 3 **Treatment for Exposure.** EYES: flush with copious amounts of water for 15 min. SKIN: wash with large amounts of water. INGESTION: no specific antidote, induce vomiting and give a saline laxative and supportive therapy
5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available
5 5 **Short-Term Inhalation Limits.** Data not available
5 6 **Toxicity by Ingestion:** Grade 2, oral rat LD_{50} = 3080 mg/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are noninitating to eyes and throat
5 9 **Liquid or Solid Irritant Characteristics.** Causes smarting of the skin and first degree burns on short exposure and may cause second degree burns on long exposure
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point.** Not flammable
6 2 **Flammable Limits in Air.** Not flammable
6 3 **Fire Extinguishing Agents.** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products.** Irritating hydrogen chloride and toxic oxides of nitrogen may be formed
6 6 **Behavior in Fire:** Not pertinent
6 7 **Ignition Temperature:** Not pertinent
6 8 **Electrical Hazard.** Not pertinent
6 9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport.** Stable
7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent
7 5 **Polymerization.** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** 12.6 mg/l 48 hr rainbow trout TL_m fresh water
8 2 **Waterfowl Toxicity:** > 2000 mg/kg LD_{50}
8 3 **Biological Oxygen Demand (BOD).** Data not available
8 4 **Food Chain Concentration Potential.** None

13 11 **Ratio of Specific Heats of Vapor (Gas)** Not pertinent
13 12 **Latent Heat of Vaporization:** Not pertinent
13 13 **Heat of Combustion** (est.) = 9,900 Btu/lb = 5,500 cal/g = 230 × 10³ J/kg
13 14 **Heat of Decomposition.** Not pertinent
13 15 **Heat of Solution:** Not pertinent
13 16 **Heat of Polymerization.** Not pertinent

(Continued on pages 5 and 6)

NOTES

AZM	# AZINPHOSMETHYL

Common Synonyms
0,0-Dimethyl S-[(4-oxo-1,2,3-benzotriazine-3(4H)-yl) methyl] phosphorodithioate
Guthion insecticide
Gusathion insecticide

Solid — Brown

Sinks in water

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY.
Wear goggles and suits; obtain all health apparatus.
Stop spread of use water spray to knock down dust.
Isolate and remove discharged material.
Notify health and pollution control agencies.

Fire

Not flammable.
POISONOUS GASES MAY BE PRODUCED WHEN HEATED

Exposure

CALL FOR MEDICAL AID.

DUST
POISONOUS IF INHALED.
Move victim to fresh air.
If in eyes, hold eyelids open and flush with plenty of water.
If breathing is difficult, give oxygen.

SOLID
POISONOUS IF SWALLOWED.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing. Keep victim quiet and warm.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: water contaminant
Should be removed
Chemical and physical treatment

NOTES

BCR

BARIUM CHLORATE

Common Synonyms

Solid White Odorless

Sinks and mixes with water

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY
Wear goggles. Self-contained breathing apparatus and protective clothing.
Notify [illegible] Federal Agencies.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable
May cause fire on contact with combustibles
POISONOUS GASES MAY BE PRODUCED IN FIRE
Containers may explode in fire
Combat fires from safe distance, special [illegible]
Flood discharge area with water.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

DUST
POISONOUS IF INHALED
Irritating to eyes, nose and throat
Move victim to fresh air.
If no breathing, hold victim's mouth open and give water.
If breathing is difficult, give oxygen.

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, induce vomiting with water or milk and have victim drink plenty of water.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do not induce vomiting, and get victim to a doctor immediately.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: oxidizing material
Water contaminant
Should be removed
Chemical and physical treatment
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Barium chlorate monohydrate
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula.** $Ba(ClO_3)_2 \cdot H_2O$
3.4 **IMCO/United Nations Numerical Designation:** [illegible] 1445

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Solid
4.2 **Color:** White
4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face shield; dust respirator (U.S. Bureau of Mines approved); rubberized shoes and gloves; coveralls or other suitable outer clothing.

5.2 **Symptoms Following Exposure:** Inhalation causes irritation of upper respiratory system. Contact with eyes or skin causes irritation. Ingestion causes abdominal pain, nausea and vomiting, diarrhea, pallor, blueness, shortness of breath, excessive salivation, convulsive tremors, slow, hard pulse, elevated blood pressure, unconsciousness. Hemorrhages may occur in the stomach, intestines and kidneys. Muscular paralysis may follow.

5.3 **Treatment for Exposure:** Get medical attention. Alert doctor to possibility of barium poisoning, particularly if compound was swallowed. INHALATION: remove to fresh air. EYES: flush with copious quantities of water for at least 15 min. & get medical attention. SKIN: flush with water. INGESTION: induce vomiting and call physician. Have victim drink aqueous 10% solution of magnesium or sodium sulfate. For severe intoxication, calcium or a magnesium salt may have to be given I.V. with caution. Treatment otherwise is supportive and symptomatic.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** [illegible] mg/m³

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion.** Data not available

5.7 **Late Toxicity:** Barium poisoning

5.8 **Vapor (Gas) Irritant Characteristics:** Not pertinent

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Not pertinent.

6 FIRE HAZARDS

6.1 **Flash Point.** Not flammable (Bureau of Mines test)
6.2 **Flammable Limits in Air:** Not pertinent
6.3 **Fire Extinguishing Agents:** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used:** Data not available
6.5 **Special Hazards of Combustion Products:** Yields toxic fumes when involved in fire
6.6 **Behavior in Fire:** May cause an explosion when involved in a fire

NOTES

BPC

BARIUM PERCHLORATE

Common Synonyms

Solid | White | Odorless

Sinks and mixes with water

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY.
Wear rubber [illegible] clothing [illegible]
In case of fire, use [illegible]
[illegible]

Fire

Not flammable
May explode on contact with combustibles.
POISONOUS GASES MAY BE PRODUCED WHEN HEATED
Containers may explode in fire
Combat fire [illegible]
Dike discharge [illegible]
Cool exposed containers [illegible]

Exposure

CALL FOR MEDICAL AID

DUST

POISONOUS IF INHALED
Irritating to eyes, nose and throat
[illegible]
[illegible]
[illegible]

SOLID

POISONOUS IF SWALLOWED
Irritating to skin and eyes
[illegible]
[illegible]
IF IN EYES: hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS: have victim drink water [illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: oxidizing material
water contaminant
Should be removed
Chemical and physical treatment
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Barium perchlorate trihydrate
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** $Ba(ClO_4)_2 \cdot 3H_2O$
3.4 **IMCO/United Nations Numerical Designation:** 1.144*

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** White
4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face shield, dust respirator, rubber gloves and shoes, suitable coveralls
5.2 **Symptoms Following Exposure:** Inhalation or contact with eyes or skin causes irritation. Ingestion causes excessive salivation, vomiting, acute diarrhea, convulsive tremors, slow, hard pulse, and elevated blood pressure; hemorrhages may occur in the stomach, intestines, and kidneys; muscular paralysis may follow.
5.3 **Treatment of Exposure:** Get medical attention. Alert doctor to possibility of barium poisoning, particularly if compound was swallowed. INHALATION: remove to fresh air. EYES: flush with water for at least 15 min. SKIN: flush with water. INGESTION: oral administration of an aqueous 10% solution of magnesium or sodium sulfate; for severe intoxication, caution or a magnesium salt may have to be given I.V. with caution; treatment otherwise is supportive and symptomatic.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.5 mg/m
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Data not available

NOTES

BPO	# BARIUM PEROXIDE

Common Synonyms
Barium dioxide
Barium superoxide
Barium binoxide

Solid | Light gray to tan | Odorless

Sinks in water

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY.
Wear rubber work clothing, including gloves.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable
May cause fire on contact with combustibles
Containers may explode in fire
Combat fires from safe distance or protected location
Flood discharge area with water
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID

DUST
POISONOUS IF INHALED
Irritating to eyes, nose and throat
Move victim to fresh air
If in eyes, hold eyelids open and flush with plenty of water
If breathing is difficult, give oxygen

SOLID
POISONOUS IF SWALLOWED
Will burn skin and eyes.
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Toxic warning - oxidizing material
Water contaminant
Should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Barium dioxide
Barium superoxide
Barium binoxide

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** BaO_2

3.4 **IMCO/United Nations Numerical Designation:** No. 1449

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** Light grayish tan, grayish white

4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** NIOSH approved respirator, dust respirator, liquid proof clothing, gloves, chemical safety goggles, full cover clothing

5.2 **Symptoms Following Exposure:** Inhalation causes irritation of mucous membranes, throat, and nose. Contact with eyes or skin causes severe burns. Ingestion causes excessive salivation, vomiting, diarrhea, convulsions, tremors, weak, hard pulse, and elevated blood pressure. Severe burns occur in the stomach, intestines, and kidneys. Muscular paralysis may follow.

5.3 **Treatment for Exposure:** Get medical attention. Alert doctor to signs/symptoms of barium poisoning. Antidote if compound was swallowed. INHALATION: remove to fresh air. EYES: flush with water for 5 min. SKIN: flush with water. INGESTION: oral administration of a solution of magnesium or sodium sulfate. In severe intoxication, can give a magnesium salt. May have to be given IV with caution. Treatment otherwise is supportive and symptomatic.

NOTES

BZD BENZALDEHYDE

Common Synonyms
Oil of bitter almond
Benzoic aldehyde

Watery liquid Colorless to pale yellow Bitter almond odor

May float or sunk in water

Stop discharge if possible. Keep people away.
Avoid contact with liquid.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
Extinguish with water, dry chemical, CO2, or alcohol foam.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and see to it that he induces vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and pollution control officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning - water contaminant
Should be removed

2 LABELS

No hazard label required by
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Benzoic aldehyde
Oil of bitter almond

3.2 **Coast Guard Compatibility Classification**
Not applicable

3.3 **Chemical Formula:** C_6H_5CHO

3.4 **IMCO/United Nations Numerical Designation** 9/1990

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless to pale yellow

4.3 **Odor:** Like almonds

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical goggles and protective clothing

5.2 **Symptoms Following Exposure** Inhalation of concentrated vapor may irritate eyes, nose and throat. Liquid is irritating to the eyes. Prolonged contact with the skin may cause irritation.

5.3 **Treatment for Exposure:** SKIN EYE CONTACT: move victim to fresh air. Call physician immediately. Wash contaminated skin area with water. Flush eyes with plenty of water for at least 15 min. INGESTION: induce vomiting. Call a physician.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2. LD50 0.5 to 5 g/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.

5.9 **Liquid or Solid Irritant Characteristics.** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** 0.042 ppm

6. FIRE HAZARDS

6.1 **Flash Point** 148°F C.C., 169°F O.C.

NOTES

REVISED 1978

BNZ BENZENE

Common Synonyms
Benzol
Benzole

Watery liquid | Colorless | Gasoline-like odor

Floats on water. Flammable, irritating vapor is produced. Freezing point is 42°F.

Avoid contact with liquid and vapor. Keep people away.
Wear goggles and self-contained breathing apparatus.
Shut off gas. Shout orders and call fire department.
Keep adding water.
Stay upwind and use water spray to knock down vapor.
Isolate and restrict discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Wear goggles and self-contained breathing apparatus.
Extinguish with dry chemical, foam, or carbon dioxide.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause headache, difficult breathing, or loss of consciousness.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability.
Restrict access.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Benzol, Benzole
3.2 **Coast Guard Compatibility Classification:** Aromatic hydrocarbon
3.3 **Chemical Formula:** C_6H_6
3.4 **IMCO/United Nations Numerical Designation:** 3.2/1114

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Aromatic, rather pleasant aromatic odor characteristic odor

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Hydrocarbon vapor canister, supplied air or a hose mask, hydrocarbon insoluble rubber or plastic gloves, chemical goggles or face splash shield, hydrocarbon insoluble apron such as neoprene.

5.2 **Symptoms Following Exposure:** Dizziness, excitation, pallor, followed by flushing, weakness, headache, breathlessness, chest constriction, coma and possible death.

5.3 **Treatment for Exposure:** SKIN: flush with water, followed by soap and water, remove contaminated clothing and wash skin. EYES: flush with plenty of water until irritation subside. INHALATION: remove from exposure immediately. Call a physician. If breathing is irregular or stopped, start resuscitation, administer oxygen.

5.4 **Toxicity by Inhalation (Threshold Limit Value).** 25 ppm

5.5 **Short-Term Inhalation Limits:** 75 ppm for 30 min

5.6 **Toxicity by Ingestion:** Grade 3, LD_{50}: 801 to 5000 mg/kg

5.7 **Late Toxicity:** Leukemia

5.8 **Vapor (Gas) Irritant Characteristics:** If present in high concentrations, vapors may cause irritation of eyes or respiratory system. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics.** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** 4.68 ppm

6. FIRE HAZARDS

6.1 **Flash Point:** 12°F C.C.
6.2 **Flammable Limits in Air:** 1.4% - 7.9%
6.3 **Fire Extinguishing Agents:** Dry chemical, foam, or carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Not pertinent
6.6 **Behavior in Fire:** Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back.
6.7 **Ignition Temperature:** 1097°F
6.8 **Electrical Hazard:** Class I, Group D
6.9 **Burning Rate:** 6.0 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 5 ppm/6 hr/minnow: lethal/distilled water; 20 ppm/24 hr/sunfish: TL m/tap water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** 1.2 lb/lb/10 days
8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

BHC — BENZENE HEXACHLORIDE

Common Synonyms
1,2,3,4,5,6-Hexachlorocyclohexane
Lindane
BHC
Gammexane
Tri-6

Solid crystals or powder, or solution — Solid is light to dark brown — Musty odor

Solid sinks in water. Solution generally floats on water

Avoid contact with liquid and solid. Keep people away.
Wear goggles and self contained breathing apparatus.
Stop discharge if possible.
Call fire department.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Solid not flammable, but usually dissolved in combustible liquid.
POISONOUS GASES ARE PRODUCED WHEN SOLID IS HEATED OR WHEN SOLUTION BURNS
Wear goggles and self contained breathing apparatus.
Extinguish with foam, dry chemical or carbon dioxide.

Exposure

CALL FOR MEDICAL AID

SOLID OR SOLUTION
POISONOUS IF SWALLOWED
Irritating to skin and eyes
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim CONSCIOUS, have victim drink water or milk.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Fouling to shoreline
May be dangerous if it enters water intakes
Notify local health and pollution control officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Issue warning - water contaminant poison.
Should be removed.
Chemical and physical treatment.

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:**
BHC
Gammexane
1 2 3 4 5 6 Hexachlorocyclohexane
Lindane

3 2 **Coast Guard Compatibility Classification:**
Not applicable

3 3 **Chemical Formula:** $C_6H_6Cl_6$

3 4 **IMCO United Nations Numerical Designation** 6 1 1618

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Solid

4 2 **Color:** Light tan to dark brown

4 3 **Odor:** Characteristic

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Data not available

5 2 **Symptoms Following Exposure:** Hyperirritability and central nervous excitation notable, vomiting, restlessness, muscle spasms, ataxia, and clonic and tonic convulsions. Subsequent central nervous depression leading to respiratory failure. Occasional dermatitis and urticaria.

5 3 **Treatment for Exposure.** Gastric lavage and saline cathartics (not oil laxatives because they promote absorption). Sedatives, pentobarbital or phenobarbital in amounts adequate to control convulsions. Calcium gluconate intravenously may be used in conjunction with sedatives to control convulsions. Rest and quiet. Do NOT use epinephrine because ventricular fibrillation may result.

5 4 **Toxicity by Inhalation (Threshold Limit Value)** 0.5 mg/m³

5 5 **Short-Term Inhalation Limits.** 1 mg/m³ for 30 min

5 6 **Toxicity by Ingestion:** Gamma isomer (Lindane) LD_{50} 88 to 91 mg/kg (rat)
Technical mixture, Grade 2 LD_{50} 0.5 to 5 g/kg

5 7 **Late Toxicity:** Mutagen to human lymphocytes

5 8 **Vapor (Gas) Irritant Characteristics.** Moderately irritating. Personnel will not usually tolerate moderate or high concentrations.

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

5 10 **Odor Threshold.** Data not available

6 FIRE HAZARDS

6 1 **Flash Point.** Not flammable

6 2 **Flammable Limits in Air:**
Not flammable

6 3 **Fire Extinguishing Agents:**
Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used:**
Not pertinent

6 5 **Special Hazards of Combustion Products:**
Toxic gases are generated when solid is heated or when solution burns.

6 6 **Behavior in Fire:** Not pertinent

6 7 **Ignition Temperature:** Not flammable

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not flammable

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:**
No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:**
Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:**
0.77 ppm 96-hr bluegill TL_m freshwater
0.138 ppm 96-hr guppy TL_m freshwater
0.034 ppm 10-hr coho 2-in 100% lethal salt water

8 2 **Waterfowl Toxicity.** 2000 mg/kg

8 3 **Biological Oxygen Demand (BOD):**
Data not available

8 4 **Food Chain Concentration Potential:**
High

9. SELECTED MANUFACTUPERS

NOTES

REVISED 1978

BPD — BENZENE PHOSPHORUS DICHLORIDE

Common Synonyms

Phenylphosphorus dichloride

Liquid | Colorless | Unpleasant odor

Reacts violently with water. Poisonous vapor cloud is produced.

Stop discharge if possible. Keep people away. Avoid contact with liquid and vapor. Isolate and remove discharged material. Notify local health and pollution control agencies.

Fire

Fire data not available

Exposure

CALL FOR MEDICAL AID

GAS PRODUCED IN REACTION WITH WATER
POISONOUS IF INHALED
Irritating to eyes, nose and throat
Move victim to fresh air
If breathing has stopped, start mouth-to-mouth resuscitation
Keep victim warm and quiet

LIQUID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing
Flush affected areas with plenty of water
IN EYES, hold eyelids apart and flush continuously with water
IF SWALLOWED, do not induce VOMITING. Give large amounts of water, milk

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify downstream users of accidental discharge

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: corrosive
Restrict access
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Phenyl phosphonous dichloride
Phenylphosphine dichloride
Dichlorophenylphosphine

3 2 **Coast Guard Compatibility Classification** Not listed

3 3 **Chemical Formula** $C_6H_5PCl_2$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Acrid, pungent

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained breathing apparatus; acid type canister mask; goggles and face shield; rubber gloves; protective clothing

5 2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat; pulmonary edema may develop following severe exposures. Contact with skin or eyes causes severe burns. Ingestion causes severe burns of mouth and stomach.

5 3 **Treatment for Exposure:** Get medical attention following all exposures to this compound. INHALATION: remove to fresh air; if breathing has stopped, start mouth to mouth resuscitation. EYES: flush with water for at least 15 min.; do not use oils or ointments. SKIN: flush with water; wash with soap and water. INGESTION: give large amounts of milk or water; do NOT induce vomiting; if vomiting does occur, give milk or beaten eggs at one hour intervals.

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold** Data not available

6 FIRE HAZARDS

Flash Point: 215°F O.C. (May be lower because of presence of dissolved phosphorus)

6 2 **Flammable Limits in Air:** Not pertinent

6 3 **Fire Extinguishing Agents:** Large amounts of water

6 4 **Fire Extinguishing Agents Not to be Used.** Not pertinent

6 5 **Special Hazards of Combustion Products:** Toxic fumes include oxides of phosphorus and hydrogen chloride

6 6 **Behavior in Fire:** Containers may rupture; hot liquid is spontaneously flammable because of presence of dissolved phosphorus

6 7 **Ignition Temperature.** 419°F

6 8 **Electrical Hazard** Data not available

6 9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water.** Reacts vigorously to form hydrogen chloride (hydrochloric acid)

7 2 **Reactivity with Common Materials** Corrodes metal except No. 316 stainless steel, nickel or Hastelloy

7 3 **Stability During Transport** Stable

7 4 **Neutralizing Agents for Acids and Caustics** Flush with water; rinse with sodium bicarbonate or lime solution

7 5 **Polymerization** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD)** Data not available

8 4 **Food Chain Concentration Potential** None

NOTES

BZN — BENZONITRILE

Common Synonyms
Phenylcyanide
Cyanobenzene
Benzoic acid nitrile

Liquid | Colorless | Almond-like odor

May float or sank in water

AVOID CONTACT WITH LIQUID AND VAPOR KEEP PEOPLE AWAY
[illegible]

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
[illegible]

Exposure

CALL FOR MEDICAL AID
VAPOR
Irritating to eyes nose and throat
If inhaled will cause headache, difficult breathing or loss of consciousness.
[illegible]
LIQUID
Irritating to skin and eyes
If swallowed will cause headache nausea, vomiting or loss of consciousness.
[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning water contaminants
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Benzoic acid nitrile
Cyanobenzene Phenylcyanide

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula.** C_7H_5N

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Almond like

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber gloves splash proof goggles, rubber boots or rubber overshoes, impervious clothing for splash protection cartridge type mask or other protection against vapor must be worn for working in poorly ventilated areas where poisoning by inhalation may be possible

5 2 **Symptoms Following Exposure:** Benzonitrile may enter the human body by ingestion absorption through the skin, or inhalation The earliest symptoms of cyanide compound intoxication may be weakness headaches confusion and occasionally nausea and vomiting The respiratory rate and depth will usually be increased at the beginning and at later stages become slow and gasping Blood pressure is usually normal especially in the mild or moderately severe cases although the pulse rate is usually more rapid than normal

5 3 **Treatment for Exposure:** INHALATION remove patient to fresh air, get immediate medical attention INGESTION *Call physician immediately* Until physician arrives take the following steps a Provide for inhalation of amyl nitrite vapor from ampules crushed in a handkerchief and held to the nose of the victim b Induce vomiting unless patient is unconscious (Gastric lavage should be employed by or under the supervision of a physician c Keep patient warm and quiet until medical attention arrives EYES immediately flush with large volumes of water for at least 15 min SKIN wash thoroughly at once, without scrubbing with large amounts of soap and water OTHER exposed personnel should be checked periodically for chronic toxic effects

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2 oral rat LD_{50} = 800 mg/kg

(Continued on page 4)

6 FIRE HAZARDS

(Material is combustible but burns with difficulty)

6 1 **Flash Point:** 161°F CC

6 2 **Flammable Limits in Air:** Data not available

6 3 **Fire Extinguishing Agents:** Foam dry chemical carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products.** Toxic hydrogen cyanide and oxides of nitrogen may form in fire

6 6 **Behavior in Fire:**

6 7 **Ignition Temperature.** Data not available

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** Difficult to burn

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials.** Will attack some plastics

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:**
5 ppm 24 hr rainbow trout/no effect fresh water
135 ppm 96 hr fathead minnow TL_m soft fresh water
28 ppm 96 hr fathead minnow TL_m hard fresh water

8 2 **Waterfowl Toxicity** Data not available

8 3 **Biological Oxygen Demand (BOD)** 0.05 (theo.) 18 days

8 4 **Food Chain Concentration Potential.** None

NOTES

BZC BENZOYL CHLORIDE

Common Synonyms	
Benzenecarbonyl chloride	Watery liquid Colorless to slightly brown Sinks and reacts slowly with water producing a poisonous gas.

Avoid contact with liquid and vapor
Wear goggles and self-contained breathing apparatus
Keep people away Evacuate area in case large discharge
Stop discharge if possible
Call fire department
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
POISONOUS GASES ARE PRODUCED IN FIRE AND WHEN HEATED
Wear oxygen-self contained breathing apparatus
DO NOT USE WATER
Extinguish with foam dry chemical carbon dioxide

Exposure

CALL FOR MEDICAL AID

LIQUID
Will burn skin and eyes.
Harmful if swallowed
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim CONSCIOUS have victim drink water or milk
*DO NOT INDUCE VOMITING

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Isolate spill or leak
Prevent dust cloud
Clean up and prevent entrainment

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Benzenecarbonyl chloride
3 2 **Coast Guard Compatibility Classification** Not applicable
3 3 **Chemical Formula.** C_7H_5OCl
3 4 **IMCO United Nations Numerical Designation:** None

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless may become slightly brownish on standing
4 3 **Odor:** Pungent characteristic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Full protective clothing including full face respirator for acid gases and organic vapors (yellow GME canister) chemical fitting goggles nonslip rubber gloves plastic apron face shield

5 2 **Symptoms Following Exposure:** INHALATION may irritate eyes nose and throat INGESTION causes acute discomfort SKIN causes irritation and burning

5 3 **Treatment for Exposure:** INHALATION remove to fresh air administer oxygen if breathing is difficult or stopped give artificial respiration if not breathing EYES flush with water for 15 minutes get medical attention SKIN wash with plenty of soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations

5 9 **Liquid or Solid Irritant Characteristics.** Severe skin irritant. Causes second- and third-degree burns on skin contact and is very irritating to the eyes

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 162°F (72°C)
6 2 **Flammable Limits in Air:** 2 - 4.9
6 3 **Fire Extinguishing Agents.** Foam carbon dioxide dry chemical water fog
6 4 **Fire Extinguishing Agents Not to be Used:** Water spray Do not allow water to enter containers
6 5 **Special Hazards of Combustion Products:** Highly poisonous phosgene gas may be formed in fire
6 6 **Behavior in Fire:** Water at temperatures below 200°F (93°C) reacts slowly with water or steam
6 7 **Ignition Temperature:** 1292°F (700°C)
6 8 **Electrical Hazard.** Not pertinent
6 9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Slow reaction with water to produce hydrochloric acid fumes Reaction much faster with steam
7 2 **Reactivity with Common Materials.** Slowly corrosive to metals but no corrosive hazard
7 3 **Stability During Transport:** Not pertinent
7 4 **Neutralizing Agents for Acids and Caustics:** Soda ash and water Lime
7 5 **Polymerization:** Does not occur
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity** 300 ppm 72-hr goldfish lethal fresh water 300 ppm 72-hr sunfish lethal fresh water
8 2 **Waterfowl Toxicity** Data not available
8 3 **Biological Oxygen Demand (BOD)** 10% 5 days
8 4 **Food Chain Concentration Potential:** None

REVISED 1978

BAL

BENZYL ALCOHOL

Common Synonyms
Phenylcarbinol
Benzenecarbinol
Alpha-hydroxytoluene
Phenylmethanol
Phenylmethyl alcohol

Liquid | Colorless | Mild, pleasant odor

May float or sink in water

AVOID CONTACT — LIQUID AND VAPOR KEEP PEOPLE AWAY
[illegible]

Fire

Combustible
[illegible]

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache, coughing, or difficult breathing
[illegible]

LIQUID
Irritating to skin and eyes.
If swallowed will cause nausea or vomiting.
MAY BE READILY ABSORBED THROUGH THE SKIN
[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Benzenecarbinol, *alpha* Hydroxytoluene, Phenylcarbinol, Phenylmethanol, Phenylmethyl alcohol
3 2 **Coast Guard Compatibility Classification:** Not Listed
3 3 **Chemical Formula.** $C_6H_5CH_2OH$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color.** Colorless
4 3 **Odor** Mild, pleasant

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber gloves, chemical safety goggles
5 2 **Symptoms Following Exposure:** Inhalation of vapor may cause irritation of upper respiratory tract. Prolonged or excessive inhalation may result in headache, nausea, vomiting, and diarrhea. In severe cases, respiratory stimulation followed by respiratory and muscular paralysis, convulsions, narcosis and death may result. Ingestion may produce severe irritation of the gastrointestinal tract, followed by nausea, vomiting, cramps and diarrhea. Tissue ulceration may result. Contact with eyes causes local irritation. Material can be absorbed through skin with anesthetic or irritant effect.
5 3 **Treatment for Exposure:** INHALATION: remove victim from contaminated atmosphere, call physician immediately. INGESTION: induce vomiting and contact a physician. EYES: flush with plenty of water for 15 min. and contact a physician. SKIN: flush with water, wash with soap and water, obtain medical attention in case of irritation or central nervous system depression.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 2, oral rat LD_{50} = 1 230 mg/kg

NOTES

BZM BENZYLAMINE

Common Synonyms
Alpha-aminotoluene
Phenylmethylamine

Liquid Colorless to light yellow Strong ammonia odor

Floats and mixes with water

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause dizziness, headache, or difficult breathing

LIQUID
Will burn skin and eyes
Harmful if Swallowed

Water Poilution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - air contaminant, water contaminant
Restrict access
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** *alpha* Aminotoluene
Phenylmethylamine
3 2 **Coast Guard Compatibility Classification:** Not Listed
3 3 **Chemical Formula:** $C_6H_5CH_2NH_2$
3 4 **IMCO/United Nations Numerical Designation:** Not Listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless to light yellow
4 3 **Odor:** Strong ammonia

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self-contained breathing apparatus, goggles or face shield, rubber gloves
5 2 **Symptoms Following Exposure:** Inhalation of vapor causes irritation of the mucous membranes of the nose and throat and respiration with respiratory distress and cough. Headache, nausea, faintness and anxiety can occur. Exposure to vapor produces eye irritation with lachrymation, conjunctivitis and corneal edema resulting in halos around lights. Direct local contact with liquid is known to produce severe and sometimes permanent eye damage and skin burns. Vapors may also produce primary skin irritation and dermatitis
5 3 **Treatment for Exposure:** INHALATION: remove victim from exposure, if breathing is difficult administer oxygen, if breathing has stopped begin artificial respiration. EYES or SKIN: wash with copious amounts of water for 15 min
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 168°F C.C.
6 2 **Flammable Limits in Air:** Data not available
6 3 **Fire Extinguishing Agents:** Alcohol foam, dry chemical, carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6 5 **Special Hazards of Combustion Products:** Toxic nitrogen oxides may form in a fire
6 6 **Behavior in Fire:**
6 7 **Ignition Temperature:** Data not available
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate:** 4.1 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** In presence of moisture may weakly corrode some metals. Liquid will attack some plastics
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics.** Flush with water
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** 60 ppm/48 hr/Daphnia/Fresh water
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD).** Data not available
8 4 **Food Chain Concentration Potential:** None

NOTES

BBR	# BENZYL BROMIDE

Common Synonyms alpha-Bromotoluene omega-Bromotoluene Bromotoluene alpha	Liquid Colorless to yellow Sharp irritating odor Sinks in water
[illegible]	
Fire	Combustible Irritating gases are produced when heated [illegible]
Exposure	LIQUID Irritating to skin and eyes. Harmful if swallowed [illegible]
Water Pollution	HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS May be dangerous if it enters water intakes [illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: extreme
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** alpha Bromotoluene
omega Bromotoluene
Bromotoluene alpha

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** $C_6H_5CH_2Br$

3 4 **IMCO/United Nations Numerical Designation:** [illegible]

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless to yellow

4 3 **Odor:** Very sharp pungent lachrymator

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained breathing apparatus, goggles, rubber gloves, protective clothing

5 2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat, severe exposure may cause pulmonary edema. Vapors cause severe eye irritation, liquid can burn eyes. Skin: Causes irritation. Ingestion causes irritation of mouth and stomach

5 3 **Treatment for Exposure:** INHALATION: remove to fresh air. EYES: irrigate immediately with plenty of water for 15 min. SKIN: flush with water, wash with soap and water. INGESTION: do NOT induce vomiting, give large amounts of water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** [illegible]

6 2 **Flammable Limits in Air:** Not pertinent

6 3 **Fire Extinguishing Agents:** Water, dry chemical, foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products:** Irritating hydrogen bromide gas may be produced

6 6 **Behavior in Fire:** Expected that vapors will form explosive mixtures with air

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** [illegible]

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts slowly to generate hydrogen bromide and bromous acids

7 2 **Reactivity with Common Materials:** Decomposes rapidly in the presence of all common metals except mercury and lead, liberating heat and hydrogen bromide

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Rinse with sodium bicarbonate or lime solution

7 5 **Polymerization:** Polymerizes with evolution of heat and hydrogen bromide when in contact with all common metals except mercury and lead

7 6 **Inhibitor of Polymerization:** None used

8 WATER POLLUTION

8 1 **Aquatic Toxicity**
0.05 mg/l * marine fish, no irritant response, salt water
1.5 mg/l * marine fish, violent irritant activity, salt water
* Time period not specified

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential:** None

NOTES

BCL	# BENZYL CHLORIDE

Common Synonyms

alpha-Chlorotoluene
omega-Chlorotoluene

Watery liquid Colorless to yellow Sharp irritating odor

Sinks in water

Fire

Combustible
Irritating gases are produced when heated

Exposure

LIQUID
Will burn skin and eyes
If swallowed will cause nausea and vomiting

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Toxic warning: corrosive
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** alpha-Chlorotoluene
omega-Chlorotoluene
Chlorotoluene, alpha

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** C_7H_7Cl

3.4 **IMCO/United Nations Numerical Designation:** 1738

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless to pale yellow

4.3 **Odor:** Pungent, irritating

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical safety goggles or face shield; self-contained breathing apparatus; positive pressure hose mask; full mask industrial canister type gas mask or chemical cartridge respirator; rubber gloves; protective clothing

5.2 **Symptoms Following Exposure:** Inhalation causes severe irritation of upper respiratory tract with coughing, burning of the throat, headache, dizziness and weakness; lung damage and pulmonary edema may occur after severe exposure; chronic irritation of the upper respiratory tract may occur after prolonged and repeated exposure to vapors. Immediate and severe eye irritation may result from contact with the liquid or vapors; prolonged or permanent eye damage may result. Vapors irritate skin and liquid may cause severe burns. Ingestion may cause immediate and severe burns of the mouth, throat and gastrointestinal tract; nausea, vomiting, cramps and diarrhea may follow; gastrointestinal damage and systemic effects may result.

5.3 **Treatment for Exposure:** INHALATION: remove from contaminated atmosphere. If breathing has ceased, start mouth-to-mouth resuscitation; oxygen, if available, should be administered only by an experienced person when authorized by a physician. Keep patient warm and comfortable; call a physician immediately. EYES: immediately flush with large quantities of running water for a minimum of 15 min., lids held open apart during irrigation to ensure flushing of the entire surface of the eye and lids with water; do not attempt to neutralize with chemical agents; obtain medical attention as soon as possible; only instruments should not be used unless directed by a physician; continue irrigation for an additional 15 min. if physician is not available. SKIN: immediately flush affected areas with water; remove contaminated clothing under shower; continue washing with water; do not attempt to neutralize with chemical agents; obtain medical attention if irritation persists. INGESTION: give large amounts of water; do NOT induce vomiting.

Cont. on page 4

6 FIRE HAZARDS

6.1 **Flash Point:** 153°F (67°C) (CC)

6.2 **Flammable Limits in Air:** 1.1% - 14.4%

6.3 **Fire Extinguishing Agents:** Water, dry chemical, foam and carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Irritating hydrogen chloride gas may be generated

6.6 **Behavior in Fire:** Forms vapor that is a powerful irritant gas

6.7 **Ignition Temperature:** 1085°F (585°C)

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 4.2 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Under prolonged exposure to heat, reacts slowly, liberating hydrogen chloride gas (chloric acid)

7.2 **Reactivity with Common Materials:** Decomposes rapidly in the presence of common metals with the exception of nickel and lead; heat accelerates the reaction and hydrogen chloride

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Reacts with dilute hydroxide solutions

7.5 **Polymerization:** Polymerizes with evolution of heat and hydrogen chloride when in contact with all common metals except nickel and lead

7.6 **Inhibitor of Polymerization:** Triethylamine, propylene oxide or sodium carbonate

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
0.05 mg/l* mat. of fish in oxygen reducing salt water
0.1 mg/l* marine fish toxic to organisms activity salt water
*Time period not specified

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

13.11 **Ratio of Specific Heats of Vapor (Gas):** 1.0689

13.12 **Latent Heat of Vaporization:** 150 Btu/lb = 70 cal/g = 2.9 × 10⁵ J/kg

13.13 **Heat of Combustion:** -12,000 Btu/lb = -6,700 cal/g = -280 × 10⁵ J/kg

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Not pertinent

5 HEALTH HAZARDS (Cont'd.)

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 1 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2; oral rat LD_{50} = 1.231 mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second and third degree burns on short contact and is very injurious to the eyes.

5.10 **Odor Threshold:** 0.04 ppm

BCF

BENZYL CHLOROFORMATE

Common Synonyms
Carbobenzoxy chloride
Chloroformic acid, benzyl ester
Benzylcarboxyl chloride
Benzyl chlorocarbonate

Liquid | Colorless | Sharp, irritating odor

Sinks in water. Reacts with water.

Call fire department.
Avoid contact with liquid. Keep people away.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control officials.

Fire

Combustible.
POISONOUS GASES ARE PRODUCED IN FIRE.
Containers may explode in fire.
Wear chemical protective clothing with self-contained breathing apparatus.
Extinguish with dry chemical, carbon dioxide, or foam.

Exposure

Call for medical aid.

LIQUID

Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing.
Flush eyes and skin with plenty of water.
IF INHALED, if victim is not breathing, give artificial respiration.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water (two glasses).

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: corrosive.
Restrict access.
Should be removed.
Chemical and physical treatment.

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Carbobenzoxy chloride
Chloroformic acid, benzyl ester
Benzylcarbonyl chloride
Benzyl chlorocarbonate

3 2 **Coast Guard Compatibility Classification.** Not applicable

3 3 **Chemical Formula:** $C_8H_7O_2Cl$

3 4 **IMCO/United Nations Numerical Designation** 8 1739

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Irritating, sharp, penetrating

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self-contained breathing apparatus; acid type canister mask; goggles or face shield; rubber gloves; protective clothing.

5 2 **Symptoms Following Exposure:** Inhalation causes mucous membrane irritation. Eyes are irritated by excessive exposure to vapor. Liquid causes severe irritation of eyes and irritates skin. Ingestion causes irritation of mouth and stomach.

5 3 **Treatment for Exposure.** INHALATION: remove from exposure, support respiration, call physician. EYES: irrigate with copious amounts of water for 15 min. SKIN: flush with large quantities of water, wash with soap and water. INGESTION: give large amounts of water; do NOT induce vomiting.

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short-Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion:** Grade 3. LD$_{50}$ 50 to 500 mg/kg

5 7 **Late Toxicity** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics** Causes smarting of the skin and first degree burns on short exposure and may cause second degree burns on long exposure.

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point** 176°F O.C., 227°F C.C.
Vigorous decomposition occurs at these temperatures; thus these values are anomalous due to the effect of the decomp products (benzyl chloride and CO_2).

6 2 **Flammable Limits in Air** Not pertinent

6 3 **Fire Extinguishing Agents:** Dry chemical, foam and carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used** Data not available

6 5 **Special Hazards of Combustion Products.** Toxic phosgene, hydrogen chloride, and benzyl chloride vapors may form.

6 6 **Behavior in Fire:** Containers may explode.

6 7 **Ignition Temperature** Data not available

6 8 **Electrical Hazard** Data not available

6 9 **Burning Rate.** 4.0 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Forms hydrogen chloride (hydrochloric acid). The reaction is not very vigorous in cold water.

7 2 **Reactivity with Common Materials** Slow corrosion of metal

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics** Flush with water, rinse with sodium bicarbonate or lime solution.

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity** Data not available

8 2 **Waterfowl Toxicity** Data not available

8 3 **Biological Oxygen Demand (BOD).** Data not available

8 4 **Food Chain Concentration Potential.** None

13 16 **Heat of Polymerization** Not pertinent

(Continued on pages 5 and 6)

NOTES

BZO — BENZYLDIMETHYLOCTADECYLAMMONIUM CHLORIDE

Common Synonyms			
Stearyldimethylbenzyl-ammonium chloride Tallow benzyl dimethyl ammonium chloride Benzyldimethylstearyl-ammonium chloride	Solid or thick liquid Sinks and mixes with wate	White	Mild odor

Stop discharge if possible. Keep people away.
Avoid contact with liquid and solid.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Wear goggles and self-contained breathing apparatus.
Extinguish with water.

Exposure

CALL FOR MEDICAL AID
LIQUID OR SOLID
Irritating to skin and eyes.
If swallowed will cause nausea or vomiting.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do nothing. Keep victim warm.
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of canals, waterways and reservoirs.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 **Synonyms:** Benzyldimethylstearylammonium chloride, Dimethylbenzyloctadecylammonium chloride Dimethyloctadecylbenzyl-ammonium chloride, Octadecyl dimethylbenzylammonium chloride

3 2 **Coast Guard Compatibility Classification:** Not listed

(Continued on page 4)

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Solid or viscous liquid

4 2 **Color:** White

4 3 **Odor.** Mild

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield rubber gloves

5 2 **Symptoms Following Exposure:** Ingestion causes gastrointestinal disturbances Contact with chemical irritates eyes and skin and may damage eyes

5 3 **Treatment for Exposure:** INGESTION do NOT induce vomiting give large quantities of fluid and call physician immediately EYES flush with plents of water for at least 15 min call a physician SKIN remove contaminated clothing flush skin with plenty of water

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

NOTES

BIC

BERYLLIUM CHLORIDE

Common Synonyms	Solid	White to green	Sharp odor
	Sinks and mixes violently with water		

AVOID CONTACT WITH SOLID AND DUST KEEP PEOPLE AWAY
Wear dust respirator and rubber protective clothing including gloves
Stop discharge if safe
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Not flammable
Irritating gases may be produced when heated

Wear goggles and self-contained breathing apparatus
DO NOT USE WATER ON ADJACENT FIRES

Exposure

CALL FOR MEDICAL AID
DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
If inhaled will cause coughing, difficult breathing, or loss of consciousness.

If on skin Remove victim to fresh air and flush with plenty of water
If breathing has stopped Give artificial respiration
If breathing is difficult Give oxygen

SOLID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Will burn skin and eyes
If swallowed will cause nausea coughing, or loss of consciousness.
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES Hold victim's eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS Induce vomiting
Have victim sip water
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS
Do not induce vomiting

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

Notify local health and pollution control agencies

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison, corrosive
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** $BeCl_2$
3 4 **IMCO/United Nations Numerical Designation.** 6 1/1566

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White to green
4 3 **Odor:** Sharp acrid

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Respirators, protection gloves, freshly laundered clothing, chemical safety goggles

5 2 **Symptoms Following Exposure:** Inhalation causes pneumonitis, nasopharyngitis, tracheobronchitis, dyspnea, chronic cough. Ingestion causes irritation of mouth and stomach. Contact with dust causes conjunctival inflammation of eyes and irritation of skin. Any dramatic, unexplained weight loss should be considered as a possible first indication of beryllium disease.

5 3 **Treatment for Exposure.** INHALATION: chest x-ray should be taken immediately for evidence of pneumonitis. EYES: flush with water for at least 15 min; if irritation persists, get medical attention. SKIN: cuts or puncture wounds in which beryllium may be embedded under the skin should be thoroughly cleansed immediately by a physician.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.002 mg/m³ (as beryllium)

5 5 **Short-Term Inhalation Limits:** 0.025 mg/m³ for less than 30 min

5 6 **Toxicity by Ingestion.** Grade 3 oral rat LD_{50} = 86 mg/kg

5 7 **Late Toxicity:** Be produces a chronic systemic disease that primarily affects the lung but also can involve other organs such as lymph nodes, liver, bones, and kidneys.

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

NOTES

BEM	# BERYLLIUM METALLIC

Common Synonyms	Solid	Silver color	Odorless
	Sinks in water		

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY.
Wear dust respirator and rubber protective clothing including gloves.
Stop discharge if possible.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Dust cloud may explode if ignited in an enclosed area.
Wear goggles and self-contained breathing apparatus.
Extinguish with dry graphite sodium chloride or other dry powder.
DO NOT USE WATER ON FIRE.

Exposure

CALL FOR MEDICAL AID.
DUST.
POISONOUS IF INHALED OR IF SKIN IS EXPOSED.
If inhaled will cause coughing or difficult breathing.
If on skin, pull eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.
SOLID.
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Isolate material. Prevent water contamination.
Restrict access.
Should be removed.
Chemical and physical treatment.

2 LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** No common synonyms.
3.2 **Coast Guard Compatibility Classification** Not listed.
3.3 **Chemical Formula:** Be
3.4 **IMCO/United Nations Numerical Designation:** 4.1 1567

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** White
4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Bu Mines approved respirator, clean work clothes, cloth gloves, eye protection.
5.2 **Symptoms Following Exposure:** Any dramatic, unexplained weight loss should be considered as possible first indication of beryllium disease. Dust is extremely toxic when inhaled; symptoms include coughing, shortness of breath, and acute or chronic lung disease. There is no record of illness from ingestion of beryllium. Contact with dust causes conjunctival inflammation, eczema and dermatitis.
5.3 **Treatment for Exposure.** INHALATION: acute disease may require hospitalization with administration of oxygen; chest x-ray should be taken immediately. EYES: flush with water for at least 15 min. SKIN: flush with water, wash with soap and water; all cuts, scratches or other injuries should receive prompt medical attention.
5.4 **Toxicity by Inhalation (Threshold Limit Value)** 0.002 mg/m
5.5 **Short-Term Inhalation Limits:** 0.025 mg/m for 30 min
5.6 **Toxicity by Ingestion.** Grade 3 LD$_{50}$ 50-500 mg/kg
5.7 **Late Toxicity:** Beryllium disease may occur in lung, lymph nodes, liver, spleen, kidneys, and other organs.
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Not pertinent (combustible solid)
6.2 **Flammable Limits in Air:** Not pertinent
6.3 **Fire Extinguishing Agents:** Graphite, sand, or any other inert dry powder
6.4 **Fire Extinguishing Agents Not to be Used:** Water
6.5 **Special Hazards of Combustion Products.** Combustion yields beryllium oxide fume which is toxic if inhaled.
6.6 **Behavior in Fire:** Powder may form explosive mixture with air.
6.7 **Ignition Temperature:** Not pertinent
6.8 **Electrical Hazard.** Not pertinent
6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials**

NOTES

BEN — BERYLLIUM NITRATE

Common Synonyms			
Beryllium nitrate trihydrate	Solid	White	Odorless
	Sinks and mixes with water		

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY.
Wear respirator and rubber coveralls during cleanup.
Stop discharge if possible.
Isolate and limit access to area.
Notify local health and pollution control agencies.

Fire

Not flammable.
Will increase the intensity of a fire.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Wear goggles and self-contained breathing apparatus.
Extinguish fire with water.

Exposure

CALL FOR MEDICAL AID.

DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
If inhaled will cause coughing or difficult breathing.
If breathed, move victim to fresh air. Give artificial respiration.
If breathing is difficult, give oxygen.
If on skin, wash with plenty of water.

SOLID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
If swallowed will cause nausea, vomiting or loss of consciousness.
Remove victim to fresh air.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, induce vomiting; drink water or milk and have victim inhale amyl nitrite.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing; get victim to a doctor.
Keep victim warm.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning. Poison. Water contaminant.
Restrict access.
Should be removed.
Chemical and physical treatment.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Beryllium nitrate trihydrate

3.2 **Coast Guard Compatibility Classification:**
Not listed

3.3 **Chemical Formula:** $Be(NO_3)_2 \cdot 3H_2O$

3.4 **IMCO/United Nations Numerical Designation:** 6.1/1566

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White

4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Respirators, protective gloves, freshly laundered clothing, chemical safety goggles.

5.2 **Symptoms Following Exposure:** Any dramatic, unexplained weight loss should be considered as possible first indication of beryllium disease. Inhalation causes pneumonitis, nasopharyngitis, tracheobronchitis, dyspnea, chronic cough. Ingestion causes anorexia, fatigue, weakness, malaise. Contact with eyes causes conjunctival inflammation. Contact with skin causes dermatitis and non-healing ulcers.

5.3 **Treatment for Exposure:** INHALATION: remove to fresh air, take chest x-ray immediately to check for pneumonitis. INGESTION: induce vomiting, get medical attention. EYES: flush with water for at least 15 min, get medical attention. SKIN: cut or puncture wounds in which beryllium may be embedded under the skin should be thoroughly cleansed immediately by a physician.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.002 mg/m³ as beryllium

5.5 **Short-Term Inhalation Limits:** 0.025 mg/m³ for less than 30 min

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** May cause chronic, systemic disease of the lung as well as other organs such as liver, spleen, lymph nodes, bone and kidneys.

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Not combustible

6.2 **Flammable Limits in Air:** Not combustible

6.3 **Fire Extinguishing Agents:** Water

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Toxic and irritating beryllium oxide and oxides of nitrogen may form in fire.

6.6 **Behavior in Fire:** May increase intensity of fire when in contact with combustible material.

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts to form weak solution of nitric acid; the reaction is not hazardous.

7.2 **Reactivity with Common Materials:** In presence of moisture will damage wood and corrode most metals.

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
0.15 ppm/96 hr fathead minnow, TLm, salt water
20 ppm/96 hr fathead minnow, TLm, hard water
*as beryllium

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** None

8.4 **Food Chain Concentration Potential:**
Bioconcentration of 100 fold can occur under constant exposure. Not significant in spill conditions.

3.4 **IMCO United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** White to tan
4.3 **Odor:** Very faint phenolic

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Approved dust and vapor type respirator; impervious boots, gloves and body covering clothing; safety glasses with side shields; protective cream for repeated exposure; dust tight goggles if irritation. Safety glasses with side shields
5.2 **Symptoms Following Exposure:** Dust irritating to upper respiratory passages; may cause coughing
5.3 **Treatment for Exposure:** SKIN: Wash with soap and plenty of water. Remove contaminated clothing. EYES: Promptly flush with plenty of water. Get medical attention if irritation persists. INGESTION: Induce vomiting if victim is conscious. Give large quantities of water. Never give anything by mouth to victim who is unconscious or having convulsions. Get medical attention promptly.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not specified
5.5 **Short-Term Inhalation Limits:** Not specified
5.6 **Toxicity by Ingestion:** Grade 2 LD50 (Oral, Rat): 3.25 g/kg
5.7 **Late Toxicity:** Lowered hemoglobin and erythrocyte (red blood cell) counts below normal in rats
5.8 **Vapor (Gas) Irritant Characteristics.** Not specified
5.9 **Liquid or Solid Irritant Characteristics.** Moderate hazard. Dust irritating to eyes and all mucous membranes. Prolonged or repeated skin contact may cause dermatitis.
5.10 **Odor Threshold.** Not specified

NOTES

REVISED 1978

BDE — BISPHENOL A DIGLYCIDYL ETHER

Common Synonyms
4,4' Isopropylidenediphenol-epichlorohydrin resin
Bisphenol A - epichlorohydrin condensate
2,2-Bis(p-hydroxyphenyl) propane, diglycidyl ether

Liquid — Yellowish brown

Sinks in water

Stay clear of potential
Call fire department
Avoid contact with liquid
Notify local health and pollution control agencies

Fire

Combustible
Extinguish with water, dry chemicals, carbon dioxide

Exposure

CALL FOR MEDICAL AID
LIQUID
Irritating to skin and eyes
Harmful if swallowed
Wear self-contained breathing apparatus
Wear suitable protective clothing
IF IN EYES: Hold eyelids apart and flush with plenty of water
IF SWALLOWED: Induce vomiting. Give large quantities of water or milk
IF SWALLOWED: Do NOT induce vomiting. Give large quantities of water
Do not induce vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 4,4'-Isopropylidenediphenol-epichlorohydrin resin, Bisphenol A epichlorohydrin condensate, 2,2 Bis (p-hydroxy benzyl) propane diglycidyl ether

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** $C_{21}H_{24}O_4$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Amber

4.3 **Odor:** Data not available

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber gloves, goggles, protective clothing and protective creams. Good personal hygiene is necessary, with instruction of personnel and adequate cleanup facilities

5.2 **Symptoms Following Exposure:** Contact with liquid irritates eyes. Prolonged or repeated contact with skin causes irritation and dermatitis

5.3 **Treatment for Exposure:** EYES: flush with water for at least 15 min. SKIN: remove chemical with water or waterless skin cleaner

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 1 LD_{50} > 5 g/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are nonirritating to eyes and throat

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of skin

5.10 **Odor Threshold:** Odorless

6. FIRE HAZARDS

6.1 **Flash Point:** 175°F O.C.

6.2 **Flammable Limits in Air:** Data not available

NOTES

BCP — BOILER COMPOUND, LIQUID

Common Synonyms

Liquid Colorless to brown Odorless or mild odor

Sinks and mixes with water

Fire

Not flammable
Flammable gas may be produced on contact with metals.

Exposure

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-6)

Issue warning: corrosive water contaminant
Restrict access
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Alkanes liquid alkaline detergent
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** Not pertinent
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless to brown
4.3 **Odor:** Mild to mild

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face shield; rubber gloves; protective clothing
5.2 **Symptoms Following Exposure:** Contact of liquid with eyes causes severe caustic burns. Also causes caustic burns of skin if not washed off immediately. Ingestion causes caustic burns of mouth and stomach.
5.3 **Treatment for Exposure:** Basic treatment is identical with that for caustic soda or caustic potash solutions. EYES: flush with water for at least 15 min.; call a doctor. SKIN: flush with water; wash with soap and water. INGESTION: give large amounts of water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 mg/m
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Data not available
5.7 **Late Toxicity:** Not pertinent
5.8 **Vapor (Gas) Irritant Characteristics:** Not pertinent
5.9 **Liquid or Solid Irritant Characteristics:** Data not available

NOTES

BAC	# BORIC ACID

Common Synonyms
Orthoboric acid
Boracic acid

Solid — White — Odorless

Sinks and mixes with water

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID

SOLID
Irritating to skin and eyes.
If swallowed will cause nausea or vomiting

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-4

Issue warning - water contaminant
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Boracic acid, Orthoboric acid
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** H_3BO_3
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** White
4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical goggles

5.2 **Symptoms Following Exposure:** Although no adverse effects have been reported from exposure, boric acid can be absorbed through mucous membranes. Ingestion of grams or more may irritate gastrointestinal tract and affect central nervous system. Contact with dust or aqueous solutions may irritate eyes and skin. Adverse effects have been recognized but continued contact should be avoided. Dust and solutions are absorbed through burns and open wounds but not through unbroken skin.

5.3 **Treatment for Exposure:** INHALATION: remove from contaminated atmosphere. INGESTION: obtain medical attention as soon as possible. If the patient is conscious, induce vomiting by giving warm salty water (2 tablespoons of table salt to a pint of water) or warm soapy water. If this measure is unsuccessful, vomiting may be induced by tickling the back of the patient's throat with a finger. Vomiting should be encouraged about three times or until the vomitus is clear. Additional water may be given to wash out the stomach. EYES: immediately flush the eyes with large quantities of running water for a minimum of 15 minutes. Hold the eyelids open during the irrigation to ensure flushing of the entire surface of the eye and lids with water. Obtain medical attention as soon as possible. SKIN: immediately flush affected area with water. Remove contaminated clothing under the shower. Continue washing with water. Do not attempt to neutralize with chemical agents. Obtain medical attention if irritation persists. Wash clothing

5.4 **Toxicity by Inhalation (Threshold Limit Value):** [illegible] mg/m³ (as H_3BO_3) (ACGIH)

5.5 **Short-Term Inhalation Limits:** Data not available

(Continued on page 2)

6TB	# BORON TRIBROMIDE

Common Synonyms	Liquid	Colorless	Sharp odor
	Reacts violently with water Poisonous vapor is produced		

Will react with liquid metals. Keep away from wet metals.
Not flammable in steel.
Incompatible with carbonates, metals.
Not flammable, but will pollute water supplies.

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE
Wear self-contained breathing apparatus
DO NOT USE WATER ON AREA NEAR FIRE

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
Remove Do this while calling for medical aid
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

LIQUID
Will burn skin and eyes
If swallowed will cause nausea and vomiting
Remove contaminated clothing
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, give several glasses of water
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS
do nothing except keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify authorities if enters water courses
Notify authorities if enters water intakes

5 3 **Treatment for Exposure:** INHALATION remove to fresh air, give oxygen or apply artificial respiration Keep warm, call a doctor at once observe for pulmonary edema EYES wash with plenty of water for 15 min consult an eye specialist SKIN wash off with plenty of water INGESTION: do NOT induce vomiting give large amount of water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion** Grade 2, LD_{50} 0.5 to 5 g/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause severe irritation of eyes and throat and can cause eye or lung injury They cannot be tolerated even at low concentrations
5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant Causes second and third degree burns on short contact and is very injurious to the eyes
5 10 **Odor Threshold:** Decomposes in moist air, releasing hydrochloric acid and decomposition products Hydrochloric acid 1 ppm

6 FIRE HAZARDS

6 1 **Flash Point** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used.** Not pertinent
6 5 **Special Hazards of Combustion Products** Not pertinent
6 6 **Behavior in Fi** Toxic fumes of hydrogen chloride are given off upon contact with water applied to adjacent fires
6 7 **Ignition Temperature.** Not pertinent
6 8 **Electrical Hazard** Not pertinent
6 9 **Burning Rate** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts vigorously to liberate heat and forms hydrogen chloride fumes (hydrochloric acid) and boric acid
7 2 **Reactivity with Common Materials:** Vigorously attacks elastomers and packing materials Viton Tygon, Saran or silastic elastomers and natural and synthetic rubbers are not recommended for service Lead and graphite impregnated asbestos are to be avoided In the presence of moisture highly corrosive to most metals
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics.** Flush with water rinse with sodium bicarbonate or solution
7 5 **Polymerization.** Not pertinent
7 6 **Inhibitor of Polymerization** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD).** None
8 4 **Food Chain Concentration Potential** None

9. SELECTED MANUFACTURERS

13. PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Gas
13 2 **Molecular Weight:** 117 2
13 3 **Boiling Point at 1 atm:** 54 3°F = 12 4°C = 285 6°K
13 4 **Freezing Point:** −161°F = −107°C = 166°K
13 5 **Critical Temperature:** 352°F = 178°C = 451°K
13 6 **Critical Pressure.** 566 psia = 38 Natm = 3 90 MN/m²
13 7 **Specific Gravity:** 1 35 at 11°C (liquid)
13 8 **Liquid Surface Tension.** 15 7 dynes/cm = 0 0157 N/m at 20°C
13 9 **Liquid-Water Interfacial Tension.** Not pertinent
13 10 **Vapor (Gas) Specific Gravity:** 4
13 11 **Ratio of Specific Heats of Vapor (Gas)** 1 1470
13 12 **Latent Heat of Vaporization** 68 8 Btu/lb = 38 2 cal/g = 1 60 × 10⁵ J/kg
13 13 **Heat of Combustion:** Not pertinent
13 14 **Heat of Decomposition.** Not pertinent
13 15 **Heat of Solution:** −13 000 Btu/lb = −7 200 cal/g = −300 × 10³ J/kg
13 16 **Heat of Polymerization:** Not pertinent

(Continued on pages 5 and 6)

NOTES

BRX	# BROMINE

Common Synonyms

Watery liquid | Reddish-brown | Sharp irritating odor

Sinks in water. Irritating brown vapor is produced

AVOID CONTACT WITH LIQUID AND VAPOR. Keep people away.
Wear goggles, self-contained breathing apparatus and rubber clothing (including gloves).
Stop discharge if possible.
Notify local health and pollution control agencies.

Fire

Not flammable.
May cause fire or contact with combustibles.
POISONOUS GASES ARE PRODUCED IN FIRE.
Contact with powdered metals, organics, finely divided combustibles.
Wear goggles, self-contained breathing apparatus and rubber clothing.
Use water spray to keep fire exposed containers cool.

Exposure

CALL FOR MEDICAL AID.

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause coughing, difficult breathing, or loss of consciousness.
Move to fresh air.
If breathing has stopped, give artificial respiration. Use NOT mouth-to-mouth.
If breathing is difficult, give oxygen.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED, and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: poison, air contaminant.
Restrict access.
Evacuate area.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification:** Halogen
3 3 **Chemical Formula:** Br_2
3 4 **IMCO/United Nations Numerical Designation.** 8 0/1744

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Dark red/red brown
4 3 **Odor:** Sharp, harsh, penetrating

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Chemical safety goggles, face shield, self-contained air line canister mask, rubber suit.
5 2 **Symptoms Following Exposure:** SKIN contact with liquid or vapor may cause acne and slow healing ulcers. INHALATION induces severe irritation of the respiratory passages and pulmonary edema. Probable lethal oral dose for an adult is 1 ml. A brief exposure to 1000 ppm may be fatal.
5 3 **Treatment for Exposure:** SKIN AND EYES: wash well with water and sodium bicarbonate solution. RESPIRATORY SYSTEM: if there is obstruction to breathing, establish airway by pulling tongue forward, inserting an airway tube or doing a tracheostomy, begin artificial respiration if difficulty in breathing is a result of pulmonary edema, treatment should be carried out with the patient in the sitting position. Administration of oxygen is most important. INGESTION: do not induce vomiting. If conscious, drink water and milk.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.1 ppm
5 5 **Short-Term Inhalation Limits:** 0.4 ppm for 30 min
5 6 **Toxicity by Ingestion:** Not pertinent
5 7 **Late Toxicity:** None
5 8 **Vapor (Gas) Irritant Characteristics.** Causes severe eye or throat irritations which can cause eye or lung injury; cannot be tolerated even at low concentrations.
5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact; very injurious to the eyes.
5 10 **Odor Threshold:** 3.5 ppm

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents:** Use water spray to cool exposed containers and to wash away spills.
6 4 **Fire Extinguishing Agents Not to be Used.** Not pertinent
6 5 **Special Hazards of Combustion Products:** Toxic and irritating gases are generated when heated or in fires.
6 6 **Behavior in Fire.** Not pertinent
6 7 **Ignition Temperature:** Not flammable
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** Not flammable.

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** Reacts violently with aluminum. May cause fire in contact with wood, cotton, straw. Iron, steel, stainless steel, and copper are corroded by bromine and are especially subject to attack by wet bromine. Of the plastics only those which are highly fluorinated resist bromine attack.
7 3 **Stability During Transport.** Stable
7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** 30 ppm/10 hr/Gadophora killed fresh water. 10 ppm */fish irritant/salt water. *Time period not specified.
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** Not pertinent
8 4 **Food Chain Concentration Potential:** None

13 14 **Heat of Decomposition:** Not pertinent
13 15 **Heat of Solution:** Not pertinent
13 16 **Heat of Polymerization:** Not pertinent

(Continued on pages 5 and 6)

NOTES

BPF	# BROMINE PENTAFLUORIDE

Common Synonym	Liquefied gas	Colorless	Irritating odor
	Reacts violently with water Poisonous vapor is produced		

No ignition sources if possible. Keep people away.
Avoid contact with liquid and vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable
May cause fire on contact with combustibles
Will increase the intensity of a fire
POISONOUS GASES MAY BE PRODUCED IN FIRE
Containers may explode in fire
Wear goggles and self-contained breathing apparatus
DO NOT USE WATER OR FOAM ON FIRE

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
If in eyes, hold eyelids open and flush with plenty of water
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

LIQUID
Will burn skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water (two glasses)
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: corrosive air contaminant
Restrict access
Evacuate area
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** BrF_5
3 4 **IMCO/United Nations Numerical Designation:** 9/1745

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquefied gas
4 2 **Color:** Colorless
4 3 **Odor:** Highly irritating

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self-contained breathing apparatus, rubber suit and gloves
5 2 **Symptoms Following Exposure:** Chemical is highly corrosive and toxic. Inhalation causes severe burns of mucous membrane. Ingestion causes severe burns of mouth. Contact with eyes or skin causes severe burns.
5 3 **Treatment for Exposure:** *Get medical attention IMMEDIATELY for any exposure to this chemical, even if no adverse effects are evident.* INHALATION: remove victim from area, apply artificial respiration if breathing has ceased. INGESTION: give large amount of water. EYES: wash with copious amounts of water for 15 min. SKIN: wash with large amounts of water and follow with lime water; remove contaminated clothing.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.1 ppm
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Data not available

NOTES

BTF — BROMINE TRIFLUORIDE

Common Synonyms

Liquid Colorless Extremely irritating odor

Reacts violently with water: Poisonous gas is produced on contact with water. Freezing point is 28° F

AVOID CONTACT WITH LIQUID AND VAPOR
[illegible]
Stay upwind
Ventilate
Keep unprotected personnel away
Notify local health and fire officials

Fire

Not flammable
May cause fire on contact with combustibles
POISONOUS GASES MAY BE PRODUCED IN FIRE
Containers may explode in fire
Water spray may be ineffective
Extinguish with dry chemicals, carbon dioxide
DO NOT USE WATER OR FOAM ON FIRE

Exposure

CALL FOR MEDICAL AID

VAPOR

POISONOUS IF INHALED
Irritating to eyes, nose and throat
Move victim to fresh air
Breathing difficulty may be relieved with [illegible]
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

LIQUID

POISONOUS IF SWALLOWED
Will burn skin and eyes
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open, flush with plenty of water
IF SWALLOWED, do not induce VOMITING unless victim is conscious. Have victim drink water or milk
DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: corrosive, air contaminant
Restrict access
Evacuate area
Disperse and flush

13 1 **Physical State at 15°C and 1 atm:** Liquid

13 2 **Molecular Weight:** 157

13 3 **Boiling Point at 1 atm:** 313°F = 156°C = 429°K

13 4 **Freezing Point:** −23.1°F = −30.6°C = 242.6°K

13 5 **Critical Temperature:** 747°F = 397°C = 670°K

13 6 **Critical Pressure:** 655 psia = 44.6 atm = 4.52 MN/m

13 7 **Specific Gravity:** 1.49 at 25°C (liquid)

13 8 **Liquid Surface Tension.** 36 dynes/cm = 0.036 N/m at 20°C

13 9 **Liquid-Water Interfacial Tension:** (est.) 30 dynes/cm = 0.030 N/m at 20°C

13 10 **Vapor (Gas) Specific Gravity:** 5.4

13 11 **Ratio of Specific Heats of Vapor (Gas):** 1.0931

13 12 **Latent Heat of Vaporization:** 104 Btu/lb = 58 cal/g = 2.4 × 10⁵ J/kg

13 13 **Heat of Combustion:** 8,510 Btu/lb = 4,730 cal/g = 198 × 10⁵ J/kg

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution:** Not pertinent

13 16 **Heat of Polymerization:** Not pertinent

(Continued on pages 5 and 6)

NOTES

BRU	# BRUCINE

Common Synonyms
10,11-Dimethoxystrychnine
(-)-Brucine dihydrate

Solid | White | Odorless

Sinks in water

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY.
Wear full respiratory and eye protection.
Stop leak if possible without risk.
Isolate area until gas has dispersed.
Notify local health and pollution control agencies.

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
Water may be ineffective.
Fight fire from protected location or maximum distance.

Exposure

CALL FOR MEDICAL AID

DUST
POISONOUS IF INHALED
Irritating to eyes, nose and throat
Prevent dust cloud.
Cover powder spill with plastic sheet or tarp.
Use water spray to reduce vapors.

SOLID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
If swallowed will cause nausea and vomiting
Avoid skin contact.
Do not get in eyes, on skin, on clothing.
IF IN EYES, flush with plenty of water for at least 15 minutes.
IF SWALLOWED and CONSCIOUS, have victim rinse mouth, drink water, repeat.
IF SWALLOWED and UNCONSCIOUS OR HAVING CONVULSIONS
Do not induce vomiting.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: poison, water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Brucine dihydrate
10,11 Dimethoxystrychnine

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** $C_{23}H_{26}N_2O_4$ or $C_{23}H_{26}N_2O_4 \cdot 2H_2O$

3.4 **IMCO/United Nations Numerical Designation:** 6.1/1570

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White

4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust mask, goggles or face shield, rubber gloves

5.2 **Symptoms Following Exposure:** Chemical is toxic if inhaled, swallowed, or absorbed through skin. Inhalation produces intense bitter taste. Ingestion causes nausea, vomiting, restlessness, excitement, twitching, and (rarely) convulsions. Contact with dust irritates eyes.

5.3 **Treatment for Exposure:** INHALATION: remove victim from exposure. INGESTION: induce vomiting, get medical attention at once. EYES: flush with water for 15 min.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 4, oral rat LD_{50} = 1 mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Odorless

6 FIRE HAZARDS

6.1 **Flash Point:** Not pertinent (combustible solid)

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Water, foam, dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:**

6.5 **Special Hazards of Combustion Products.** Toxic oxides of nitrogen may form in fires

6.6 **Behavior in Fire:**

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials.**

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization.** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)** Data not available

8.4 **Food Chain Concentration Potential:** Possible bioaccumulation problem for the duration of 1 week

Continued on page Card A

NOTES

BDI

BUTADIENE, INHIBITED

Common Synonyms
Divinyl
Vinylethylene
1,3-Butadiene

Liquefied compressed gas Colorless Gasoline-like odor

Floats and boils on water. Flammable vapor cloud is produced.

Avoid contact with liquid and gas. Keep people away.
Many cases of contained area fires, application of rubber over leaking gas cylinder, specially trained personnel only.
Stop flow of gas if possible.
Evacuate area of unprotected personnel.
Use water spray to disperse vapor.
Isolate and ventilate discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Many cases of contained area fires, application of rubber over leaking gas cylinder, specially trained personnel only.
Stop flow of gas if possible.
Evacuate area of unprotected personnel.
Use water spray to disperse vapor.
Isolate and ventilate discharged material.
Notify local health and pollution control agencies.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
Move to fresh air.

LIQUID
Irritating to skin and eyes.
Remove contaminated clothing.
Flush affected area with plenty of water.
IN EYES, hold eyelids open and flush with plenty of water.

Water Pollution

Not harmful to aquatic life.
May be dangerous if it enters water intakes.
Notify downstream users of spill.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning, high flammability.
Evacuate area.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Biethylene
1,3-Butadiene
Bivinyl
Divinyl
Vinylethylene

3.2 **Coast Guard Compatibility Classification:** Olefin

3.3 **Chemical Formula:** $CH_2CHCHCH_2$

3.4 **IMCO United Nations Numerical Designation:** 2.0 1010

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Gas

4.2 **Color:** Colorless

4.3 **Odor:** Mildly aromatic

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical safety goggles, rubber boots and gloves. When entering confined storage space, man must wear self-contained breathing apparatus (rubber mask with canister not adequate).

5.2 **Symptoms Following Exposure:** Slight anesthetic effect. High concentrations cause loss of consciousness, asphyxiation, and death. Liquid causes skin irritation and frostbite.

5.3 **Treatment for Exposure:** Remove victim from exposure immediately. Call a physician. INHALATION: If breathing is irregular or stopped, start resuscitation, administer oxygen. SKIN CONTACT: Remove contaminated clothing and wash affected skin area. EYE CONTACT: Irrigate with water for 15 minutes.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 1,000 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes slight smarting or burning of eyes, nose, and throat at concentrations of 2,000 ppm and above. Effects increase rapidly as concentration increases. Severe irritation and pulmonary edema may occur at concentrations of 8,000 ppm and above.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If pulled into clothing and allowed to remain, may cause severe and reddening of the skin because of evaporation.

5.10 **Odor Threshold:** 4 mg/m³

6 FIRE HAZARDS

6.1 **Flash Point:** −105°F (−76°C) (TCC)

6.2 **Flammable Limits in Air:**
2.0% to 11.5%

6.3 **Fire Extinguishing Agents:** Stop flow of gas.

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent.

6.5 **Special Hazards of Combustion Products:** Not pertinent.

6.6 **Behavior in Fire:** Vapors heavier than air and may travel a considerable distance to source of ignition and flash back. Containers may explode in fire due to polymerization.

6.7 **Ignition Temperature:** 788°F (420°C)

6.8 **Electrical Hazard:** Class I, Group B

6.9 **Burning Rate:** Moderate

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Explosive decomposition when contaminated with peroxides formed by reaction with air.

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent.

7.5 **Polymerization:** Violent when inhibitors present.

7.6 **Inhibitor of Polymerization:** tert-Butylcatechol at 0.02%

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Not pertinent.

8.2 **Waterfowl Toxicity:** Not pertinent.

8.3 **Biological Oxygen Demand (BOD):** Not pertinent.

8.4 **Food Chain Concentration Potential:** Not pertinent.

9. SELECTED MANUFACTURERS

NOTES

REVISED 1978

BUT	BUTANE

Common Synonyms
n-Butane

Liquefied compressed gas Colorless Gasoline-like odor

Floats and boils on water. Flammable, vapor cloud is formed

Fire

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
If inhaled, will cause dizziness or difficult breathing
Not irritating to eyes, nose or throat

LIQUID
Will cause frostbite

Water Pollution

Not harmful to aquatic life
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** n-Butane

3.2 **Coast Guard Compatibility Classification:** Paraffin

NOTES

BUD — 1,4-BUTENEDIOL

Common Synonyms
2-Butene-1,4-diol
1,4-Dihydroxy 2-butene

Thick liquid | Light yellow | Odorless

Sinks and mixes with water. Freezing point is 45° F.

Fire

Combustible

Exposure

CALL FOR MEDICAL AID

LIQUID
Irritating to skin and eyes
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water.
Induce vomiting.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

NOTES

BCN n-BUTYL ACETATE

Common Synonyms
Acetic acid, n-butyl ester
Butyl acetate
Butyl ethanoate

Watery liquid | Colorless | Pleasant fruity odor

Floats on water | Flammable irritating vapor is produced

Stop discharge if possible. Keep people away.
Wear protective clothing and self-contained breathing apparatus.
Avoid any skin contact.
Keep unauthorized personnel away. Isolate hazard area.
Prevent runoff from entering waterways.
Notify local health and pollution control agencies.

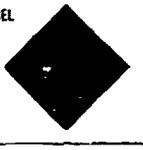
Fire

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Extinguish with dry chemical, carbon dioxide, foam
Water may be ineffective
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID
VAPOR
Irritating to eyes, nose and throat
If inhaled will cause nausea, dizziness, headache or difficult breathing
Move victim to fresh air
If not breathing, give artificial respiration
If breathing is difficult, give oxygen
LIQUID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing
Flush affected areas with plenty of water
IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have victim drink water
Induce vomiting by touching back of throat
IF SWALLOWED and victim is UNCONSCIOUS OR CONVULSING DO NOTHING BY MOUTH

Water Pollution



Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes
Notify local health and pollution control agencies
Notify persons using water downstream

1 RESPONSE TO DISCHARGE

Evacuate area
Maintain isolation

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Acetic acid butyl ester
Butyl acetate
Butyl ethanoate

3.2 **Coast Guard Compatibility Classification:**
B

3.3 **Chemical Formula:** $CH_3COOCH_2CH_2CH_2CH_3$

3.4 **IMCO United Nations Numerical Designation:** 1123

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Characteristic, pleasant, fruity odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Wear chemical protective clothing, boots and gloves. Wear self-contained breathing apparatus.

5.2 **Symptoms Following Exposure:** SKIN contact causes irritation. INHALATION causes irritation of the nose, throat and lungs, nausea, dizziness, headache or difficult breathing.

5.3 **Treatment of Exposure:** EYES Flush with plenty of water. INHALATION Remove victim to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. INGESTION Induce vomiting by touching back of throat. Call physician immediately.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 150 ppm

5.5 **Short-Term Inhalation Limits:** 200 ppm

5.6 **Toxicity by Ingestion:** Moderately Toxic

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes irritation of the eyes, nose and throat. Irritation is slight at 200 ppm and severe at 1000 ppm.

5.9 **Liquid or Solid Irritant Characteristics:** Moderate hazard. Prolonged contact with liquid may cause irritation and reddening of the skin.

5.10 **Odor Threshold:** 1 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 90°F (32°C) TCC

6.2 **Flammable Limits in Air:**
1.7% - 7.6%

6.3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used.**
Water may be ineffective, can spread fire

6.5 **Special Hazards of Combustion Products.**
None known

6.6 **Behavior in Fire:** No permanent effect

6.7 **Ignition Temperature:** 760°F

6.8 **Electrical Hazard:** Class I, Group D

6.9 **Burning Rate:** 4.2 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials.**
No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics.** None required

7.5 **Polymerization.** Will not occur

7.6 **Inhibitor of Polymerization:**
None required

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
44 ppm (48 hr) TL_m Mosquito fish

8.2 **Waterfowl Toxicity:** Practically non-toxic

8.3 **Biological Oxygen Demand (BOD)**
0.74 lb/lb (5 days)
1.51 lb/lb (20 days)

8.4 **Food Chain Concentration Potential.**
None

NOTES

REVISED 1978

BAN

n-BUTYL ALCOHOL

Common Synonyms
butanol
Butyl alcohol
1-Butanol
1-Hydroxybutane
n-Propylcarbinol

Watery liquid | Colorless | Alcohol odor

Floats and mixes slowly with water. Flammable, irritating vapor is produced.

Stop discharge if possible. Keep people away.
Call fire department.
Avoid contact with liquid and vapor.
May upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemical or carbon dioxide.
Water and alcohol foam may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause nausea, headache, dizziness.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and pollution control officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Restrict access.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** Butanol
Butyl alcohol
1-Butanol
1-Hydroxybutane
n-Propylcarbinol

3.2 **Coast Guard Compatibility Classification** Alcohol

3.3 **Chemical Formula** $CH_3(CH_2)_3OH$

3.4 **IMCO United Nations Numerical Designation** 3/1120

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid

4.2 **Color** Colorless

4.3 **Odor.** Alcohol-like, pungent, strong characteristic, mildly alcoholic, non-residual

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Organic vapor canister or air-supplied mask, chemical goggles or face splash shield

5.2 **Symptoms Following Exposure** Anesthesia, nausea, headache, dizziness, irritation of respiratory passages. Mildly irritating to the skin and eyes.

5.3 **Treatment for Exposure:** INHALATION: remove from exposure immediately; call physician if breathing is irregular or has stopped; start resuscitation and administer oxygen. INGESTION: induce vomiting and call physician. EYES: flush with water for at least 15 minutes.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** 100 ppm

5.5 **Short-Term Inhalation Limits** 150 ppm for 30 min

5.6 **Toxicity by Ingestion** Grade 2; LD50 790 mg/kg (oral)

5.7 **Late Toxicity** None

5.8 **Vapor (Gas) Irritant Characteristics.** Vapor causes slight smarting of the eyes or respiratory system. Irritation is experienced only at high concentrations. Effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics** Minimum hazard. If applied on clothing and allowed to remain, may cause burning and reddening of the skin.

5.10 **Odor Threshold** 2.8 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 84°F (C.C.) 97°F (O.C.)

6.2 **Flammable Limits in Air** 1.4 - 11.2

6.3 **Fire Extinguishing Agents** Carbon dioxide, dry chemicals

NOTES

REVISED 1978

BAS

sec-BUTYL ALCOHOL

Common Synonyms
2-Butanol
2-Hydroxybutane
Methylethylcarbinol

Watery liquid | Colorless | Alcohol odor

Floats and mixes slowly with water. Flammable, irritating vapor is produced

Stop discharge if possible. Keep people away.
Shut off ignition sources and call fire department.
Avoid contact with liquid and vapor.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Extinguish with dry chemical, carbon dioxide, water and alcohol foam as specific fire control.
Cool exposed containers with water.

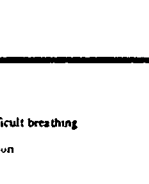
Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause headache, dizziness or difficult breathing.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to eyes.
If in eyes, wash with plenty of water.

Water Pollution



Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and pollution control agencies.
Keep spray runoff from entering water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Restrict access.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms**
2-Butanol
Butylene Hydrate
2-Hydroxybutane
Methylethylcarbinol

3.2 **Coast Guard Compatibility Classification.**
Alcohol

3.3 **Chemical Formula:**
$CH_3CH_2CHOHCH_3$

3.4 **IMCO, United Nations Numerical Designation:** No. 1120

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Strong pleasant

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Organic vapor canister or supplied mask; chemical safety goggles or face splash shield.

5.2 **Symptoms Following Exposure.** Headache, dizziness and respiratory irritation. Liquid is severely irritating to the eyes and can cause eye burn.

5.3 **Treatment for Exposure.** INHALATION: remove from exposure immediately; call a physician if breathing is irregular or has stopped; start resuscitation and administer oxygen. INGESTION: induce vomiting and call physician. EYES: flush with water for at least 15 minutes.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 150 ppm

5.5 **Short-Term Inhalation Limits.** 200 ppm for 60 min

5.6 **Toxicity by Ingestion:** Grade 1. Dose ketone: single oral dose.

5.7 **Late Toxicity.** None

5.8 **Vapor (Gas) Irritant Characteristics.** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin.

5.10 **Odor Threshold.** Data not available.

6 FIRE HAZARDS

6.1 **Flash Point.** 75°F C.C.

6.2 **Flammable Limits in Air**
1.7% - 9.0%

6.3 **Fire Extinguishing Agents.** Carbon dioxide, dry chemical.

6.4 **Fire Extinguishing Agents Not to be Used.**
Not pertinent.

6.5 **Special Hazards of Combustion Products.**
Not pertinent.

6.6 **Behavior in Fire.** Not pertinent.

6.7 **Ignition Temperature.** 761°F

6.8 **Electrical Hazard.** Class I, Group D.

6.9 **Burning Rate.** 4.1 mm/min.

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water.** No reaction.

7.2 **Reactivity with Common Materials.**
No reaction.

7.3 **Stability During Transport.** Stable.

7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent.

7.5 **Polymerization.** Not pertinent.

7.6 **Inhibitor of Polymerization:**
Not pertinent.

8 WATER POLLUTION

8.1 **Aquatic Toxicity.**
Data not available.

8.2 **Waterfowl Toxicity.** Data not available.

8.3 **Biological Oxygen Demand (BOD).**
Data not available.

8.4 **Food Chain Concentration Potential.**
None.

NOTES

REVISED 1978

BAT — tert-BUTYL ALCOHOL

Common Synonyms
2-Methyl-2-propanol
Trimethylcarbinol

Oily liquid | Colorless | Sharp alcohol odor

Floats and mixes with water. Flammable, irritating vapor is produced. Freezing point is 78° F

[illegible]

Fire

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
[illegible]

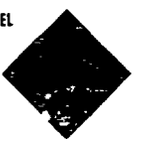
Exposure

[illegible]

VAPOR
Irritating to eyes, nose, throat
If inhaled, will cause dizziness, difficult breathing
[illegible]

LIQUID
Irritating to skin and eyes
Harmful if swallowed
[illegible]

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:**
2-Methyl-2-propanol
Trimethylcarbinol
3 2 **Coast Guard Compatibility Classification:** Alcohol
3 3 **Chemical Formula:** $(CH_3)_3COH$
3 4 **IMCO/United Nations Numerical Designation** 3 3 1122

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid
Sometimes freezes below 75°F
4 2 **Color:** Colorless
4 3 **Odor:** Characteristic camphor-like pungent

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Air pack or organic canister mask, rubber gloves and goggles
5 2 **Symptoms Following Exposure:** Vapor is narcotic in action and irritating to respiratory passages. Liquid is irritating to skin and eyes
5 3 **Treatment for Exposure:** INHALATION: remove victim from exposure and restore breathing. SKIN/EYE CONTACT: remove liquid from skin with water. Flush eyes with water
5 4 **Toxicity by Inhalation (Threshold Limit Value)** 100 ppm
5 5 **Short-Term Inhalation Limits:** 150 ppm for 30 min
5 6 **Toxicity by Ingestion.** Grade 2 0.5 to 5.0 g/kg (rat)
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary
5 9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin
5 10 **Odor Threshold:** Data not available

NOTES

REVISED 1978

BAM

n-BUTYLAMINE

Common Synonyms
1-Aminobutane
Butylamine
Mono-n-butylamine
Normalamine

Liquid Colorless Fishy, ammonia-like odor

Mixes with water

ALSO CONSULT WITH CHEMICAL MANAGER BEFORE PROCEEDING

Fire

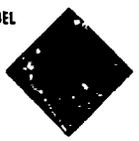
Flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

CALL FOR MEDICAL AID
VAPOR
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
If inhaled will cause dizziness, headache, coughing or difficult breathing

LIQUID
Will burn skin and eyes
If swallowed will cause nausea and vomiting

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability, air contaminant, water contaminant
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** 1-Aminobutane
Butylamine, Mono-n-butylamine
Normalamine

3.2 **Coast Guard Compatibility Classification**
Aliphatic amine

3.3 **Chemical Formula:** $CH_3(CH_2)_3NH_2$

3.4 **IMCO/United Nations Numerical Designation:** 3.2/1125

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Fish-like, ammonia-like

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air supplied mask, rubber gloves, coverall, goggles, face shield, butyl rubber apron

5.2 **Symptoms Following Exposure** Inhalation causes irritation, nausea, vomiting, headache, faintness, severe coughing, and chest pains, can cause lung edema. Ingestion causes severe irritation of mouth and stomach. Contact with eyes causes severe irritation and edema of the cornea. Contact with skin causes burns; absorption through skin may cause nausea, vomiting and shock.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air, call a physician, give oxygen if breathing is difficult, if not breathing, give artificial respiration. INGESTION: give large amounts of water, get medical attention. EYES: flush with water at least 15 min, get medical care. SKIN: remove contaminated clothing, flush skin with plenty of water at least 15 min.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm

5.5 **Short-Term Inhalation Limits:** 5 ppm / 5 min

5.6 **Toxicity by Ingestion:** Grade 3; oral LD_{50} = 500 mg/kg (rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics** Data not available

5.9 **Liquid or Solid Irritant Characteristics** Data not available

13.16 **Heat of Polymerization:** Not pertinent

NOTES

BUA tert-BUTYLAMINE

Common Synonyms	Liquid	Colorless	Ammonia-like odor
2 Aminoisobutane 2 Amino 2-methylpropane 1 1 Dimethylethylamine TBA Trimethylaminomethane	Floats and mixes with water. Flammable. Irritating vapor is produced.		

Fire	FLAMMABLE Flashback along vapor trail may occur Vapor may explode if ignited in an enclosed area
Exposure	CALL FOR MEDICAL AID VAPOR Irritating to eyes, nose and throat If inhaled, will cause difficult breathing LIQUID Irritating to skin and eyes Harmful if swallowed
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability
Air contaminant
Restrict access
Evacuate area
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 2-Aminoisobutane
2-Amino-2-methylpropane
1,1-Dimethylethylamine, TBA
Trimethylaminomethane

3.2 **Coast Guard Compatibility Classification:** Aliphatic amine

3.3 **Chemical Formula:** $(CH_3)_3CNH_2$

3.4 **IMCO/United Nations Numerical Designation:** 32 1993

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Like ammonia

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus, goggles or face shield, rubber gloves

5.2 **Symptoms Following Exposure:** Inhalation causes irritation of nose, mouth, and lungs. Ingestion causes irritation of mouth and stomach. Contact with liquid causes severe irritation of eyes and moderate irritation of skin.

5.3 **Treatment for Exposure:** INHALATION: move to fresh air, give artificial respiration if breathing has stopped. INGESTION: give large amounts of water and induce vomiting. EYES: immediately flush with water for at least 15 min., get medical attention. SKIN: flush with water, wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 3, oral LD_{50} = 480 mg/kg (rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 10°F (-12°C)

6.2 **Flammable Limits in Air:** 1.7% - 8.9% (at 212°F)

6.3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fire

6.6 **Behavior in Fire:**

6.7 **Ignition Temperature:** 464°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 2.7 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** Liquid will attack some forms of plastics

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

NOTES

BTN BUTYLENE

Common Synonyms
1 Butene

Liquefied compressed gas Colorless Fragrant gasoline-like odor

Floats and boils on water. Flammable, ignitable vapor cloud is produced.

Stop discharge if possible. Keep people away. Stay off [illegible] and downwind. Notify local health and pollution control agencies. Keep out of low areas. Ventilate closed spaces before entering. Do not touch spilled material. Use water spray to disperse vapors. Avoid runoff into storm sewers, ditches, or waterways. Dike for later disposal. Water spill: Dilute with water. Remove by physical methods such as pumping or absorption.

Fire

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Stop flow of gas. [illegible]
Use water spray to keep fire exposed containers cool. [illegible]

Exposure

[illegible]

VAPOR
If inhaled, will cause dizziness and difficult breathing.
[illegible]

LIQUID
Will cause frostbite
[illegible]

Water Poilution

Not harmful to aquatic life
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook. CG 446-4)

Issue warning. High flammability.
Restrict access.
Evacuate area.

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 1 Butene
3 2 **Coast Guard Compatibility Classification:** Olefin
3 3 **Chemical Formula:** $CH_3CH_2CH{=}CH_2$
3 4 **IMCO, United Nations Numerical Designation:** 2.0 1012

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Compressed gas
4 2 **Color:** Colorless
4 3 **Odor:** Sweetish

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Chemical goggles, gloves, self contained breathing apparatus or organic canister
5 2 **Symptoms Following Exposure:** May act as a simple asphyxiant or slight anesthetic at high vapor concentrations. Vapor concentrations are not usually a hazard at room temperature except in enclosed spaces.
5 3 **Treatment for Exposure:** INHALATION: remove victim to fresh air and apply resuscitation. Call a doctor. EYES AND SKIN: flush with water for at least 15 minutes.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Not pertinent
5 7 **Late Toxicity:** None
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are non-irritating to the eyes and throat
5 9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin because it is very volatile and evaporates quickly. May cause frostbite.
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not pertinent
6 2 **Flammable Limits in Air:** 1.6% - 10%
6 3 **Fire Extinguishing Agents:** Stop flow of gas
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** Not pertinent
6 6 **Behavior in Fire:** Containers may explode in fire. Vapor is heavier than air and may travel long distance to a source of ignition and flash back.
6 7 **Ignition Temperature:** 725°F
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** 3.8 mm/min

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** None
8 2 **Waterfowl Toxicity:** None
8 3 **Biological Oxygen Demand (BOD):** None
8 4 **Food Chain Concentration Potential:** None

13 15 **Heat of Solution:** Not pertinent
13 16 **Heat of Polymerization:** Not pertinent

Continued on page 5-A

NOTES

REVISED 1978

BTO BUTYLENE OXIDE

Common Synonyms
1,2 Butylene oxide
1,2 Epoxybutane
1 Butene oxide
Alpha-butylene oxide

Liquid | Colorless | Sharp odor

Mixes with water

Fire

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing.

LIQUID
Will burn skin and eyes
If swallowed will cause nausea and vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability; air contaminant
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 1 Butene oxide
1,2 Butylene oxide *alpha* Butylene oxide 1,2 Epoxybutane

3 2 **Coast Guard Compatibility Classification.** Alkylene oxide

3 3 **Chemical Formula:** C_4H_8O or $CH_3CH_2CHCH_2O$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Pungent

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Clean protective clothing, rubber gloves, chemical workers goggles, self contained breathing apparatus

5 2 **Symptoms Following Exposure** Inhalation of odorless odor and irritation, respiratory injury may occur at higher levels. Ingestion causes irritation of mouth and stomach. Contact with either liquid or vapor may cause burns of eyes. Liquid causes a painful type of skin burn if free to evaporate, if confined to skin, burn may cause skin sensitization. If readily absorbed in toxic amounts.

5 3 **Treatment for Exposure:** INHALATION: if any ill effects occur, immediately remove person to fresh air and get medical help; if breathing stops, start artificial respiration. INGESTION: induce vomiting promptly and get medical help. EYES: promptly flush with plenty of water for at least 15 min. and get medical help. SKIN: promptly flush with plenty of water, remove all contaminated clothing and wash before reuse.

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 1,410 mg/kg (rat)

(Continued on next page)

NOTES

BHP — tert-BUTYL HYDROPEROXIDE

Common Synonyms
Cadox TBH

Watery liquid | Colorless | Odorless

Floats and mixes slowly with water

Fire

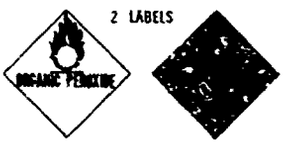
FLAMMABLE.
May explode if subjected to heat, flame or shock.
May cause fire and explode on contact with combustibles.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Water Pollution



Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 448-1)

Isolate warning, high flammability
Remove access
Mechanical containment
Chemical and physical treatment

2 LABELS

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Cadox TBH
3.2 **Coast Guard Compatibility Classification.** Not applicable
3.3 **Chemical Formula:** $(CH_3)_3COOH$
3.4 **IMCO/United Nations Numerical Designation:** UN 2093

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquid
4.2 **Color:** Colorless to pale yellow
4.3 **Odor:** Data not available

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles, well fitting gloves, barrier cream
5.2 **Symptoms Following Exposure:** Data do not indicate severe burns of skin and eyes
5.3 **Treatment for Exposure:** INGESTION: induce vomiting and follow with gastric lavage. INHALATION: remove individual to fresh air, maintain oxygen, give artificial respiration and resuscitation if needed. SKIN, EYE AND MUCOUS MEMBRANE CONTACT: Flush affected tissues with water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 3, slightly toxic
5.7 **Late Toxicity:** None
5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes slight smarting of the eyes, respiratory system in concentrations. Effect is temporary.
5.9 **Liquid or Solid Irritant Characteristics:** Powerful irritant to eyes and skin
5.10 **Odor Threshold:** Data not available

NOTES

REVISED 1978

BTM

n-BUTYL MERCAPTAN

Common Synonyms
1-Butanethiol
Thiobutyl alcohol

Liquid | Colorless to yellow | Skunk like odor

Floats on water. Poisonous vapor is produced.

Fire

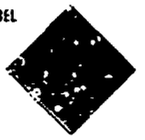
FLAMMABLE
Irritating gases may be produced when heated
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
POISONOUS IF INHALED
Irritating to eyes

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Fouling to shoreline
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: high flammability
Remove sources
Mechanical containment
Avoid bottom runoff
Chemical and biological treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 Synonyms: 1-Butanethiol; Butyl mercaptan; Thiobutyl alcohol
3.2 Coast Guard Compatibility Classification: Not applicable
3.3 Chemical Formula: $CH_3(CH_2)_3SH$
3.4 IMCO/United Nations Numerical Designation: UN 2347

4 OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped): Liquid
4.2 Color: Colorless to yellow
4.3 Odor: Skunk like

5 HEALTH HAZARDS

5.1 Personal Protective Equipment: Plastic gloves; goggles; self-contained breathing apparatus
5.2 Symptoms Following Exposure: Inhalation of vapor irritates nose, throat, lungs and causes coughing and wheezing; may cause nausea, vomiting and headache; vapor irritates eyes, causes pain and excessive tearing; liquid irritates skin
5.3 Treatment for Exposure: INHALATION: remove victim to fresh air; if not breathing, give artificial respiration; if breathing is difficult, give oxygen; keep victim warm and quiet; get medical attention. EYES: wash with plenty of water for at least 15 minutes; get medical attention. SKIN: wash with soap and water; remove contaminated clothing and wash before reuse. INGESTION: induce vomiting immediately as directed by medical personnel; never give anything by mouth to an unconscious person; get medical attention.
5.4 Toxicity by Inhalation (Threshold Limit Value): 0.5 ppm
5.5 Short-Term Inhalation Limits: Data not available
5.6 Toxicity by Ingestion: Grade 4; Rat LD_{50} 500 mg/kg
5.7 Late Toxicity: Data lacking
5.8 Vapor (Gas) Irritant Characteristics: Data lacking
5.9 Liquid or Solid Irritant Characteristics: Data lacking
5.10 Odor Threshold: 0.001 ppm

6 FIRE HAZARDS

6.1 Flash Point: 2°F TOC
6.2 Flammable Limits in Air: Data lacking
6.3 Fire Extinguishing Agents: Dry chemical; foam; carbon dioxide
6.4 Fire Extinguishing Agents Not to be Used: Water
6.5 Special Hazards of Combustion Products: Irritating sulfur oxides and fumes
6.6 Behavior in Fire: Vapor may travel to source of ignition and flash back; containers may explode in fire
6.7 Ignition Temperature: 347°F
6.8 Electrical Hazard: Data lacking
6.9 Burning Rate: Data lacking

7. CHEMICAL REACTIVITY

7.1 Reactivity with Water: No reaction
7.2 Reactivity with Common Materials: No reaction

13.1 Physical State at 15°C and 1 atm: Liquid
13.2 Molecular Weight: 90.2
13.3 Boiling Point at 1 atm: 208.3°F = 98.0°C = 371°K
13.4 Freezing Point: -262°F = -165°C = 108°K
13.5 Critical Temperature: 554°F = 290°C = 563°K
13.6 Critical Pressure: 732 psia = 49.8 atm = 4.96 MN/m²
13.7 Specific Gravity: 0.841 at 20°C (liquid)
13.8 Liquid Surface Tension: 26.1 dynes/cm = 0.0261 N/m at 20°C
13.9 Liquid-Water Interfacial Tension: 36.6 dynes/cm = 0.0366 N/m at 20°C
13.10 Vapor (Gas) Specific Gravity: 3.1
13.11 Ratio of Specific Heats of Vapor (Gas): 1.0792
13.12 Latent Heat of Vaporization: 164 Btu/lb = 91.1 cal/g = 381 J/g
13.13 Heat of Combustion: -17,900 Btu/lb = -9,940 cal/g = -41,600 J/g
13.14 Heat of Decomposition: Not pertinent
13.15 Heat of Solution: Not pertinent
13.16 Heat of Polymerization: Not pertinent

(Continued on page 3)

NOTES

BMN	n-BUTYL METHACRYLATE

Common Synonym			
Methacrylic acid, butyl ester Butyl methacrylate Butyl 2-methacrylate n-Butyl alpha-methylacrylate	Liquid	Colorless	Mild odor
	Floats on water		

Fire	Combustible Containers may explode in fire
Exposure	LIQUID Irritating to skin and eyes Harmful if swallowed
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-4

Mechanical containment
Should be removed
Chemical or physical treatment

2. LABELS

Non-flammable
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Methacrylic acid, butyl ester; Butyl methacrylate; Butyl 2-methacrylate; n-Butyl alpha-methylacrylate; Butyl 2-methyl-2-propenoate

3.2 **Coast Guard Compatibility Classification:** Acrylate

3.3 **Chemical Formula:** $CH_2=C(CH_3)CO_2CH_2CH_2CH_2CH_3$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Moderate acrylate

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Not normally required. Impervious gloves, chemical splash goggles

5.2 **Symptoms Following Exposure.** Irritation to eyes, nose and throat. Exposure to vapors may cause headache, dizziness, nausea and vomiting

5.3 **Treatment for Exposure:** INHALATION: remove to fresh air; if not breathing, give artificial respiration; if breathing is difficult, give oxygen. EYES: flush with plenty of water for at least 15 minutes and call physician. SKIN: wash with soap and water. INGESTION: induce vomiting and call physician

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion.** Grade 1 (Practically non-toxic to rats)

5.7 **Late Toxicity:** Birth defects in rats, progeny and skeletal abnormalities

5.8 **Vapor (Gas) Irritant Characteristics.** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold.** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 160°F OC

6.2 **Flammable Limits in Air:** Not determined

6.3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used.** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Containers may explode

6.7 **Ignition Temperature:** 562°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 4 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** May occur when heated

7.6 **Inhibitor of Polymerization.**
10 ppm hydroquinone
Hydroquinone
20 ppm hydroquinone

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)**
Data not available

8.4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

Independence Mall West
Philadelphia, PA 19105

Plastics Department
306 Market St.
Wilmington, DE 19801

10. SHIPPING INFORMATION

10.1 **Grades of Purity:** 99.5%

10.2 **Storage Temperature:** Ambient

10.3 **Inert Atmosphere:** No requirement

10.4 **Venting.** Pressure-vacuum

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG-446-3)

A-3-I

12 HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:** Not listed

12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

12.3 **NFPA Hazard Classifications:**

Category	Classification
Health Hazard (Blue)	1
Flammability (Red)	2
Reactivity (Yellow)	0

13. PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid

13.2 **Molecular Weight:** 142.2

13.3 **Boiling Point at 1 atm.**
298°F = 148°C = 421°K

13.4 **Freezing Point.**
-72°F = -58°C = 215°K

13.5 **Critical Temperature:** Not pertinent

13.6 **Critical Pressure:** Not pertinent

13.7 **Specific Gravity:** 0.895 at 20°C (liquid)

13.8 **Liquid Surface Tension:** (dynes/cm = ergs/cm² at 20°C)
30 dynes/cm = 0.030 N/m at 20°C

13.9 **Liquid-Water Interfacial Tension:** (dynes/cm = ergs/cm² at 20°C)
8 dynes/cm = 0.008 N/m at 20°C

13.10 **Vapor (Gas) Specific Gravity:** Not pertinent

13.11 **Ratio of Specific Heats of Vapor (Gas).** Not pertinent

13.12 **Latent Heat of Vaporization:** Not pertinent

13.13 **Heat of Combustion:** -4 x 10⁶ Btu/lb
= -9.3 x 10³ cal/g = -388 x 10⁶ J/kg

13.14 **Heat of Decomposition.** Not pertinent

13.15 **Heat of Solution.** Not pertinent

13.16 **Heat of Polymerization.** -250 Btu/lb
= -139 cal/g = -582 x 10³ J/kg

Continued on next page

NOTES

BTP p-tert-BUTYLPHENOL

Common Synonyms	Solid White Disinfectant like odor May float or sink in water
Fire	Combustible
Exposure	DUST Irritating to eyes, nose and throat If inhaled will cause difficult breathing SOLID Will burn skin and eyes If swallowed will cause nausea and vomiting
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-6

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

Hazard label required by U.S. Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** $C_4H_9C_6H_4OH$
3.4 **IMCO/United Nations Numerical Designation.** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** White
4.3 **Odor:** Aromatic

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical workers goggles clean body-covering clothing
5.2 **Symptoms Following Exposure:** Inhalation of vapors causes irritation of respiratory system. Ingestion causes irritation of mouth and stomach. Contact with eyes causes severe irritation. Contact with skin causes severe irritation but not usually to a degree to prevent work. Prolonged contact may cause moderate irritation even a mild burn.
5.3 **Treatment for Exposure:** INHALATION: move to fresh air. If not breathing, begin artificial respiration. If breathing has ceased. INGESTION: force milk or water and induce vomiting. Treat symptomatically. EYES: irrigate with flowing water for at least 15 minutes. Get medical attention promptly. SKIN: flush with plenty of water. Remove grossly contaminated clothing.
5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion.** Grade 2 rat LD_{50} 2.5 g/kg (oral)
5.7 **Late Toxicity** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 250°F (C.C. (Cleveland))
6.2 **Flammable Limits in Air:** Not pertinent
6.3 **Fire Extinguishing Agents.** Dry chemical, foam, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used.** Water may be ineffective
6.5 **Special Hazards of Combustion Products.**
6.6 **Behavior in Fire:**
6.7 **Ignition Temperature** Not pertinent
6.8 **Electrical Hazard.** Not pertinent
6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials.**

(Continued on next page)

NOTES

BCS — BUTYLTRICHLOROSILANE

Common Synonyms	Liquid	Colorless	Sharp, irritating odor
n-Butyltrichlorosilane	Reacts violently with water. Irritating visible vapor cloud is produced.		

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY.

Fire

Combustible.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
DO NOT USE WATER ON FIRE.

Exposure

VAPOR
Irritating to eyes, nose and throat.
Harmful if inhaled.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Initial Isolation: Immediate
Restrict Access
Dispersal Water

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** n-Butyltrichlorosilane
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** $C_4H_9HCl_3Si$
3.4 **IMCO/United Nations Numerical Designation:** 1747

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Sharp, irritating odor at low concentrations

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Avoid vapor. Use respiratory protection while entering area. Wear rubber gloves, goggles and other protective equipment as necessary to prevent skin and eye contact.

5.2 **Symptoms Following Exposure:** Inhalation of vapor irritates eyes, upper respiratory system. Contact of liquid with eyes or skin causes severe burns. Ingestion causes burns of mouth and throat.

5.3 **Treatment for Exposure:** Seek medical attention if ill effects are experienced. Keep victim quiet. INHALATION: remove to fresh air; apply artificial respiration if not breathing. EYES: Flush with water for 15 minutes. SKIN: Flush with water. INGESTION: DO NOT induce vomiting. Give large amounts of water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Data not available
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 180°F (82°C) C.C.
6.2 **Flammable Limits in Air:** Data not available
6.3 **Fire Extinguishing Agents:** Dry chemical, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water, foam
6.5 **Special Hazards of Combustion Products:** Hydrogen chloride, silicon oxides, carbon monoxide
6.6 **Behavior in Fire:** Decomposes on heating. Reacts with metal.
6.7 **Ignition Temperature:** Data not available
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** Not applicable

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts violently to generate hydrogen chloride (hydrochloric acid)
7.2 **Reactivity with Common Materials:** Will react with common metals to produce hydrogen chloride and cause severe corrosion
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water, then with sodium bicarbonate or lime slurry
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available

NOTES

CTD

1,4-BUTYNEDIOL

Common Synonyms
2-Butyne-1,4-diol
4-Dihydroxy-2-butyne

Solid crystals or watery solution. Solid is white to light yellow. Solution is brownish yellow.

Sinks and mixes with water

Stop discharge if possible
Call fire department
Avoid contact with liquid and solid
Isolate and keep discharged material out of water
Notify local health and pollution control agencies

Fire

Combustible
Extinguish with water, alcohol foam, dry chemical or carbon dioxide

Exposure

CALL FOR MEDICAL AID
LIQUID OR SOLID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes
Wash affected areas with plenty of water
IF IN EYES: hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS: have victim drink water or milk

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and pollution control officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
2-Butyne-1,4-diol
1,4-Dihydroxy-2-butyne

3.2 **Coast Guard Compatibility Classification:**
Not applicable

Continued on pages 5 and 6

NOTES

BAD — iso-BUTYRALDEHYDE

Common Synonyms
2-Methylpropanal
Isobutyric aldehyde
Isobutyraldehyde
Isobutylaldehyde

Watery liquid | Colorless | Pleasant gasoline-like odor

Floats and mixes slowly with water. Flammable, irritating vapor is produced.

Avoid contact with liquid and vapor. Keep people away.
Wear goggles and self-contained breathing apparatus.
Shut off ignition sources and call fire department.
Stop discharge if possible.
Stay upwind and use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Wear goggles and self-contained breathing apparatus.
Extinguish with dry chemical, CO2, water spray or foam.
Water may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID.

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause difficult breathing.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin.
Will burn eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and pollution control officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning - high flammability.
Restrict access.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Isobutyraldehyde
Isobutyraldehyde
Isobutylaldehyde
2-Methylpropanal

3.2 **Coast Guard Compatibility Classification:**
Aldehyde

3.3 **Chemical Formula:** $(CH_3)_2CHCHO$

3.4 **IMCO/United Nations Numerical Designation:** 3.2 2045

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Pungent

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Appropriate protective clothing including rubber gloves, rubber shoes and protective eyewear.

5.2 **Symptoms Following Exposure:** Vapor is irritating to the eyes and mucous membranes.

5.3 **Treatment for Exposure:** If IN EYES, immediately flush with plenty of water for at least 15 min.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available.

5.5 **Short-Term Inhalation Limits:** Data not available.

5.6 **Toxicity by Ingestion:** Grade 2, 0.5 to 5 g/kg (rat).

5.7 **Late Toxicity:** Data not available.

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** 0.047 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 13°F O.C. = -40°F C.C.

6.2 **Flammable Limits in Air:**
2.0% - 10.0%

6.3 **Fire Extinguishing Agents.** Foam, dry chemical or carbon dioxide.

6.4 **Fire Extinguishing Agents Not to be Used:**
Data not available.

6.5 **Special Hazards of Combustion Products:**
Not pertinent.

6.6 **Behavior in Fire:** Vapors are heavier than air and may travel considerable distance to a source of ignition and flash back. Fires are difficult to control due to ease of reignition.

6.7 **Ignition Temperature:** 365°F

6.8 **Electrical Hazard:** Not pertinent.

6.9 **Burning Rate:** 4.8 mm/min.

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction.

7.2 **Reactivity with Common Materials:**
No reaction.

7.3 **Stability During Transport:** Stable.

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent.

7.5 **Polymerization.** Not pertinent.

7.6 **Inhibitor of Polymerization:**
Not pertinent.

8. WATER POLLUTION

8.1 **Aquatic Toxicity.**
Data not available.

8.2 **Waterfowl Toxicity:** Data not available.

8.3 **Biological Oxygen Demand (BOD)**
162 lb/lb in 5 days.

8.4 **Food Chain Concentration Potential**
None.

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid

13.2 **Molecular Weight:** 72.11

13.3 **Boiling Point at 1 atm:**
147°F = 64.1°C = 337.3°K

13.4 **Freezing Point:**
-112°F = -80°C = 193°K

13.5 **Critical Temperature:**
464°F = 240°C = 513°K

13.6 **Critical Pressure:**
600 psia = 41 atm = 4.2 MN/m

13.7 **Specific Gravity:** 0.791 at 20°C (liquid)

13.8 **Liquid Surface Tension:**
22.0 dynes/cm = 0.0220 N/m at 24°C

13.9 **Liquid-Water Interfacial Tension:**
7.2 dynes/cm = 0.0072 N/m at 22.7°C

13.10 **Vapor (Gas) Specific Gravity:** 2.5

13.11 **Ratio of Specific Heats of Vapor (Gas)**
1.093

13.12 **Latent Heat of Vaporization:**
180 Btu/lb = 98 cal/g = 4.1 × 10⁵ J/kg

13.13 **Heat of Combustion:** -13,850 Btu/lb = -7693 cal/g = -322.1 × 10⁵ J/kg

13.14 **Heat of Decomposition:** Not pertinent.

13.15 **Heat of Solution:** Not pertinent.

13.16 **Heat of Polymerization:** Not pertinent.

(Continued on pages 5 and 6)

NOTES

REVISED 1978

BTR	# n-BUTYRALDEHYDE

Common Synonyms
Butyraldehyde
Butaldehyde
Butyric aldehyde
Butanal
Butylaldehyde

Watery liquid | Colorless | Pungent odor

Floats and mixes slowly with water. Flammable, irritating vapor is produced.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause nausea, vomiting, headache or loss of consciousness.

LIQUID
Irritating to skin.
Will burn eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: highly flammable
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:**
Butanal
Butyraldehyde
Butyric aldehyde
Butylaldehyde

3 2 **Coast Guard Compatibility Classification:**
Aldehyde

3 3 **Chemical Formula:**
$CH_3CH_2CH_2CHO$

3 4 **IMCO/United Nations Numerical Designation:** 12 1129

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Pungent aldehyde, pungent and intense

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Protective goggles, gloves and organic canister gas mask

5 2 **Symptoms Following Exposure:** Inhalation will cause irritation and possible nausea, vomiting, headache and loss of consciousness. Contact with eyes causes burns. Skin contact may be irritating.

5 3 **Treatment for Exposure:** INHALATION: remove victim to fresh air; if breathing has stopped, give artificial respiration; if breathing is difficult, give oxygen; call a doctor at once. SKIN AND EYES: immediately flush with water for at least 15 min.; get medical care for eyes; remove contaminated clothing and wash underlying skin.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 1; 5.15 g/kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

5 10 **Odor Threshold:** 0.0046 ppm

6 FIRE HAZARDS

6 1 **Flash Point:** 15°F O.C., 20°F C.C.

6 2 **Flammable Limits in Air:**
2.5% - 10.6%

6 3 **Fire Extinguishing Agents:**
Dry chemical, carbon dioxide, foam

6 4 **Fire Extinguishing Agents Not to be Used:**
Not pertinent

6 5 **Special Hazards of Combustion Products:**
Not pertinent

6 6 **Behavior in Fire:** Vapors are heavier than air and may travel considerable distance to a source of ignition and flash back. Fires are difficult to control due to ease of reignition.

6 7 **Ignition Temperature:** 446°F

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** 4.4 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** None

7 2 **Reactivity with Common Materials:**
None

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** May occur in presence of heat, acids or alkalis

7 6 **Inhibitor of Polymerization:**
Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:**
Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):**
1.62 lb/lb, 5 days, 100% (theor.)

8 4 **Food Chain Concentration Potential:**
Data not available

9 SELECTED MANUFACTURERS

1 Dow Badische Co
Williamsburg, VA 23185

2 Eastman Kodak Co
Texas Eastman Division
Longview, Texas 75601

3 Union Carbide Corp
Chemicals and Plastics Division

REVISED 1978

BRA

n-BUTYRIC ACID

Common Synonyms

Butanic acid
Butanoic acid
Ethylacetic acid
Propanecarboxylic acid
Butyric acid

Liquid Colorless Rancid butter odor

Floats and mixes with water
Freezing point is 23°F

[illegible]

Fire

Combustible

[illegible]

Exposure

[illegible]

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing.

[illegible]

LIQUID
Will burn skin and eyes.
If swallowed will cause nausea and vomiting

[illegible]

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

[illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4

Issue warning water contaminant
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Butanic acid Butanoic acid Butyric acid Ethylacetic acid Propanecarboxylic acid

3.2 **Coast Guard Compatibility Classification:** Organic acid

3.3 **Chemical Formula:** $CH_3CH_2CH_2COOH$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped).** Liquid

4.2 **Color:** Clear

4.3 **Odor:** Rancid disagreeable strong penetrating like rancid butter

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self contained breathing apparatus rubber gloves vapor proof plastic goggles impervious apron and boots

5.2 **Symptoms Following Exposure.** Inhalation causes irritation of mucous membrane and respiratory tract may cause nausea and vomiting Ingestion causes irritation of mouth and stomach Contact with eyes may cause serious injury Contact with skin may cause burns chemical is readily absorbed through the skin and may cause damage by this route

5.3 **Treatment for Exposure:** INHALATION remove victim to fresh air give oxygen if breathing is difficult call a physician INGESTION give large amount of water and induce vomiting EYES irrigate with water for 15 min and get medical attention SKIN flush affected areas immediately and thoroughly with water

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion** Grade 2 oral LD_{50} [illegible]

5.7 **Late Toxicity** Data not available

5.8 **Vapor (Gas) Irritant Characteristics** Vapor [illegible] storage temperatures such that vapors will find high concentrations unpleasant [illegible] temperatures

5.9 **Liquid or Solid Irritant Characteristics** [illegible] severe irritant May cause pain and severe degree burns after a few minutes [illegible]

5.10 **Odor Threshold.** 0.001* ppm

6. FIRE HAZARDS

6.1 **Flash Point:** 166°F (C.C.) 160°F (C.C.)

6.2 **Flammable Limits in Air:** 2.0% - 10.0%

6.3 **Fire Extinguishing Agents.** Dry chemical alcohol foam carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used*** Water may be ineffective

6.5 **Special Hazards of Combustion Products:**

6.6 **Behavior in Fire*:**

6.7 **Ignition Temperature:** 842°F

6.8 **Electrical Hazard** Data not available

6.9 **Burning Rate** 2.7 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** May attack aluminum or other light metals with formation of flammable hydrogen gas

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:**
400 ppm* trout lethal/fresh water
200 ppm 24 hr bluegill TL_m fresh water
*Time period not specified

8.2 **Waterfowl Toxicity** Data not available

8.3 **Biological Oxygen Demand (BOD)*:**
1.150 lb/lb 5 days 1.480 lb/lb 20 days

8.4 **Food Chain Concentration Potential:** Seafood may be tainted following a spill but chemical does not concentrate in food chain

NOTES

CMB — CADMIUM BROMIDE

Common Synonyms	Solid	White	Odorless
Cadmium bromide tetrahydrate	Mixes with water		

AVOID CONTACT WITH SKIN AND CLOTHING KEEP FROM ANY CONTACT WITH WATER

Wear dust respirator and face shield or goggles and rubber gloves

Isolate leaking containers

Notify local health and pollution control agencies

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE

Keep upwind of fire

Exposure

CALL FOR MEDICAL AID

DUST
POISONOUS IF INHALED
If inhaled will cause coughing or difficult breathing.

Remove contaminated clothing
Flush affected areas with plenty of water
IF IN EYES Lift upper and lower lids and flush with plenty of water
IF SWALLOWED induce VOMITING by giving milk or egg whites
IF SWALLOWED give LARGE QUANTITIES OF WATER

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes.
If swallowed will cause nausea, vomiting and loss of consciousness

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.

Notify local health and wildlife officials
Notify operators of nearby water intakes

NOTES

CDC

CADMIUM CHLORIDE

Common Synonyms	Solid crystals	White	Odorless
	Sinks and mixes with water		

[illegible] and remove the hazardous material
[illegible]

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID

SOLID
Harmful if swallowed
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk. Induce vomiting. Get medical attention.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Isolate water for contaminant
Should be removed

2. LABEL

POISON

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** CdCl
3 4 **IMCO United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Crystalline solid
4 2 **Color:** White
4 3 **Odor:** Odorless

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Safety glasses, rubber gloves, and respirator with proper filter.
5 2 **Symptoms Following Exposure:** Ingestion causes gastroenteritis, distress, pain and prostration. Severe disturbances, liver injury, and convulsions have been observed in severe intoxications.
5 3 **Treatment for Exposure:** INGESTION: induce vomiting and follow with gastric lavage, a saline cathartic, and demulcents. Consider use of a chelating agent, such as EDTA. BAL has been found effective in several exposed animals and in a few humans. BAL has been found effectively effective in animal experiments to justify its use in human intoxication. Since the BAL-cadmium complex has a nephrotoxic action, the physician will have to decide whether or not to use the drug.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 2 ppm
5 5 **Short-Term Inhalation Limits:** Not pertinent
5 6 **Toxicity by Ingestion:** Grade 4 LD_{50} below 50 mg/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Not pertinent
5 9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first degree burns on short exposure; may cause second degree burns on long exposure

NOTES

REVISED 1978

CFB CADMIUM FLUOROBORATE

Common Synonyms
Cadmium fluoborate
Cadmium fluoborate solution

Liquid | Colorless | Odorless

Sinks and mixes with water

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY.
Wear goggles and self-contained breathing apparatus.
[illegible]
In case of contact immediately flush skin or eyes with plenty of water for at least 15 minutes.
Remove and isolate contaminated clothing and shoes.

Fire

Not flammable.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Wear goggles and self-contained breathing apparatus.

Exposure

CALL FOR MEDICAL AID.
VAPOR
POISONOUS IF INHALED
If inhaled will cause coughing or difficult breathing.
In case of contact immediately flush skin or eyes with plenty of water for at least 15 minutes.
Remove and isolate contaminated clothing and shoes.
If breathing has stopped give artificial respiration.
If breathing is difficult give oxygen.
LIQUID
Irritating to skin and eyes.
Harmful if swallowed.
In case of contact immediately flush skin or eyes with plenty of water for at least 15 minutes.
Remove and isolate contaminated clothing and shoes.
IN EYES hold eyelids open and flush with a steady gentle stream of water.
If SWALLOWED and victim is CONSCIOUS give large quantities of water.
Induce vomiting by touching back of throat with finger.
If SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do not induce vomiting or give anything by mouth.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-4.

Issue warning. Water contaminated.
Disperse and flush.

2. LABELS

No hazard label required by Code of Federal Regulations.

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Cadmium fluoborate
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** $Cd(BF_4)_2 \cdot H_2O$
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber gloves and apron; safety glasses and face shield.
5.2 **Symptoms Following Exposure:** Ingestion produces severe toxic symptoms; both kidneys and liver injuries may occur; may be fatal. Contact with eyes or skin causes irritation.
5.3 **Treatment for Exposure:** INHALATION: remove patient to fresh air; seek medical attention. INGESTION: call a physician at once; if victim is conscious, induce vomiting by giving a table spoon of salt in a glass of warm water and repeat until vomit is clear; give milk or whites of eggs beaten with water; keep patient warm and quiet. EYES: flush with plenty of water and get medical attention. SKIN: flush with plenty of water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.2 mg/m³ as cadmium
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 3 LD$_{50}$ 250 mg/kg (rat)
5.7 **Late Toxicity:** Delayed liver, kidney, and lung damage has followed respiratory exposure to cadmium salts or solutions.
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Not pertinent

NOTES

CMN CADMIUM NITRATE

Common Synonyms
Cadmium nitrate tetrahydrate

Solid | White | Odorless

Sinks in water

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE.

Exposure

DUST
POISONOUS IF INHALED
If inhaled will cause headache, coughing, or difficult breathing.

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes.
If swallowed will cause nausea and vomiting

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Toxic warning - water contaminant
Disperse and flush

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Cadmium nitrate tetrahydrate
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** $Cd(NO_3)_2 \cdot 4H_2O$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber gloves, safety goggles, dust mask
5 2 **Symptoms Following Exposure:** Inhalation of fumes can produce coughing, chest constriction, pain, headache, nausea, vomiting, pneumonitis. Chronic poisoning is characterized by emphysema and kidney injury. Ingestion causes gastrointestinal disturbance and severe toxic symptoms. Both kidney and liver injuries may occur. Contact with eyes causes irritation.
5 3 **Treatment for Exposure:** INHALATION: remove patient to fresh air, seek medical attention. INGESTION: give large amounts of water and induce vomiting; give milk or egg whites, seek medical attention. EYES: flush with copious amounts of water for 15 min., consult a physician. SKIN: wash with soap and water.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.2 mg/m³ as cadmium
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 3, oral mouse LD_{50} = 100 mg/kg
5 7 **Late Toxicity:** Diffused liver, lung, and kidney damage has followed repeated exposures to cadmium salts in industry.
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents:** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen and cadmium oxide fume may form in fires
6 6 **Behavior in Fire:** Will increase intensity of fire when in contact with combustible material

NOTES

CCA

CALCIUM ARSENATE

Common Synonyms
Tricalcium arsenate
Tricalcium ortho arsenate
Cucumber dust

Solid | White | Odorless

Sinks in water

AVOID CONTACT WITH SOLID AND DUST KEEP PEOPLE AWAY
Wear protective clothing
Notify authorities if exposed
Isolate spill or leak area immediately
Keep unauthorized personnel away

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE
Wear oxygen mask & full protective clothing

Exposure

CALL FOR MEDICAL AID

DUST
POISONOUS IF INHALED.
If inhaled will cause coughing or difficult breathing.
Prevent dust cloud. Isolate hazard area. Keep unnecessary people away. Don't get water on material. Avoid breathing dust. Keep upwind.

SOLID
POISONOUS IF SWALLOWED
If swallowed will cause nausea and vomiting.
Remove victim immediately to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen.
IN EYES hold eyelids apart and flush with plenty of water.
IF SWALLOWED and victim CONSCIOUS, induce vomiting immediately by giving one tablespoonful of salt in a glass of warm water. Repeat until vomit is clear. Then give 2 tablespoonfuls of Epsom salts or a glass of milk of magnesia. Stop vomiting. Call a physician.
IF SWALLOWED and victim UNCONSCIOUS OR HAVING CONVULSIONS, do not induce vomiting. Call physician immediately. Keep victim warm.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Issue warning - poison, water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Cucumber dust
Tricalcium arsenate
Tricalcium orthoarsenate

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** $Ca_3(AsO_4)_2$

3 4 **IMCO/United Nations Numerical Designation:** 6 1 1553

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** White

4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, goggles or face shield, protective gloves

5 2 **Symptoms Following Exposure:** Inhalation causes respiratory irritation. Ingestion causes irritation of mouth and stomach. Contact with eyes causes irritation.

5 3 **Treatment for Exposure:** INHALATION: move to fresh air. INGESTION: give victim one tablespoonful of salt in glass of water, repeat until vomit is clear, then give 2 tablespoonfuls of Epsom salts or milk of magnesia and force fluids; call a physician in all cases of suspected poisoning. EYES: flush with water for at least 15 min. SKIN: flush with water, wash with soap and water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 1 mg/m³

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 4, oral rat LD_{50} = 20 mg/kg

5 7 **Late Toxicity:** Arsenic compounds may cause skin and lung cancer

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** Not flammable

6 2 **Flammable Limits in Air:** Not flammable

6 3 **Fire Extinguishing Agents:** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products:** Toxic arsenic fume may be formed in fires

5 6 **Behavior in Fire:**

6 7 **Ignition Temperature:** Not pertinent

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:**

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:**
1 1 ppm/48 hr/perch/toxic/fresh water
4 3 ppm, 264 hr/crabs/toxic/fresh water

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** None

8 4 **Food Chain Concentration Potential:** Possible bioaccumulation problem

9 SELECTED MANUFACTURERS

1 Los Angeles Chemical Co
4545 Ardine Street
South Gate, Calif 90280

2 Pfaltz and Bauer, Inc
126-04 Northern Blvd
Flushing, N Y 11368

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** 70% containing calcium carbonate and calcium hydroxide (limestone and slaked lime)

10 2 **Storage Temperature:** Ambient

10 3 **Inert Atmosphere:** No requirement

10 4 **Venting:** Open

11. HAZARD ASSESSMENT CODE

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - high flammability
Should be removed
Chemical and physical treatment

2. LABELS

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:**
Acetylenogen
Carbide

3 2 **Coast Guard Compatibility Classification:**
Not applicable

3 3 **Chemical Formula:** CaC_2

3 4 **IMCO/United Nations Numerical Designation:** 4 3/1402

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** Gray to blush black

4 3 **Odor:** Garlic like

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Chemical safety goggles and (for those exposed to unusually dusty operations) a respirator such as those approved by the U S Bureau of Mines for nuisance dusts

5 2 **Symptoms Following Exposure:** Eye and skin irritation

5 3 **Treatment for Exposure:** INHALATION OF DUST remove from further exposure and call a doctor SKIN wash with plenty of water EYES flush with clean running water at an eye wash fountain for at least 15 min and get medical attention

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics:** None

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard If spilled on clothing and allowed to remain may cause smarting and reddening of the skin

5 10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable

6 2 **Flammable Limits in Air:** Not flammable

6 3 **Fire Extinguishing Agents:** Dry powder preferably allow fire to burn

6 4 **Fire Extinguishing Agents Not to be Used:** Water vaporizing liquid or foam carbon dioxide

6 5 **Special Hazards of Combustion Products:** Not pertinent

6 6 **Behavior in Fire:** If wet by water highly flammable acetylene gas is formed

6 7 **Ignition Temperature:** Not flammable

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not flammable

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts vigorously with water to form the highly flammable acetylene gas which may ignite spontaneously

7 2 **Reactivity with Common Materials:** Reacts with copper and brass to form explosive compound

7 3 **Stability During Transport:** Stable in absence of moisture

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

NOTES

REVISED 1978

CCC

CALCIUM CHLORATE

Common Synonyms

Solid | White | Odorless

Sinks and mixes with water

Calcium hypochlorite
Keeps fish wet
Prevents scaling, flocking of mud etc.
Kills catfish and pollutes recreational waters

Fire

Not flammable.
May explode on contact with combustibles
Irritating gases may be produced when heated
Combat fires from safe distance, cool containers
Flood discharge area with water

Exposure

Call for medical aid

DUST

Irritating to eyes, nose and throat
Move victim to fresh air
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have victim drink water or milk and have victim vomit
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do not induce vomiting or give anything by mouth

SOLID

Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have victim drink water or milk and have victim vomit
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do not induce vomiting or give anything by mouth

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 448-4)

Issue warning: oxidizing material
water contaminant
Should be removed
Chemical and physical treatment
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** No common synonyms
3 2 **Coast Guard Compatibility Classification** Not applicable
3 3 **Chemical Formula:** $Ca(ClO_3)_2$
3 4 **IMCO/United Nations Numerical Designation.** 1451/1452

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color** White
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield, dust respirator, coveralls or other protective clothing
5 2 **Symptoms Following Exposure:** Inhalation of dust causes irritation of upper respiratory system. Dust irritates eyes and skin. Ingestion causes abdominal pain, nausea, vomiting, diarrhea, pallor, shortness of breath, unconsciousness
5 3 **Treatment for Exposure** INHALATION: remove to fresh air. EYES: flush with water for 15 min. SKIN: flush with water. INGESTION: induce vomiting and get medical attention
5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion** Grade 2, oral LD_{50} = 4 500 mg/kg (rat)

NOTES

CLC

CALCIUM CHLORIDE

Common Synonyms
Calcium chloride, anhydrous
Calcium chloride hydrates

Solid or water solution | White to off-white | Odorless

Sinks and mixes with water

Avoid contact with liquid and solid. Keep people away.
Wear protective clothing, including gloves.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and other officials as required.

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID
SOLUTION OR SOLID
Will burn skin and eyes.
If swallowed will cause nausea and vomiting.

Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do not give liquid. Keep victim warm.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Calcium chloride anhydrous, Calcium chloride hydrates
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** $CaCl_2 \cdot xH_2O$ where x = 0 to 6
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid or water solution
4 2 **Color:** White to off white
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Safety glasses or face shield, dust type respirator, rubber gloves
5 2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat. Ingestion causes irritation of mouth and stomach. Contact with eyes (particularly by dust) causes irritation and possible transient corneal injury. Contact of solid with dry skin causes mild irritation. Strong solutions can cause marked irritation or even a superficial burn.
5 3 **Treatment for Exposure.** INHALATION: move to fresh air, if discomfort persists, get medical attention. INGESTION: give large amounts of water. EYES: promptly flood with water and continue washing for at least 15 min, consult an ophthalmologist. SKIN: flush with water.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion.** Grade 2, oral LD_{50} = 1 000 mg/kg (rat)

NOTES

CCR

CALCIUM CHROMATE

Common Synonyms
Calcium chromate (VI)
Gelbin yellow ultramarine
Steinbuhl yellow
Calcium chromate, dihydrate

Solid | Yellow | Odorless

Sinks and mixes slowly with water

Avoid contact with soft parts of body keep people away
Wear rubber overclothing including gloves
Stop discharge if possible
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Not flammable
Will increase the intensity of a fire

Heat and large amounts of water

Exposure

CALL FOR MEDICAL AID
DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

If in eyes hold eyelids apart and flush with plenty of water
If breathing has stopped give artificial respiration
If breathing is difficult give oxygen

SOLID
Will burn skin and eyes
Harmful if swallowed

Remove contaminated clothing and shoes
Flush affected areas with plenty of water
If IN EYES hold eyelids apart and flush with plenty of water
If SWALLOWED and victim is CONSCIOUS induce vomiting by mechanical means, water or milk and give victim plenty of water to drink
If SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do not induce vomiting but keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.

Notify local health and wildlife officials
Notify operators of nearby water intakes

NOTES

CCN — CALCIUM CYANIDE

Common Synonyms			
Cyanide of calcium	Solid	White to gray or black	Almond odor
	Sinks and mixes with water		

AVOID CONTACT WITH SOLID OR SOLUTION. KEEP PEOPLE AWAY.

Fire

Not flammable
POISONOUS GASES ARE PRODUCED WHEN HEATED
DO NOT USE WATER ON CARBON DIOXIDE ON ADJACENT FIRE

Exposure

CALL FOR MEDICAL AID
DUST
POISONOUS IF INHALED
Irritating to eyes, nose and throat

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
MAY BE DANGEROUS IF IT ENTERS WATER INTAKES

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)
Issue warning: poison air contaminant, water contaminant
Restrict access
Evacuate area
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Cyanide of calcium
Cyanogas G Fumigant
Cyanogas A Dust

3 2 **Coast Guard Compatibility Classification.** Not applicable

3 3 **Chemical Formula:** $Ca(CN)_2$ plus inert ingredients

3 4 **IMCO/United Nations Numerical Designation.** 6 1/1575

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** White to gray to black

4 3 **Odor:** Compound reacts with moisture in air to form hydrogen cyanide gas which has a characteristic almond like odor

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained breathing apparatus and full protective clothing including rubber footwear

5 2 **Symptoms Following Exposure:** Inhalation or ingestion causes headache, nausea, vomiting and weakness; high concentrations are rapidly fatal

5 3 **Treatment for Exposure:** *Call a doctor immediately.* INHALATION: break amyl nitrite pearl in cloth and hold lightly under nose for 15 sec., repeat 5 times at 15 sec. intervals; use artificial respiration if breathing stops. EYES: flush with water for 15 min.; do not allow water to enter nose or mouth. SKIN: flush with water; do not allow water to enter nose or mouth. INGESTION: break an amyl nitrite pearl in a cloth and hold lightly under nose for 15 sec.; if patient is conscious induce vomiting and repeat until vomit is clear; repeat inhalation of amyl nitrite 5 times at 15 sec. intervals; use artificial respiration if breathing has stopped

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 5 mg/m (as cyanide)

5 5 **Short-Term Inhalation Limits.** 5 mg/m for 30 min

5 6 **Toxicity by Ingestion:** Grade 4 oral LD_{50} = 39 mg/kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

NOTES

CHY — CALCIUM HYPOCHLORITE

Common Synonyms
STTH
HTH Dry Chlorine
Neutral anhydrous calcium hypochlorite
Senery

Solid granules | White | Household bleaching powder odor

Sinks and mixes with water

[illegible]

Fire

Not flammable
May cause fire on contact with combustibles.
POISONOUS GASES ARE PRODUCED WHEN HEATED
[illegible]

Exposure

CALL FOR MEDICAL AID
SOLID
Irritating to skin and eyes
If swallowed, will cause nausea, vomiting or loss of consciousness
[illegible]

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - corrosive
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:**
HTH HTH Dry Chlorine
Neutral anhydrous calcium hypochlorite Senery

3 2 **Coast Guard Compatibility Classification:**
Not applicable

3 3 **Chemical Formula** $Ca(OCl)_2$

3 4 **IMCO United Nations Numerical Designation:** 5 1 1748

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** White

4 3 **Odor:** Like bleaching powder

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Protective goggles dust mask

5 2 **Symptoms Following Exposure:** INHALATION hypochlorous acid fumes* cause severe respiratory tract irritation and pulmonary edema INGESTION pain and inflammation of mouth pharynx esophagus and stomach, erosion of mucous membranes chiefly of the stomach vomiting (hemorrhaging may cause vomitus to resemble coffee grounds) circulatory collapse with cold clammy skin cyanosis and shallow respirations confusion delirium coma edema of pharynx glottis, and larynx with stridor and obstruction perforation of esophagus or stomach with mediastinitis or peritonitis SKIN CONTACT may cause vesicular eruptions and eczematoid dermatitis

5 3 **Treatment for Exposure:** INGESTION swallow immediately milk egg white starch paste milk of magnesia aluminum hydroxide gel or magnesium trisilicate gel Avoid sodium bicarbonate because of the release of carbon dioxide Do not use acids antidotes cautious gastric lavage with tap water or a 1% solution of sodium thiosulfate milk of magnesia (1 oz) left in the stomach is useful as a mild antacid adsorbent demulcent and cathartic demulcents such as starch egg white milk gruel opiates for the control of pain Treat shock vigorously with intravenous fluids Prompt surgical intervention when indicated e g tracheotomy gastrotomy SKIN wash with liberal quantities of water and apply a paste of baking soda

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion:** Grade 1 Data above 15 g kg

*Gases are only if compound comes in contact with acid

NOTES

CNT

CALCIUM NITRATE

Common Synonyms

Solid | White | Odorless

Sinks and mixes with water

Fire

Not flammable
May cause fire on contact with combustibles.
POISONOUS GASES MAY BE PRODUCED WHEN HEATED

Exposure

DUST
Irritating to eyes, nose and throat

SOLID
Irritating to skin and eyes.
Harmful if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Isolate warning - oxidizing material
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Calcium nitrate tetrahydrate
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** $Ca(NO_3)_2 \cdot 4H_2O$
3 4 **IMCO/United Nations Numerical Designation:** 1454

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust respirator and rubber gloves
5 2 **Symptoms Following Exposure:** Dust causes mild irritation of eyes
5 3 **Treatment for Exposure:** EYES or SKIN: flush with water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** None

NOTES

CAO — CALCIUM OXIDE

Common Synonyms
Unslaked lime
Quicklime

Solid granules | White to grey | Odorless

Sinks and reacts violently with water. Water appears to boil.

[illegible]

Fire

Not flammable
May cause fire on contact with water and combustibles
[illegible]
DO NOT USE WATER ON ADJACENT FIRES

Exposure

CALL FOR MEDICAL AID
DUST
Irritating to nose and throat
[illegible]
SOLID
Will burn skin and eyes.
Harmful if swallowed
[illegible]
INGESTION: [illegible]

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: Cautionary
Restrict access
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Quicklime
Unslaked lime

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** CaO

3.4 **IMCO United Nations Numerical Designation:** 9.0 1910

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White to gray

4.3 **Odor:** Odorless

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective gloves, goggles and any type of respirator prescribed for fine dust.

5.2 **Symptoms Following Exposure:** Causes burns on mucous membrane and eyes. Inhalation of dust causes sneezing.

5.3 **Treatment for Exposure:** INGESTION: If victim is conscious, have him drink water or milk. DO NOT induce vomiting. SKIN AND EYES: Flush with water and seek medical help.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** [illegible]

5.5 **Short-Term Inhalation Limits:** [illegible]

5.6 **Toxicity by Ingestion:** Data not available

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Not pertinent.

5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and mild severe burns on short exposure and may cause secondary burns on long exposure.

5.10 **Odor Threshold:** Not pertinent.

6. FIRE HAZARDS

6.1 **Flash Point:** Not flammable

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:** Do not use water on adjacent fires

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** Not flammable

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not flammable

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Heat may cause ignition of combustibles. Material swells during reaction.

7.2 **Reactivity with Common Materials:** No reaction with water proper; then short effect is that of heat liberated

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 50 ppm/96 hr/[illegible]/salt water
240 ppm/24 hr/[illegible]/fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Not pertinent

8.4 **Food Chain Concentration Potential:** Not pertinent

CPP CALCIUM PHOSPHIDE

Common Synonyms

Photophor

Solid Gray Musty odor

Reacts violently with water Poisonous, flammable vapor is produced

AVOID CONTACT WITH LIQUID AND VAPOR KEEP PEOPLE AWAY
Wear goggles and self-contained breathing apparatus
Call fire department
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

FLAMMABLE
IGNITES WHEN EXPOSED TO MOISTURE
POISONOUS GASES ARE PRODUCED IN FIRE
Wear goggles and self-contained breathing apparatus
Extinguish with dry chemical, carbon dioxide
DO NOT USE WATER OR FOAM ON FIRE
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID

VAPOR PRODUCED IN REACTION WITH WATER
POISONOUS IF INHALED
Irritating to eyes, nose and throat
Move to fresh air
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

DUST
Irritating to eyes
Move victim to fresh air
If in eyes, hold eyelids open and flush with plenty of water

SOLID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Hazard Response Methods Handbook CG-446-4)

Issue warning: high flammability, poison, air contaminant, water contaminant
Restrict access
Evacuate area (large discharge only)
Should be removed

2. LABELS

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Photophor
3.2 **Coast Guard Compatibility Classification** Not applicable
3.3 **Chemical Formula:** Ca_3P_2
3.4 **IMCO/United Nations Numerical Designation:** 4.3/1360

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** Gray
4.3 **Odor:** Musty, like acetylene

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Dust respirator, protective gloves and clothing, goggles
5.2 **Symptoms Following Exposure:** Inhalation or ingestion causes faintness, weakness, nausea, vomiting. External contact with dust causes irritation of eyes and skin
5.3 **Treatment for Exposure:** INHALATION: remove to fresh air, call a physician and alert to possibility of phosphine poisoning. EYES or SKIN: flush with water. INGESTION: give large amounts of water, call physician and alert to possibility of phosphine poisoning
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Data not available
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available

NOTES

CRE — CALCIUM RESINATE

Common Synonyms
Metallic resinate
Calcium abietate
Calcium rosin
Calcium resinate, fused

Solid | Yellow to dark brown | Odorless

Sinks in water

Call fire department
Stop discharge if possible. Keep people away
Avoid contact with solid and dust
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
MAY IGNITE WHEN EXPOSED TO AIR
Extinguish with dry chemical, foam or carbon dioxide

Exposure

CALL FOR MEDICAL AID
DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing.
If in eyes, hold eyelids open and flush with plenty of water
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen
SOLID
Harmful if swallowed
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
If IN EYES, hold eyelids open and flush with plenty of water
If SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting
If SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do nothing, except keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.
Notify local health and wildlife officials
Notify owners of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Calcium abietate, Calcium resinate, fused, Calcium rosin, Limed wood rosin, Metallic resinate
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** (approx.) $Ca(OOCC_{19}H_{29})_2$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Amber, very dark brown
4 3 **Odor:** None

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, goggles or face shield, gloves
5 2 **Symptoms Following Exposure:** Inhalation of fumes from heated chemical may cause irritation of nose and throat. Ingestion causes irritation of nose and throat. Contact with eyes causes irritation. Contact of molten material with skin causes burns.
5 3 **Treatment for Exposure:** INHALATION: move victim to fresh air, get medical help immediately. INGESTION: give large amounts of water, induce vomiting. EYES: flush immediately with cold water, get medical help immediately. SKIN: if molten chemical burns skin, apply cold water immediately, get medical help for burn treatment.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not pertinent (combustible solid)
6 2 **Flammable Limits in Air:** Not pertinent
6 3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used:** Water
6 5 **Special Hazards of Combustion Products:**
6 6 **Behavior in Fire:**
6 7 **Ignition Temperature:** 480°F (may ignite spontaneously)
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:**
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** Data not available
8 4 **Food Chain Concentration Potential:** None

13 15 **Heat of Solution:** Not pertinent
13 16 **Heat of Polymerization:** Not pertinent

(Continued on pages 5 and 6)

NOTES

CPH	# CAMPHENE

Common Synonyms
3,3-Dimethyl-2-methylene norcamphane
2,2-Dimethyl-3-methylene-norbornane

Solid | White | Camphor like odor

Floats on water

Stop discharge if possible. Keep people away.
Call fire department.
Avoid contact with solid and dust.
Isolate and restrict discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
Extinguish with dry chemicals, Foam, carbon dioxide
Water may be ineffective

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause headache or difficult breathing
If in eyes, hold eyelids apart and flush with plenty of water
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

SOLID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids apart and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink WATER to dilute
IF SWALLOWED, if victim is UNCONSCIOUS OR HAVING CONVULSIONS do nothing, except keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 448-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:**
2,2-Dimethyl 3 methylenenorbornane
3,3 Dimethyl 2-methylenenorcamphane
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** $C_{10}H_{16}$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White
4 3 **Odor:** Camphoraceous

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Gloves and face shield
5 2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat. Contact with eyes or skin causes irritation
5 3 **Treatment for Exposure:** INHALATION move victim to fresh air call physician immediately EYES flush immediately with clean, cool water call physician immediately SKIN wash with alcohol follow with soap and water wash
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion** Data not available
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

(Continued on pages 5 and 6)

NOTES

CPO	# CAMPHOR OIL

Common Synonyms
Liquid camphor

Oily liquid Colorless or brown or blue Penetrating camphor odor

Usually floats on water

Stop discharge if possible
Call fire department
Avoid contact with liquid
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Combustible
Extinguish with dry chemical foam or carbon dioxide

Exposure

CALL FOR MEDICAL AID

VAPOR
Not irritating to eyes, nose or throat
Move to fresh air

LIQUID
Irritating to skin and eyes
If swallowed, will cause nausea, vomiting or loss of consciousness
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk

Water Pollution

Effect of low concentrations on aquatic life is unknown
Foaling to shoreline
May be dangerous if it enters water intakes.
Notify local health and pollution control officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Mechanical containment
Should be removed

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms**
Liquid impure camphor
Liquid gum camphor

3 2 **Coast Guard Compatibility Classification**
Ketone

3 3 **Chemical Formula** $C_{10}H_{16}O$

3 4 **IMCO/United Nations Numerical Designation** 1130

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid

4 2 **Color:** Colorless, brown, blue

4 3 **Odor** Like camphor, fragrant and penetrating

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Eye protection

5 2 **Symptoms Following Exposure** Within 5 to 90 minutes after swallowing, the following may be noted: nausea and vomiting, feeling of warmth, headache, confusion, acute excitement, restlessness, delirium, and hallucinations, increased muscular excitability, tremors, and jerky movements, epileptiform convulsions, followed by depression, convulsions sometimes occur early in the syndrome and may be severe, but they do not have the grave prognosis of strychnine convulsions; coma, central nervous depression may at times be the primary clinical response; death results from respiratory failure, or from status epilepticus, slow recovery (several days or weeks), often with persistent gastric distress

5 3 **Treatment for Exposure:** For internal intoxication - symptomatic, gastric lavage, cathartics, diuretics and sedatives. Control convulsions with a short-acting barbiturate, chloral hydrate, or ether. DO NOT use antiseptics or opiates

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 2 ppm

5 5 **Short-Term Inhalation Limits:** 3 ppm for 30 min

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors are nonirritating to the eyes and throat

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin

5 10 **Odor Threshold.** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 117°F C.C.

6 2 **Flammable Limits in Air**
Data not available

6 3 **Fire Extinguishing Agents:** Foam, carbon dioxide, or dry chemical

6 4 **Fire Extinguishing Agents Not to be Used.**
Not pertinent

6 5 **Special Hazards of Combustion Products**
Not pertinent

6 6 **Behavior in Fire:** The solid often evaporates without first melting

6 7 **Ignition Temperature:** 466°C

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:**
No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization.** Not pertinent

7 6 **Inhibitor of Polymerization.**
Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity**
Data not available

8 2 **Waterfowl Toxicity** Data not available

8 3 **Biological Oxygen Demand (BOD)**
Data not available

8 4 **Food Chain Concentration Potential**
None

9 SELECTED MANUFACTURERS

NOTES

REVISED 1978

CLS CAPROLACTAM, LIQUID

Common Synonyms
Aminocaproic lactam
2-Ketohexamethyleneimine
2-Oxohexamethyleneimine
epsilon-Caprolactam
Hexahydro-2H azepine 2-one

Liquid | Colorless | Mild odor

Sinks and mixes with water

Stop discharge if possible. Keep people away.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
Extinguish with water, dry chemicals, foam, or carbon dioxide.
Cool exposed containers with water.

Exposure

Call for medical aid.

LIQUID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of canal water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: water contaminant
Disperse and flush

2. LABELS

No label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Aminocaproic lactam, epsilon Caprolactam, Hexahydro 2H azepin 2 one, 2 ketohexamethylenimine

3 2 **Coast Guard Compatibility Classification:** Caprolactam solution

3 3 **Chemical Formula:** $HNCH_2CH_2CH_2CH_2CO$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Mild

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Gas mask or self-contained breathing apparatus, rubber gloves and boots, goggles or face shield

5 2 **Symptoms Following Exposure:** Inhalation causes coughing or mild irritation. Contact with hot liquid will burn eyes and skin.

5 3 **Treatment for Exposure:** INHALATION: remove patient to fresh air. EYES: wash with copious quantities of water for at least 15 min., call physician. SKIN: wash with water, call physician in case of thermal burn.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion:** Grade 2, oral rat LD_{50} = 2,140 mg/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are nonirritating to the eyes and throat.

5 9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin.

5 10 **Odor Threshold:** 0.3 mg/m³

6 FIRE HAZARDS

6 1 **Flash Point:** 257°F O.C., 230°F C.C.

6 2 **Flammable Limits in Air:** 1.84% (U.L.)

6 3 **Fire Extinguishing Agents:** Water, dry chemical, foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen

6 6 **Behavior in Fire:** Not pertinent

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** 2.4 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** No reaction

13 13 **Heat of Combustion:** −13,700 Btu/lb = −7,640 cal/g = -320×10^5 J/kg

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution:** Not pertinent

13 16 **Heat of Polymerization:** −324 Btu/lb = −180 cal/g = -7.5×10^5 J/kg

(Continued on pages 5 and 6)

NOTES

CPT

CAPTAN

Common Synonyms
N [(Trichloromethyl) thio]-4-cyclohexene-1, 2, -dicarboximide
N-trichloromethylthio-cis-Δ⁴-cyclohexene 1, 2, -dicarboximide
Orthocide
Vanicide

Solid | White to brown | Slight odor

Sinks in water

AVOID CONTACT WITH SOLID AND DUST KEEP PEOPLE AWAY
Wear goggles self-contained breathing apparatus and rubber clothing
Call fire department
Stay upwind use water spray to knock down dust
Isolate and remove discharged material
Notify local health and wildlife officials

Fire

FLAMMABLE
POISONOUS GASES MAY BE PRODUCED IN FIRE
Wear goggles and self-contained breathing apparatus
Extinguish with water dry chemicals foam or carbon dioxide
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID
DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED.
Move victim to fresh air
Protect rescuer
If breath has stopped give artificial respiration
If heart has stopped give cardiac massage
SOLID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have victim drink water or milk and have vomit induced promptly
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do not induce vomiting give plenty of water

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes
Contact wildlife officials
Notify public if in navigable waters

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning poison water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

(Continued on page 5 and 6)

NOTES

CBY	# CARBARYL

Common Synonyms
Sevin
1-Naphthyl N-methyl-carbamate

Solid powder, or in solution — White to gray — Weak odor

Solid sinks in water; solution may float on water

Stop discharge if possible
Call fire department
Avoid contact with solid and vapor
Wear protective clothing
Notify safety and health agencies

Fire

Solid not flammable, but usually dissolved in combustible liquid
Extinguish with water fog, dry chemical or carbon dioxide

Exposure

CALL FOR MEDICAL AID
SOLID OR SOLUTION
Irritating to skin and eyes
Harmful if swallowed
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim CONSCIOUS have victim drink water, or milk and have victim induce vomiting
IF SWALLOWED and victim UNCONSCIOUS OR DELIRIOUS, DO NOTHING except keep victim warm

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Fouling to shoreline
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: water contaminant
Should be removed

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:**
1-naphthyl N-methylcarbamate
Sevin
3 2 **Coast Guard Compatibility Classification.**
Not applicable
3 3 **Chemical Formula** $C_{12}H_{11}NO_2$
3 4 **IMCO/United Nations Numerical Designation** 6 1 6; 1615

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Off-white
4 3 **Odor:** Weak

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment** Data not available
5 2 **Symptoms Following Exposure:** Data not available
5 3 **Treatment for Exposure:** SKIN AND EYE CONTACT flush affected tissues with water
INGESTION induce vomiting
5 4 **Toxicity by Inhalation (Threshold Limit Value)** 5 mg/m³
5 5 **Short-Term Inhalation Limits:** Dust 30 mg/m³ for 30 min
5 6 **Toxicity by Ingestion** Grade 2 LD_{50} 0 to 5 g/kg of LD_{50} 0 5 g/kg)
5 7 **Late Toxicity:** Liver damage to rats at high dose by mouth
5 8 **Vapor (Gas) Irritant Characteristics:** None
5 9 **Liquid or Solid Irritant Characteristics:** Mild irritant

NOTES

REVISED 1978

CBO	# CARBOLIC OIL

Common Synonyms
Middle Oil
Liquefied phenol

Liquid — Colorless – darkens on exposure to light — Sweet tar odor

Sinks and mixes with water

AVOID CONTACT WITH LIQUID. Keep people away.
Wear chemical protective suit with self-contained breathing apparatus.
Stop discharge if possible.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible.
POISONOUS GASES ARE PRODUCED WHEN HEATED
Wear chemical protective suit with self-contained breathing apparatus.
Extinguish with water, dry chemical, foam or carbon dioxide.

Exposure

CALL FOR MEDICAL AID.
LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Remove contaminated clothing and shoes.
Flush affected area with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water, milk.
DO NOT INDUCE VOMITING.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: poison.
Restrict access.
Should be removed.
Chemical and physical treatment.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Middle oil
Liquefied phenol

3.2 **Coast Guard Compatibility Classification:**
Phenol

3.3 **Chemical Formula:** C_6H_5OH

3.4 **IMCO/United Nations Numerical Designation:** 9.0 16[1]

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless; darkens on exposure to light

4.3 **Odor:** Sweet tar like

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Fresh air mask for confined areas; rubber gloves; protective clothing; full face shield

5.2 **Symptoms Following Exposure:** Will burn eyes and skin. The analgesic action may cause loss of pain sensation. Readily absorbed through skin, causing increased heart rate, convulsions, and death.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air; keep quiet and warm. If breathing stops, start artificial respiration. INGESTION: do NOT induce vomiting. Give milk, egg whites, or large amounts of water. Get medical assistance. No known antidote. EYES AND SKIN: remove contaminated clothing. Flush eyes with water for 15 minutes or until physician arrives. Wash skin with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2; LD_{50} 0.5 to 5 g/kg (rat)

5.7 **Late Toxicity:** Causes cancer in experimental animals

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Emits severe skin irritant. May cause pain and second degree burns after a few minutes' contact.

5.10 **Odor Threshold:** 0.05 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 175°F CC, 175°F CC

6.2 **Flammable Limits in Air:**
1.3% - 9.6%

6.3 **Fire Extinguishing Agents:** Water, dry chemical, foam, or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:**
Not pertinent

6.5 **Special Hazards of Combustion Products:**
Unburned vapors toxic

6.6 **Behavior in Fire:** Yields flammable vapors when heated, which will form explosive mixtures with air

6.7 **Ignition Temperature:** 1319°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** 3.5 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:**
No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:**
Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
TLm 25 mg/l/96 hr/bluegill; TLm/fresh water
1.5 ppm/48 hr/rainbow trout; TLm/fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)**
20% 5 days

8.4 **Food Chain Concentration Potential:**
None

NOTES

REVISED 1978

CDO CARBON DIOXIDE

Common Synonyms
Carbonic acid gas
Carbonic anhydride

Liquefied compressed gas or solid — Colorless gas or white solid — Odorless

Solid sinks and boils in water. Visible vapor cloud is produced.

AVOID CONTACT WITH LIQUID AND SOLID. KEEP PEOPLE AWAY.
Wear goggles, self-contained breathing apparatus, rubber boots and heavy rubber gloves.
Stop leak if no hazard is involved.

Fire

Not flammable.
Containers may explode in fire.
Contact of liquid or solid with water may cause rapid boiling and splattering.

Exposure

Call for medical aid.

VAPOR

If inhaled will cause dizziness, or difficult breathing.
Move victim to fresh air.
If breathing is difficult, give oxygen.

LIQUID OR SOLID

Will cause frostbite.
Flush affected areas with plenty of water.
DO NOT RUB AFFECTED AREAS.

Water Pollution

Not harmful to aquatic life.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Restrict access.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Carbonic acid gas; Carbonic anhydride
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** CO_2
3.4 **IMCO/United Nations Numerical Designation:** 1013

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquefied compressed gas or solid ("Dry Ice")
4.2 **Color:** Colorless
4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus in excessively high CO concentration areas. For handling liquid or solid: wear safety goggles or face shield, insulated gloves, long sleeved shirt, and trousers worn outside boots or over high top shoes to shed spilled liquid.

5.2 **Symptoms Following Exposure:** Inhalation causes increased respiration rate, headache, subtle physiological changes for up to 5% concentration and prolonged exposure. Higher concentrations can cause unconsciousness and death. Solid can cause cold contact burns. Liquid or cold gas can cause freezing injury to skin or eyes similar to a burn.

5.3 **Treatment for Exposure:** INHALATION: move victim to fresh air. SKIN: treat burns from contact with solid in same way as frostbite.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5000 ppm

5.5 **Short-Term Inhalation Limits:** 30 000 ppm for 60 min

5.6 **Toxicity by Ingestion:** Not pertinent (gas with low boiling point)

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Not pertinent

13.15 **Heat of Solution:** Not pertinent
13.16 **Heat of Polymerization:** Not pertinent

(Continued on page 5 and 6)

NOTES

CBB CARBON BISULFIDE

Common Synonyms
Carbon disulfide

Watery liquid Colorless to yellow Rotten egg to sweet odor

Sinks in water Flammable, irritating vapor is produced

Avoid contact with liquid and vapor. Keep people away.
Wear goggles, self-contained breathing apparatus and rubber overclothing (including gloves).
Shut off ignition sources and call fire department.
Stop discharge if possible.
Stay upwind and use water spray to knock down vapor.
Dike and recover discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.
Wear goggles, self-contained breathing apparatus and rubber overclothing (including gloves).
Extinguish with dry chemical, CO2 or carbon dioxide.
Water and foam may be ineffective on fire.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause nausea, vomiting, difficult breathing, or loss of consciousness.
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and have victim induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Manual, 1978, CG-446-4)

Isolate warning: high flammability
Restrict access
Evacuate area

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Carbon disulfide
3 2 **Coast Guard Compatibility Classification:** Carbon disulfide
3 3 **Chemical Formula:** CS_2
3 4 **IMCO United Nations Numerical Designation:** 3 1 1131

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Fairly sweetish, distasteful, offensive, like that of decaying cabbage

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Only self-contained breathing mask with full face approved by the United States Bureau of Mines is recommended. If the vapor concentration exceeds 2% by volume or is unknown, supplied air respirators equipment of appropriate design with full face masks should be used by all persons entering contaminated area. Masks should be used only for emergency situations and should be located accordingly. Almost any type of industrial clothing is satisfactory. Splashes of small quantities are not harmful to fabrics, and evaporation from clothing is quite rapid. Clothing should, however, be removed and the skin washed with water. Goggles should be used when the eyes are in danger of CS_2 splashes or sprays.

5 2 **Symptoms Following Exposure:** ACUTE EXPOSURE: mild to moderate irritation of skin, eyes and mucous membranes from liquid or concentrated vapors; headache, garlicky breath, nausea, vomiting, diarrhea (even after vapor exposures) and excessive salivation; abdominal pain; weak pulse; palpitations; fatigue; weakness in the legs; unsteady gait; vertigo; mania; hallucinations of sight, hearing, taste and smell in acute, massive vapor exposures; central nervous depression with respiratory paralysis; death may occur during coma or after convulsion.

5 3 **Treatment for Exposure:** INHALATION: remove victim promptly from contaminated area. Administer oxygen and artificial respiration if needed. SKIN CONTACT: wash affected areas with copious quantities of water. INGESTION: induce vomiting and follow with gastric lavage and saline cathartics.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 20 ppm

5 5 **Short-Term Inhalation Limits:** 100 ppm for 30 minutes; 200 ppm for 10 minutes; 100 ppm for 30 minutes and 50 ppm for 60 minutes.

6 FIRE HAZARDS

6 1 **Flash Point:** −22°F (C.C.)
6 2 **Flammable Limits in Air:** 1.3% - 50%
6 3 **Fire Extinguishing Agents:** Dry chemical, carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** Toxic gases are generated. Wear self contained breathing apparatus.
6 6 **Behavior in Fire:** Not pertinent
6 7 **Ignition Temperature:** 212°F
6 8 **Electrical Hazard:** Contact of the liquid or vapor with the surface of a lighted electric light bulb could cause ignition.
6 9 **Burning Rate:** 2.7 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** 35 ppm/48 hr/mosquito fish/TL_m/fresh water
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** Data not available
8 4 **Food Chain Concentration Potential:** None

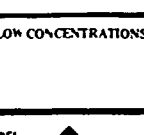
POISONOUS IF INHALED

LIQUID
Will cause frostbite.

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison, high flammability
Restrict access
Evacuate area

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Monoxide
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** CO
3.4 **IMCO/United Nations Numerical Designation:** 2/1016

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Compressed gas or liquefied gas
4.2 **Color:** Colorless
4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self contained breathing apparatus, safety glasses and safety shoes. Type D or Type S canister mask.

5.2 **Symptoms Following Exposure:** Inhalation causes headache, dizziness, weakness of limbs, confusion, nausea, unconsciousness and finally death. 0.04% conc. 2 hr or 0.6% conc. 1 hr: headache and discomfort with moderate exercise. 0.1-0.2% will produce throbbing in the head in about 2 hr, tendency to stagger in about 1 hr, and confusion of the mind, headache and nausea in about 2 hrs. 0.2-0.25% usually produces unconsciousness in about 1 hr. Inhalation of a 0.4% conc. can prove fatal in less than 1 hr. Inhalation of high concentrations can cause sudden unexpected collapse. Contact of liquid with skin will cause frostbite.

5.3 **Treatment for Exposure:** INHALATION: remove from exposure, give oxygen if available, support respiration, call a doctor. SKIN: if burned by liquid, treat as frostbite.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 50 ppm

5.5 **Short-Term Inhalation Limits:** 400 ppm 15 min

5.6 **Toxicity by Ingestion:** Not pertinent (gas with low boiling points)

5.7 **Late Toxicity:** Toxicity from overexposure persists for many days.

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Not pertinent

6. FIRE HAZARDS

6.1 **Flash Point:** Not pertinent.
6.2 **Flammable Limits in Air:** 12% - 75%
6.3 **Fire Extinguishing Agents:** Let fire burn, shut off flow of gas and cool adjacent containers with water. Extinguish fire (if wearing self-contained breathing apparatus) with dry chemicals or carbon dioxide.
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Asphyxiation due to carbon dioxide production may result.
6.6 **Behavior in Fire:** Flame has very little color. Containers may explode in fire.
6.7 **Ignition Temperature:** 1128°F
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 1.5 ppm TL for minnows and sunfish, killed, fresh water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** None
8.4 **Food Chain Concentration Potential:** None

9. SELECTED MANUFACTURERS

1. Air Products and Chemicals, Inc.
Special Gas & Equipment Dept.
7201 W. Broad Street
Emmaus, Pa. 18049

2. Matheson Gas Products
East Rutherford, N.J. 07073

10. SHIPPING INFORMATION

10.1 **Grades of Purity:** Liquid 98.6+% Gas Research High Purity, CP (99.5%) Technical (99.0+%) Commercial (95.5+%)
10.2 **Storage Temperature:** Ambient (for gas); -312.7°F (for liquid)
10.3 **Inert Atmosphere:** No requirement
10.4 **Venting:** Safety relief

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 446-3)

A B C D E F G

12. HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations:** Flammable compressed gas
12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

Health Hazard (Blue)	2
Flammability (Red)	4
Reactivity (Yellow)	0

13. PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Gas
13.2 **Molecular Weight:** 28.0
13.3 **Boiling Point at 1 atm:** -312.7°F = -191.5°C = 81.7°K
13.4 **Freezing Point:** -326°F = -199°C = 74°K
13.5 **Critical Temperature:** -220°F = -140°C = 133°K
13.6 **Critical Pressure:** 507.5 psia = 34.51 atm = 3.502 MN/m²
13.7 **Specific Gravity:** 0.791 at -191.5°C (liquid)
13.8 **Liquid Surface Tension:** 9.8 dynes/cm = 0.009 N/m at -193°C
13.9 **Liquid-Water Interfacial Tension:** Not pertinent
13.10 **Vapor (Gas) Specific Gravity:** 0.97
13.11 **Ratio of Specific Heats of Vapor (Gas):** 1.3962
13.12 **Latent Heat of Vaporization:** 92.8 Btu/lb = 51.6 cal/g = 2.16 × 10⁵ J/kg
13.13 **Heat of Combustion:** -4 443 Btu/lb = -2 412 cal/g = -10.1 × 10⁵ J/kg
13.14 **Heat of Decomposition:** Not pertinent
13.15 **Heat of Solution:** Not pertinent
13.16 **Heat of Polymerization:** Not pertinent

(Continued on pages 5 and 6)

NOTES

CBT	# CARBON TETRACHLORIDE

Common Synonyms
Carbon Tet
Tetrachloromethane

Watery liquid | Colorless | Sweet odor

Sinks in water. Poisonous vapor is produced.

[illegible] liquid and vapor. Keep people away [illegible] Do not breathe vapor. Apply foam. Stop discharge if possible. [illegible]

Fire

Not flammable.
POISONOUS AND IRRITATING GASES ARE PRODUCED WHEN HEATED.
[illegible] and self-contained breathing apparatus.

Exposure

CALL FOR MEDICAL AID
VAPOR
POISONOUS IF INHALED
Irritating to eyes
Move to fresh air. If breathing has stopped, give artificial respiration. If breathing is difficult, give oxygen.
LIQUID
POISONOUS IF SWALLOWED
Irritating to skin and eyes
Remove contaminated clothing and shoes. Flush affected areas with plenty of water.
IF EYES are affected, flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water. Induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and [illegible] authorities.
Notify operators of [illegible] water intakes.

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-6

Issue warning: [illegible] person
Restrict access
Should be removed

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Benzinoform
Necatorina
Perchloromethane
Tetrasol
Tetrasolmethane

3.2 **Coast Guard Compatibility Classification:** Halogenated hydrocarbon

3.3 **Chemical Formula:** CCl_4

3.4 **IMCO United Nations Numerical Designation:** [illegible]

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Sweetish, aromatic, mobile oil, stinging ethereal, somewhat resembling that of chloroform

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic vapor canister with a full facemask; protective rubber gloves.

5.2 **Symptoms Following Exposure.** Dizziness, incoordination, anesthesia, may be decomposed by nausea and liver damage. Kidney damage also occurs, often producing decrease or stopping of urine output.

5.3 **Treatment for Exposure:** EYES AND SKIN: flush with plenty of water for eyes; get medical attention. Remove contaminated clothing and wash before reuse. INHALATION: immediately remove to fresh air. Keep patient warm and quiet and get medical attention promptly. Start artificial respiration if breathing stops. INGESTION: induce vomiting and get medical attention promptly. No specific antidote known.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** [illegible] ppm

5.5 **Short-Term Inhalation Limits:** [illegible] ppm for [illegible] minutes

5.6 **Toxicity by Ingestion:** Grade 2 [illegible] Single dose oral LD50 [illegible] gm/kg

5.7 **Chronic Toxicity:** Causes severe liver damage and death of organs.

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes moderate irritation such that personnel would find be a concentration unpleasant. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If exposed on clothing and allowed to remain, may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** Greater than 10 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Fumes, poisonous phosgene gas when exposed to open flames

6.6 **Behavior in Fire:** Decomposes to form chlorine and phosgene

6.7 **Ignition Temperature:** Not flammable

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not flammable

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

NOTES

REVISED 1978

CAR	# CARENE

Common Synonyms

3-Carene
Isodrene
4,7,7-Trimethyl-3-norcarene
3,7,7-Trimethylbicyclo[4.1.0]hept-3-ene

Liquid Colorless Sweet turpentine-like odor

Floats on water

[illegible]

Fire

Combustible
[illegible]

Exposure

[illegible]

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache, coughing or difficult breathing
[illegible]

LIQUID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting
[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
Foaming to shoreline
May be dangerous if it enters water intakes
[illegible]

NOTES

CPS	# CAUSTIC POTASH SOLUTION

Common Synonyms	Thick liquid	Colorless	Odorless
Potassium hydroxide solution Lye	Sinks and mixes with water		

AVOID CONTACT WITH LIQUID Keep people away
Wear rubber overclothing (including gloves)
Stop discharge if possible
Isolate and remove discharged material
Notify local health and pollution control agencies

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID

LIQUID
Will burn skin and eyes.
Harmful if swallowed

Remove contaminated clothing at once
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS have victim drink water or milk
DO NOT INDUCE VOMITING

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning re corrosive
Restrict access
Dispose and flush

NOTES

REVISED 1978

CSS

CAUSTIC SODA SOLUTION

Common Synonyms
Sodium hydroxide solution
Lye

Thick liquid | Colorless | Odorless

Sinks and mixes with water

AVOID CONTACT WITH LIQUID. Keep people away.
Wear rubber overclothing including gloves.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable

Exposure

CALL FOR MEDICAL AID
LIQUID
Will burn skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and pollution control officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: corrosive.
Restrict access.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.**
Sodium hydroxide solution
Lye

3 2 **Coast Guard Compatibility Classification**
Caustic

3 3 **Chemical Formula:** NaOH H O

3 4 **IMCO/United Nations Numerical Designation.** 8 0/1824

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Wide brimmed hat, safety goggles with rubber side shields, tight fitting cotton clothing, rubber gloves under shirt cuffs, rubber boots and apron.

5 2 **Symptoms Following Exposure.** Causes severe burns of eyes, skin, and mucous membranes.

5 3 **Treatment for Exposure:** (Act quickly) EYES: Flush with water at once for at least 15 min. SKIN: flush with water, then rinse with dilute vinegar (acetic acid). INGESTION: give water and milk. Do NOT induce vomiting. Call physician at once even when injury seems to be slight.

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Not pertinent

5 5 **Short-Term Inhalation Limits.** Not pertinent

5 6 **Toxicity by Ingestion:** Grade 2, oral rabbit LD_{50} = 500 mg/kg

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics.** Not pertinent

5 9 **Liquid or Solid Irritant Characteristics.** Severe skin irritant. Causes second and third-degree burns on short contact and very injurious to the eyes.

5 10 **Odor Threshold:** Not pertinent

6. FIRE HAZARDS

6 1 **Flash Point:** Not flammable

6 2 **Flammable Limits in Air:** Not flammable

6 3 **Fire Extinguishing Agents:** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products:** Not pertinent

6 6 **Behavior in Fire:** Not pertinent

6 7 **Ignition Temperature:** Not flammable

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not flammable

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** Corrosive to aluminum, zinc, and tin. Contact with some metals may generate hydrogen gas, which is explosive and flammable.

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Dilute with water, rinse with dilute acetic acid.

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:**
125 ppm, 96 hr, mosquito fish/TLm, fresh water
180 ppm, 24 hr, oysters, larvae/salt water
(These figures are for 100% sodium hydroxide)

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** None

8 4 **Food Chain Concentration Potential.** None

9 SELECTED MANUFACTURERS

1 Diamond Shamrock Corp.
Electrochemicals Division
Painesville, Ohio 44077

2 Dow Chemical Co.
Midland, Mich. 48640

3 PPG Industries, Inc.
Industrial Chemicals Division
Barberton, Ohio 44203

10. SHIPPING INFORMATION

10 1 **Grades or Purity:** 73%

10 2 **Storage Temperature:** Ambient or elevated

10 3 **Inert Atmosphere:** No requirement

10 4 **Venting.** Open

NOTES

REVISED 1978

CHC — CHARCOAL

Common Synonyms
Vegetable carbon
Animal carbon
Activated charcoal
Wood charcoal
Shell charcoal

Solid powder, lumps, or grains — Black — Odorless

May float or sink in water

Shut off ignition sources. Call fire department.
Stay upwind. Use water spray to knock down dust.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
Flood discharge area with water.

Exposure

DUST
Irritating to eyes, nose and throat.
Move victim to fresh air.
If in eyes, hold lids open and flush with plenty of water.

SOLID
Not harmful

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability.
Disperse and flush.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Vegetable carbon, Vegetable charcoal, Animal carbon, Animal charcoal, Mineral carbon, Mineral charcoal, Activated charcoal, Wood charcoal, Shell charcoal
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** C
3.4 **IMCO/United Nations Numerical Designation:** 4.2/1361, 1362

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Powder, lumps, grains, or sticks
4.2 **Color:** Black
4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Respirator for dust
5.2 **Symptoms Following Exposure:** No significant symptoms
5.3 **Treatment for Exposure:** No treatment required
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent
5.5 **Short-Term Inhalation Limits:** Not pertinent
5.6 **Toxicity by Ingestion:** Non-toxic (actually used in therapy of poisoning cases)
5.7 **Late Toxicity:** None
5.8 **Vapor (Gas) Irritant Characteristics:** Not pertinent
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6.1 **Flash Point:** Flammable solid, may ignite spontaneously in air
6.2 **Flammable Limits in Air:** Not pertinent
6.3 **Fire Extinguishing Agents:** Water.
6.4 **Fire Extinguishing Agents Not to be Used.** Not pertinent
6.5 **Special Hazards of Combustion Products:** Incomplete combustion forms toxic carbon monoxide
6.6 **Behavior in Fire:** Not pertinent
6.7 **Ignition Temperature:** 600-750°F
6.8 **Electrical Hazard.** Class I, Group I
6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** May ignite spontaneously in air
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent.

8. WATER POLLUTION

CDN

CHLORDANE

Common Synonyms
Chlordan
1,2,4,5,6,7,8,8-Octachloro-2,3,3a,4,7,7a-hexahydro-4,7-methanoindene
Toxichlor
Octa-Klor
Velsicol 1068

Liquid or solution | Brown | Sharp odor

Sinks in water

AVOID CONTACT WITH FOOD TO KEEP PEOPLE AWAY
[illegible]

Fire

Not flammable but solution may be combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
[illegible]

Exposure

CALL FOR MEDICAL AID
LIQUID OR SOLUTION
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Irritating to skin and eyes
[illegible]
DO NOT BE AFFECTED BY AREAS
IF IN EYES [illegible]
IF SWALLOWED [illegible]
IF SWALLOWED [illegible]

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
[illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - poison
Restrict access
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Chlordan 1,2,4,5,6,7,8,8-Octachloro-2 3 3a,4,7,7a hexahydro-4,7-methanoindene, Velsicol 1068, CD-68, Toxichlor, Octa Klor

3 2 **Coast Guard Compatibility Classification.** Not applicable

3 3 **Chemical Formula:** $C_{10}H_6Cl_8$

3 4 **IMCO/United Nations Numerical Designation:** 6 1 1615

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid

4 2 **Color:** Brown

4 3 **Odor:** Penetrating aromatic slightly pungent like chlorine

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Respirator for sprays fogs or dust goggles rubber gloves

5 2 **Symptoms Following Exposure:** Moderately irritating to eyes and skin Ingestion absorption through skin or inhalation of mist or dust may cause excitability convulsions nausea vomiting, diarrhea and some local irritation of the gastrointestinal tract

5 3 **Treatment for Exposure:** INHALATION administer oxygen and give fluid therapy, do not give epinephrine since it may induce ventricular fibrillation, enforce complete rest EYES flush with water for at least 15 min SKIN wash off skin with adequate quantities of soap and water do NOT scrub INGESTION induce vomiting and follow with gastric lavage and administration of saline cathartics ether and barbiturates may be used to control convulsions oxygen and fluid therapy are also recommended do NOT give epinephrine Since no specific antidotes are known symptomatic therapy must be accompanied by complete rest

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0 5 mg m³

5 5 **Short-Term Inhalation Limits:** 2 mg m³ for 30 min

5 6 **Toxicity by Ingestion** Grade 3 oral LD_{50} = 283 mg/kg (rat)

5 7 **Late Toxicity:** Possible liver damage loss of appetite and weight

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics.** Data not available

5 10 **Odor Threshold.** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** Solution 225°F O C
132°F C C Solid is not flammable

6 2 **Flammable Limits in Air:** 0 7% 5% (kerosene solution)

6 3 **Fire Extinguishing Agents:** Dry chemical foam carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used.** Water may be ineffective on solution fire

6 5 **Special Hazards of Combustion Products.** Irritating and toxic hydrogen chloride and phosgene gases may be formed when kerosene solution of compound burns

6 6 **Behavior in Fire** Not pertinent

6 7 **Ignition Temperature:** 410°F (kerosene solvent)

6 8 **Electrical Hazard** Data not available

6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials** No reaction

NOTES

REVISED 1978

CTF — CHLORINE TRIFLUORIDE

Common Synonyms

Liquefied compressed gas | Greenish yellow liquid or colorless gas | Strong sweetish odor

Sinks and may boil in water. Reacts violently with water to produce poisonous gas. Boiling point is 53° F.

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY.
Wear chemical protective suit with self-contained breathing apparatus.
Stop discharge if possible.
Evacuate area in case of large discharge.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable
May explode on contact with combustibles.
POISONOUS GASES ARE PRODUCED WHEN HEATED
Containers may explode in fire
Wear chemical protective suit with self-contained breathing apparatus.
Combat fires from safe distance or protected location.
Extinguish with dry chemicals, carbon dioxide.
DO NOT USE WATER OR FOAMS. AVOID CONTACT WITH WATER.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

VAPOR
POISONOUS IF INHALED
Irritating to skin, eyes, nose and throat
Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
POISONOUS IF SWALLOWED
Will burn skin and eyes
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
DO NOT RUB AFFECTED AREAS.
IF IN EYES, hold eyelids apart and flush with plenty of water.
IF SWALLOWED, do not induce VOMITING. Give water to drink, milk or milk of magnesia.
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: poison air contaminant; water contaminant; corrosive; oxidizing material.
Restrict access.
Evacuate area.

2. LABELS

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** CTF
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** ClF_3
3 4 **IMCO/United Nations Numerical Designation:** 2/1749

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquefied compressed gas
4 2 **Color:** Gas: colorless. Liquid: greenish yellow
4 3 **Odor:** Acrid, strong, pungent, sweetish, sweet and irritating

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Neoprene gloves and protective clothing made of glass fiber and Teflon, including full hood, self-contained breathing apparatus with full face mask.

5 2 **Symptoms Following Exposure:** Inhalation causes extreme irritation. Respiratory tract pulmonary edema may result. Vapors are very irritating to eyes and skin. Liquid causes severe burns.

5 3 **Treatment for Exposure.** Call physician at once after any exposure to this compound. INHALATION: remove victim to fresh air and *keep him quiet*; give artificial respiration if breathing has stopped; give oxygen; enforce rest for 24 hours. EYES: flush with water for at least 15 min.; get medical attention. But do not interrupt flushing for at least 10 min. SKIN: flush with water, then with 3% aqueous ammonia, then again with water; apply ice cold pack of saturated Epsom salt or 70% ethyl alcohol.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0.1 ppm (ceiling limit)

5 5 **Short-Term Inhalation Limits:** 0.1 ppm for 5 min

5 6 **Toxicity by Ingestion:** Grade 4. LD_{50} < 50 mg/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause severe irritation of eyes and throat and can cause eye or lung injury. They cannot be tolerated even at low concentrations.

5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant, causes second- and third-degree burns on short contact and is very injurious to the eyes.

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable, but may cause fire on contact with some materials.
6 2 **Flammable Limits in Air:** Not pertinent
6 3 **Fire Extinguishing Agents:** Dry chemical
6 4 **Fire Extinguishing Agents Not to be Used:** Do not use water on adjacent fires unless well protected against hydrogen fluoride gas.
6 5 **Special Hazards of Combustion Products:** If released from container, fumes are toxic and irritating.
6 6 **Behavior in Fire.** If released from container can increase the intensity of fire. Containers may explode.
6 7 **Ignition Temperature:** Not pertinent
6 8 **Electrical Hazard.** Not pertinent
6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts explosively with water, evolving hydrogen fluoride, (hydrofluoric acid) and chlorine.
7 2 **Reactivity with Common Materials.** Causes ignition of all combustible materials and even sand or concrete. Very similar to fluorine gas.
7 3 **Stability During Transport.** Stable
7 4 **Neutralizing Agents for Acids and Caustics.** Flood with water.
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available.
8 2 **Waterfowl Toxicity:** Data not available.
8 3 **Biological Oxygen Demand (BOD):** None
8 4 **Food Chain Concentration Potential.** None

NOTES

CRA

CHLOROACETOPHENONE

Common Synonyms

Phenacyl chloride
omega-Chloroacetophenone
alpha-Chloroacetophenone
Phenyl chloromethyl ketone
Chloromethyl phenyl ketone
Tear gas

Solid | White to light yellow | Sharp odor

Sinks in water

AVOID CONTACT WITH SOLID AND DUST KEEP PEOPLE AWAY

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

CALL FOR MEDICAL AID

DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
Irritating to eyes nose and throat

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - air contaminant
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Phenacyl chloride omega Chloroacetophenone, alpha Chloroacetophenone Phenyl chloromethyl ketone Tear gas Chloromethyl phenyl ketone

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** $C_6H_5COCH_2Cl$

3 4 **IMCO/United Nations Numerical Designation:** 6 1/1697

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** White to pale yellow

4 3 **Odor:** Pungent

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Full face organic canister mask, self-contained breathing apparatus rubber gloves protective clothing

5 2 **Symptoms Following Exposure:** Inhalation causes tearing burning of the eyes and difficulty in breathing, high concentrations may lead to development of acute pulmonary edema after latencies of 8 hrs to several days, possible systemic manifestations include agitation, coma, contraction of pupils of eyes loss of reflexes External contact causes irritation of skin and intense irritation of eyes Ingestion causes agitation, coma contraction of pupils of eye loss of reflexes

5 3 **Treatment for Exposure:** INHALATION remove victim from contaminated atmosphere at once give artificial respiration and oxygen if necessary watch for pulmonary edema for several days EYES flush with water do not rub SKIN flush with water INGESTION get medical attention watch for development of pulmonary edema for several days

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0 05 ppm

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 3 oral LD_{50} = 52 mg/kg (rat)

5 7 **Late Toxicity:** Fatty infiltration of liver

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** 0 016 ppm

6 FIRE HAZARDS

6 1 **Flash Point:** Combustible solid 244°F C C (solutions only)

6 2 **Flammable Limits in Air:** Not pertinent

6 3 **Fire Extinguishing Agents:** Water

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products:** Irritating hydrogen chloride may form

NOTES

CAC CHLOROACETYL CHLORIDE

Common Synonyms

Liquid | Colorless to light yellow | Sharp extremely irritating odor

Reacts violently with water Irritating vapor is produced

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED WHEN HEATED
DO NOT USE WATER ON ADJACENT FIRES

Exposure

VAPOR
Irritating to eyes nose and throat

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning air contaminant corrosive
Restrict access
Disperse and flush

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Chloracetyl chloride
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** ClCH2COCl
3 4 **IMCO/United Nations Numerical Designation:** 8 1752

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless to slightly yellow
4 3 **Odor:** Sharp pungent, extremely irritating

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Acid type canister mask self-contained breathing apparatus (full faced) rubber gloves and full protective clothing

5 2 **Symptoms Following Exposure:** Inhalation causes severe irritation of upper respiratory system External contact causes severe irritation of eyes and skin Ingestion causes severe irritation of mouth and stomach

5 3 **Treatment for Exposure:** INHALATION remove from exposure support respiration call physician EYES wash with copious amounts of water for 15 min call physician SKIN wash with large amounts of water treat burns as required INGESTION do NOT induce vomiting give large amounts of water call a physician

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2 LD_{50} 0.5 to 5 g/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations

5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant Causes second and third-degree burns on short contact and is very injurious to the eyes

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents:** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Do not use water on adjacent fires
6 5 **Special Hazards of Combustion Products:** Heat of fire can cause decomposition with evolution of highly toxic and irritating hydrogen chloride and phosgene vapors
6 6 **Behavior in Fire:** Highly irritating tear gas vapors released when heated Hydrogen chloride gas is released if in contact with water
6 7 **Ignition Temperature:** Not pertinent
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts vigorously to generate hydrogen chloride (hydrochloric acid)
7 2 **Reactivity with Common Materials:** Will react with surface moisture to generate hydrogen chloride which is corrosive to metals
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Flush with water rinse with sodium bicarbonate or lime solution

NOTES

CAP

p-CHLOROANILINE

Common Synonyms

1 Amino-4-chlorobenzene
4-Chlorophenylamine
4-Chloroaniline

Solid — Yellowish white — Mild sweet odor

Sinks and mixes slowly with water

Fire

Combustible
POISONOUS GASES ARE PRODUCED IN FIRE

Exposure

SOLID AND DUST
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - poison
Restrict access
Should be removed
Chemical and physical treatment

2. LABELS

No label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 1 Amino-4-chlorobenzene
4 Chlorophenylamine
4 Chloroaniline

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** $4\text{-}ClC_6H_4NH_2$

3 4 **IMCO/United Nations Numerical Designation:** 6 1 1526

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** Yellowish white cream to tan color (darkens on storage)

4 3 **Odor:** Slightly sweetish characteristic amine

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber gloves, chemical goggles, protective clothing, dust respirator

5 2 **Symptoms Following Exposure:** Inhalation or ingestion causes bluish tint to fingernails, lips and ears indicative of cyanosis, headache, drowsiness and nausea, followed by unconsciousness. Liquid can be absorbed through skin and cause similar symptoms. Contact with eyes causes irritation.

5 3 **Treatment for Exposure:** INHALATION: remove victim from exposure immediately, if needed administer oxygen, refer to physician. EYES: flush with water for at least 15 min. SKIN: remove victim from exposure immediately, remove contaminated clothing, wash contacted area with copious amounts of water and soap, if needed, administer oxygen, refer to physician. INGESTION: induce vomiting, get medical attention.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

NOTES

CRB CHLOROBENZENE

Common Synonyms
Monochlorobenzene
Phenyl chloride
Benzene chloride

Watery liquid. Colorless. Sweet, almond odor.

Sinks. Flammable vapor is produced.

Avoid contact with liquid and vapor. Keep people away.
Stop discharge if possible.
Call fire department.
Keep upwind. Use water spray to knock down vapor.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Wear goggles and self-contained breathing apparatus.
Extinguish with dry chemical, foam or carbon dioxide.

Exposure

CALL FOR MEDICAL AID

VAPOR
If inhaled, will cause coughing or dizziness.
Not irritating to eyes, nose and throat.

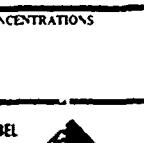
Move to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.



Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Should be removed.
Chemical and mechanical treatment.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Benzene chloride
MCB
Monochlorobenzene
Phenyl chloride

3.2 **Coast Guard Compatibility Classification:**
Halogenated hydrocarbon

3.3 **Chemical Formula:** C_6H_5Cl

3.4 **IMCO United Nations Numerical Designation:** 1134

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Mild amine odor, sweet, almond like aromatic

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic vapor mask and safety goggles where appropriate. In presence of high vapor concentrations, self-contained breathing apparatus. Chemical safety goggles or face shield. Wear appropriate rubber surface apron or impervious clothing to splash protection hazard.

5.2 **Symptoms Following Exposure:** Irritating to skin, eyes and mucous membranes. Repeated exposure may cause dermatitis due to defatting action. Overexposure by inhalation of vapors may cause eye damage, lung injury, unconsciousness. Acute vapor overexposure can cause symptoms ranging from coughing, nausea, headaches and central nervous system depression.

5.3 **Treatment for Exposure:** Get medical attention for any exposure and advise physician of exposure. Treat decomposition products as indicated. INHALATION: remove to fresh air, apply artificial respiration if needed. INGESTION: dilute by drinking water, if vomiting occurs, administer more water. Administer saline cathartic. EYES: flush thoroughly with water. SKIN: remove contaminated clothing, wash exposed area with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 75 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2. LD_{50} 0.5-5 g/kg (rabbits)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating to eyes and throat.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** 0.21 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 84°F C.C., 97°F O.C.

6.2 **Flammable Limits in Air:**
1.3% - 7.1%

6.3 **Fire Extinguishing Agents:**
Carbon dioxide, dry chemical, foam or water spray.

6.4 **Fire Extinguishing Agents Not to be Used:**
Not pertinent.

6.5 **Special Hazards of Combustion Products:**
Burning in open flame can form toxic phosgene and hydrogen chloride gases.

6.6 **Behavior in Fire:** Vapor can travel a considerable distance to a source of ignition and flash back.

6.7 **Ignition Temperature:** 1184°F

6.8 **Electrical Hazard.** Data not available.

6.9 **Burning Rate:** (est.) 4.6 mm/min.

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction.

7.2 **Reactivity with Common Materials:**
No reaction.

7.3 **Stability During Transport:** Stable.

7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent.

7.5 **Polymerization:** Not pertinent.

7.6 **Inhibitor of Polymerization:**
Not pertinent.

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
20 ppm/96 hr/bluegill/TL$_m$/fresh water

8.2 **Waterfowl Toxicity:** Data not available.

8.3 **Biological Oxygen Demand (BOD):**
0.38 lb/lb/5 days

8.4 **Food Chain Concentration Potential.**
Data not available.

13.3 **Boiling Point at 1 atm:**
270°F = 132°C = 405°K

13.4 **Freezing Point:**
-0.1°F = -49.6°C = 223.6°K

13.5 **Critical Temperature:**
679°F = 359°C = 632°K

13.6 **Critical Pressure:**
656 psia = 44.6 atm = 4.52 MN/m^2

13.7 **Specific Gravity:** 1.11 at 20°C (liquid)

13.8 **Liquid Surface Tension:**
33 dynes/cm = 0.033 N/m at 25°C

13.9 **Liquid-Water Interfacial Tension:**
35 dynes/cm = 0.035 N/m at 20°C

13.10 **Vapor (Gas) Specific Gravity:**
Not pertinent.

13.11 **Ratio of Specific Heats of Vapor (Gas):**
1.068

13.12 **Latent Heat of Vaporization**
155 Btu/lb = 86 cal/g = 1.40 x 10^5 J/kg

13.13 **Heat of Combustion.** (est.) 12 000 Btu/lb = 6 700 cal/g = 280 x 10^5 J/kg

13.14 **Heat of Decomposition.** Not pertinent.

13.15 **Heat of Solution:** Not pertinent.

13.16 **Heat of Polymerization.** Not pertinent.

(Continued on page 5-CRB)

NOTES

REVISED 1978

CBN	4-CHLOROBUTYRONITRILE

Common Synonyms		
4-Chlorobutyronitrile	Liquid	White to light yellow
	Sinks in water	

[illegible]

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
Irritating gases may be produced when heated
[illegible]

Exposure

CALL FOR MEDICAL AID
VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
[illegible]
LIQUID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting
[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.
[illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-2)

Issue warning - water contaminant
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 4-Chlorobutyronitrile (Practical, mixture with 4-bromobutyronitrile)
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** $CH_2ClCH_2CH_2CN$ + $CH_2BrCH_2CH_2CN$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** White to pale yellow
4 3 **Odor:** Data not available

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Air supply mask or self-contained breathing apparatus for repeated handling large amounts rubber gloves safety goggles
5 2 **Symptoms Following Exposure:** Chemical is moderately toxic Inhalation causes irritation of nose and throat Ingestion causes irritation of mouth and stomach Contact with eyes causes irritation Can penetrate the skin on prolonged contact only slightly irritating
5 3 **Treatment for Exposure:** INHALATION move victim to fresh air, administer artificial respiration if required call a doctor INGESTION give large amount of water induce vomiting EYES flush with water for at least 15 min SKIN flush with plenty of water
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 3, LD50 400 mg/kg (rat)
5 7 **Lcso Toxicity** Data not available

NOTES

CRF

CHLOROFORM

Common Synonyms
Trichloromethane

Watery liquid | Colorless | Sweet odor

Sinks in water. Irritating vapor is produced.

Fire

Not flammable.
POISONOUS AND IRRITATING GASES ARE PRODUCED WHEN HEATED.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause headache, nausea, dizziness or loss of consciousness.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4.

Isolate warning area until atmosphere is safe for re-entry.
Restrict access.
Shut off ignition sources.

2. LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Trichloromethane
3.2 **Coast Guard Compatibility Classification:** Halogenated compound
3.3 **Chemical Formula:** $CHCl_3$
3.4 **IMCO United Nations Numerical Designation:** 9.0 [illegible]

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Pleasant, sweet, ether-like

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical safety goggles; [illegible]. Where [illegible] suitable self-contained breathing system.
5.2 **Symptoms Following Exposure:** Headache, nausea, dizziness, drowsiness, narcosis.
5.3 **Treatment for Exposure:** INHALATION: [illegible] and administer oxygen. If breathing has stopped, [illegible] and give artificial respiration. If not breathing, give artificial respiration. INGESTION: Induce vomiting and get medical attention. Do not induce vomiting or give anything by mouth to an unconscious person. EYES: Flush with plenty of water for at least 15 minutes and get medical attention. SKIN: Wash with soap and water. Remove contaminated clothing and shoes.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 10 ppm for 10-hour work day
5.5 **Short-Term Inhalation Limits:** 50 ppm for 10 min
5.6 **Toxicity by Ingestion:** Grade 2 LD[illegible] 2 g/kg
5.7 **Late Toxicity:** None
5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes moderate [illegible] with [illegible] exposure. High concentrations cause pulmonary edema. Death is [illegible].
5.9 **Liquid or Solid Irritant Characteristics:** Minimum [illegible] Drops [illegible] reddening and blistering of the skin. Prolonged contact may cause [illegible] and reddening of the skin.
5.10 **Odor Threshold:** [illegible]

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Poisonous and irritating gases are produced when heated.
6.6 **Behavior in Fire:** Decomposes [illegible]
6.7 **Ignition Temperature:** Not flammable
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not flammable

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction
7.3 **Stability During Transport:** None
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** [illegible]

[illegible]

NOTES

REVISED 1978

CHD	# CHLOROHYDRINS (CRUDE)

Common Synonyms
Crude epichlorohydrin

Watery liquid | Colorless to yellow | Garlic odor

Sinks and mixes with water. Poisonous vapor is produced.

Fire

Combustible
Containers may explode in fire
Poisonous gases are produced in fire

Exposure

VAPOR
Poisonous if inhaled
Irritating to eyes, nose and throat

LIQUID
Poisonous if swallowed
Irritating to skin and eyes

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

Rescue
Dilute and flush

2. LABEL

POISON

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Crude epichlorohydrin

3.2 **Coast Guard Compatibility Classification:**
Special class

3.3 **Chemical Formula:**
C_3H_5OCl ($ClCH_2CHOCH_2$)

3.4 **IMCO United Nations Numerical Designation:** No. 2023

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Yellow

4.3 **Odor:** Pungent. Slight garlic odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic vapor mask or air line respirator. Protective gloves.

5.2 **Symptoms Following Exposure:** May cause central nervous system depression. Vapor irritating to eyes, nose and throat. Headache, nausea, vomiting, unconsciousness, impaired vision, coma.

5.3 **Treatment of Exposure:** INHALATION: Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. INGESTION: Induce vomiting immediately as directed by physician. DO NOT induce vomiting or give anything by mouth to an unconscious person. EYES: Wash with plenty of water for at least 15 minutes and get medical attention. SKIN: Remove contaminated clothing and wash before reuse.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm

5.5 **Short-Term Inhalation Limits:** 50 ppm for 30 min

5.6 **Toxicity by Ingestion:** Grade 4: Probably fatal dose

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes moderate irritation of eyes, which persists a short time after exposure. Highly irritating to eyes at high concentration. Unpleasant. Threshold 10 ppm.

5.9 **Liquid or Solid Irritant Characteristics:** Moderate hazard. Liquid can cause burning and stinging pain. May cause smarting and reddening of the skin.

5.10 **Odor Threshold:** 0.5 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 92°F (33°C) (TOC)

6.2 **Flammable Limits in Air:**
Not reported

6.3 **Fire Extinguishing Agents:** Water spray, dry chemical or foam. Do not use water jet.

6.4 **Fire Extinguishing Agents Not to be Used:** Water jet. Do not use water jet.

6.5 **Special Hazards of Combustion Products:** Irritating and poisonous gases are produced when heated.

6.6 **Behavior in Fire:** Containers may explode in heat because of pressure rise.

6.7 **Ignition Temperature:** 448°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 2.4 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Mild reaction. Reaction is not hazardous.

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Can polymerize in presence of strong acid and bases particularly when heated

7.6 **Inhibitor of Polymerization:** None

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)**
Data not available

8.4 **Food Chain Concentration Potential:**
None

NOTES

REVISED 1978

CME CHLOROMETHYL METHYL ETHER

Common Synonyms

Monochloromethyl ether
Methyl chloromethyl ether
α-chloroether

Liquid | Colorless | Irritating odor

May float or sink in water. Poisonous, flammable vapor is produced.

Fire

FLAMMABLE
POISONOUS GASES MAY BE PRODUCED IN FIRE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause difficult breathing

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
Poisonous to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-4

Issue warning; poison, high flammability, air contaminant, corrosive
Restrict access
Evacuate area

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Monochloromethyl ether, Methyl chloromethyl ether, α-chloroether
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** CH_3OCH_2Cl
3.4 **IMCO/United Nations Numerical Designation:** 1.1 (2.3)

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Irritating

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus, goggles, rubber gloves, protective clothing
5.2 **Symptoms Following Exposure:** Inhalation causes sore throat, sneezing, chills, difficulty in breathing. Contact of liquid with eyes causes severe burns and severe vapor is a powerful tear gas. Skin contact causes severe burns and necrosis. Ingestion causes severe burns of mouth and stomach.
5.3 **Treatment for Exposure:** INHALATION: remove from exposure, support respiration, call physician. EYES: wash with copious quantities of water for at least 15 min., call physician. SKIN: wash with large amounts of water. INGESTION: Do NOT induce vomiting, give large amounts of water, call a physician.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 457 mg/kg (rats)
5.7 **Late Toxicity:** Considered to be a lung cancer producing
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high concentrations.
5.9 **Liquid or Solid Irritant Characteristics:** Earth severe skin irritant. May cause pain and second degree burns after a few minutes contact.
5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** 0°F (-18°C)
6.2 **Flammable Limits in Air:** Data not available
6.3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Irritating and toxic hydrogen chloride and phosgene gases may be formed
6.6 **Behavior in Fire:** Unburned material may form powerful tear gas. When wet, also forms irritating formaldehyde gas.
6.7 **Ignition Temperature:** Data not available
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** [illegible]

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts to produce formaldehyde and hydrogen chloride. The reaction is not violent.
7.2 **Reactivity with Common Materials:** Will react with surface moisture to produce hydrogen chloride which is corrosive to metal.
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Flood with water. Rinse with sodium bicarbonate and lime solution.
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available

NOTES

CPN	p-CHLOROPHENOL

Common Synonyms			
4-Chlorophenol	Solid	White to straw	Medicinal odor
	Sinks in water		

Avoid contact with solid and dust. Keep people away.
Wear rubber overclothing including gloves.
Stop discharge if possible.
Call fire department.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Irritating gases may be produced when heated.
Wear goggles and self-contained breathing apparatus.
Extinguish with water, dry chemicals, foam or carbon dioxide.

Exposure

CALL FOR MEDICAL AID.

DUST
Irritating to eyes, nose and throat.
If inhaled will cause headache or dizziness.
If in eyes, hold eyelids open and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

SOLID
Will burn skin and eyes.
If swallowed will cause nausea and vomiting.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.
DO NOT INDUCE VOMITING.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 448-4)

Issue warning: water contaminant
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 4 Chlorophenol
3 2 **Coast Guard Compatibility Classification.** Not listed
3 3 **Chemical Formula:** C_6H_5ClO
3 4 **IMCO/United Nations Numerical Designation.** 6 1/2020

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Colorless to straw
4 3 **Odor:** Strong medicinal

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber gloves, face shield, boots and apron, respiratory protection
5 2 **Symptoms Following Exposure.** Inhalation causes headache, dizziness, weak pulse. Ingestion causes irritation of mouth and stomach, headache, dizziness, weak pulse. Contact with eyes causes severe irritation and burning. Contact with skin causes irritation and burn if absorbed causes same symptoms as inhalation.
5 3 **Treatment for Exposure:** INHALATION: move to fresh air, get medical attention if any symptoms develop. INGESTION: do not induce vomiting unless advised by a physician, give large amounts of milk, egg whites, or water and get medical help immediately, no specific antidote known. EYES: immediately flush with plenty of water for at least 30 min. SKIN: flush in safety shower while removing all contaminated clothing, wash with soap and water.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 3 oral LD_{50} = 500 mg/kg (rat)

(Continued on pages 5 and 6)

NOTES

CPL CHLOROPICRIN, LIQUID

Common Synonyms

Trichloronitromethane
Nitrochloroform
Picfume
Nitro trichloromethane

Oily liquid | Colorless | Extremely irritating odor

Sinks in water. Poisonous vapor is produced.

AVOID CONTACT WITH LIQUID AND VAPOR. KEEP PEOPLE AWAY.
Wear goggles, self-contained breathing apparatus, and rubber overclothing (including gloves).
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable.
POISONOUS GASES ARE PRODUCED IN FIRE.
Containers may explode in fire.
Wear chemical protective suit with self-contained breathing apparatus.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID.

VAPOR

POISONOUS IF INHALED.
Irritating to eyes, nose and throat.
Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID

POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED.
Will burn skin and eyes.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-448-4)

Issue warning: poison, water contaminant, air contaminant.
Restrict access to area.
Should be removed.
Chemical and physical treatment.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Trichloronitromethane; Nitrochloroform; Picfume; Nitrotrichloromethane

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** CCl_3NO_2

3.4 **IMCO/United Nations Numerical Designation:** 6.1/1580

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Intensely irritating lachrymator; intense and penetrating odor which causes a pronounced secretion of tears

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic type canister mask; goggles or face shield; rubber gloves; protective cloth. g

5.2 **Symptoms Following Exposure.** Inhalation causes nausea, eye watering, vomiting, bronchitis and pulmonary edema. Vapor is a powerful tear gas. Liquid irritates and burns skin and causes severe burns of eyes. Ingestion causes severe irritation of mouth and stomach.

5.3 **Treatment for Exposure:** Get medical attention following all exposures to this compound. INHALATION: remove from exposure, support respiration. EYES: flush with copious quantities of water for at least 15 min. SKIN: wash with water for 15 min. INGESTION: do NOT induce vomiting, give large amounts of water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.1 ppm

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion:** Grade 3; oral LD_{50} = 250 mg/kg (rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Vapors cause severe irritation of eyes and throat and can cause eye or lung injury. They cannot be tolerated even at low concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes.

5.10 **Odor Threshold.** 1.1 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Cool exposed containers with water.

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products.** Not pertinent

6.6 **Behavior in Fire.** Compound forms a powerful tear gas when heated. Heated material may detonate under fire conditions.

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7.5 **Polymerization.** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** Data not available

(Continued on page 5 and 6)

NOTES

CSA

CHLOROSULFONIC ACID

Common Synonyms
Chlorsulfonic acid

Liquid Colorless to light yellow Sharp, choking odor

Reacts violently with water
Appears to explode
Poisonous gas is produced

AVOID CONTACT WITH LIQUID AND VAPOR. Keep people away.
Wear goggles, self-contained breathing apparatus and rubber clothing.
Stay upwind.
Notify local fire department.
Notify local health authorities.

Fire

May cause fire on contact with combustibles
Flammable, explosive gases may be formed on contact with metals and moisture
DO NOT USE WATER
Use dry chemicals or carbon dioxide.
Wear goggles, self-contained breathing apparatus, rubber clothing, rubber gloves.

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose, and throat
Harmful if inhaled
Move to fresh air.
If victim has stopped breathing, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Will burn skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED, and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes
Notify local health and pollution control officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: air contaminant
corrosive
Restrict access
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Chlorsulfonic acid
3.2 **Coast Guard Compatibility Classification.** Inorganic acids
3.3 **Chemical Formula.** $ClSO_3H$
3.4 **IMCO/United Nations Numerical Designation** NO 1754

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color.** Colorless to pale yellow
4.3 **Odor:** Sharp acrid penetrating pungent

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Acid proof goggles or rubber hood, long rubber gloves, rubber shoes, long rubber apron, shirt and trousers of wool or acrylic fiber, and chin with, brim. For emergencies use involving considerable exposure, a complete rubber suit with hood, gloves and boots of rubber should be used. In case of fire use self-contained breathing apparatus.

5.2 **Symptoms Following Exposure.** INHALATION: vapor extremely irritating to lungs and mucous membranes. Vapor has such a sharp and penetrating odor that inhalation of severely toxic quantities is unlikely unless it is impossible to escape the fumes. CONTACT WITH EYES OR SKIN: liquid acid will severely burn body tissue.

5.3 **Treatment for Exposure:** Call a physician in all cases. INHALATION: remove victim to fresh air if he is not breathing, apply artificial respiration, give oxygen if breathing is difficult, do NOT induce vomiting. SKIN: flush with plenty of water for at least 15 min. while removing contaminated clothing and shoes.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** 1 ppm

5.5 **Short-Term Inhalation Limits:** 1 ppm for 5 min; 30 ppm for 10 min; 10 ppm for 60 min

5.6 **Toxicity by Ingestion** Data not available

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics.** Severe eye and throat irritant. Can cause eye or lung injury and cannot be tolerated even at low concentrations.

5.9 **Liquid or Solid Irritant Characteristics.** Severe skin irritant. Causes second and third degree burns on short contact. Very injurious to the eyes.

5.10 **Odor Threshold:** 1.8 ppm

6. FIRE HAZARDS

6.1 **Flash Point:** Not flammable
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used:** Water
6.5 **Special Hazards of Combustion Products:** Decomposes into irritating and toxic gases
6.6 **Behavior in Fire:** Although nonflammable it may ignite other combustibles. Contact with water AND metal produces explosive hydrogen gas.
6.7 **Ignition Temperature:** Not flammable
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not flammable

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts violently with water forming hydrochloric acid (vapor) and sulfuric acid
7.2 **Reactivity with Common Materials:** Hydrogen, a highly flammable and explosive gas is generated by the action of the acid on most metals. May cause ignition by contact with combustible materials.
7.3 **Stability During Transport.** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Although the acid reacts violently with water (fuming for a distance) must be carried out before neutralizing with lime, water or sodium bicarbonate solution.
7.5 **Polymerization.** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity**
282 ppm/96 hr mosquito fish / TL$_m$ / fresh water
100-300 ppm/48 hr shrimp / LC / salt water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD)** None
8.4 **Food Chain Concentration Potential** None

NOTES

REVISED 1978

CTD

4-CHLORO-o-TOLUIDINE

Common Synonyms
2-Amino-5-chlorotoluene
5-Chloro-2-aminotoluene
4-Chloro-2-methylaniline
Fast Red TR base
Red TR base

Solid | Gray to white | Weak fishy odor

Sinks in water. Freezing point is 79° F.

AVOID CONTACT WITH SOLID AND DUST. KEEP PEOPLE AWAY.
Wear goggles self-contained breathing apparatus and rubber protective clothing including gloves.
Call fire department.
Stay upwind. Use water spray to knock down dust.
Isolate and restrict unprotected material.
Notify local health and pollution control agencies.

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
Extinguish with water, dry chemical, foam, or carbon dioxide.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID

DUST
POISONOUS IF INHALED
Move victim to fresh air.
If in eyes, hold eyelids apart and flush with plenty of water.
If breathing is difficult, give oxygen.

SOLID
POISONOUS IF SWALLOWED
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
If IN EYES, hold eyelids apart and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water (milk or egg white if available) and induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify operators of nearby water intakes.
Notify public health officials and other authorities as required.

NOTES

CMA — CHROMIC ANHYDRIDE

Common Synonyms			
Chromic oxide Chromium trioxide Chromic acid	Solid flakes or powder Sinks and mixes with water	Dark red	Odorless

Avoid contact with solid and dust. Keep people away.
Wear goggles, self-contained breathing apparatus and rubber overclothing including gloves.
Stay upwind and use water spray to knock down dust.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable
May cause fire on contact with combustibles
Containers may explode when heated in a fire
Extinguish with water.
Cool exposed containers with water.

Exposure

CALL FOR MEDICAL AID
SOLID
Will burn skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk.
DO NOT INDUCE VOMITING.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: water contaminant.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Chromic acid
Chromic oxide
Chromium trioxide

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** CrO_3

NOTES

REVISED 1978

CMC

CHROMYL CHLORIDE

Common Synonyms
Chromium (VI) dioxychloride
Chromium oxychloride

Liquid | Dark red | Unpleasant odor

Reacts violently with water. Irritating visible vapor cloud is produced.

Fire

Not flammable
May cause fire on contact with combustibles
Irritating gases are produced when heated
Containers may explode in fire
[illegible]
DO NOT USE WATER ON FIRE
[illegible]

Exposure

ALL FORMS OF ACID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause difficult breathing
[illegible]

LIQUID
POISONOUS IF SWALLOWED
Will burn skin and eyes
[illegible]
DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison, corrosive air contaminant, water contaminant, oxidizing substance
Restrict access
Evacuate area
Disperse and flush with care

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Chromium (VI) dioxychloride
Chromium oxychloride
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** CrO_2Cl_2
3 4 **IMCO/United Nations Numerical Designation:** 9/1758

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Dark red
4 3 **Odor:** Acrid

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained breathing apparatus (full face), rubber gloves, protective clothing
5 2 **Symptoms Following Exposure:** Inhalation causes severe irritation of upper respiratory system. Contact with eyes or skin causes irritation and burning. Ingestion causes burning of mouth and stomach.
5 3 **Treatment for Exposure:** Get medical attention following all exposures to this compound. INHALATION: remove from exposure, support respiration. EYES: flush with copious quantities of water for 15 min. SKIN: flush with water for 15 min. INGESTION: do NOT induce vomiting, give large amounts of water.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 4, LD_{50} < 50 mg/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations.
5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second and third-degree burns on short contact and is very injurious to the eyes.
5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** Not flammable but may cause fire on contact with combustible materials
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents:** Dry chemical or carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used:** Do not use water on adjacent fires unless fully protected against toxic fumes
6 5 **Special Hazards of Combustion Products:** Not pertinent
6 6 **Behavior in Fire:** Vapors are very irritating to eyes and mucous membranes. May increase severity of fire
6 7 **Ignition Temperature:** Not pertinent
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Reacts violently to form hydrogen chloride (hydrochloric acid) and chlorine gases and chromic acid
7 2 **Reactivity with Common Materials:** Will cause severe corrosion of common metals
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Flood with water. Rinse with sodium bicarbonate or lime solution
7 5 **Polymerization.** Not pertinent
7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** None
8 4 **Food Chain Concentration Potential:** None

13 13 **Heat of Combustion:** Not pertinent
13 14 **Heat of Decomposition:** Not pertinent
13 15 **Heat of Solution:** −279 Btu/lb = −155 cal/g = -6.48×10^5 J/kg
13 16 **Heat of Polymerization.** Not pertinent

Continued on page 5 and 6

NOTES

CIT — CITRIC ACID

Common Synonyms
beta Hydroxy-tricarboxylic acid
2 Hydroxy 1 2 3-propane-tricarboxylic acid
beta Hydroxytricarballylic acid

Solid | White | Odorless

Sinks and mixes with water

Fire

Combustible

Exposure

ALL FOR MEDICAL AID

DUST
Irritating to eyes nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 2-Hydroxy-1 2,3 propane-tricarboxylic acid beta Hydroxytricarballylic acid beta Hydroxy-tricarboxylic acid

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** HOC(CH$_2$CO$_2$H)$_2$CO$_2$H

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** White

4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, goggles or face shield protective gloves

5 2 **Symptoms Following Exposure:** Inhalation of dust irritates nose and throat Contact with eyes causes irritation

5 3 **Treatment for Exposure:** INHALATION move to fresh air EYES flush immediately with physiological saline or water get medical care if irritation persists SKIN flush with water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 1 oral LD_{50} = 1 7 g kg (rat)

5 7 **Late Toxicity:** Chronic effects in humans are unknown

5 8 **Vapor (Gas) Irritant Characteristics:** Not pertinent

5 9 **Liquid or Solid Irritant Characteristics.** Data not available

5 10 **Odor Threshold:** Odorless

6 FIRE HAZARDS

6 1 **Flash Point:** Not pertinent (combustible solid)

6 2 **Flammable Limits in Air:** 0 28-2.29 kg/m^3 (dust)

6 3 **Fire Extinguishing Agents.** Water foam dry chemical, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:**

6 5 **Special Hazards of Combustion Products:**

6 6 **Behavior in Fire:** Melts and decomposes The reaction is not hazardous

6 7 **Ignition Temperature:** 1,850°F (powder)

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials.** Will corrode copper zinc aluminum and their alloys

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7 5 **Polymerization.** Not pertinent

7 6 **Inhibitor of Polymerization.** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** 544 ppm/4 hr/goldfish/killed/fresh water 100 ppm/48 hr/shore crab/TL$_m$ salt water

8 2 **Waterfowl Toxicity:** Data not available

NOTES

CBA

COBALT ACETATE

Common Synonyms
Cobalt acetate tetrahydrate
Cobaltous acetate
Cobalt^{II} acetate

Solid | Pink | Vinegar like odor

Sinks and mixes with water

Stop discharge if possible. Keep people away.
Avoid contact with solid and dust.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Wear goggles and self-contained breathing apparatus.

Exposure

CALL FOR MEDICAL AID
DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
If in eyes, hold eyelids apart and flush with plenty of water.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.
SOLID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting
Remove contaminated clothing.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids apart and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, give several cups of water. Induce vomiting and have victim lie down.
IF SWALLOWED and victim is NOT CONSCIOUS OR HAS CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

Morristown, N J 07960

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** Technical hexahydrate. May also be shipped as anhydrous salt

10 2 **Storage Temperature:** Ambient

10 3 **Inert Atmosphere:** No requirement

10 4 **Venting:** Open

11. HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 446-3)

SS

12. HAZARD CLASSIFICATIONS

12 1 **Code of Federal Regulations:** Not listed

12 2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

12 3 **NFPA Hazard Classifications:**

Category	Classification*	
Health Hazard (Blue)	0	1
Flammability (Red)	0	0
Reactivity (Yellow)	0	0
	OXY	OXY

*First column refers to nonfire situation

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Solid

13 2 **Molecular Weight:** 291.04

13 3 **Boiling Point at 1 atm:** Not pertinent (decomposes)

13 4 **Freezing Point:** 131°F = 55°C = 328°K

13 5 **Critical Temperature:** Not pertinent

13 6 **Critical Pressure:** Not pertinent

13 7 **Specific Gravity:** 1.54 at 20°C (solid)

13 8 **Liquid Surface Tension:** Not pertinent

13 9 **Liquid-Water Interfacial Tension:** Not pertinent

13 10 **Vapor (Gas) Specific Gravity:** Not pertinent

13 11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent

13 12 **Latent Heat of Vaporization:** Not pertinent

13 13 **Heat of Combustion:** Not pertinent

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution:** 31 Btu/lb = 17 cal/g = 0.71 × 10^3 J/kg

13 16 **Heat of Polymerization:** Not pertinent

Continued on pages 3 and 4

8. WATER POLLUTION (Cont'd)

8 4 **Food Chain Concentration Potential:** Bioconcentration of 200 - 1000 fold only under constant exposure. Not significant in spill condition.

CBS

COBALT SULFATE

Common Synonyms

Cobaltous sulfate heptahydrate
Cobalt[II] sulfate
Bieberite

Solid | Rose pink | Odorless

Sinks and mixes with water

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning - water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Bieberite, Cobalt(II) sulfate, Cobaltous sulfate heptahydrate
3 2 **Coast Guard Compatibility Classification.** Not listed
3 3 **Chemical Formula:** $CoSO_4 \cdot 7H_2O$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Solid
4 2 **Color:** Rose pink
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment.** Be sure approved respirator, goggles, protective gloves
5 2 **Symptoms Following Exposure:** Inhalation causes shortness of breath and coughing; permanent disability may occur. Ingestion causes pain and vomiting. Contact with eyes or skin causes irritation
5 3 **Treatment for Exposure:** INHALATION: move to fresh air; if breathing has stopped, begin artificial respiration and call a doctor. INGESTION: give large amount of water, induce vomiting, call a doctor. EYES: flush with water for at least 15 min., consult a physician if irritation persists. SKIN: flush with water
5 4 **Toxicity by Inhalation (Threshold Limit Value).** 0.1 mg/m³ (as cobalt)
5 5 **Short-Term Inhalation Limits.** Data not available
5 6 **Toxicity by Ingestion:** Grade 3 LD50: 500 mg/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents.** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** Toxic cobalt oxide fumes may form in fire
6 6 **Behavior in Fire:**
6 7 **Ignition Temperature:** Not pertinent
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials.**
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** 10 ppm*/** stickleback lethal fresh water
*As cobalt
**Time period not specified
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD).** None
8 4 **Food Chain Concentration Potential:** Bioconcentration of 200 - 1000 fold, and under constant exposure. Not significant in spill conditions

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Solid
13 2 **Molecular Weight:** 281
13 3 **Boiling Point at 1 atm:** Not pertinent (decomposes)
13 4 **Freezing Point:** Not pertinent
13 5 **Critical Temperature:** Not pertinent
13 6 **Critical Pressure:** Not pertinent
13 7 **Specific Gravity:** 1.948 at 20°C (solid)
13 8 **Liquid Surface Tension:** Not pertinent
13 9 **Liquid-Water Interfacial Tension:** Not pertinent
13 10 **Vapor (Gas) Specific Gravity:** Not pertinent
13 11 **Ratio of Specific Heats of Vapor (Gas).** Not pertinent
13 12 **Latent Heat of Vaporization:** Not pertinent
13 13 **Heat of Combustion.** Not pertinent
13 14 **Heat of Decomposition:** Not pertinent
13 15 **Heat of Solution.** 23 Btu/lb
= 13.3 cal/g = 0.555 kJ/g
13 16 **Heat of Polymerization.** Not pertinent

(Continued on next page)

NOTES

CLD COLLODION

Common Synonyms
Cellulose nitrate solution
Nitrocellulose solution
Pyroxylin solution
Box toe gum
Nitrocellulose gum

Thick liquid | Colorless | Ether-like odor

Floats on water. Flammable, irritating vapor is produced. Boiling point is around 94° F.

[illegible]

Fire

FLAMMABLE
POISONOUS GASES MAY BE PRODUCED IN FIRE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
[illegible]

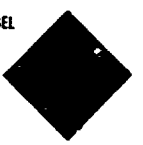
Exposure

[illegible]

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause dizziness, difficult breathing, or loss of consciousness
[illegible]

LIQUID
Not harmful

Water Pollution



Effect of low concentrations on aquatic life is unknown
Foulers to shoreline
May be dangerous if it enters water intakes.
[illegible]

1 RESPONSE TO DISCHARGE

See Hazardous Materials Handbook CG 446-4

[illegible]
Remove sources
Mechanical containment
Should be covered
Chemical and physical treatment

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** [illegible]
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** Not pertinent
3.4 **IMCO/United Nations Numerical Designation:** [illegible]

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Viscous liquid
4.2 **Color:** [illegible]
4.3 **Odor:** Depends on solvent used; ether-like [illegible]

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** [illegible]
5.2 **Symptoms Following Exposure:** [illegible]
5.3 **Treatment of Exposure:** INHALATION [illegible]
5.4 **Toxicity by Inhalation (Threshold Limit Value):** [illegible]
5.5 **Short-Term Inhalation Limits:** [illegible]
5.6 **Toxicity by Ingestion:** [illegible]
5.7 **Late Toxicity:** [illegible]
5.8 **Vapor (Gas) Irritant Characteristics:** Vapor may cause a slight smarting of the eyes or respiratory tract if present in high concentrations. The effect is temporary.
5.9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin.
5.10 **Odor Threshold:** [illegible]

6 FIRE HAZARDS

6.1 **Flash Point:** −49°F (C.C. (ether)
6.2 **Flammable Limits in Air:** 1.9% - 48% (ether solution)
6.3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** The formation of extremely toxic gases, notably oxides of nitrogen, hydrogen cyanide, and carbon monoxide is possible.
6.6 **Behavior in Fire:** Highly flammable solvent vapors are formed. May travel a long distance to a source of ignition and flash back.
6.7 **Ignition Temperature:** 356°F (ether)
6.8 **Electrical Hazard:** Class I, Group C
6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** No reaction

NOTES

COP COPPER ACETATE

Common Synonyms
Acetic acid cupric salt
Crystallized verdigris
Neutral verdigris
Cupric acetate monohydrate

Solid | Bluish-green | Odorless

Mixes with water

Fire

Not flammable
Irritating gases may be produced when heated

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing.

SOLID
Will burn eyes
Irritating to eyes
If swallowed will cause nausea, vomiting or loss of consciousness.

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG-446-4)

Issue warning - water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Acetic acid cupric salt, Crystallized verdigris, Cupric acetate monohydrate, Neutral verdigris
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** $Cu(C_2H_3O_2)_2 \cdot H_2O$
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** Bluish green
4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Dust mask, goggles or face shield, protective gloves
5.2 **Symptoms Following Exposure:** Inhalation of dust causes irritation of throat and lungs. Ingestion of large amounts causes violent vomiting and purging, intense pain, collapse, coma, convulsions, and paralysis. Contact with solutions irritates eyes, contact with solid causes severe eye surface injury and irritation of skin.
5.3 **Treatment for Exposure:** INHALATION: move to fresh air. INGESTION: give large amount of water, induce vomiting, get medical attention. EYES: flush with water for at least 15 min., get medical attention if injury was caused by solid. SKIN: flush with water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 2 [illegible]
5.7 **Late Toxicity:** Causes degeneration of liver in dogs
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Not flammable
6.2 **Flammable Limits in Air:** Not flammable
6.3 **Fire Extinguishing Agents:** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6.5 **Special Hazards of Combustion Products:** Irritating vapors of acetic acid may form in fires
6.6 **Behavior in Fire:**
6.7 **Ignition Temperature:** Not pertinent
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:**
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** Copper known to be accumulated by shellfish. Hazard to humans unknown

NOTES

CAA

COPPER ACETOARSENITE

Common Synonyms

Schweinfurth green
Imperial green
Paris green
Emerald green
Mets green

Solid Powder | Green | Odorless

Sinks and mixes slowly with water

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED WHEN HEATED

Exposure

DUST
POISONOUS IF INHALED
Irritating to eyes, nose and throat

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4

Issue warning: pure water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

POISON

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Imperial green, Vienna green, Paris green, King's green, Schweinfurth green, Meadow green, Mets green, Parrot green

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** [illegible]

3 4 **IMCO/United Nations Numerical Designation:** [illegible]

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** Emerald green

4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust respirator, chemical safety goggles, rubber gloves

5 2 **Symptoms Following Exposure:** Data not available. Ingestion causes severe gastrointestinal irritation, muscular cramps and nervous system disorders which may lead to death.

5 3 **Treatment for Exposure:** Following ingestion, induce vomiting; administer dose of magnesium sulfate. Call doctor. Unable to induce vomiting, EYES: flush with copious amounts of water for 15 minutes. SKIN: wash thoroughly with soap and water. INGESTION: give copious drafts of water and induce repeated vomiting (see Antidote Chart, Emergency Care).

5 4 **Toxicity by Inhalation (Threshold Limit Value):** [illegible]

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 4; oral LD_{50} = 22 mg/kg (rats)

5 7 **Late Toxicity:** Arsenic poisoning

5 8 **Vapor (Gas) Irritant Characteristics:** Not pertinent

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Not pertinent

	Sinks and mixes with water		

Stop discharge if possible. Keep people away.
Avoid contact with solid and dust.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Not flammable
Irritating gases may be produced when heated

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

If in eyes, hold eyelids open and flush with plenty of water
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

SOLID
Will burn eyes
Irritating to skin

Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water or milk and induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS, do nothing except keep victim warm.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Cupric bromide anhydrous
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula.** $CuBr_2$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Black
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, goggles or face shield, protective gloves
5 2 **Symptoms Following Exposure:** Inhalation of dust causes irritation of throat and lungs. Ingestion of large amounts causes violent vomiting and purging, intense pain, collapse, coma, convulsions and paralysis. Contact with solutions causes eye irritation, contact with solid causes severe eye surface injury and skin irritation.
5 3 **Treatment for Exposure:** INHALATION: move to fresh air. INGESTION: give large amount of water, induce vomiting, get medical attention. EYES: flush with water for at least 15 min., get medical attention if injury was caused by solid. SKIN: flush with water.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 3, LD_{50} 500 mg/kg
5 7 **Late Toxicity:** Data not available
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold.** Data not available

NOTES

CCY — COPPER CYANIDE

Common Synonyms		
Cuprous cyanide Cupricin	Solid powder Sinks in water	White

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED WHEN HEATED

Exposure

CALL FOR MEDICAL AID

DUST
Irritating to eyes, nose and throat
If inhaled will cause dizziness or loss of consciousness

SOLID
POISONOUS IF SWALLOWED
Irritating to skin and eyes
If swallowed will cause dizziness and loss of consciousness

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - poison - water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

POISON

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Cupricin Cuprous cyanide
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** CuCN
3 4 **IMCO/United Nations Numerical Designation:** 6 1/1587

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Powder
4 2 **Color:** White
4 3 **Odor:** Data not available

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust respirator, protective goggles or face mask, protective clothing

5 2 **Symptoms Following Exposure:** Following severe exposure to dust, symptoms of cyanide poisoning may develop (see ingestion). Ingestion causes anxiety, confusion, dizziness, sudden loss of consciousness, odor of bitter almonds on breath or in vomitus, rapid weak pulse, convulsions, and paralysis. Contact with eyes causes irritation.

5 3 **Treatment for Exposure:** *Get medical attention after all exposures to this substance.* INHALATION: remove victim to fresh air. INGESTION: if breathing has stopped begin artificial respiration immediately; administer by inhalation amyl nitrite pearls for 15 - 30 seconds of every minute, while a sodium nitrite solution is being prepared; discontinue amyl nitrite and immediately inject intravenously 10 ml of a 3% soln. of sodium nitrite (nonsterile if necessary) over a period of 2 to 4 min.; do not remove needle, through same needle infuse 50 ml of a 25% aqueous soln. of sodium thiosulfate; injection should take about 10 min. (Concentrations of 15 - 30% are permissible if total dose is approx. 12 grams.) Oxygen therapy may be of value in combination with the above. If symptoms recur, repeat injections of nitrite and thiosulfate at half the above doses. EYES: flush with water for at least 15 min. SKIN: flush with water, wash with soap and water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 5 mg/m³ (as cyanide)
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 4, LD$_{50}$ < 50 mg/kg
5 7 **Late Toxicity:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable

NOTES

CNN — COPPER NAPHTHENATE

Common Synonyms
Paint drier

Liquid | Dark green | Gasoline-like odor

May float or sink in water

Shut off ignition sources. Call fire department.
Stop discharge if possible.
Isolate and remove discharged material.
Notify local health and pollution control agencies.

Fire

Combustible
Extinguish with dry chemicals, foam, carbon dioxide.
Water may be ineffective.
Cool exposed containers with water.

Exposure

Call for medical aid.
LIQUID
Irritating to skin and eyes.
Harmful if swallowed.
Remove contaminated clothing and shoes.
Flush affected areas with plenty of water.
IF IN EYES, hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim rinse mouth with water.
DO NOT INDUCE VOMITING.

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Fouling to shoreline.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 448-4)

Issue warning: water contaminant.
Mechanical containment.
Should be removed.
Chemical and physical treatment.

2. LABELS

No label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

- 3.1 **Synonyms:** Paint drier
- 3.2 **Coast Guard Compatibility Classification:** Not applicable
- 3.3 **Chemical Formula:** Mixture
- 3.4 **IMCO/United Nations Numerical Designation:** 3.3/1168

4 OBSERVABLE CHARACTERISTICS

- 4.1 **Physical State (as shipped):** Liquid
- 4.2 **Color:** Dark green
- 4.3 **Odor:** Like gasoline, slight aromatic

5. HEALTH HAZARDS

- 5.1 **Personal Protective Equipment:** Goggles or face shield; plastic gloves (as for gasoline)
- 5.2 **Symptoms Following Exposure:** Vapor causes mild irritation of eyes and mild irritation of respiratory tract if inhaled. Ingestion causes irritation of stomach. Aspiration causes severe lung irritation and rapidly developing pulmonary edema, central nervous system excitement followed by depression.
- 5.3 **Treatment of Exposure:** INHALATION: remove victim to fresh air. EYES: wash with copious amounts of water for at least 15 min. SKIN: wipe off and wash with soap and water. INGESTION: do NOT induce vomiting; guard against aspiration into lungs. ASPIRATION: enforce bed rest; give oxygen; call doctor.
- 5.4 **Toxicity by Inhalation (Threshold Limit Value):** 500 ppm
- 5.5 **Short-Term Inhalation Limits:** Data not available
- 5.6 **Toxicity by Ingestion:** Grade 1; oral rat LD_{50} = 4.6 g/kg
- 5.7 **Late Toxicity:** Data not available
- 5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are non-irritating to the eyes and throat.
- 5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of skin.
- 5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

- 6.1 **Flash Point:** 100 F C (typical)
- 6.2 **Flammable Limits in Air:** 0.8% - 5.0% (mineral spirits)
- 6.3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide
- 6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
- 6.5 **Special Hazards of Combustion Products:** Not pertinent
- 6.6 **Behavior in Fire:** Not pertinent
- 6.7 **Ignition Temperature:** 540°F (mineral spirits)
- 6.8 **Electrical Hazard:** Not pertinent
- 6.9 **Burning Rate:** 4 mm/min

7 CHEMICAL REACTIVITY

- 7.1 **Reactivity with Water:** No reaction
- 7.2 **Reactivity with Common Materials:** No reaction
- 7.3 **Stability During Transport:** Stable
- 7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
- 7.5 **Polymerization:** Not pertinent
- 7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

- 8.1 **Aquatic Toxicity:** 2.0 ppm/72 hr blue-green algae 100% kill fresh water
- 8.2 **Waterfowl Toxicity:** Data not available
- 8.3 **Biological Oxygen Demand (BOD):** 8% 5 days
- 8.4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

1. Witco Chemical Corporation
   Organics Division
   277 Park Avenue
   New York, N.Y. 10017
2. Cincinnati Milacron Chemicals Inc.
   900 Jersey Ave.
   New Brunswick, N.J. 08903
3. Ferro Corporation
   7050 Krick Rd.
   Bedford, Ohio 44146

10. SHIPPING INFORMATION

- 10.1 **Grades or Purity:** 8% in mineral spirits or mineral oil; 5% in mineral spirits. May float instead of sink in water.
- 10.2 **Storage Temperature:** Ambient
- 10.3 **Inert Atmosphere:** No requirement
- 10.4 **Venting:** Pressure vacuum or open (flame arrester)

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook, CG 448-2)

A-1-E-X-Y

12. HAZARD CLASSIFICATIONS

- 12.1 **Code of Federal Regulations:** Not listed
- 12.2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed
- 12.3 **NFPA Hazard Classifications:** Not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

- 13.1 **Physical State at 15°C and 1 atm:** Liquid
- 13.2 **Molecular Weight:** Mixture
- 13.3 **Boiling Point at 1 atm:** 310 - 395°F = 154 - 202°C = 427 - 475°K
- 13.4 **Freezing Point:** Not pertinent
- 13.5 **Critical Temperature:** Not pertinent
- 13.6 **Critical Pressure:** Not pertinent
- 13.7 **Specific Gravity:** 0.93 - 1.05 at 25°C (liquid)
- 13.8 **Liquid Surface Tension:** 20 dynes/cm = 0.020 N/m at 20°C
- 13.9 **Liquid-Water Interfacial Tension:** 45 dynes/cm = 0.045 N/m at 20°C
- 13.10 **Vapor (Gas) Specific Gravity:** Not pertinent
- 13.11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent
- 13.12 **Latent Heat of Vaporization:** Not pertinent
- 13.13 **Heat of Combustion:** (est.) = -17,600 Btu/lb = -9,800 cal/g = -410 × 10³ J/kg
- 13.14 **Heat of Decomposition:** Not pertinent
- 13.15 **Heat of Solution:** Not pertinent
- 13.16 **Heat of Polymerization:** Not pertinent

Continued on page 5 and 6

NOTES

CNI

COPPER NITRATE

Common Synonyms	Solid	Blue	Odorless
Cupric nitrate trihydrate Gerhardite	Sinks and mixes with water		

Fire

Not flammable
Will increase the intensity of a fire
Irritating gases may be produced when heated

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Will burn eyes
If swallowed will cause nausea vomiting or loss of consciousness

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4)

Issue warning water contaminant
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Cupric nitrate trihydrate, Gerhardite

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:** $Cu(NO_3)_2 \cdot 3H_2O$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** Blue

4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask goggles or face shield, protective gloves

5 2 **Symptoms Following Exposure:** Inhalation causes irritation of throat and lungs Ingestion of large amounts causes violent vomiting and purging intense pain collapse coma convulsions and paralysis Solutions irritate eyes contact with solid causes severe eye surface injury and skin irritation

5 3 **Treatment for Exposure:** INHALATION move to fresh air INGESTION give large amounts of water induce vomiting get medical attention EYES flush with water for at least 15 min , get medical attention if injury was caused by solid SKIN flush with water

5 4 **Toxicity by Inhalation(Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2 LD_{50} 0 5 g/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable

6 2 **Flammable Limits in Air:** Not flammable

6 3 **Fire Extinguishing Agents:** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products:** Toxic and irritating oxides of nitrogen may form in fire

6 6 **Behavior in Fire:** Can increase intensity of fire if in contact with combustible material

6 7 **Ignition Temperature:** Not pertinent

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** Mixtures with wood paper and other combustibles may catch fire

NOTES

COL

COPPER OXALATE

Common Synonyms
Cupric oxalate hemihydrate

Solid | Bluish white | Odorless

Sinks in water

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED WHEN HEATED

Exposure

DUST
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

SOLID
Irritating to skin and eyes
If swallowed will cause nausea, vomiting or loss of consciousness

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Cupric oxalate hemihydrate
3 2 **Coast Guard Compatibility Classification:** Not listed
3 3 **Chemical Formula:** $CuC_2O_4 \cdot H_2O$
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** Bluish white
4 3 **Odor:** None

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Dust mask, goggles or face shield, protective gloves
5 2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat. Ingestion of very large amounts may produce symptoms of oxalate poisoning; watch for edema of the glottis and delayed constriction of esophagus. Contact with eyes causes irritation.
5 3 **Treatment for Exposure:** INHALATION: remove to fresh air; if exposure has been prolonged watch for symptoms of oxalate poisoning (nausea, shock, collapse, and convulsions). INGESTION: give large amount of water, induce vomiting, get medical attention. EYES: flush with water for at least 15 min. SKIN: flush with water.
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available

3.1 **Synonyms:** CO RAL; O,O-Diethyl O-(3-chloro-4-methyl-2-oxo-2H-1-benzopyran-7-yl) phosphorothioate

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** $C_{14}H_{16}ClO_5PS$

3.4 **IMCO/United Nations Numerical Designation:** 6.1/1951

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** White

4.3 **Odor:** Slight odor of sulfur compounds

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Organic vapor respirator, rubber gloves, goggles

5.2 **Symptoms Following Exposure:** Inhalation or ingestion causes sense of tightness in chest, sweating, contracted pupils of eyes, stomach pains, vomiting, and diarrhea. Pulmonary edema may develop as long as 12 hours after acute exposure. Contact with eyes causes irritation; overexposure may cause unresponsive pupils and blurred vision.

5.3 **Treatment for Exposure:** *Get medical attention; after all overexposures to this substance.* Atropine sulfate and 2-PAM are antidotes. INHALATION: remove to fresh air, support respiration, keep patient quiet until medical help arrives; observe for development of pulmonary edema even after 12 hours. INGESTION: induce vomiting, give water and again induce vomiting, give agar to slurry of medicinal charcoal. EYES: flush with water for at least 15 min. SKIN: wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

CREOSOTE, COAL TAR

Common Synonyms			
Creosote oil Dead oil	Liquid	Yellow to black	Tarry odor
	May float or sink in water		

Fire	Combustible
Exposure	LIQUID Irritating to skin and eyes Harmful if swallowed
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shorelines May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook • CG-446-4)

Issue warning - water contaminant
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

Not specifically listed by U.S. Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Creosote oil
Dead oil

3.2 **Coast Guard Compatibility Classification:** Group 1

3.3 **Chemical Formula:** Mixture

3.4 **IMCO/United Nations Numerical Designation:** 9 2022

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Yellow to brown to black

4.3 **Odor:** Creosote or tarry odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Wear chemical safety goggles and face shield; overalls; impervious gloves; boots.

5.2 **Symptoms Following Exposure:** Vapors cause moderate irritation of eyes and nose. Liquid causes severe burns of eyes and reddening and irritation of skin. Prolonged contact with skin can cause cancer. Ingestion causes salivation, vomiting, gastrointestinal difficulties, chronic pains, severe headache. Dilated pupils reflects hypothermia. Coma may result in severe cases.

5.3 **Treatment for Exposure:** INHALATION: Remove victim to fresh air. Administer oxygen if victim has difficulty breathing. Give artificial respiration preferably mouth-to-mouth, if breathing difficult. Get medical attention. EYES: Wash immediately with plenty of water for at least 15 minutes. Get medical attention. SKIN: Wash with vegetable oil or soap and water. Then wash with soap and water. INGESTION: Have victim drink water (two glasses at most). DO NOT induce vomiting.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2 LD50 [illegible] mg/kg

5.7 **Late Toxicity:** Repeated exposures may cause cancer of skin

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation and lachrymation at concentrations of [illegible] ppm and high concentrations are painful. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Liquid severely irritating. May cause pain and severe degree burns after a few minutes contact.

5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** > 150°F (65.6°C)

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Dry chemical, carbon dioxide or foam

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Data not available

6.6 **Behavior in Fire:** Heavy smoke during black smoke is formed

6.7 **Ignition Temperature:** 637°F

6.8 **Electrical Hazard:** Not pertinent

REVISED 1978

CGE — CRESYL GLYCIDYL ETHER

Common Synonyms	Solid	White
	Sinks and mixes with water	

Stop discharge if possible. Keep people away.
Shut off ignition sources. Call fire department.
Avoid contact with solid and dust.
Collect and remove discharged material.
Notify local health and pollution control agencies.

Fire	**Combustible** Extinguish with dry chemical, foam or carbon dioxide. Water may be ineffective on fire. Cool exposed containers with water.
Exposure	**CALL FOR MEDICAL AID** **DUST** Irritating to eyes, nose and throat. Harmful if inhaled. [illegible] **SOLID** Irritating to skin and eyes. Harmful if swallowed. [illegible] IF IN EYES: Gently wash with plenty of water. IF SWALLOWED: Induce vomiting. Call physician immediately. IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS: Do nothing except keep victim warm.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. [illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-6)

Issue warning: water contaminant.
Should be removed.
Chemical and physical treatment.

2. LABELS

No hazard label required by Code of Federal Regulations.

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Cresol epoxypropyl ether. Tolyl epoxypropyl ether. Tolyl glycerol ether.

3 2 **Coast Guard Compatibility Classification:** Not listed.

3 3 **Chemical Formula.** $CH_3C_6H_4OCH_2CH(O)CH_2$

3 4 **IMCO/United Nations Numerical Designation:** Not listed.

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid.

NOTES

CTA

CROTONALDEHYDE

Common Synonyms
Crotonic aldehyde
beta-Methylacrolein
trans-2-Butenal

Watery liquid | Yellow | Tar odor

Floats and mixes slowly with water. Flammable irritating vapor is produced.

Fire

FLAMMABLE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

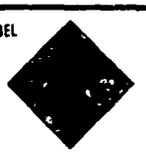
CALIFORNIA PROP 65 LISTED

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause coughing, nausea, vomiting or loss of consciousness.

LIQUID
Will burn skin and eyes.
Harmful if swallowed.

IN CASE OF CONTACT, IMMEDIATELY FLUSH SKIN OR EYES WITH PLENTY OF WATER FOR AT LEAST 15 MINUTES.
IF SWALLOWED, GIVE WATER OR MILK. DO NOT INDUCE VOMITING.

Water Pollution



Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: high flammability, water contaminant.
Restrict access.
Disperse and flush.

2 LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
beta-Methylacrolein
Crotenaldehyde
Crotonic aldehyde
trans-2-Butenal

3.2 **Coast Guard Compatibility Classification:** Aldehyd

3.3 **Chemical Formula:** $CH_3CH{=}CHCHO$

3.4 **IMCO/United Nations Numerical Designation:** UN 1143

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Yellow

4.3 **Odor:** Tarry

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air supplied mask for concentrations above 2% by volume; plastic gloves; monogoggles; eye bath; rapid safety shower.

5.2 **Symptoms Following Exposure:** INHALATION: vapors exceedingly irritating, causing coughing, chest pain, nausea, vomiting, and collapse. CONTACT WITH SKIN OR EYES: may cause burns and systemic illness. Contact of liquid or vapors with eyes causes burns.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air; give oxygen if breathing is difficult; call a physician. INGESTION: have victim drink water or milk; do NOT induce vomiting. SKIN OR EYES: immediately flush with plenty of water for at least 15 min; physician should see cases of eye irritation from vapor or liquid.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 2 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 3; LD$_{50}$: 50 to 500 mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations.

5.9 **Liquid or Solid Irritant Characteristics:** Exhibits severe skin irritant effects causing pain and second degree burns after a few minutes' contact.

5.10 **Odor Threshold:** 0.13 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 59°F O.C.

6.2 **Flammable Limits in Air:**
2.1% - 15.5%

6.3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Vapors are very irritating to nose, eyes and skin.

6.6 **Behavior in Fire:** Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back.

6.7 **Ignition Temperature:** 450°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 3.3 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** May polymerize

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** May polymerize or condense with evolution of heat in presence of alkalies, amines or acids.

7.6 **Inhibitor of Polymerization:** None used

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** 1.3 lb/lb in 10 days

8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

CMH — CUMENE HYDROPEROXIDE

Common Synonyms
alpha alpha-Dimethylbenzene hydroperoxide
Dimethylbenzyl hydroperoxide
CHP
Isopropylbenzene hydroperoxide
Cumyl hydroperoxide

Liquid | Colorless to light yellow | Sharp irritating odor

Sinks in water

[illegible] Keep [illegible]
Call [illegible]
[illegible]
[illegible]

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
Containers may explode in fire
[illegible]
Water may be ineffective
[illegible]

Exposure

[illegible]

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache or coughing
[illegible]

LIQUID
Irritating to skin and eyes
Harmful if swallowed
[illegible]
IN EYES [illegible]
IF SWALLOWED [illegible]
IF SWALLOWED [illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 448-4)

Issue warning: oxidizing material
water contaminant
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** alpha alpha Dimethylbenzene hydroperoxide, Dimethylbenzyl hydroperoxide, Isopropylbenzene hydroperoxide, Cumyl hydroperoxide, CHP

3 2 **Coast Guard Compatibility Classification** Not applicable

3 3 **Chemical Formula:** $C_6H_5C(OOH)(CH_3)_2$
$C_6H_5C(CH_3)_2H$ (mixture)

Continued on page 4

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless to pale yellow

4 3 **Odor:** Sharp irritant aromatic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained or airline breathing apparatus solvent resistant rubber gloves chemical splash goggles rubber apron rubber or PVC clothing full face shield

5 2 **Symptoms Following Exposure:** Inhalation of vapor causes headache and burning throat Liquid causes severe irritation to eyes on skin causes burning throbbing sensation irritation and blisters Ingestion causes irritation of mouth and stomach

5 3 **Treatment for Exposure** Get medical attention after all exposures to this compound
INHALATION remove victim and administer artificial respiration and oxygen if necessary
EYES flush with water for 15 min SKIN wash several times with soap and water treat as burn
INGESTION induce vomiting and follow with gastric lavage

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 3 oral LD_{50} = 382 mg kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

3 4 **NIOSH/United Nations Numerical Designation.** 52/1524

CES — CUPRIETHYLENEDIAMINE SOLUTION

Common Synonyms

Liquid | Blue to dark purple | Fishy odor

Sinks and mixes with water. Irritating vapor is produced.

AVOID CONTACT WITH LIQUID. KEEP PEOPLE AWAY.
[illegible]

Fire

Not flammable.
Irritating gases may be produced when heated.

Exposure

CALL FOR MEDICAL AID.

VAPOR
Irritating to eyes, nose and throat.
If inhaled will cause difficult breathing.
[illegible]

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED.
Irritating to skin and eyes.
[illegible]
IF IN EYES [illegible]
IF SWALLOWED [illegible]
IF SWALLOWED, [illegible]
[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

NOTES

CYG

CYANOGEN

Common Synonyms

Ethane dinitrile
Dicyan
Oxalic acid dinitrile
Oxalonitrile
Dicyanogen

Liquefied gas Colorless Almond Odor

Floats and boils on water. Poisonous flammable vapor cloud is produced.

Fire

FLAMMABLE.
POISONOUS GASES ARE PRODUCED IN FIRE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
POISONOUS IF INHALED
Irritating to eyes

LIQUID
POISONOUS IF SWALLOWED
Will cause frostbite

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison, high flammability, air contaminant, water contaminant
Restrict access
Evacuate area

2 LABELS

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Ethanedinitrile, Dicyan, Oxalic acid dinitrile, Oxalonitrile, Dicyanogen

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** $(CN)_2$

3 4 **IMCO/United Nations Numerical Designation.** 2/1026

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquefied compressed gas

4 2 **Color:** Colorless

4 3 **Odor:** Characteristic almond like pungent penetrating; may not be sufficiently strong to provide an adequate warning

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained breathing apparatus; rubber gloves; rubber protective clothing, rubber-soled shoes

5 2 **Symptoms Following Exposure:** Vapor irritates eyes and causes giddiness, headache, fatigue and nausea if inhaled

5 3 **Treatment for Exposure:** In general, treatment is similar to that used following exposure to hydrogen cyanide. INHALATION: move victim to fresh air and have him lie down; do not permit him to exert himself; remove contaminated clothing but keep patient covered and comfortably warm; summon a physician; break an amyl nitrite pearl in a cloth and hold it lightly under the victim's nose for 15 seconds; repeat five times at about 15 sec. intervals; use artificial respiration if breathing has stopped. EYES: flush with water for at least 15 min.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 10 ppm

5 5 **Short-Term Inhalation Limits:** 5 mg/m for 30 min. (as a cyanide)

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Flammable gas

6 2 **Flammable Limits in Air:** 6.6% - 42%

6 3 **Fire Extinguishing Agents:** Let fire burn; shut off flow of gas; cool exposed areas with water

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products:** Unburned vapors are highly toxic

6 6 **Behavior in Fire:** Vapor is heavier than air and may travel considerable distance to a source of ignition and flash back. Containers may explode in fire releasing the highly toxic gas

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction but water provides heat to vaporize liquid cyanogen

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential:** None

NOTES

CBR — CYANOGEN BROMIDE

Common Synonyms	Solid crystals Colorless Penetrating odor Sinks and mixes with water

AVOID CONTACT WITH SOLID and gas or vapor
Wear self-contained positive pressure breathing apparatus
Isolate and ventilate area
Keep unnecessary people away

Fire

Not flammable
POISONOUS GASES ARE PRODUCED WHEN HEATED
Use chemical, foam, or water spray to extinguish fire
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID

DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
Irritating to eyes
Move to fresh air
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

SOLIDS
POISONOUS IF SWALLOWED
Will burn skin and eyes
Remove contaminated clothing and shoes
Flush eyes with water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, induce vomiting by tickling back of throat with finger or by giving syrup of ipecac, warm salt water or mustard
DO NOT INDUCE VOMITING

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes
Notify operators of nearby water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue safety precautions
Restrict access
Disperse and flush

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Chemical cartridge respirator, goggles, protective clothing, rubber gloves
5 2 **Symptoms Following Exposure:** Same symptoms as hydrogen cyanide. Because it irritates the eyes, throat, and lungs severely, it is unlikely that anyone would voluntarily remain in areas with a high enough concentration to cause an acute effect
5 3 **Treatment for Exposure:** Call a physician. INHALATION: remove victim to fresh air. If victim is not breathing, give artificial respiration, preferably mouth to mouth. If symptoms of cyanide poisoning are observed, administer amyl nitrite as instructed for HCN. INGESTION: have victim drink water or milk; do NOT induce vomiting
5 4 **Toxicity by Inhalation (Threshold Limit Value)** 0.3 ppm (suggested)
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion.** Data not available
5 7 **Late Toxicity:** Workers exposed to solutions may develop dermatitis
5 8 **Vapor (Gas) Irritant Characteristics:** Vapor can cause severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations
5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second and third degree burns on short contact. Very injurious to the eyes
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents:** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** Poison gases are produced in fire
6 6 **Behavior in Fire:** Not pertinent
6 7 **Ignition Temperature:** Not flammable
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** Not flammable

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport.** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Strong bleaching powder solution, let stand 24 hr
7 5 **Polymerization:** Does not occur
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available
8 2 **Waterfowl Toxicity:** Data not available
8 3 **Biological Oxygen Demand (BOD):** Data not available
8 4 **Food Chain Concentration Potential.** None

NOTES

REVISED 1978

CCL

CYANOGEN CHLORIDE

Common Synonyms

Liquid or compressed gas Colorless Sharp pungent odor

Poisonous vapor cloud is produced Boiling point is 56° F

Fire

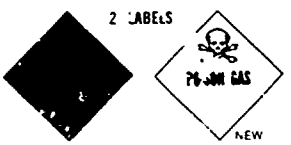
Not flammable
POISONOUS GASES ARE PRODUCED WHEN HEATED IN FIRE

Exposure

VAPOR
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
Irritating to eyes

LIQUID
POISONOUS IF SWALLOWED
Will burn skin and eyes

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-6)

Issue warning: poison
Restrict access
Evacuate area

2 LABELS

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Nitrogen monochloride
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** CNCl
3 4 **IMCO/United Nations Numerical Designation:** 6 1 1589

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Compressed gas
4 2 **Color:** Colorless
4 3 **Odor:** Acrid choking

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** [illegible] respirator, protective clothing
5 2 **Symptoms Following Exposure:** Symptoms include a mucous membrane irritation with a burning sensation of the respiratory tract, with a heavy chest, edema of the throat and trachea and pulmonary edema. It is improbable that anyone would tolerate [illegible] which might cause serious injury or death
5 3 **Treatment for Exposure:** INHALATION: [illegible] oxygen call a doctor. Do not administer anything. INGESTION: Induce vomiting
5 4 **Toxicity by Inhalation (Threshold Limit Value):** [illegible] ppm
5 5 **Short-Term Inhalation Limit:** Data not available
5 6 **Toxicity by Ingestion:** Not pertinent
5 7 **Late Toxicity:** Long term exposure causes dermatitis, loss of appetite, headache, upper respiratory irritation in humans
5 8 **Vapor (Gas) Irritant Characteristics:** Vapor causes severe irritation of eyes and throat and can cause eye and lung injury. They cannot be tolerated even at low concentrations
5 9 **Liquid or Solid Irritant Characteristics.** Severe irritant. Causes second and third degree burns on short contact. Severe irritation to the eyes
5 10 **Odor Threshold:** [illegible] ppm

6 FIRE HAZARDS

6 1 **Flash Point:** Not flammable
6 2 **Flammable Limits in Air:** Not flammable
6 3 **Fire Extinguishing Agents:** Not pertinent
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** Not pertinent
6 6 **Behavior in Fire:** Overheated containers can explode
6 7 **Ignition Temperature:** Not flammable
6 8 **Electrical Hazard:** Not pertinent
6 9 **Burning Rate:** Not flammable

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** Very slow reaction
7 2 **Reactivity with Common Materials:** Slow, not immediately hazardous
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** 0.03 ppm* fish killed (trout, salmon)
*Duration not specified
8 2 **Waterfowl Toxicity.** Data not available
8 3 **Biological Oxygen Demand (BOD).** Data not available
8 4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

CHX — CYCLOHEXANE

Common Synonyms: Hexahydrobenzene

Water's liquid — Colorless — Gasoline-like odor

Floats on water. Flammable irritating vapor is produced. Freezing point is 44° F.

Fire

FLAMMABLE
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
If inhaled, will cause dizziness, nausea, vomiting or loss of consciousness.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Water Pollution

Dangerous to aquatic life in high concentrations.
Fouling to shoreline.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG 446-4

Isolate and deny entry. Keep away from heat, sparks and flame.
Evacuate area.
Disperse and flush.

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Hexahydrobenzene
Hexamethylene
Hexanaphthene

3.2 **Coast Guard Compatibility Classification:** Paraffin

3.3 **Chemical Formula:** C_6H_{12}

3.4 **IMCO United Nations Numerical Designation:** 3.1 1145

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Resembling benzene and weak resembling chloroform

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Hydrous NH3 vapor canister supplied air or self-contained hydrocarbon resistant rubber or plastic gloves, chemical goggles or face splash shield, hydrocarbon resistant rubber or plastic apron.

5.2 **Symptoms Following Exposure:** Dizziness, nausea and/or unconsciousness. Liquid or vapor may cause skin irritation and sunburn.

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air if breathing has stopped, apply artificial respiration and administer oxygen. SKIN OR EYE CONTACT: remove contaminated clothing and gently flush affected areas with water for 15 minutes or more.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 400 ppm

5.5 **Short-Term Inhalation Limits:** 500 ppm for 60 min

5.6 **Toxicity by Ingestion:** Grade 1 Data Available

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain may cause smarting and reddening of the skin.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** −4°F C.C.

6.2 **Flammable Limits in Air:** 1.3% x 8%

6.3 **Fire Extinguishing Agents:** Foam, carbon dioxide, dry chemical

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 518°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 4.9 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 15,500 ppm/24 hr/mosquito fish/TLm/fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

1. Exxon Chemical Co., Houston, Texas 77001
2. Phillips Petroleum Co., Bartlesville, Okla. 74004
3. Texaco Inc., 135 East 42nd St., New York, N.Y. 10017

10 SHIPPING INFORMATION

10.1 **Grades or Purity:** Research grade 99.5+% pure; commercial 99.0%

10.2 **Storage Temperature:** Ambient

10.3 **Inert Atmosphere:** No requirement

10.4 **Venting:** Open flame arrestors or pressure vacuum

CHN

CYCLOHEXANOL

Common Synonyms
Hexalin
Hexahydrophenol
Cyclohexyl alcohol
Hydroxycyclohexane

Oily liquid | Colorless to light yellow | Alcohol odor

Floats and mixes slowly with water. May solidify. Freezing point is 75° F.

Fire

Combustible

Exposure

LIQUID OR SOLID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**

Adronal	Hexalin
Anol	Hexahydrophenol
Cyclohexyl alcohol	Hydroxycyclohexane

3.2 **Coast Guard Compatibility Classification:** Alcohol

3.3 **Chemical Formula:** $C_6H_{11}OH$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid or liquid

4.2 **Color:** Colorless to faintly yellow

4.3 **Odor:** Like camphor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face shield

5.2 **Symptoms Following Exposure:** Narcosis, depression of the central nervous system tending to produce sleep or unconsciousness

5.3 **Treatment for Exposure:** Eye contact is more hazardous than inhalation, skin irritation or ingestion. Flush eyes with water and remove contaminated clothing

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 50 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2. LD50 Not established

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause slight smarting. The eyes or respiratory system if present in high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of eyes and skin. 1st degree burns on short exposure and may cause severe burns on long exposure.

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Hydroperoxycyclohexyl hydroxycyclohexyl peroxide Hydroperoxycyclohexyl hydroxycyclohexyl peroxide, Cadox HDP, Lupersol JDB-50-T Dicyclohexanone diperoxide

3 2 **Coast Guard Compatibility Classification.** Not applicable

3 3 **Chemical Formula:** $C_{12}H_{22}O_5$ or $C_{12}H_{20}O_4(OOH)_2$

3 4 **IMCO/United Nations Numerical Designation:** 1 00°1 (> 70%) 5 2 1525 (< 70%)

Continued on page 4

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid or paste

4 2 **Color:** Colorless or white

4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield rubber gloves protective clothing

5 2 **Symptoms Following Exposure:** Irritates eyes and skin on contact. Ingestion causes irritation to mouth and stomach

5 3 **Treatment for Exposure:** EYES flush with water for at least 15 min get medical attention SKIN wipe off and wash with soap and water get medical attention if irritation persists INGESTION induce vomiting get medical attention

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Not pertinent

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion:** Grade 2 LD$_{50}$ = 500 mg/kg

5 7 **Late Toxicity** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Not pertinent

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point:** Combustible solid (ASTM D 1929 Ignition Test Method)

6 2 **Flammable Limits in Air:** Not pertinent

6 3 **Fire Extinguishing Agents:** Water foam dry chemical carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6 5 **Special Hazards of Combustion Products.** Not pertinent

6 6 **Behavior in Fire:** May explode

6 7 **Ignition Temperature** 79° F (dibutyl phthalate)

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials.** No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD).** Data not available

3 CHEMICAL DESIGNATIONS (Cont'd.)

3 4 **IMCO/United Nations Numerical Designation:** 1 00°1 (> 70%) 5 2 1525 (< 70%)

CHT	CYCLOHEXENYLTRICHLOROSILANE

Common Synonyms	Liquid	Colorless	Sharp irritating odor
	Reacts with water. Poisonous gas is produced on contact with water.		

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

GAS PRODUCED IN REACTION WITH WATER
POISONOUS IF INHALED
Irritating to eyes, nose and throat

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Isolate warning contaminate water
Restrict access
Dispose and treat with care

2 LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** $C_6H_9SiCl_3$
3.4 **IMCO/United Nations Numerical Designation:** 1760

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Sharp irritating odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Avoid eye, skin and respiratory contact. Personal workers goggles, other protective equipment as needed to prevent repeated or prolonged
5.2 **Symptoms Following Exposure:** Inhalation causes irritation and severe burning. Contact with eyes or skin causes severe burns. Ingestion causes severe burning and irritation
5.3 **Treatment for Exposure:** Get medical attention immediately following all exposures. If not breathing, INHALATION give artificial respiration. EYES flush with water for 15 min. SKIN flush with water. INGESTION give large amounts of water
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} 2830 mg/kg rats
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available

NOTES

CHA — CYCLOHEXYLAMINE

Common Synonyms
Aminocyclohexane
Hexahydroaniline

Liquid | Colorless | Strong fishy odor

Floats and mixes with water

Fire

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

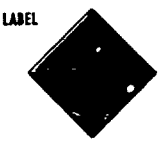
Exposure

CALL FOR MEDICAL AID

LIQUID
Will burn skin and eyes
Harmful if swallowed

IF IN EYES
IF SWALLOWED
DO NOT INDUCE VOMITING

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

NOTES

REVISED 1978

CYP CYCLOPENTANE

Common Synonyms

Pentamethylene

Waters liquid | Colorless | Mild, sweet odor

Floats on water Flammable, irritating vapor is produced

Fire

FLAMMABLE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

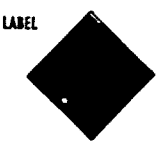
Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause dizziness, nausea, vomiting, difficult breathing or loss of consciousness

LIQUID
Irritating to skin and eyes
Harmful if swallowed

DO NOT INDUCE VOMITING

Water Pollution



Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning high flammability
Evacuate area
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Pentamethylene
3 2 **Coast Guard Compatibility Classification** Saturated hydrocarbon
3 3 **Chemical Formula:** C_5H_{10}
3 4 **IMCO/United Nations Numerical Designation.** 3 1 1146

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color** Colorless
4 3 **Odor** Like gasoline mild sweet

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Hydrocarbon canister supplied air or hose mask rubber or plastic gloves chemical goggles or face shield

5 2 **Symptoms Following Exposure:** Inhalation causes dizziness nausea and vomiting concentrated vapor may cause unconsciousness and collapse Vapor causes slight smarting of eyes Contact with liquid causes irritation of eyes and may irritate skin if allowed to remain Ingestion causes irritation of stomach Aspiration produces severe lung irritation and rapidly developing pulmonary edema central nervous system excitement followed by depression

5 3 **Treatment for Exposure** INHALATION remove to fresh air if breathing stops apply artificial respiration and administer oxygen EYES flush with water for at least 15 min call a physician SKIN flush well with water then wash with soap and water INGESTION do NOT induce vomiting guard against aspiration into lungs ASPIRATION [illegible] bed rest give oxygen, get medical attention

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5 5 **Short-Term Inhalation Limits:** 300 ppm for 60 min

5 6 **Toxicity by Ingestion.** Grade 2 LD$_{50}$ 0 5 to 5 g/kg

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations The effect is temporary

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard If spilled on clothing and allowed to remain may cause smarting and reddening of the skin

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** <20°F C C
6 2 **Flammable Limits in Air:** (approx.) LFL 1 4% UFL 8 7%

3 3 **Chemical Formula:** p-$CH_3C_6H_4CH(CH_3)_2$

3 4 **IMCO/United Nations Numerical Designation:** 33 2046

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Mild pleasant aromatic solvent type

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Self contained or air-line breathing apparatus, solvent resistant rubber gloves, chemical splash goggles

5 2 **Symptoms Following Exposure:** Inhalation causes impairment of coordination, headache. Contact with liquid causes mild irritation of eyes and skin. Ingestion causes irritation of mouth and stomach

5 3 **Treatment for Exposure:** INHALATION remove victim from contaminated area, administer artificial respiration if necessary, call physician. EYES flush with water for 15 min, call a physician. SKIN wipe off liquid, wash well with soap and water. INGESTION induce vomiting, get medical attention

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2, oral rat LD_{50} = 4.750 mg/kg. Oral human TD_{Lo} (lowest toxic dose) = 56 mg/kg (affects central nervous system)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are nonirritating to eyes and throat

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting of eyes and skin

5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** 140°F O.C., 117°F C.C.

6 2 **Flammable Limits in Air:** 0.7% - 5.6%

6 3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products:** Not pertinent

6 6 **Behavior in Fire:** Not pertinent

6 7 **Ignition Temperature:** 817°F

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** 6.1 mm/min

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential:** None

DALAPON

Common Synonyms
2,2 Dichloropropanoic acid
2,2 Dichloropropionic acid

Liquid | Colorless | Acrid odor

Sinks and mixes with water

[illegible]

Fire

Combustible

Exposure

CALL FOR MEDICAL AID
VAPOR
Irritating to eyes, nose and throat
[illegible]
LIQUID
Will burn skin and eyes
Harmful if swallowed
[illegible]

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: corrosive
Restrict access
Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 2,2-Dichloropropanoic acid; alpha, alpha-Dichloropropionic acid; 2,2-Dichloropropionic acid
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** CH_3CCl_2COOH
3.4 **IMCO/United Nations Numerical Designation:** 8, 1760

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Acrid

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Protective clothing, including goggles, gloves and boots; self-contained breathing apparatus
5.2 **Symptoms Following Exposure:** Inhalation causes severe irritation of nose, mouth and lungs. Ingestion causes severe irritation of mouth and stomach. Contact with eyes or skin causes irritation and burns.
5.3 **Treatment for Exposure:** INHALATION: move to fresh air; if patient is not breathing, give artificial respiration. Keep patient quiet, get medical attention. INGESTION: give large amounts of water, get medical attention. EYES: flush with water for at least 15 min., get medical attention. SKIN: flush with water, get medical attention if irritation persists.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 2, oral LD_{50} = 3.65 g/kg (mouse); 7.57 g/kg (rat)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** 2500 mg/m³

6. FIRE HAZARDS

6.1 **Flash Point:** Data not available
6.2 **Flammable Limits in Air:** Data not available
6.3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Irritating fumes of hydrochloric acid may form in fire
6.6 **Behavior in Fire:** Volatilizes with steam
6.7 **Ignition Temperature:** Data not available
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts slowly to form hydrochloric and pyruvic acids. The reaction is not hazardous
7.2 **Reactivity with Common Materials:** Very corrosive to aluminum and copper alloys. Flammable and explosive hydrogen gas may form in enclosed spaces
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics.** Flush with water, rinse with dilute sodium bicarbonate or soda ash solution
7.5 **Polymerization.** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** 105 ppm/96 hr/bluegill/TL_m/fresh water; 1 ppm/48 hr/brown shrimp/TL_m salt water
8.2 **Waterfowl Toxicity:** > 5,000 ppm LC_{50}
8.3 **Biological Oxygen Demand (BOD):** 0.64 lb/lb/5 days, unacclimated seed; 0.32 lb/lb/5 days, acclimated seed
8.4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

Dow Chemical Co.
Midland, Mich. 48640

10 SHIPPING INFORMATION

10.1 **Grades of Purity:** Technical grade 90% solid formulations of sodium and magnesium salts are sometimes referred to as Dalapon and are much less corrosive
10.2 **Storage Temperature:** 70°-90°F
10.3 **Inert Atmosphere:** No requirement
10.4 **Venting:** Open

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Data not available

5 2 **Symptoms Following Exposure:** Very large doses are followed promptly by vomiting, diarrhea, local gastric irritation, delayed emesis or diarrhea may occur. With smaller doses, symptoms usually appear 2 hours after ingestion. These include tingling of lips, tongue, and face, malaise, headache, sore throat, fatigue, coarse tremors of neck, head, and eyelids, apprehension, ataxia, and confusion. Convulsions may alternate with periods of coma and partial paralysis. Vital signs are essentially normal, but in severe poisoning, the pulse may be irregular and abnormally slow, ventricular fibrillation and sudden death may occur at any time during acute phase. Pulmonary edema usually indicates solvent aspiration.

5 3 **Treatment for Exposure:** INGESTION: Treatment should be done by a physician. It usually includes gastric lavage and administration of saline cathartic, phenobarbital and parenteral fluids. Patient should be kept quiet and under observation for at least 24 hours.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion:** Grade 3 LD50 to 500 mg/kg (rats)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Not pertinent

5 9 **Liquid or Solid Irritant Characteristics:** Moderate hazard. Repeated or prolonged contact to remain may cause smarting and reddening of the skin.

NOTES

DBR — DECABORANE

Common Synonyms

Solid | White | Sharp odor

Floats on water

Fire

FLAMMABLE.
POISONOUS GASES MAY BE PRODUCED IN FIRE
Containers may explode in fire

Exposure

DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED

SOLID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Fouling to shoreline
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability
water contaminant: poison
Restrict access
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** $B_{10}H_{14}$
3.4 **IMCO/United Nations Numerical Designation:** 4.1 1868

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid
4.2 **Color:** White
4.3 **Odor:** Pungent

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self contained breathing apparatus or positive pressure hose mask; rubber boots or overshoes, clothing made of material resistant to decaborane; rubber gloves; chemical-type goggles or face shield

5.2 **Symptoms Following Exposure:** The onset of symptoms is frequently delayed until one or two days after exposure. Inhalation or ingestion causes headache, nausea, light headedness, drowsiness, nervousness, lack of coordination, and tremor; muscle spasms and generalized convulsions may occur. Dust irritates eyes and skin and may give same systemic symptoms as for inhalation of left on skin

5.3 **Treatment for Exposure:** Get medical attention after all exposures to this compound. Symptoms may be delayed for 48 hours. INHALATION: move patient to fresh air. Keep him warm and quiet. EYES: flush with water for at least 15 min. SKIN: immediately wash with soap and plenty of water. INGESTION: if victim is conscious, give a tablespoonful of salt in a glass of warm water and repeat until vomit fluid is clear. *Note to physician:* Treat symptomatically; administration of methocarbamol or other muscle relaxant may be helpful immediately following exposure and in the absence of symptoms

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.05 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 4, oral LD_{50} = 40 mg/kg (mouse)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** (Flammable solid) 176°F C.C.

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Water, foam, dry chemical, and carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Halogenated extinguishing agents

6.5 **Special Hazards of Combustion Products:** May give toxic fumes of unburned material

6.6 **Behavior in Fire:** May explode when hot. Burns with a green-colored flame

6.7 **Ignition Temperature:** 90°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts slowly to form flammable hydrogen gas, which can accumulate in closed area

7.2 **Reactivity with Common Materials:** Corrosive to natural rubber, some synthetic rubbers, some greases, and some lubricants

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Flush with 5% aqueous ammonia solution, then with water. Methyl alcohol may also be used

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

	Floats on water		

Fire	Combustible
Exposure	LIQUID Irritating to skin and eyes If swallowed will cause headache, nausea, or vomiting
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Bicyclo [4.4.0] decane; Naphthalane; Perhydronaphthalene; Dec; Decalin; Decahydronaphthalene; cis- or trans- Decahydronaphthalene

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $C_{10}H_{18}$

3.4 **IMCO/United Nations Numerical Designation:** 1.1.1147

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Aromatic, like turpentine, mild characteristic

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air mask or self-contained breathing apparatus if in enclosed tank; rubber gloves or protective cream; goggles or face shield

5.2 **Symptoms Following Exposure:** Inhalation or ingestion irritates nose and throat; causes nausea, dizziness, headache, vomiting; urine may become blue; irritates eyes; liquid defats skin and causes cracking and secondary infection; dermatitis develops

5.3 **Treatment for Exposure:** INHALATION: remove to fresh air; if not breathing, give artificial respiration. EYES: flush with water for at least 15 min. SKIN: wash with water and mild soap. INGESTION: give emetic such as warm salt water, followed by a mild cathartic; direct physician to preserve liver and kidney function

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 25 ppm (suggested)

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 4.170 mg/kg (rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 134°F C.C.

6.2 **Flammable Limits in Air:** 0.7% - 4.9%

6.3 **Fire Extinguishing Agents:** Water; foam; dry chemical; carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 482°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 5.9 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** Data not available

DAN	n-DECYL ALCOHOL

Common Synonyms
1-Decanol
Normal decanol
Capric alcohol

Liquid. Colorless to light yellow. Faint alcohol odor.

Floats on water. Freezing point is 44° F.

Fire

Combustible.

Exposure

LIQUID
Irritating to eyes.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Foaming in shoreline.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

Mechanical containment.
Should be removed.
Chemical and physical treatment.

2. LABELS

3 CHEMICAL DESIGNATIONS

3.1 Synonyms: Decanol; Decyl alcohol; Capric alcohol; 1-Decanol; n-Decanol; Normal decanol

3.2 Coast Guard Compatibility Classification: None

3.3 Chemical Formula: $CH_3(CH_2)_8CH_2OH$

3.4 IMCO United Nations Numerical Designation: Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped): Liquid

4.2 Color: Colorless to slight yellow

4.3 Odor: Faint alcohol

5 HEALTH HAZARDS

5.1 Personal Protective Equipment: Negligible hazard

5.2 Symptoms Following Exposure: Irritation of eyes, skin, and respiratory tract

5.3 Treatment for Exposure: CONTACT WITH EYES: Flush with water for 15 minutes

5.4 Toxicity by Inhalation (Threshold Limit Value): Not pertinent

5.5 Short-Term Inhalation Limits: Not pertinent

5.6 Toxicity by Ingestion: Grade 1 (slightly toxic)

5.7 Late Toxicity: Data not available

5.8 Vapor (Gas) Irritant Characteristics: None

5.9 Liquid or Solid Irritant Characteristics: Not applicable. Not a primary skin irritant

5.10 Odor Threshold: Data not available

6 FIRE HAZARDS

6.1 Flash Point: 180°F O.C.

6.2 Flammable Limits in Air: Data not available

6.3 Fire Extinguishing Agents: Dry chemical

6.4 Fire Extinguishing Agents Not to be Used: Not pertinent

6.5 Special Hazards of Combustion Products: Not pertinent

NOTES

REVISED 1978

DBZ — n-DECYLBENZENE

Common Synonyms
1 Phenyldecane
Decylbenzene

Liquid — White

Floats on water

[illegible]

Fire

Combustible

[illegible]

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
[illegible]

LIQUID
Irritating to skin and eyes
If swallowed will cause nausea and vomiting
[illegible]
Flush affected areas with plenty of water
IF IN EYES hold eyelids open and flush with plenty of water
DO NOT INDUCE VOMITING

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes
[illegible]

3 4 **IMCO/United Nations Numerical Designation.** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Amber

4 3 **Odor** Offensive sulfur compound odor

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Organic vapor respirator in confined areas rubber or latex gloves, splash goggles, rubber boots

5 2 **Symptoms Following Exposure:** Inhalation causes headache vertigo blurred vision lachrymation salivation sweating, muscular weakness and ataxia dyspnea, diarrhea abdominal cramps vomiting coma, pulmonary edema and death Ingestion causes nausea vomiting muscle twitching, coma Contact with eyes or skin causes irritation

5 3 **Treatment for Exposure:** *Speed is essential Call a physician after all overexposure to demeton* INHALATION move to fresh air, if needed, begin artificial respiration INGESTION administer milk water or salt-water and induce vomiting repeatedly EYES flush with water for at least 15 min SKIN flood and wash exposed skin areas thoroughly with water remove contaminated clothing under a shower wash with soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 0 1 mg/m³

5 5 **Short-Term Inhalation Limits:** 0 5 mg/m³ 30 min

5 6 **Toxicity by Ingestion.** Grade 4 oral LD_{50} = 1 7 mg/kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics.** Data not available

5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point.** 111°F C C

6 2 **Flammable Limits in Air** 1 0 % V

6 3 **Fire Extinguishing Agents.** Dry chemical foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used** Water may be ineffective on fire

6 5 **Special Hazards of Combustion Products** Irritating fumes of sulfur dioxide and phosphoric acid may form in fire

6 6 **Behavior in Fire:** Compound may volatilize and form toxic fumes Vapor of solvent is heavier than air and may travel considerable distance to a source of ignition and flash back

6 7 **Ignition Temperature:** 867° F (xylene solvent)

6 8 **Electrical Hazard** (xylene) Class I, Group D

6 9 **Burning Rate.** 5 8 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials** May attack some forms of plastics

7 3 **Stability During Transport** Stable

7 4 **Neutralizing Agents for Acids and Caustics** Not pertinent

7 5 **olymerization** Not pertinent

7 6 **Inhibitor of Polymerization** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity** 0 1 ppm/2 8 hr bluegill/reduction of enzyme in brain fresh water

8 2 **Waterfowl Toxicity** 1 5 mg/kg

8 3 **Biological Oxygen Demand (BOD)** Data not available

8 4 **Food Chain Concentration Potential** None

9 SELECTED MANUFACTURERS

Chemagro
Division of Bay hem Corp
Kansas City Mo 64120

10. SHIPPING INFORMATION

10 1 **Grades or Purity:** 25% 66% solution in xylenes which are combustible solvents

13 13 **Heat of Combustion.** Data not available

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution** Not pertinent

13 16 **Heat of Polymerization:** Not pertinent

(Continued on pages 5 and 6)

NOTES

DES

2,4-D ESTERS

Common Synonyms
Butyl 2,4-Dichlorophenoxyacetate
Isopropyl 2,4-dichlorophenoxy acetate
2,4-Dichlorophenoxyacetic acid butyl ester
2,4-Dichlorophenoxyacetic acid

Liquid | Yellowish brown | Fuel oil like odor

Sinks in water

Stop discharge if possible. Keep people away.
Stop if ignition occurs. Call fire department.
Avoid contact with liquid.
Isolate and remove discarded material.
Notify local health and pollution control agencies.

Fire

Combustible
Irritating gases may be produced when heated
Wear goggles and self-contained breathing apparatus.
Extinguish with dry chemical, carbon dioxide, foam, dry sand.
Water may be ineffective.
Flush area with water.

Exposure

CALL FOR MEDICAL AID
LIQUID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing.
Flush affected areas with plenty of water.
IF IN EYES hold eyelids open and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, have victim drink water (two glasses at most).
Induce vomiting.
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS do not induce vomiting or give anything by mouth.

Water Pollution

Dangerous to aquatic life in high concentrations.
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: water contaminant.
Should be removed.
Chemical and physical treatment.

2 LABELS

No hazard label required by Code of Federal Regulations.

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Butoxyethyl 2,4 dichlorophenoxyacetate, Butyl 2,4 dichlorophenoxyacetate, 2,4 Dichlorophenoxyacetic acid butoxyethyl ester, 2,4-Dichlorophenoxyacetic acid butyl ester, 2,4 Dichlorophenoxyacetic acid isopropyl ester, Isopropyl 2,4 dichlorophenoxy acetate

3.2 **Coast Guard Compatibility Classification:** Not listed

(Continued on page 4)

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Brown amber
4.3 **Odor:** May have odor of fuel oil

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Face shield or goggles, rubber gloves
5.2 **Symptoms Following Exposure:** Contact with eyes may cause mild irritation
5.3 **Treatment for Exposure:** INGESTION: if large amounts are swallowed, induce vomiting and get medical help. EYES: flush with plenty of water and see a doctor. SKIN: flush with water, wash with soap and water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 2 or 3. LD_{50}: 320 - 617 mg/kg
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available

NOTES

REVISED 1978

DAA DIACETONE ALCOHOL

Common Synonyms
4-Hydroxy-4-methyl-2 pentanone
Diacetone

Watery liquid Colorless to light yellow mild pleasant odor

Floats and mixes with water

Fire

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Disperse and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Diacetone
4 Hydroxy-4 methyl
2 pentanone
Tyranton

3 2 **Coast Guard Compatibility Classification:** Alcohol

3 3 **Chemical Formula:** $CH_3COHCH_2COCH_3$

3 4 **IMCO/United Nations Numerical Designation** 33 1148

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid

4 2 **Color:** Colorless to yellow

4 3 **Odor** Mild pleasant

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment** Air pack or organic canister rubber gloves goggles

5 2 **Symptoms Following Exposure:** Vapor is irritating to the mucous membrane of the eye and respirators tract Inhalation can cause dizziness nausea some anesthesia Very high concentrations have a narcotic effect The liquid is not highly irritating to the skin but can cause dermatitis

5 3 **Treatment for Exposure:** INHALATION remove victim to fresh air Give artificial respiration if breathing has stopped CONTACT WITH EYES OR SKIN wash affected skin areas with water flush eyes with water and get medical aid if discomfort persists

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 50 ppm

5 5 **Short-Term Inhalation Limits.** 150 ppm for 30 min

5 6 **Toxicity by Ingestion:** Grade 2 LD_{50} 0 stc 5 g kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Vapors cause moderate irritation exposed personnel will find high concentrations unpleasant The effect is temporary

5 9 **Liquid or Solid Irritant Characteristics.** Minimum hazard If spilled on clothing and allowed to remain may cause smarting and reddening of the skin

5 10 **Odor Threshold:** Data not available

NOTES

REVISED 1978

DAP	# Di-n-AMYL PHTHALATE

Common Synonyms
Phthalic acid dipentyl ester
Diamyl phthalate
Phthalic acid diamyl ester
Dipentyl phthalate

Liquid | Wate | Odorless

Floats on water

Fire

Combustible

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause headache, coughing or difficult breathing

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

NOTES

DZN DIAZINON

Common Synonyms

0 0-Diethyl 0-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate
0 0-Diethyl 0-(2-isopropyl-4-methyl-6-pyrimidyl) thiophosphate
Alfa-tox Spectracide Sarolex

Liquid — Light to dark brown

Sinks in water

[illegible] discharge if possible. Keep [illegible]

Fire

Not flammable
POISONOUS GASES ARE PRODUCED WHEN HEATED

Exposure

[illegible] AT FOR MEDICAL AID
LIQUID
POISONOUS IF SWALLOWED
Irritating to skin and eyes
[illegible]

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes
[illegible]

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: poison, water contaminant, high flammability (if solution)
Restrict access
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by Coast Guard Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** O O-Diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate; O O-Diethyl O-2-isopropyl-4-methyl-6-pyrimidyl thiophosphate; Diethyl 2-isopropyl-4-methyl-6-pyrimidyl thionophosphate; Alfa-tox, Sarolex, Spectracide

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** $C_{12}H_{21}N_2O_3PS$

3 4 **IMCO/United Nations Numerical Designation:** 6.1 [illegible]

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid or liquid solution

4 2 **Color:** Amber to dark brown

4 3 **Odor:** Data not available

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield, rubber gloves, protective clothing

5 2 **Symptoms Following Exposure:** Ingestion or prolonged inhalation of mist causes headache, giddiness, blurred vision, nervousness, weakness, cramps, diarrhea, discomfort in the chest, sweating, miosis, tearing, salivation and other excessive respiratory tract secretion, vomiting, cyanosis, papilledema, uncontrollable muscle twitches, convulsions, coma, loss of reflexes, and loss of sphincter control. Liquid irritates eyes and skin.

5 3 **Treatment for Exposure:** INHALATION: remove to fresh air, keep warm, get medical attention at once. EYES: flush with plenty of water for at least 15 min. and get medical attention. SKIN: wash contaminated area with soap and water. INGESTION: get medical attention at once, give water slurry of charcoal. Do NOT give milk or alcohol.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion:** Grade 3; oral LD_{50} = 76 mg/kg (rat)

5 7 **Late Toxicity:** May be [illegible]

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 82 - 10°F C.C. (solutions only, pure liquid difficult to burn)

6 2 **Flammable Limits in Air:** Not pertinent

6 3 **Fire Extinguishing Agents:** (for solutions) Foam, dry chemical or carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products:** Oxides of sulfur and of phosphorus are generated in fires

6 6 **Behavior in Fire:** Not pertinent

6 7 **Ignition Temperature:** Not pertinent

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** (for solutions) 4 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:**
0.025 ppm, 96 hr, stonefly nymph/TL_m/fresh water
30 g/1/48 hr, Bluegill/TL_m/fresh water (becomes bound to soil when used according to directions)

8 2 **Waterfowl Toxicity:**
LD_{50} = 3.54 mg/kg
LC_{50} = 5 days, 90 ppm, mallard duck
LC_{50} = 7 days, 68 ppm, quail

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential:** Data not available

9. SELECTED MANUFACTURERS

Ciba-Geigy Corporation
Agricultural Division
P. O. Box 11422
Greensboro, N. C. 27409

10 SHIPPING INFORMATION

10 1 **Grades or Purity:** Technical, wettable powders, a variety of emulsifiable solutions in combustible solvents

10 2 **Storage Temperature:** Ambient

10 3 **Inert Atmosphere:** No requirement

10 4 **Venting:** Open (flame arrester)

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 446-3)

A-X-Y

12. HAZARD CLASSIFICATIONS

12 1 **Code of Federal Regulations:** ORM-A

12 2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

12 3 **NFPA Hazard Classifications:** Not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

13 1 **Physical State at 15°C and 1 atm:** Liquid

13 2 **Molecular Weight:** 304.4

13 3 **Boiling Point at 1 atm:** Very high, decomposes

13 4 **Freezing Point:** Not pertinent

13 5 **Critical Temperature:** Not pertinent

13 6 **Critical Pressure:** Not pertinent

13 7 **Specific Gravity:** 1.117 at 20°C (liquid)

13 8 **Liquid Surface Tension:** (est.) 35 dynes/cm = 0.035 N/m at 20°C

13 9 **Liquid-Water Interfacial Tension:** (est.) 40 dynes/cm = 0.040 N/m at 20°C

13 10 **Vapor (Gas) Specific Gravity:** Not pertinent

13 11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent

13 12 **Latent Heat of Vaporization:** Not pertinent

13 13 **Heat of Combustion:** (est.) = -12,000 Btu/lb = -6,500 cal/g = -270 × 10^3 J/kg

13 14 **Heat of Decomposition:** Not pertinent

13 15 **Heat of Solution:** Not pertinent

13 16 **Heat of Polymerization:** Not pertinent

Continued on page 1 and A

NOTES

DPO — DIBENZOYL PEROXIDE

Common Synonyms			
Benzoyl peroxide Benzoyl superoxide Lucidol Oxylite BPO BP	Solid powder or granules	White	Odorless
	Sinks in water		

[illegible]

Fire

FLAMMABLE.
MAY EXPLODE IF SUBJECTED TO HEAT, SHOCK OR FRICTION
May cause fire and explode on contact with combustibles

[illegible]

Exposure

[illegible] FOR MEDICAL AID
SOLID
Irritating to skin and eyes
Harmful if swallowed

[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

[illegible]

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Issue warning - high flammability
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:**

Benzoyl peroxide	BPO
Benzoyl superoxide	Lucidol 70
BP	Oxylite

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:**

$(C_6H_5CO)_2O_2$

3 4 **IMCO United Nations Numerical Designation:** 5 2 1521

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White
4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Safety goggles, face shield, rubber gloves

5 2 **Symptoms Following Exposure:** CONTACT WITH EYES OR SKIN irritates eyes. Prolonged contact may irritate skin

5 3 **Treatment for Exposure:** INGESTION: administer an emetic to induce vomiting and call a physician. CONTACT WITH EYES OR SKIN: do not use oils or ointments; flush eyes with plenty of water and get medical attention; wash skin with plenty of soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 5 mg/m³

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion:** Grade 2 LD₅₀ 0.5 to 5 g/kg

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Not pertinent

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of the skin

5 10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point:** Highly flammable solid explosion sensitive to shock, heat and friction

6 2 **Flammable Limits in Air:** Not pertinent

6 3 **Fire Extinguishing Agents:** Difficult to extinguish once ignited. Use water spray to cool surrounding area

6 4 **Fire Extinguishing Agents Not to be Used:** Do not use hand extinguishers

6 5 **Special Hazards of Combustion Products:** Suffocating smoke evolved

6 6 **Behavior in Fire:** May explode

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** Special care must be taken to avoid contamination with combustible materials (wood, paper, etc.). Various inorganic and organic acids, alkalies, alcohols, amines, easily oxidizable materials such as ethers, or materials used as accelerators in polymerization reactions

7 3 **Stability During Transport:** Extremely explosion sensitive to shock, impact, blows, heat, and friction. May be reported to explode for apparently no specific reason. Self reactive

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

1. Pennwalt Corp
   Lucidol Division
   1740 Military Rd
   Buffalo, N.Y. 14240
2. Reichhold Chemicals, Inc.

NOTES

REVISED 1978

DBA	# Di-n-BUTYLAMINE

Common Synonyms	Liquid	Colorless	Weak ammonia fishy odor
Dibutylamine 1-Butanamine, N-butyl-	Floats and mixes with water		

Fire	Combustible POISONOUS GASES MAY BE PRODUCED IN FIRE
Exposure	VAPOR Irritating to eyes, nose and throat If inhaled will cause headache, coughing or difficult breathing LIQUID Irritating to skin and eyes If swallowed will cause nausea and vomiting
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning
Restrict access
Disperse and flush

2. LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 1-Butanamine, N-butyl
Dibutylamine

3 2 **Coast Guard Compatibility Classification:** Aliphatic amine

3 3 **Chemical Formula:** $(C_4H_9)_2NH$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Weak ammonia fishy

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield, rubber gloves

5 2 **Symptoms Following Exposure:** Inhalation causes irritation of nose, throat and lungs, coughing, nausea, headache. Ingestion causes irritation of mouth and stomach. Contact with eyes causes irritation. Contact with skin causes irritation and dermatitis.

5 3 **Treatment for Exposure:** INHALATION: move from exposure, if breathing has stopped, start artificial respiration. INGESTION: give large amount of water. EYES: irrigate with water for 15 min., get medical attention for possible eye damage. SKIN: wash with large amounts of water for 15 min.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 3, oral LD_{50} = 500 mg/kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics:** Severe skin irritant. Causes second- and third-degree burns on short contact at 10 years, injurious to the eyes.

5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** 125°F O C

6 2 **Flammable Limits in Air:** 1 1% (LEL)

6 3 **Fire Extinguishing Agents:** Alcohol foam, dry chemical, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fires

6 6 **Behavior in Fire:**

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** 3.84 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** May corrode some metals and attack some forms of plastics

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibition of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

Continued on page 5-DBA

NOTES

DBE — DI-n-BUTYL ETHER

Common Synonyms

n-Dibutyl ether
n-Butyl ether
butyl ether
1-Butoxybutane
Dibutyl ether

Liquid | Colorless | Mild pleasant odor

*Floats on water. Flammable. Irritating vapor is produced.

Fire

FLAMMABLE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.

LIQUID
Irritating to skin and eyes.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
Floating to shoreline.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Mechanical containment.
Should be removed.
Chemical and physical treatment.

2. LABELS

No label required by Code of Federal Regulations.

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** n-Dibutyl ether; n-Butyl ether; Butyl ether; 1-Butoxybutane; Dibutyl ether; Dibutyl oxide

3.2 **Coast Guard Compatibility Classification:** Ethers (1)

3.3 **Chemical Formula:** $C_8H_{18}O$

3.4 **IMCO/United Nations Numerical Designation:** 3.3/1149

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)*:** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Mild, etherlike

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face shield; rubber gloves

5.2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat. Liquid irritates eyes and may irritate skin on prolonged contact. Ingestion causes irritation of mouth and stomach.

5.3 **Treatment for Exposure:** INHALATION: remove to fresh air. EYES: after contact with liquid flush with water for at least 15 min. SKIN: wipe off, wash well with soap and water. INGESTION: induce vomiting.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 1; oral LD_{50} = 4000 mg/kg (rats)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 92°F O.C.

6.2 **Flammable Limits in Air:** 1.5% - 7.6%

6.3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Not pertinent

6.6 **Behavior in Fire:** Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back.

6.7 **Ignition Temperature:** 382°F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 3.7 mm/min

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

NOTES

DBK — Di-n-BUTYL KETONE

Common Synonyms
5-Nonanone

Liquid — Colorless to light yellow

Floats on water
Freezing point is 21°F

Fire

Combustible

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing.

LIQUID
Irritating to skin and eyes.
If swallowed will cause nausea and vomiting

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

NOTES

DBT — DIBUTYLPHENOL

Common Synonym			
2,6-Di-tert-butylphenol	Solid or liquid	Colorless to light yellow	Odorless
	Floats on water. Freezing point is 97°F		

Fire	Combustible
Exposure	LIQUID OR SOLID Will burn skin and eyes Harmful if swallowed
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 2,6-Di-tert-butylphenol
3.2 **Coast Guard Compatibility Classification:** Phenols (15)
3.3 **Chemical Formula:** 2,6-t-$C_4H_9C_6H_2OH$
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid or liquid
4.2 **Color:** Colorless to light straw
4.3 **Odor:** None

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face shield, rubber gloves
5.2 **Symptoms Following Exposure:** Irritates eyes and on prolonged contact skin. Ingestion causes irritation of mouth and stomach
5.3 **Treatment for Exposure:** EYES: flush with water for at least 15 min. SKIN: wipe off and wash well with soap and water. INGESTION: induce vomiting, get medical attention
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Not pertinent
5.6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} (2,6-Di-tert-butylphenol) = 1.32 g/kg (rat)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** >200°F OC
6.2 **Flammable Limits in Air:** Not pertinent
6.3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Not pertinent
6.6 **Behavior in Fire:** Not pertinent

NOTES

DPA	DIBUTYL PHTHALATE

Common Synonyms
DBP
Butyl stabilizer
Phthalic acid dibutyl ester

Oily liquid | Colorless | Odorless

Sinks slowly in water

Fire

Combustible

Exposure

LIQUID
No appreciable harm

Water Pollution

Dangerous to aquatic life in high concentrations
Fouling to shoreline
May be dangerous if it enters water intakes

CONSCIOUS

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-6

Issue warning
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms**
Dichlorocide — Paradow
Paradi — Paramoth
Para dichlorobenzene — Santochlor

3 2 **Coast Guard Compatibility Classification**
Halogenated hydrocarbon

3 3 **Chemical Formula:** p-$C_6H_4Cl_2$

3 4 **IMCO/United Nations Numerical Designation:** 9 0 1592

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid

4 2 **Color:** White

4 3 **Odor:** Aromatic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Full face mask fitted with organic vapor canister for concentrations over 75 ppm; skin protective clothing; eye protection

5 2 **Symptoms Following Exposure** INHALATION irritation of upper respiratory tract; over exposure may cause depression and injury to liver and kidney EYE CONTACT pain and mild irritation

5 3 **Treatment for Exposure** INHALATION if any ill effect develop remove patient to fresh air and get medical attention If breathing stops
EYES flush with plenty
If irritation or other effects develop SKIN AND INGESTION no problem
toxicity

5 4 **Toxicity by Inhalation (Threshold Limit Value)** 75 ppm

5 5 **Short-Term Inhalation Limits:** 50 ppm for 60 min

5 6 **Toxicity by Ingestion** Grade 2 LD$_{50}$ 0 5 to 5 g/kg

5 7 **Late Toxicity.** Data not available

5 8 **Vapor (Gas) Irritant Characteristics** Vapors cause mode
and high concentrations unpleasant The effects
temporar

5 9 **Liquid or Solid Irritant Characteristics:** Minimum hazard If spilled on clothing and allowed to remain may cause smarting and reddening of the skin

5 10 **Odor Threshold** 1 to 30 ppm

6 FIRE HAZARDS

6 1 **Flash Point** 150 F O C 150 F C C

6 2 **Flammable Limits in Air**
Data not available

6 3 **Fire Extinguishing Agents** Water
foam carbon dioxide or dry chemical

6 4 **Fire Extinguishing Agents Not to be Used:**
Not pertinent

6 5 **Special Hazards of Combustion Products**
Vapors are irritating Toxic chlorine
hydrogen chloride and phosgene gases
may be generated in fires

6 6 **Behavior in Fire:** Not pertinent

6 7 **Ignition Temperature:**

NOTES

REVISED 1978

DZP	DI-(p-CHLOROBENZOYL) PEROXIDE

Common Synonyms

Bis-(p-chlorobenzoyl) peroxide
p-Chlorobenzoyl peroxide
p,p'-Chlorobenzoyl peroxide
Di-(4-chlorobenzoyl) peroxide

Solid or paste | White | Odorless

Sinks in water

[illegible]

Fire

May explode on contact with combustibles
POISONOUS GASES ARE PRODUCED IN FIRE
[illegible]

Exposure

[illegible]
SOLID
Irritating to skin and eyes
Harmful if swallowed
[illegible]

Water Pollution

Effect at low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - oxidizing material
water contaminant
Should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Bis (p-chlorobenzoyl) peroxide, p-Chlorobenzoyl peroxide, p,p'-Dichlorobenzoyl peroxide, Di (4-chlorobenzoyl) peroxide, Cadox PS

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula.** $(p\text{-}ClC_6H_4COO)_2$

3 4 **IMCO/United Nations Numerical Designation:** 1/0149 (> 78%) 5.2 (54) (> 10% water or > 30% water)

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Solid or paste in silicone fluid and dibutyl phthalate

4 2 **Color:** White

4 3 **Odor:** None

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield, rubber gloves, protective clothing

5 2 **Symptoms Following Exposure:** Irritates eyes and (on prolonged contact) skin. Ingestion causes irritation of mouth and stomach

5 3 **Treatment for Exposure:** EYES wash with water for at least 15 min., consult a doctor. SKIN wash with soap and water. INGESTION induce vomiting and call a doctor

5 4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5 5 **Short-Term Inhalation Limits:** Not pertinent

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics.** Data not available

5 9 **Liquid or Solid Irritant Characteristics.** Data not available

5 10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point:** Not pertinent

6 2 **Flammable Limits in Air.** Not pertinent

6 3 **Fire Extinguishing Agents:** Flood with water or use dry chemical, foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent

6 5 **Special Hazards of Combustion Products.** Toxic chlorinated biphenyls are formed in fires

6 6 **Behavior in Fire:** Solid may explode. Burns very rapidly when ignited. Smoke is unusually heavy when paste form is involved

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** May react vigorously with combustible materials

7 3 **Stability During Transport** Stable if below 80°F

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization.** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

13 13 **Heat of Combustion:** (est.) −9 000 Btu/lb = −5 000 cal/g = −210 × 10⁵ J/kg

13 14 **Heat of Decomposition.** Data not available

13 15 **Heat of Solution:** Not pertinent

13 16 **Heat of Polymerization:** Not pertinent

(Continued on pages 5 and 6)

NOTES

DCB — DICHLOROBUTENE

Common Synonyms

1,4-Dichloro-2-butene
2-Butylene dichloride
1,4-Dichloro-2-butylene
cis-1,4-dichloro-2-butene
trans-1,4-dichloro-2-butene

Liquid | Colorless | Sweet odor

Sinks and mixes slowly with water

Fire

FLAMMABLE.
POISONOUS GASES ARE PRODUCED IN FIRE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: corrosive water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1,4-Dichloro-2-butene; 2-Butylene dichloride; 1,4-Dichloro-2-butylene; cis-1,4-Dichloro-2-butene; trans-1,4-Dichloro-2-butene

3.2 **Coast Guard Compatibility Classification:** Halogenated compounds (5)

3.3 **Chemical Formula:** $ClCH_2CH{=}CHCH_2Cl$

3.4 **IMCO/United Nations Numerical Designation:** 8, 1760

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Characteristic, sweet, pungent

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber gloves; chemical splash goggles; rubber boots and apron; barrier cream; organic canister mask

5.2 **Symptoms Following Exposure.** Inhalation of vapor irritates nose and throat. Contact with eyes causes intense irritation and tears. Contact of liquid with skin causes severe blistering and dermatitis. Ingestion causes severe irritation of mouth and stomach.

5.3 **Treatment for Exposure.** INHALATION: remove from exposure, provide low pressure oxygen if required, keep under observation until edema is ruled out. EYES: irrigate immediately for 15 min., call physician. SKIN: wash immediately and thoroughly with soap and water, treat as a chemical burn. INGESTION: induce vomiting, call physician.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion.** Grade 3; oral LD_{50} (1,4-dichloro-2-butene) = 85 mg/kg (rat)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics.** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6.1 **Flash Point:** Data not available

6.2 **Flammable Limits in Air:** [illegible]

6.3 **Fire Extinguishing Agents:** Water fog, foam, dry chemical or carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Not pertinent

6.5 **Special Hazards of Combustion Products:** Decomposition vapors contain phosgene and hydrogen chloride gases, both are toxic and irritating

6.6 **Behavior in Fire.** Not pertinent

6.7 **Ignition Temperature.** Data not available

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 2.6 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts slowly to form hydrochloric acid

7.2 **Reactivity with Common Materials:** Corrodes metal when wet

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization.** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available

8.2 **Waterfowl Toxicity:** Data not available

NOTES

DCF — DICHLORODIFLUOROMETHANE

Common Synonyms
Arcton 6
Eskimon 12
F-12
Freon 12
Genetron 12
Isotex 12

Compressed gas | Colorless | Faint odor

Visible vapor cloud is produced

Ship in Tank Cars or Trucks
Notify Local Health and Fire Departments

Fire

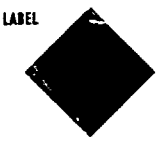
Not flammable

Exposure

CALL FOR MEDICAL AID

VAPOR
Not irritating to eyes nose or throat
If inhaled will cause dizziness difficult breathing
Move victim to fresh air
If breathing has stopped give artificial respiration
If breathing is difficult give oxygen

Water Pollution



Not harmful to aquatic life

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-6

Dissipate and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Eskimon 12 Genetron 12 F-12 Halon 122 Freon 12 Isotex 12 Frigen 12 Arcton 12

3 2 **Coast Guard Compatibility Classification** Halogenated hydrocarbon

3 3 **Chemical Formula** CCl_2F_2

3 4 **INCO and United Nations Numerical Designation.** 2.0 1028

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquefied compressed gas

4 2 **Color:** Colorless

4 3 **Odor:** Odorless slight characteristic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Rubber gloves monogoggles

5 2 **Symptoms Following Exposure** INHALATION some narcosis when 10% in air is breathed

5 3 **Treatment for Exposure:** Remove patient to uncontaminated area and apply artificial respiration if breathing has stopped call a physician and if indicated oxygen is to be given

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Not listed

5 5 **Short-Term Inhalation Limits** 4000 ppm for 60 min

5 6 **Toxicity by Ingestion:** Not pertinent

5 7 **Late Toxicity** None

5 8 **Vapor (Gas) Irritant Characteristics.** None except at very high concentrations which may irritate lungs

5 9 **Liquid or Solid Irritant Characteristics.** No appreciable hazard Practically harmless to the skin because it is very volatile and evaporates quickly

5 10 **Odor Threshold.** Data not available

6. FIRE HAZARDS

6 1 **Flash Point** Nonflammable

6 2 **Flammable Limits in Air.** Not flammable

6 3 **Fire Extinguishing Agents** Not pertinent

6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent

6 5 **Special Hazards of Combustion Products** Although nonflammable dissociation products generated in a fire may be irritating or toxic

6 6 **Behavior in Fire:** Helps extinguish fire

6 7 **Ignition Temperature.** Not flammable

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate** Not flammable

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water.** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport.** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization** Not pertinent

7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity** Not pertinent

8 2 **Waterfowl Toxicity:** Not pertinent

8 3 **Biological Oxygen Demand (BOD)** Not pertinent

8 4 **Food Chain Concentration Potential** None

NOTES

REVISED 1978

DEL

1,2-DICHLOROETHYLENE

Common Synonyms

Acetylene dichloride
sym-dichloroethylene
Dioform
cis-1,2-dichloroethylene
trans-1,2-dichloroethylene

Liquid | Colorless | Sweet pleasant odor

Sinks in water. Flammable irritating vapor is produced

Fire

FLAMMABLE
POISONOUS GASES MAY BE PRODUCED IN FIRE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
If inhaled will cause dizziness, nausea, vomiting, or difficult breathing

LIQUID
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability
Restrict access
Evacuate area
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.** Acetylene dichloride; sym-Dichloroethylene; Dioform; cis- or trans-1,2-Dichloroethylene

3 2 **Coast Guard Compatibility Classification:** Not applicable

3 3 **Chemical Formula:** CHCl=CHCl

3 4 **IMCO/United Nations Numerical Designation:** 3 2 1150

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped).** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Ethereal, slightly acrid, pleasant, chloroform-like

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber gloves, safety goggles, or supply mask or self-contained breathing apparatus

5 2 **Symptoms Following Exposure:** Inhalation causes nausea, vomiting, weakness, tremor, epigastric cramps, central nervous depression. Contact with liquid causes irritation of eyes and (on prolonged contact) skin. Ingestion causes slight depression to deep narcosis.

5 3 **Treatment for Exposure:** INHALATION: remove from further exposure; if breathing is difficult, give oxygen; if victim is not breathing, give artificial respiration, preferably mouth-to-mouth; give oxygen when breathing is resumed; call a physician. EYES: flush with water for at least 15 min. SKIN: wash well with soap and water. INGESTION: give gastric lavage and cathartics.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** 200 ppm

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 770 mg/kg (rat)

5 7 **Late Toxicity:** Produces liver and kidney injury in experimental animals

5 8 **Vapor (Gas) Irritant Characteristics.** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 36°F C.C.

6 2 **Flammable Limits in Air:** 9.7% - 12.8%

6 3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products.** Phosgene and hydrogen chloride fumes may form in fires

6 6 **Behavior in Fire:** Vapor is heavier than air and may travel a considerable distance to a source of ignition and flash back

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** 2.6 mm/min

7 CHEMICAL REACTIVITY

Reactivity with Water: No reaction

Reactivity with Common Materials: No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Will not occur under ordinary conditions of shipment. The reaction is not vigorous.

7 6 **Inhibitor of Polymerization:** None used

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential:** None

NOTES

DEE — DICHLOROETHYL ETHER

Common Synonyms

Bis(2-chloroethyl) ether
2,2'-Dichloroethyl ether
Dichloroether
Di-(2-chloroethyl) ether
Chlorex

Liquid | Colorless | Sweet pleasant odor

Sinks and mixes slowly with water

[illegible]

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE

[illegible]

Exposure

[illegible]
LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Irritating to skin and eye

[illegible]

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

[illegible]

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - poison water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2 LABELS

No label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Bis(2-chloroethyl) ether, 2,2'-Dichloroethyl ether, Dichlorodiethyl ether, Di-(2-chloroethyl) ether, Chlorex, DCEE, beta, beta'-Dichloroethyl ether
3 2 **Coast Guard Compatibility Classification** Halogenated hydrocarbon
3 3 **Chemical Formula:** $(ClCH_2CH_2)_2O$
3 4 **IMCO/United Nations Numerical Designation:** 33 1916

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color.** Colorless
4 3 **Odor:** Sweet like chloroform

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield, rubber gloves, protective clothing
5 2 **Symptoms Following Exposure:** Inhalation of vapor causes irritation of nose, coughing, nausea. Liquid irritates eyes and causes mild irritation of skin. (Can be absorbed in toxic amounts through the skin.) Ingestion causes irritation of mouth and stomach, symptoms of systemic poisoning
5 3 **Treatment for Exposure:** INHALATION: remove from exposure, support respiration, call physician if needed. EYES: irrigate with copious quantities of water for 15 min., call physician. SKIN: wipe off, wash well with soap and water. INGESTION: induce vomiting, get medical attention
5 4 **Toxicity by Inhalation (Threshold Limit Value).** 5 ppm
5 5 **Short-Term Inhalation Limits.** 35 ppm for 30 min.
5 6 **Toxicity by Ingestion:** Grade 3, oral LD_{50} = 75 mg/kg (rats)
5 7 **Late Toxicity:** Said to be carcinogenic
5 8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high vapor concentrations
5 9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first degree burns on short exposure; may cause second degree burns on long exposure
5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point** 180°F (O.C.) 131°F (C.C.)
6 2 **Flammable Limits in Air:** Data not available
6 3 **Fire Extinguishing Agents:** Water fog, foam, dry chemical, carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** May form phosgene or hydrogen chloride in fires
6 6 **Behavior in Fire:** Not pertinent
6 7 **Ignition Temperature:** 696°F
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate:** 2.4 mm./min.

NOTES

DCM — DICHLOROMETHANE

Common Synonyms
Methylene chloride
Methylene dichloride

Watery liquid | Colorless | Sweet pleasant odor

Sinks in water. Irritating vapor is produced

Fire

Not flammable
POISONOUS GASES ARE PRODUCED WHEN HEATED

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled, will cause nausea and dizziness

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook (CG 446-4)

Disperse and flush

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms**
Methylene chloride
Methylene dichloride

3 2 **Coast Guard Compatibility Classification:** Halogenated hydrocarbon

3 3 **Chemical Formula:** CH_2Cl_2

3 4 **IMCO United Nations Numerical Designation:** 9 0 1593

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Pleasant aromatic, like chloroform, sweet, ethereal

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Organic vapor canister mask, safety glasses, protective clothing

5 2 **Symptoms Following Exposure** INHALATION: anesthetic effect, nausea and drunkenness. CONTACT WITH SKIN AND EYES: skin irritation, irritation of eyes and nose

5 3 **Treatment for Exposure.** INHALATION: remove to fresh air, oxygen if needed. INGESTION: induce vomiting. CONTACT WITH SKIN AND EYES: wash skin with soap and water, flush eyes with water

5 4 **Toxicity by Inhalation (Threshold Limit Value).** 500 ppm

5 5 **Short-Term Inhalation Limits** 1000 ppm for 30 min

5 6 **Toxicity by Ingestion** Grade 2; LD_{50} 0.5 to 5 g/kg

5 7 **Late Toxicity:** None

5 8 **Vapor (Gas) Irritant Characteristics:** Vapor causes mask to irritate nose, but person will find high concentrations unpleasant. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics.** Minimum hazard. If prolonged contact is allowed, it may cause smarting and reddening of the skin.

5 10 **Odor Threshold** 95 307 ppm

6 FIRE HAZARDS

NOTES

REVISED 1978

DCP	2,4-DICHLOROPHENOL

Common Synonyms	Solid crystals — Colorless — Medicinal odor Sinks in water
	Avoid contact with solid and dust. Keep people away. Wear goggles, self-contained breathing apparatus and rubber protective clothing including gloves. Fire department Isolate and remove discharged material. Notify local health and pollution control agencies.
Fire	Combustible **POISONOUS GASES ARE PRODUCED IN FIRE** Wear goggles, self-contained breathing apparatus and rubber protective clothing including gloves. Extinguish with dry chemical, carbon dioxide, water spray or foam. Cool exposed containers with water.
Exposure	CALL FOR MEDICAL AID **SOLID OR DUST** **Will burn skin and eyes** **Poisonous if swallowed** Remove contaminated clothing. Flush affected area with plenty of water. IF IN EYES: Hold eyelids open, flush with plenty of water. IF SWALLOWED: Induce vomiting. DO NOT induce vomiting if victim is unconscious or convulsing. Give large quantities of water or milk.
Water Pollution	Effect of low concentrations on aquatic life is unknown. May be dangerous if it enters water intakes. Notify local health and wildlife officials. Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Issue warning. Warn boaters to maintain
Should be removed
Chemical and physical treatment

NOTES

REVISED 1978

DCA — 2,4-DICHLOROPHENOXYACETIC ACID

Common Synonyms
2,4-D

Solid | White to tan | Odorless

Sinks in water

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE

Exposure

CALL FOR MEDICAL AID
SOLID
POISONOUS IF SWALLOWED

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning; person-in-water
Contain spill
Restrict access
Should be removed
Chemical and physical treatment

2. LABELS

No hazard data required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** 2,4-D
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** $C_8H_6Cl_2O_3$
3 4 **IMCO/United Nations Numerical Designation:** 6,1, 2609

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Solid
4 2 **Color:** White to tan
4 3 **Odor:** None

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Protective dust mask, rubber gloves, chemical goggles
5 2 **Symptoms Following Exposure:** Dust may irritate eyes. Ingestion causes gastroenteric distress, diarrhea, mild central nervous system depression, dysphagia, and possible transient liver and kidney injury
5 3 **Treatment for Exposure:** EYES: flush with water for at least 15 min. SKIN: wash well with soap and water. INGESTION: induce vomiting and follow with gastric lavage and supportive therapy
5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 3, oral rat LD_{50} = 375 mg/kg, rat; 50 mg/kg (human)
5 7 **Late Toxicity:** Causes birth defects in some laboratory animals
5 8 **Vapor (Gas) Irritant Characteristics:** Not pertinent
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6 1 **Flash Point.** Not pertinent (combustible solid)
6 2 **Flammable Limits in Air:** Not pertinent
6 3 **Fire Extinguishing Agents:** Water, foam
6 4 **Fire Extinguishing Agents Not to be Used:** Not pertinent
6 5 **Special Hazards of Combustion Products:** Toxic and irritating hydrogen chloride or phosgene gases may form
6 6 **Behavior in Fire:** Not pertinent
6 7 **Ignition Temperature:** Not pertinent
6 8 **Electrical Hazard:** Data not available
6 9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction
7 2 **Reactivity with Common Materials:** No reaction
7 3 **Stability During Transport:** Stable
7 4 **Neutralizing Agents for Acids and Caustics:** Flush with water, rinse with sodium bicarbonate or lime solution
7 5 **Polymerization:** Not pertinent
7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Upper 48 hr killifish/50% kill salt water 375 mg/l, 48 hr bluegill TL_m fresh water
8 2 **Waterfowl Toxicity:** LD_{50} = ~2000 mg/kg
8 3 **Biological Oxygen Demand (BOD):** Data not available
8 4 **Food Chain Concentration Potential:** No buildup in food chain

13 8 **Liquid Surface Tension:** Not pertinent
13 9 **Liquid-Water Interfacial Tension:** Not pertinent
13 10 **Vapor (Gas) Specific Gravity:** Not pertinent
13 11 **Ratio of Specific Heats of Vapor (Gas):** Not pertinent
13 12 **Latent Heat of Vaporization:** Not pertinent
13 13 **Heat of Combustion:** (est.) = -7,700 Btu/lb = -4,300 cal/g = -180 × 10³ J/kg
13 14 **Heat of Decomposition:** Not pertinent
13 15 **Heat of Solution:** Not pertinent
13 16 **Heat of Polymerization:** Not pertinent

Continued on page 5 and 6

NOTES

DPP DICHLOROPROPANE

Common Synonyms
Propylene dichloride
1,2-dichloropropane

Watery liquid | Colorless | Sweet odor

Sinks in water. Flammable. Irritating vapor is produced.

Fire

FLAMMABLE.
POISONOUS GASES ARE PRODUCED IN FIRE.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.

LIQUID
Irritating to skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4.

Issue warning: highly flammable.
Evacuate area.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
1,2-Dichloropropane
Propylene dichloride

3.2 **Coast Guard Compatibility Classification:**
Halogenated hydrocarbon

3.3 **Chemical Formula:** $CH_3CHClCH_2Cl$

3.4 **IMCO United Nations Numerical Designation:** 3.2/1279

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Sweet

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air supplied or canister-type rubber gloves, chemical goggles, protective outer boots and rubber outerwear.

5.2 **Symptoms Following Exposure:** Contact with liquid causes skin irritation.

5.3 **Treatment for Exposure:** INHALATION: remove to fresh air. CONTACT WITH SKIN OR EYES: wash with plenty of soap and water. If in eyes, wash with water continuously for 15 minutes. Get medical attention.

5.4 **Toxicity by Inhalation, Threshold Limit Value:** 75 ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2. LD_{50} 0.5-5 g/kg (guinea pig)

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** A pungent vapor that may cause severe eye irritation, severe respiratory system irritation at high concentrations. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Mild irritant to skin. Repeated or prolonged contact with liquid may cause skin damage and reddening of the skin.

5.10 **Odor Threshold:** Data not available.

6 FIRE HAZARDS

6.1 **Flash Point:** 60°F (CC), 70°F (OC)

6.2 **Flammable Limits in Air:**
3.4 - 14.5%

6.3 **Fire Extinguishing Agents:**
Foam, carbon dioxide, dry chemical

6.4 **Fire Extinguishing Agents Not to be Used:**
Not pertinent

6.5 **Special Hazards of Combustion Products:**
Toxic and irritating gases may be generated.

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 1035°F

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Test 3.2 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:**
No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:**
Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
140 ppm/crustacea/TL_m/salt water

8.2 **Waterfowl Toxicity:**
Data not available

8.3 **Biological Oxygen Demand (BOD):**
Data not available

8.4 **Food Chain Concentration Potential:**
None

NOTES

REVISED 1978

DPR DICHLOROPROPENE

Common Synonyms
1,3-dichloropropene
Telone

Liquid | Colorless | Sweet odor

Sinks in water. Flammable, irritating vapor is produced.

Fire

FLAMMABLE
POISONOUS GASES ARE PRODUCED IN FIRE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes, nose and throat

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Dispersed Flash

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.**
1,3-Dichloropropene
Telone

3.2 **Coast Guard Compatibility Classification**
Substituted allyl

3.3 **Chemical Formula:**
$C_3H_4Cl_2$

3.4 **IMCO United Nations Numerical Designation.** 1.2.208

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid

4.2 **Color:** Colorless

4.3 **Odor.** Sweet, chloroform-like

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment.** Avoid contact with liquid and vapor. In poorly ventilated areas, wear approved self-contained breathing apparatus. Rubber boots, gloves, and goggles should be worn.

5.2 **Symptoms Following Exposure:** Irritating to eyes, nose, and throat. Prolonged exposure to liquid may cause skin burns.

5.3 **Treatment for Exposure.** INHALATION: Remove patient to fresh air. Keep patient warm and at rest. Call physician immediately. Treat symptomatically. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. INGESTION: Call physician immediately. Induce vomiting by means of syrup of ipecac followed by drinking large quantities of water. Never give anything by mouth to an unconscious person. Do not induce vomiting. CONTACT WITH SKIN OR EYES: Flush skin or eyes with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Wash clothing before reuse. Thoroughly clean shoes before reuse.

5.4 **Toxicity by Inhalation (Threshold Limit Value).** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion.** Grade 3. LD_{50} = 140 mg/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor causes severe irritation to eyes, nose, and throat. Prolonged exposure may cause pulmonary edema. Decontaminate personnel.

5.9 **Liquid or Solid Irritant Characteristics.** Can cause severe burns on contact. Prolonged or repeated exposure to skin may cause dermatitis. Wash exposed skin with soap and water.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 95 F C.C.

NOTES

REVISED 1978

DTM — 4,4'-DICHLORO-alpha-TRICHLOROMETHYLBENZHYDROL

Common Synonyms
Dicofol
Kelthane
Kelthane
1,1-bis(p-chlorophenyl)
2,2,2-trichloroethanol

Solid (powder or liquid (solution))

Solid is white to grey liquid is brown

Solid is odorless liquid has odor of solvent

May float or sink in water

Fire

LIQUID SOLVENT MAY BE FLAMMABLE
SOLID IS COMBUSTIBLE
Irritating gases may be produced when heated
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

DUST
Irritating to eyes nose and throat
If inhaled will cause headache or dizziness

LIQUID OR SOLID
Irritating to skin and eyes
If swallowed will cause headache nausea or dizziness

Water Pollution

Dangerous to aquatic life in high concentrations
Fouling to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Isolate warning water contaminated
Stop flow if it is safe to do so
Mechanical containment (liquid only)
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1,1-Bis(p-chlorophenyl)-2,2,2-trichloroethanol; Dicofol; p,p'-dichlorobenzilic trichloromethylcarbinol; Dicofol; Kelthane; Kelthane; Kelthanethanol

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** $ClC_6H_4C(OH)CCl_3$

3.4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Powder semi-solid or liquid

4.2 **Color:** White to gray solid red to black semi-solid brown liquid

4.3 **Odor:** Solids have slight characteristic odor liquid has odor of the solvent xylene

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Self-contained breathing apparatus if exposed to vapor rubber gloves splash goggles

5.2 **Symptoms Following Exposure:** Inhalation or ingestion causes nausea headache weakness convulsions possible kidney and liver damage Contact with eyes causes irritation

5.3 **Treatment for Exposure:** INHALATION move to fresh air apply artificial respiration and oxygen if indicated EYES wash for 15 min with water call a physician SKIN wash well with soap and water

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2 oral LD_{50} = 575 mg/kg rats 1,810 mg/kg oral rats

5.7 **Late Toxicity:** Suppresses immune reactions in rats

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Data not available

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 78.1°C (xylene)

6.2 **Flammable Limits in Air:** [illegible] (for xylene solutions)

6.3 **Fire Extinguishing Agents:** Foam dry chemical carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:** Irritating hydrogen chloride fumes may form in fire

6.6 **Behavior in Fire:** Xylene solvent vapors may travel to source of ignition and flash back

6.7 **Ignition Temperature:** 464°C (for xylene solutions)

6.8 **Electrical Hazard:** Class I Group D

6.9 **Burning Rate:** [illegible]

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** Contact with steel at elevated temperature causes formation of toxic chlorine and hydrogen chloride gases Liquid may attack some forms of plastics

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

Not listed

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid

13.2 **Molecular Weight:** 132

13.3 **Boiling Point at 1 atm:**
347°F = 175°C = 448°K

13.4 **Freezing Point:** 41°F = 5°C = 278°K

13.5 **Critical Temperature:** Not available

13.6 **Critical Pressure:** Not available

13.7 **Specific Gravity:** 0.979 at 20°C (liquid)

13.8 **Liquid Surface Tension:**
Data not available

13.9 **Liquid-Water Interfacial Tension:**
Data not available

13.10 **Vapor (Gas) Specific Gravity:**
Not pertinent

13.11 **Ratio of Specific Heats of Vapor (Gas):**
Not pertinent

13.12 **Latent Heat of Vaporization:**
Not pertinent

13.13 **Heat of Combustion:** 18,430 BTU/lb = 10,400 cal/g = 435 × 10^3 J/kg

13.14 **Heat of Decomposition:** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization:** Not pertinent

NOTES

REVISED 1978

DED DIELDRIN

Common Synonyms HEOD endo,exo-1,2,3,4,10,10-Hexachloro-6,7-epoxy-1,4,4a,5,6,7,8,8a-octahydro-1,4,5,8-dimethanonaphthalene	Solid	Light brown Mild chemical odor Sinks in water

Fire

Not flammable
POISONOUS GASES MAY BE PRODUCED WHEN HEATED

Exposure

DUST
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
If inhaled will cause headache, dizziness, or loss of consciousness

SOLID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
If swallowed will cause headache, nausea, dizziness, vomiting, or loss of consciousness

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Issue warning - water contaminant
Restrict access
Should be removed
Chemical and physical treatment

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** HEOD endo,exo-1,2,3,4,10,10-Hexachloro-6,7-epoxy-1,4,4a,5,6,7,8,8a-octahydro-1,4,5,8-dimethanonaphthalene

3.2 **Coast Guard Compatibility Classification:** Not listed

3.3 **Chemical Formula:** $C_{12}H_8Cl_6O$

3.4 **IMCO/United Nations Numerical Designation:** Not assigned

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Solid

4.2 **Color:** Buff to light brown

4.3 **Odor:** Mild chemical

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** U.S. Bu. M. approved respirator, clean rubber gloves, goggles, face shield

5.2 **Symptoms Following Exposure:** Inhalation, ingestion, or skin contact causes irritation to membranes and severe nausea, vomiting, headache, staggering, tremors. Contact with eyes causes severe pain.

5.3 **Treatment for Exposure:** INHALATION: move victim to fresh air, give oxygen and artificial respiration as required. INGESTION: induce vomiting and get medical attention. EYES: flush with plenty of water, get medical attention. SKIN: flush with plenty of water

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 0.25 mg/m³

5.5 **Short-Term Inhalation Limits:** [illegible]

5.6 **Toxicity by Ingestion:** Grade 4; oral LD_{50} - 46 mg/kg (rats); 38 mg/kg (mice)

5.7 **Late Toxicity:** Banned by EPA in October 1974 because of suspected carcinogenic hazard to human health as a potential cancer agent in man

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and left to remain, may cause smarting and reddening of the skin

5.10 **Odor Threshold:** [illegible] ppm

6. FIRE HAZARDS

6.1 **Flash Point:** Not flammable

6.2 **Flammable Limits in Air:** Not flammable

6.3 **Fire Extinguishing Agents:** Not pertinent

6.4 **Fire Extinguishing Agents Not to be Used:**

6.5 **Special Hazards of Combustion Products:** Toxic and irritating hydrogen chloride fumes may form in fire

6.6 **Behavior in Fire:**

6.7 **Ignition Temperature:** Not pertinent

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:**

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 0.025 mg/l (48 hr) threshold (fish) in fresh water; 0.1 ppm (48 hr) threshold (fish) in salt water; 0.020 ppm (96 hr) threshold (shrimp) in salt water; 0.025 - 0.90 ppm (48 hr) LC50 (shrimp) in salt water

8.2 **Waterfowl Toxicity:** [illegible]

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** High

9. SELECTED MANUFACTURERS

Shell Chemical Co.
Agricultural Div.
2401 Crow Canyon Rd.
San Ramon, Calif. 94583

10 SHIPPING INFORMATION

10.1 **Grades of Purity:** Technical 85%; HEOD 18% emulsifiable concentrate in petroleum hydrocarbons which are combustible

10.2 **Storage Temperature:** Ambient

10.3 **Inert Atmosphere:** No requirement

10.4 **Venting:** Open flame arrester (for liquid forms)

NOTES

DEA — DIETHANOLAMINE

Common Synonyms	Only liquid or solid crystals	Liquid is colorless Solid is white	Slight dead fish or ammonia odor
2,2'-Iminodiethanol Bis (2-hydroxyethyl) amine	Sinks and mixes with water		

Fire	**Combustible**
Exposure	**LIQUID** Irritating to skin and eyes
Water Pollution	Dangerous to aquatic life in high concentrations May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-6

Disperse and flush

2 LABELS

No hazard label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms** Bis(2-hydroxyethyl) amine; DEA; 2,2'-Dihydroxydiethylamine; Diethanolamine; 2,2'-Iminodiethanol

3 2 **Coast Guard Compatibility Classification** Miscellaneous

3 3 **Chemical Formula** $(HOCH_2CH_2)_2NH$

3 4 **IMCO, United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Mild ammoniacal. Unobjectionable characteristic

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Full face mask ammonia-vapor mask only if required. Clean body-cover clothing; chemical goggles

5 2 **Symptoms Following Exposure** Irritation of eyes and skin. Breathing vapors may cause coughing, smothering sensation, nausea, headache

5 3 **Treatment for Exposure** INHALATION: no problem likely. Get medical attention if effects develop. INGESTION: induce vomiting if large amounts are swallowed; medical attention. Treat symptomatically. Not known to be toxic. EYES: flush with plenty of water for at least 15 min and get medical attention promptly. SKIN: flush with plenty of water. Wash contaminated clothing before reuse

5 4 **Toxicity by Inhalation (Threshold Limit Value)** Not pertinent

5 5 **Short-Term Inhalation Limits** Not pertinent

5 6 **Toxicity by Ingestion:** Grade 2. LD$_{50}$ 0.5 to 5 g/kg (rat)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics** Vapor causes moderate irritation such that personnel will avoid high concentrations unpleasant. The effect is temporary

5 9 **Liquid or Solid Irritant Characteristics** Causes smarting of the skin and first degree burns on short exposure and may cause second degree burns on long exposure

5 10 **Odor Threshold** Data not available

6. FIRE HAZARDS

6 1 **Flash Point.** 405 F OC

6 2 **Flammable Limits in Air** Data not available

6 3 **Fire Extinguishing Agents** Water, alcohol foam, carbon dioxide, dry chemical

6 4 **Fire Extinguishing Agents Not to be Used** Addition of water may cause frothing

6 5 **Special Hazards of Combustion Products** Irritating vapors are generated when heated

6 6 **Behavior in Fire** Not pertinent

6 7 **Ignition Temperature** 662 F

6 8 **Electrical Hazard:** Not pertinent

6 9 **Burning Rate** 0.74 mm/min

7 CHEMICAL REACTIVITY

7 1 **Reactivity with Water** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport:** Stable

7 4 **Neutralizing Agents for Acids and Caustics** Flush with water

7 5 **Polymerization** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity.** 2100 ppm/24 hr/sunfish/bluegill/TL$_m$/fresh water

8 2 **Waterfowl Toxicity** Data not available

8 3 **Biological Oxygen Demand (BOD)** 10 theo/5 days

8 4 **Food Chain Concentration Potential** None

NOTES

REVISED 1978

DEN	# DIETHYLAMINE

Common Synonyms			
DEN	Watery liquid	Colorless	Fishy, ammonia odor
	Floats and mixes with water	Flammable, irritating vapor is produced	

[illegible]

Fire

FLAMMABLE
Flashback along vapor trail may occur
Irritating vapors are produced when heated
Vapor may explode if ignited in an enclosed area
[illegible]

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes nose and throat
Harmful if inhaled
[illegible]

LIQUID
Will burn eyes
Harmful if swallowed
[illegible]

Water Pollution

Harmful to aquatic life in very low concentrations
May be dangerous if it enters water intakes
[illegible]

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4)

Issue warning high flammability

NOTES

REVISED 1978

DEC

DIETHYL CARBONATE

Common Synonyms
Ethyl carbonate
Carbonic acid diethyl ester

Watery liquid | Colorless | Pleasant odor

Floats on water. Flammable irritating vapor is produced

Fire

FLAMMABLE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPORS
Irritating to eyes, nose and throat
If inhaled will cause headache, dizziness, nausea, or loss of consciousness

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4

Disperse and flush

NOTES

REVISED 1978

DEG — DIETHYLENE GLYCOL

Common Synonyms
DEG
2,2'-Oxybisethanol
Diglycol
2,2'-Dihydroxydiethyl ether

Oily liquid | Colorless | Odorless

Sinks and mixes with water

Fire

Combustible

Exposure

Not harmful

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-6

Dissolve and flush

2 LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Bis(2-hydroxyethyl) ether
Diglycol
β,β'-Dihydroxydiethyl ether
2-(2-Hydroxyethoxy)-ethanol
2,2'-oxybisethanol

3.2 **Coast Guard Compatibility Classification**
Glycol

3.3 **Chemical Formula**
$(HOCH_2CH_2)_2O$

3.4 **IMCO United Nations Numerical Designation** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Practically odorless

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Full face mask with canister for short exposure to high vapor levels; rubber gloves; goggles

5.2 **Symptoms Following Exposure:** Ingestion of large amount may cause degeneration of kidneys and liver and may cause death. Liquid may cause slight skin irritation.

5.3 **Treatment for Exposure** INHALATION: no problem likely. If any ill effects develop, get medical attention. INGESTION: induce vomiting if ingested. No known antidote; treat symptoms. In EYE AND SKIN flush with water. If ill effects occur, get medical attention.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 100 ppm (recommended)

5.5 **Short-Term Inhalation Limits:** Not pertinent

5.6 **Toxicity by Ingestion:** Grade 0 [Ibid., p. 1]

5.7 **Late Toxicity:** Kidney and liver damage

5.8 **Vapor (Gas) Irritant Characteristics:** None

5.9 **Liquid or Solid Irritant Characteristics:** None

5.10 **Odor Threshold:** Not pertinent

6 FIRE HAZARDS

6.1 **Flash Point** 255°F C.C.

6.2 **Flammable Limits in Air.**
1.6 - 10%

6.3 **Fire Extinguishing Agents** Alcohol foam, carbon dioxide, dry chemical

6.4 **Fire Extinguishing Agents Not to be Used** Water or foam may cause frothing

6.5 **Special Hazards of Combustion Products** Not pertinent

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature** 444°F

6.8 **Electrical Hazard** Not pertinent

6.9 **Burning Rate** 1.5 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials.** No reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization** Not pertinent

7.6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity**
> 42,000 ppm/96 hr/mosquitofish/TL$_m$/fresh water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)** 0.6 lb/lb, 5 days

8.4 **Food Chain Concentration Potential** None

REVISED 1978

DME — DIETHYLENEGLYCOL MONOBUTYL ETHER

Common Synonyms

242 Butoxyethoxyethanol
Butoxydiethylene glycol
Butyl "Carbitol"
Dowanol DB
Poly-Sols DB

Liquid | Colorless | Mild pleasant odor

Mixes with water

Fire

Combustible

Exposure

LIQUID
Irritating to skin and eyes

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Disperse and flush

2. LABELS

No label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Butoxydiethylene glycol, Butoxydiglycol, Diglycol monobutyl ether, Butyl "Carbitol", Dowanol DB, Poly-Sols DB

3 2 **Coast Guard Compatibility Classification:** Glycol ether

3 3 **Chemical Formula:** $C_4H_9OCH_2CH_2OCH_2CH_2OH$

3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Mild characteristic pleasant

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Safety goggles or face shield

5 2 **Symptoms Following Exposure:** Inhalation for brief periods has no significant effect. Contact with liquid causes moderate irritation of eyes and corneal injury. Prolonged contact with skin causes only minor irritation.

5 3 **Treatment for Exposure:** INHALATION: remove to fresh air; if ill effects are observed, call a doctor. EYES: immediately flush with plenty of water for at least 15 min. SKIN: wash well with soap and water. INGESTION: give large amounts of water.

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits.** Data not available

5 6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 2 g/kg (guinea pig)

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Vapors cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics:** No appreciable hazard. Practically harmless to the skin.

5 10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6 1 **Flash Point:** 240 F (OC) 272 F (CC)

NOTES

REVISED 1978

DGM — DIETHYLENE GLYCOL MONOMETHYL ETHER

Common Synonyms
Poly-Solv DM
Dowanol DM
2-(2-methoxyethoxy)-ethanol
Methyl Carbitol

Liquid | Colorless | Pleasant odor

Floats and mixes with water

Fire

Combustible

Exposure

LIQUID
Irritating to eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-4

Dispersal and Flush

2. LABELS

3 CHEMICAL DESIGNATIONS

3.1 Synonyms: Diethylene Glycol Monomethyl Ether
Dowanol DM
2-(2-Methoxyethoxy)-ethanol
Methyl Carbitol
Poly-Solv DM

3.2 Coast Guard Compatibility Classification: Group One

3.3 Chemical Formula: $C_5H_{12}O_3$ or $CH_3O(CH_2)_2O(CH_2)_2OH$

3.4 IMCO United Nations Numerical Designation: Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped): Liquid

4.2 Color: Colorless

4.3 Odor: Mild ether-like characteristic

5 HEALTH HAZARDS

5.1 Personal Protective Equipment: Not specified

5.2 Symptoms Following Exposure: Liquid irritating to eyes

5.3 Treatment for Exposure: SKIN OR EYES: Flush with water

5.4 Toxicity by Inhalation (Threshold Limit Value): Not established

5.5 Short-Term Inhalation Limits: Not established

5.6 Toxicity by Ingestion: Oral LD50 (rat) 5.5 g/kg

5.7 Late Toxicity: Data not available

5.8 Vapor (Gas) Irritant Characteristics: None

5.9 Liquid or Solid Irritant Characteristics: Mild

5.10 Odor Threshold: Data not available

6 FIRE HAZARDS

6.1 Flash Point: 201°F CC

6.2 Flammable Limits in Air: LEL – 1.8%

6.3 Fire Extinguishing Agents: Water, carbon dioxide, dry chemical

6.4 Fire Extinguishing Agents Not to be Used: Not pertinent

6.5 Special Hazards of Combustion Products: Not pertinent

6.6 Behavior in Fire: Not pertinent

6.7 Ignition Temperature: Data not available

6.8 Electrical Hazard: Not pertinent

6.9 Burning Rate: Data not available

7. CHEMICAL REACTIVITY

7.1 Reactivity with Water: No reaction

7.2 Reactivity with Common Materials: No reaction

7.3 Stability During Transport: Stable

7.4 Neutralizing Agents for Acids and Caustics: Not pertinent

7.5 Polymerization: Not pertinent

7.6 Inhibitor of Polymerization: Not pertinent

8 WATER POLLUTION

8.1 Aquatic Toxicity: Data not available

8.2 Waterfowl Toxicity: Data not available

8.3 Biological Oxygen Demand (BOD): 34% of theoretical in 5 days

8.4 Food Chain Concentration Potential: None

NOTES

REVISED 1978

DET — DIETHYLENETRIAMINE

Common Synonyms
2,2' Diaminodiethylamine
Bis (2-aminoethyl) amine

Liquid | Colorless to yellow | Ammonia odor

Floats and mixes with water

Fire

Combustible

Exposure

LIQUID
Will burn skin and eyes.
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intake

1 RESPONSE TO DISCHARGE

Dispersal and flush

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:**
Bis 2 aminoethylamine
2,2' Diaminodiethylamine

3.2 **Coast Guard Compatibility Classification.**
Amine

3.3 **Chemical Formula.**
$NH_2CH_2CH_2NHCH_2CH_2NH_2$

3.4 **IMCO United Nations Numerical Designation:** Not assigned

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless to light amber yellow

4.3 **Odor:** Strong ammoniacal to slightly ammoniacal

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Amine respirators, safety goggles, rubber gloves, splash proof garments

5.2 **Symptoms Following Exposure:** Prolonged breathing of vapor may cause asthma. Liquid harmful to skin and eyes. Vapor irritating

5.3 **Treatment for Exposure:** INHALATION: remove victim to fresh air. INGESTION: Do NOT induce vomiting; give large quantities of water; give activated charcoal in suspension if available; call a physician immediately. SKIN CONTACT: flush with plenty of water. EYE CONTACT: flush with plenty of water for at least 15 minutes and get medical attention

5.4 **Toxicity by Inhalation (Threshold Limit Value):** ppm

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Grade 2 LD50 500 mg/kg rats

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary

5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin and first degree burns on short exposure and may cause secondary burns during exposure

5.10 **Odor Threshold:** 10 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** 200°F (OC)

6.2 **Flammable Limits in Air:** [illegible]

6.3 **Fire Extinguishing Agents:** Water spray, alcohol foam, carbon dioxide, dry chemical

6.4 **Fire Extinguishing Agents Not to be Used:** Water stream may cause frothing

6.5 **Special Hazards of Combustion Products.** Irritating vapors are generated when heated

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** [illegible]

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Data not available

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials.** No hazards in reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Flush with water

7.5 **Polymerization.** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 710 ppm/24 hr/brine shrimp/TL_m

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD)** Data not available

8.4 **Food Chain Concentration Potential** 23% of theoretical in 5 days/freshwater acclimated seed

9 SELECTED MANUFACTURERS

NOTES

REVISED 1978

DEP — DI-(2-ETHYLHEXYL) PHOSPHORIC ACID

Common Synonyms
2-Ethyl-1-hexanol hydrogen phosphate
Bis(2-ethylhexyl) hydrogen phosphate
Di(2-ethylhexyl) phosphate
Di-(2-ethylhexyl) acid phosphate

Liquid | Light yellow | Odorless

Floats on water

Fire

Combustible

Exposure

LIQUID
Irritating to skin and eyes
Harmful if swallowed

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-4

Issue warning - corrosive water contaminant
Restrict access
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Bis-(2-ethylhexyl) hydrogen phosphate; D-(2-ethylhexyl) phosphate; D-(2-ethylhexyl) acid phosphate; DEHPA

3.2 **Coast Guard Compatibility Classification:** Not applicable

3.3 **Chemical Formula:** $[CH_3(CH_2)_3CH(C_2H_5)CH_2O]_2POOH$

3.4 **IMCO/United Nations Numerical Designation.** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Amber

4.3 **Odor:** None

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Goggles or face shield; rubber gloves; protective clothing

5.2 **Symptoms Following Exposure:** Contact with liquid or concentrated mist may cause severe skin burns; consult an eye specialist. Mist causes skin irritation or burns. Ingestion produces irritation or burns followed by strong thirst.

5.3 **Treatment for Exposure:** EYES: immediately flush with plenty of water for at least 15 min; get medical attention. SKIN: immediately flush with plenty of water for at least 15 min. INGESTION: induce vomiting and call physician.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion:** Grade 2 LD50 (oral) 2 g/kg

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating to the eyes and throat.

5.9 **Liquid or Solid Irritant Characteristics:** Causes severe burning. Moderate pain and first degree burns in short exposure and may cause second degree burns on prolonged exposure.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 385 F (OC)

6.2 **Flammable Limits in Air:** Not pertinent

6.3 **Fire Extinguishing Agents:** Dry chemical, alcohol foam, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water or foam may cause frothing

6.5 **Special Hazards of Combustion Products:** Irritating phosphorus oxides may be released

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** Data not available

6.8 **Electrical Hazard:** Not pertinent

6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** Mildly corrosive to most metals; may form flammable hydrogen gas

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Sodium bicarbonate or lime solution

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

NOTES

DPH — DIETHYL PHTHALATE

Common Synonyms:
Phthalic acid diethyl ester
Ethyl phthalate
1,2-Benzenedicarboxylic acid diethyl ester

Liquid | White | Mild chemical odor

Sinks in water
Freezing point is 2°F

Fire

Combustible
Irritating fumes may be produced when heated

Exposure

LIQUID
Not harmful

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by DOT
Federal Regulations

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** 1,2-Benzenedicarboxylic acid diethyl ester; Ethyl phthalate; Phthalic acid diethyl ester
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula:** $C_{12}H_{14}O_4$
3.4 **IMCO/United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Slight characteristic ester odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Rubber gloves, goggles or faceshield
5.2 **Symptoms Following Exposure:** Not expected to be a health hazard
5.3 **Treatment for Exposure:** INHALATION: remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. EYES: flush with water. SKIN: wash with soap and water.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion:** Grade 1; Rat LD50: 8600 mg/kg
5.7 **Late Toxicity:** Prolonged inhalation of high concentrations may cause irritation of upper respiratory tract and damage
5.8 **Vapor (Gas) Irritant Characteristics:** Unknown
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 320°F C.O.C.
6.2 **Flammable Limits in Air:** 1.1 to 9.5% by volume
6.3 **Fire Extinguishing Agents:** Dry chemical, foam, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water or foam may cause frothing
6.5 **Special Hazards of Combustion Products:** Irritating vapors of unburned chemical may form on fire
6.6 **Behavior in Fire:**
6.7 **Ignition Temperature:** 850°F
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** May attack some forms of plastics
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 1.2 ppm 96-min goldfish killed fresh water
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available

(continued on next sheet)

NOTES

DEZ — DIETHYLZINC

Common Synonyms

Zinc diethyl
Ethylzinc
Zinc ethyl

Watery liquid Colorless

IGNITES WHEN EXPOSED TO AIR. Flammable irritating vapor is produced.

Fire

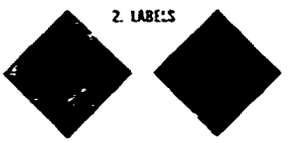
IGNITES WHEN EXPOSED TO AIR

Exposure

VAPOR OR DUST
Irritating to eyes, nose and throat.
If inhaled will cause headache or difficult breathing.

LIQUID
Will burn skin and eyes.
If swallowed will cause nausea and vomiting.

Water Pollution



Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4.

Initial Isolation: 100 feet (30 meters)
Restrict Access
Evacuate Area

2. LABELS

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Zinc diethyl; Ethylzinc; Zinc ethyl
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** $(C_2H_5)_2Zn$
3.4 **IMCO/United Nations Numerical Designation:** 4.06

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Not pertinent

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Cartridge type or fresh air mask for fumes or vapor. PVC fire retardant or asbestos gloves, full face shield, safety glasses or goggles, fire retardant coveralls as standard wear for special cases use asbestos suit or fire suit.

5.2 **Symptoms Following Exposure:** Inhalation: Irritation of the gastrointestinal tract, irritation of the eyes, nose and throat, coughing, difficult breathing, headache, nausea, vomiting, abdominal pain, diarrhea, weakness, dizziness, and loss of consciousness. Prolonged inhalation of high concentrations may cause death. Skin: Causes severe burns. Eyes: Causes severe burns. Ingestion: Causes severe burns of the mouth, throat, and gastrointestinal tract. Fire: Flammable. Explosion: Flammable vapor may form explosive mixtures with air. Explosion hazard indoors, outdoors or in sewers. Reactivity: Reacts violently with water, producing flammable ethane gas. Reacts violently with air, producing heat and flammable ethane gas. Reacts violently with oxidizers, halogens, and many other materials. Contact with moist air may cause ignition. Contact with water may cause ignition. Contact with acids may cause ignition. Contact with alcohols may cause ignition. Contact with halogens may cause ignition. Contact with oxidizers may cause ignition. Contact with many other materials may cause ignition. Contact with water may cause ignition. Contact with air may cause ignition. Contact with moisture may cause ignition. Contact with heat may cause ignition. Contact with sparks may cause ignition. Contact with flames may cause ignition. Contact with hot surfaces may cause ignition. Contact with friction may cause ignition. Contact with impact may cause ignition. Contact with static electricity may cause ignition. Contact with electrical equipment may cause ignition. Contact with lightning may cause ignition. Contact with radiation may cause ignition. Contact with ultraviolet light may cause ignition. Contact with infrared light may cause ignition. Contact with visible light may cause ignition. Contact with X-rays may cause ignition. Contact with gamma rays may cause ignition. Contact with neutrons may cause ignition. Contact with alpha particles may cause ignition. Contact with beta particles may cause ignition. Contact with cosmic rays may cause ignition. Contact with natural radioactivity may cause ignition. Contact with artificial radioactivity may cause ignition. Contact with nuclear radiation may cause ignition. Contact with ionizing radiation may cause ignition. Contact with non-ionizing radiation may cause ignition. Contact with electromagnetic radiation may cause ignition. Contact with thermal radiation may cause ignition. Contact with heat radiation may cause ignition. Contact with light radiation may cause ignition. Contact with sound radiation may cause ignition. Contact with mechanical radiation may cause ignition. Contact with kinetic radiation may cause ignition. Contact with potential radiation may cause ignition. Contact with chemical radiation may cause ignition. Contact with biological radiation may cause ignition. Contact with genetic radiation may cause ignition. Contact with psychological radiation may cause ignition. Contact with social radiation may cause ignition. Contact with economic radiation may cause ignition. Contact with political radiation may cause ignition. Contact with legal radiation may cause ignition. Contact with ethical radiation may cause ignition. Contact with moral radiation may cause ignition. Contact with religious radiation may cause ignition. Contact with philosophical radiation may cause ignition. Contact with aesthetic radiation may cause ignition. Contact with artistic radiation may cause ignition. Contact with literary radiation may cause ignition. Contact with musical radiation may cause ignition. Contact with theatrical radiation may cause ignition. Contact with cinematic radiation may cause ignition. Contact with photographic radiation may cause ignition. Contact with digital radiation may cause ignition. Contact with analog radiation may cause ignition. Contact with electronic radiation may cause ignition. Contact with optical radiation may cause ignition. Contact with magnetic radiation may cause ignition. Contact with gravitational radiation may cause ignition. Contact with quantum radiation may cause ignition. Contact with relativistic radiation may cause ignition. Contact with cosmological radiation may cause ignition. Contact with astrophysical radiation may cause ignition. Contact with geophysical radiation may cause ignition. Contact with meteorological radiation may cause ignition. Contact with climatological radiation may cause ignition. Contact with oceanographic radiation may cause ignition. Contact with hydrological radiation may cause ignition. Contact with glaciological radiation may cause ignition. Contact with volcanological radiation may cause ignition. Contact with seismological radiation may cause ignition. Contact with tectonic radiation may cause ignition. Contact with geological radiation may cause ignition. Contact with paleontological radiation may cause ignition. Contact with archaeological radiation may cause ignition. Contact with anthropological radiation may cause ignition. Contact with sociological radiation may cause ignition. Contact with psychological radiation may cause ignition. Contact with economic radiation may cause ignition. Contact with political radiation may cause ignition. Contact with legal radiation may cause ignition. Contact with ethical radiation may cause ignition. Contact with moral radiation may cause ignition. Contact with religious radiation may cause ignition. Contact with philosophical radiation may cause ignition. Contact with aesthetic radiation may cause ignition. Contact with artistic radiation may cause ignition. Contact with literary radiation may cause ignition. Contact with musical radiation may cause ignition. Contact with theatrical radiation may cause ignition. Contact with cinematic radiation may cause ignition. Contact with photographic radiation may cause ignition. Contact with digital radiation may cause ignition. Contact with analog radiation may cause ignition. Contact with electronic radiation may cause ignition. Contact with optical radiation may cause ignition. Contact with magnetic radiation may cause ignition. Contact with gravitational radiation may cause ignition. Contact with quantum radiation may cause ignition. Contact with relativistic radiation may cause ignition. Contact with cosmological radiation may cause ignition. Contact with climatological radiation may cause ignition. Contact with oceanographic radiation may cause ignition. Contact with hydrological radiation may cause ignition. Contact with glaciological radiation may cause ignition. Contact with volcanological radiation may cause ignition. Contact with seismological radiation may cause ignition. Contact with tectonic radiation may cause ignition. Contact with geological radiation may cause ignition. Contact with paleontological radiation may cause ignition. Contact with archaeological radiation may cause ignition. Contact with anthropological radiation may cause ignition. Contact with sociological radiation may cause ignition.

5.3 **Treatment for Exposure:** INHALATION: Remove victim to fresh air immediately. If not breathing, clear airway and begin artificial respiration. If breathing is difficult, oxygen should be given. Skin: Immediately remove and isolate contaminated clothing. Flush affected area with large amounts of water for at least 15 minutes. Wash gently and thoroughly with soap and water. Seek medical attention as soon as possible. Do not use chemical neutralizers. Eyes: Immediately flush with large amounts of water for at least 15 minutes, lifting upper and lower eyelids occasionally. Seek medical attention as soon as possible. Do not use chemical neutralizers. Ingestion: Do not induce vomiting. If victim is conscious and not convulsing, have victim drink large amounts of water or milk immediately. If vomiting occurs, give more fluids. Get medical attention.

6 FIRE HAZARDS

6.1 **Flash Point:** Not pertinent (or less than ambient)
6.2 **Flammable Limits in Air:** Not pertinent
6.3 **Fire Extinguishing Agents:** Dry chemical, sand or powdered graphite
6.4 **Fire Extinguishing Agents Not to be Used:** Water, foam, halogenated agents, carbon dioxide
6.5 **Special Hazards of Combustion Products:** Highly toxic vapor is given off when burned. Can cause metal fume fever.
6.6 **Behavior in Fire:** Reacts spontaneously with air, water, and moisture with evolution of flammable ethane gas. Contact with water or approved quench agent recommended for fire.
6.7 **Ignition Temperature:** Below 0°F
6.8 **Electrical Hazard:** Not pertinent
6.9 **Burning Rate:** Not pertinent

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts violently to form flammable ethane gas
7.2 **Reactivity with Common Materials:** Will react with surface moisture generating flammable ethane gas
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Not pertinent
8.2 **Waterfowl Toxicity:** Not pertinent
8.3 **Biological Oxygen Demand (BOD):** None
8.4 **Food Chain Concentration Potential:** None

5 HEALTH HAZARDS (Cont'd)

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Not pertinent
5.5 **Short-Term Inhalation Limits:** Not pertinent
5.6 **Toxicity by Ingestion:** Not pertinent
5.7 **Late Toxicity:** Not pertinent
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Not pertinent

DFE — 1,1-DIFLUOROETHANE

Common Synonyms
Ethylidene fluoride
Ethylidene difluoride
Refrigerant 152a

Liquefied compressed gas — Colorless

Sinks and boils in water. Flammable, irritating vapor is produced. Visible vapor cloud is produced. Boiling point is 76°F.

Fire

FLAMMABLE.
POISONOUS GASES MAY BE PRODUCED IN FIRE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR
Irritating to eyes, nose and throat.
Harmful if inhaled.

LIQUID
Will burn eyes.
Will cause frostbite.
Harmful if swallowed.

Water Pollution

Not harmful to aquatic life.

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning: high flammability.
Restrict access.
Evacuate area.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms.** Ethylidene difluoride; Ethylidene fluoride; Refrigerant 152a
3.2 **Coast Guard Compatibility Classification:** Not listed
3.3 **Chemical Formula.** CH_3CHF_2
3.4 **IMCO/United Nations Numerical Designation:** 2/1030

4 OBSERVABLE CHARACTERISTICS*

4.1 **Physical State (as shipped):** Liquefied compressed gas
4.2 **Color:** Colorless
4.3 **Odor.** Faint

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Individual breathing devices with air supply; neoprene gloves; protective clothing; eye protection.
5.2 **Symptoms Following Exposure:** Inhalation of concentrated gas will cause suffocation. Contact with liquid can damage eyes because of low temperature. Frostbite may result from contact with liquid.
5.3 **Treatment for Exposure:** INHALATION: remove to fresh air; use artificial respiration if necessary. EYES: get medical attention if liquid has entered eyes. SKIN: soak in lukewarm water (for frostbite).
5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion.** Not pertinent (boils at −24.7°C)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Data not available
5.9 **Liquid or Solid Irritant Characteristics:** Data not available
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** Not pertinent
6.2 **Flammable Limits in Air:** 3.7% – 18%
6.3 **Fire Extinguishing Agents.** Shut off gas source if safe; water to cool adjacent combustibles.
6.4 **Fire Extinguishing Agents Not to be Used:**
6.5 **Special Hazards of Combustion Products:** Irritating hydrogen fluoride fumes may form in fire.
6.6 **Behavior in Fire:** Containers may explode. Vapors are heavier than air and may travel a considerable distance to an ignition source and flash back.
6.7 **Ignition Temperature:** Data not available
6.8 **Electrical Hazard:** Data not available
6.9 **Burning Rate:** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:**
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** None
8.4 **Food Chain Concentration Potential.** None

NOTES

DFA — DIFLUOROPHOSPHORIC ACID, ANHYDROUS

Common Synonyms

Difluorophosphorus acid

Liquid | Colorless | Sharp irritating odor

Reacts violently with water. Irritating gas is produced on contact with water.

Fire

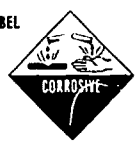
Not flammable
POISONOUS GASES MAY BE PRODUCED WHEN HEATED

Exposure

VAPOR
Irritating to eyes, nose and throat

LIQUID
Will burn skin and eyes
Harmful if swallowed

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG 446-4)

Issue warning; person-contact; water contamination
Restrict access
Evacuate area
Disperse and flush with care

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Difluorophosphorus acid
3.2 **Coast Guard Compatibility Classification:** Not applicable
3.3 **Chemical Formula:** HOPOF$_2$
3.4 **IMCO/United Nations Numerical Designation:** 1768

4. OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid
4.2 **Color.** Colorless
4.3 **Odor:** Sharp, very irritating

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Air-line mask or self-contained breathing apparatus; full protective clothing
5.2 **Symptoms Following Exposure:** Inhalation causes severe irritation of upper respiratory tract. Contact with liquid causes severe irritation of eyes and skin. Ingestion causes severe burns in mouth and stomach.
5.3 **Treatment for Exposure** Get medical attention as soon as possible following exposure to this compound. INHALATION: remove from exposure and support respiration. EYES: wash with copious volumes of water for at least 15 min. SKIN: wash with large amounts of water for 15 min. INGESTION: if victim is conscious, have him drink large amounts of water followed by milk or milk of magnesia.
5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available
5.5 **Short-Term Inhalation Limits:** Data not available
5.6 **Toxicity by Ingestion** Data not available
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics.** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.
5.9 **Liquid or Solid Irritant Characteristics** Severe skin irritant. Causes second- and third-degree burns on short contact and is very injurious to the eyes.
5.10 **Odor Threshold** Data not available

6 FIRE HAZARDS

6.1 **Flash Point** Not flammable
6.2 **Flammable Limits in Air** Not flammable
6.3 **Fire Extinguishing Agents** Not pertinent
6.4 **Fire Extinguishing Agents Not to be Used** Do not use water on adjacent fires
6.5 **Special Hazards of Combustion Products:** Irritating and toxic fumes of hydrogen fluoride and phosphoric acid may be formed in fires
6.6 **Behavior in Fire:** Not pertinent
6.7 **Ignition Temperature:** Not pertinent
6.8 **Electrical Hazard** Not pertinent
6.9 **Burning Rate** Not pertinent

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** Reacts vigorously to form corrosive and toxic hydrofluoric acid
7.2 **Reactivity with Common Materials** In the presence of moisture is corrosive to glass, other siliceous materials, and most metals
7.3 **Stability During Transport** Stable
7.4 **Neutralizing Agents for Acids and Caustics.** Flush with water; rinse with sodium bicarbonate or lime solution
7.5 **Polymerization** Not pertinent
7.6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity.** Data not available
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD)** None
8.4 **Food Chain Concentration Potential** None

[illegible]

NOTES

REVISED 1978

DIK — DIISOBUTYL KETONE

Common Synonyms
2,6-Dimethyl-4-heptane
5-Diisopropylacetone
Isovalerone
DIBK

Liquid | Colorless | Mild sweet odor

Floats on water

Fire

Combustible

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing.

LIQUID
Irritating to skin and eyes.
If swallowed will cause nausea and vomiting.

Water Pollution

Effect of low concentrations on aquatic life is unknown
Fouling to shoreline
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Mechanical containment
Should be removed
Chemical and physical treatment

2. LABELS

No hazard label required by Code of Federal Regulations

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** DIBK; 2,6-Dimethyl-4-heptanone; Diisopropylacetone; Isovalerone

3.2 **Coast Guard Compatibility Classification:** Ketone

3.3 **Chemical Formula:** $(CH_3)_2CHCH_2COCH_2CH(CH_3)_2$; $C_9H_{18}O$

3.4 **IMCO/United Nations Numerical Designation:** 3.3 1157

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Mild characteristic ketonic

5. HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air supplied mask in confined areas; plastic gloves; face shield and safety glasses

5.2 **Symptoms Following Exposure:** Inhalation of vapor causes irritation of nose and throat. Ingestion causes irritation of mouth and stomach. Vapor irritates eyes. Contact with liquid irritates skin.

5.3 **Treatment for Exposure:** INHALATION: move to fresh air, give oxygen if breathing is difficult, call a physician. EYES: flush with plenty of water. SKIN: wipe off, flush with plenty of water, wash with soap and water.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 25 ppm

5.5 **Short-Term Inhalation Limits:** 50 ppm/30 min

5.6 **Toxicity by Ingestion:** Grade 2; oral LD_{50} = 1.4 g/kg (mouse); 5.75 g/kg (rat)

5.7 **Late Toxicity:** Causes increased liver and kidney weights in rats; decreased liver weights in guinea pigs

5.8 **Vapor (Gas) Irritating Characteristics:** Vapors cause moderate irritation such that personnel will find high concentrations unpleasant. The effect is temporary.

5.9 **Liquid or Solid Irritant Characteristics:** Minimum hazard. If spilled on clothing and allowed to remain, may cause smarting and reddening of skin.

5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point.** 131°F (C.C.) 120°F (C.C.)

6.2 **Flammable Limits in Air:** 0.8% - 7.1% at 200°

6.3 **Fire Extinguishing Agents:** Foam, dry chemical, carbon dioxide

6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6.5 **Special Hazards of Combustion Products:**

6.6 **Behavior in Fire:**

6.7 **Ignition Temperature:** 745

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** May attack some forms of plastics

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** 65 ppm/24 hr/brine shrimp/TL_m

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** % of theoretical in 5 days: fresh water

8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

DIA	# DIISOPROPYLAMINE

Common Synonyms	Liquid	Colorless	Fishy odor
	Floats and mixes with water		

Fire

FLAMMABLE
POISONOUS GASES MAY BE PRODUCED IN FIRE
Containers may explode in fire
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area

Exposure

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing

LIQUID
Will burn eyes
Irritating to eyes
If swallowed will cause nausea and vomiting

Water Pollution

HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook, CG-446-4)

Issue warning: high flammability, water contaminant, air contaminant
Restrict access
Disperse and flush

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** No common synonyms
3.2 **Coast Guard Compatibility Classification:** Miscellaneous amine
3.3 **Chemical Formula:** $(CH_3)_2CHNHCH(CH_3)_2$ or $C_6H_{15}N$
3.4 **IMCO/United Nations Numerical Designation:** 1158

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid
4.2 **Color:** Colorless
4.3 **Odor:** Amine

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Air supplied mask, plastic gloves, face goggles, rubber apron
5.2 **Symptoms Following Exposure:** Inhalation of vapors causes irritation, sometimes with nausea and vomiting; can also cause burns to the respiratory system. Ingestion causes irritation of mouth and stomach. Vapor irritates eyes; liquid causes severe burns like caustic. Contact with skin causes burns.
5.3 **Treatment for Exposure:** INHALATION: move victim to fresh air and keep him quiet and comfortable; warm, give oxygen if breathing is difficult; call a physician. PATIENT INDUCE vomiting; give large volume of warm salt water; consult a physician. EYES: *immediately* flush eyes with plenty of water for at least 15 min; then get medical care. SKIN: flush with water, remove contaminated clothing and wash skin; if there is any redness or evidence of burning consult a physician.
5.4 **Toxicity by Inhalation (Threshold Limit Value):** 5 ppm
5.5 **Short-Term Inhalation Limits:** Minor LC_{L_0} = 5000 ppm for 20 min
5.6 **Toxicity by Ingestion:** Grade 3; oral LD_{50} = 0.7 g/kg (rats)
5.7 **Late Toxicity:** Data not available
5.8 **Vapor (Gas) Irritant Characteristics:** Vapors are moderately irritating such that personnel will not usually tolerate moderate or high concentrations
5.9 **Liquid or Solid Irritant Characteristics:** Causes smarting of the skin; first degree burns on short exposure; may cause second degree burns on long exposure
5.10 **Odor Threshold:** Data not available

6 FIRE HAZARDS

6.1 **Flash Point:** 20°F (O.C.), 35°F (C.C.)
6.2 **Flammable Limits in Air:** 0.8% - 7.1%
6.3 **Fire Extinguishing Agents:** Alcohol foam, dry chemical, carbon dioxide
6.4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective
6.5 **Special Hazards of Combustion Products:** Toxic oxides of nitrogen may form in fires
6.6 **Behavior in Fire:** Vapor is heavier than air and may travel to a source of ignition and flash back
6.7 **Ignition Temperature:** 600°F
6.8 **Electrical Hazard:** Class I
6.9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction
7.2 **Reactivity with Common Materials:** May attack some forms of plastics
7.3 **Stability During Transport:** Stable
7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent
7.5 **Polymerization:** Not pertinent
7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:**
(a) 60 ppm, 24 hr, creek chub, lethal, fresh water
(b) 60 ppm,* creek chub, critical range, fresh water
*Time period not specified
8.2 **Waterfowl Toxicity:** Data not available
8.3 **Biological Oxygen Demand (BOD):** Data not available
8.4 **Food Chain Concentration Potential:** None

NOTES

DIH	DIISOPROPYLBENZENE HYDROPEROXIDE

Common Synonyms Isopropylcumyl hydroperoxide	Liquid Colorless to pale yellow Sharp, unpleasant odor May float or sink in water
Fire	Combustible Will increase the intensity of a fire May cause fire on contact with combustibles Containers may explode in fire
Exposure	VAPOR Irritating to eyes nose and throat If inhaled will cause coughing or difficult breathing LIQUID Irritating to skin and eyes Harmful if swallowed
Water Pollution	Effect of low concentrations on aquatic life is unknown Fouling to shoreline May be dangerous if it enters water intakes

1 RESPONSE TO DISCHARGE

See Response Methods Handbook CG 446-4)

Issue warning oxidizing material
Restrict access
Mechanical containment
Should be removed
Chemical and physical treatment

2. LABEL

3. CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Isopropylcumyl hydroperoxide

3 2 **Coast Guard Compatibility Classification:** Not listed

3 3 **Chemical Formula:**
(CH3)2CHC6H4C(CH3)2OOH
or (CH3)2CHC6H4C(CH3)2OOH

3 4 **IMCO/United Nations Numerical Designation:** 3109

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless to pale yellow

4 3 **Odor:** Sharp, disagreeable

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Solvent resistant gloves chemical resistant apron chemical goggles or face shield, self-contained breathing apparatus

5 2 **Symptoms Following Exposure:** Inhalation causes irritation of nose and throat Contact with eyes or skin causes throbbing sensation and irritation

5 3 **Treatment for Exposure:** INHALATION move to fresh air call a doctor EYES flush with water for 15 min holding eyelids open call physician SKIN wash several times with soap and water

5 4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5 5 **Short-Term Inhalation Limits:** Data not available

5 6 **Toxicity by Ingestion:** Data not available

5 7 **Late Toxicity:** Data not available

5 8 **Vapor (Gas) Irritant Characteristics:** Data not available

5 9 **Liquid or Solid Irritant Characteristics:** Data not available

5 10 **Odor Threshold:** Data not available

6. FIRE HAZARDS

6 1 **Flash Point:** 174°F (C C

6 2 **Flammable Limits in Air:** Data not available

6 3 **Fire Extinguishing Agents:** Foam, dry chemical carbon dioxide

6 4 **Fire Extinguishing Agents Not to be Used:** Water may be ineffective

6 5 **Special Hazards of Combustion Products:** Flammable alcohol and ketone gases are formed in fire

6 6 **Behavior in Fire:** Burns with a flare effect Containers may explode

6 7 **Ignition Temperature:** Data not available

6 8 **Electrical Hazard:** Data not available

6 9 **Burning Rate:** Data not available

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water:** No reaction

7 2 **Reactivity with Common Materials:** Aluminum copper, brass lead zinc salts, mineral acids, oxidizing or reducing agents all can cause rapid decomposition

7 3 **Stability During Transport:** Unstable slowly evolves oxygen

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity:** Data not available

8 3 **Biological Oxygen Demand (BOD):** Data not available

8 4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

Hercules, Inc
Wilmington, Del 19899

10. SHIPPING INFORMATION

10 1 **Grades of Purity:** 54 06% the balance being diisopropylbenzene a combustible hydrocarbon

10 2 **Storage Temperature:** Ambient

10 3 **Inert Atmosphere:** No requirement

10 4 **Venting:** Open flame arrester

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 446-3)

5 E1

12. HAZARD CLASSIFICATIONS

12 1 **Code of Federal Regulations:** Organic Peroxide

12 2 **NAS Hazard Rating for Bulk Water Transportation:** Not listed

NOTES

DAC — DIMETHYLACETAMIDE

Common Synonyms			
N,N Dimethylacetamide Acetic acid dimethylamide	Liquid	Colorless	Weak fishy odor
	Mixes with water		

Fire	Combustible
Exposure	LIQUID Irritating to skin and eyes Harmful if swallowed
Water Pollution	Effect of low concentrations on aquatic life is unknown May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning - water contaminant
Disperse and flush

2. LABELS

No label required by Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** N,N Dimethylacetamide
Acetic acid dimethylamide
3 2 **Coast Guard Compatibility Classification:** Not applicable
3 3 **Chemical Formula:** C_4H_9ON ($CH_3CON(CH_3)_2$)
3 4 **IMCO/United Nations Numerical Designation:** Not listed

4. OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid
4 2 **Color:** Colorless
4 3 **Odor:** Weak fishy

5. HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Goggles or face shield, rubber gloves
5 2 **Symptoms Following Exposure:** Liquid causes mild irritation of eyes and skin. Ingestion causes depression, lethargy, confusion and disorientation, visual and auditory hallucinations, perceptual distortions, delusions, emotional detachment, and affective beating
5 3 **Treatment for Exposure:** EYES: flush with quants of water for 15 min, get medical attention. SKIN: flush with plenty of water for 15 min. INGESTION: induce vomiting and follow with gastric lavage and saline cathartics. Treatment for liver and kidney injury is supportive and symptomatic
5 4 **Toxicity by Inhalation (Threshold Limit Value):** 10 ppm
5 5 **Short-Term Inhalation Limits:** Data not available
5 6 **Toxicity by Ingestion:** Grade 1 oral LD_{50} = 5.63 g/kg (rat)
5 7 **Late Toxicity:** May produce chronic liver and kidney damage
5 8 **Vapor (Gas) Irritant Characteristics:** Data not available
5 9 **Liquid or Solid Irritant Characteristics:** Data not available
5 10 **Odor Threshold:** 46.8 ppm

6 FIRE HAZARDS

6 1 **Flash Point.** 158°F (70°C)
6 2 **Flammable Limits in Air:** 1.8% - 11.5%
6 3 **Fire Extinguishing Agents.** Water, dry chemical, alcohol foam, carbon dioxide
6 4 **Fire Extinguishing Agents Not to be Used.** Not pertinent
6 5 **Special Hazards of Combustion Products.** Not pertinent
6 6 **Behavior in Fire:** Not pertinent
6 7 **Ignition Temperature:** 914°F

NOTES

DMA — DIMETHYLAMINE

Common Synonyms

Liquefied compressed gas Colorless Dead fish or ammonia odor

Floats and boils on water Flammable irritating vapor is produced
Boiling point is 44° F

As with contact with liquid and vapor, keep people away.
Wear suggested protective clothing and equipment including self-contained breathing apparatus.
Stop flow of gas if possible.
Stop discharge if possible.
Use water spray to reduce vapors or divert vapor cloud drift.
Isolate and ventilate area before entering.
Notify local health and pollution control agencies.

Fire

FLAMMABLE
Flashback along vapor trail may occur
May explode if ignited in an enclosed area
Wear goggles and self-contained breathing apparatus when fighting fire.
Stop flow of gas if possible.
If container is not leaking, cool with water from protected location.

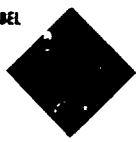
Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled, will cause difficult breathing
Move victim to fresh air.
If breathing has stopped, give artificial respiration.
If breathing is difficult, give oxygen.

LIQUID
Will burn skin and eyes
Harmful if swallowed
Keep victim warm and quiet.
Flush affected area with plenty of water.
IN EYES, hold eyelids apart and flush with plenty of water.
IF SWALLOWED and victim is CONSCIOUS, induce vomiting.

Water Pollution



HARMFUL TO AQUATIC LIFE IN VERY LOW CONCENTRATIONS
May be dangerous if it enters water intakes.
Notify local health and wildlife officials.
Notify operators of nearby water intakes.

1 RESPONSE TO DISCHARGE

See Hazardous Materials Handbook, CG-446-6

Isolate hazard area and deny entry.
Keep unnecessary people away.
Evacuate area.

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms:** N-methylmethanamine

3.2 **Coast Guard Compatibility Classification:** None

3.3 **Chemical Formula:** $(CH_3)_2NH$

3.4 **IMCO United Nations Numerical Designation:** 2.0 /037

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Compressed gas

4.2 **Color:** Colorless

4.3 **Odor:** Fishy, ammonia-like odor

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical goggles and face shield if needed. Wear self-contained breathing apparatus.

5.2 **Symptoms Following Exposure:** Inhalation of high concentrations may cause pulmonary edema. Liquid causes severe burns.

5.3 **Treatment for Exposure:** INHALATION: Remove victim to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. EYES: Flush with plenty of water for at least 15 minutes and then transport victim to hospital for treatment by an ophthalmologist. SKIN: Flush affected area with plenty of water. Remove contaminated clothing and wash before reuse. INGESTION: Induce vomiting if victim is conscious.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 10 ppm

5.5 **Short-Term Inhalation Limits:** 30 ppm for 30 min

5.6 **Toxicity by Ingestion:** Not pertinent

5.7 **Late Toxicity:** None

5.8 **Vapor (Gas) Irritant Characteristics:** Vapor is irritating to eyes, nose and throat. Not pertinent with physician unless exposed. Does not compel.

5.9 **Liquid or Solid Irritant Characteristics:** Causes severe burns. Not pertinent with physician unless exposed. Does not compel.

5.10 **Odor Threshold:** 0.04 ppm

6 FIRE HAZARDS

6.1 **Flash Point:** -30° F C.C.

6.2 **Flammable Limits in Air:** 2.8% - 14.4%

6.3 **Fire Extinguishing Agents:** Stop flow of gas. Use water spray, alcohol foam, carbon dioxide, dry chemical or foam to cool containers.

6.4 **Fire Extinguishing Agents Not to be Used:** Do not use water jet.

6.5 **Special Hazards of Combustion Products:** Vapors are extremely irritating and corrosive.

6.6 **Behavior in Fire:** Not pertinent

6.7 **Ignition Temperature:** 806° F

6.8 **Electrical Hazard:** Data not available

6.9 **Burning Rate:** 4.3 mm/min

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water:** No reaction

7.2 **Reactivity with Common Materials:** No hazardous reaction

7.3 **Stability During Transport:** Stable

7.4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7.5 **Polymerization:** Not pertinent

7.6 **Inhibitor of Polymerization:** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity:** Stopped 24 h, undiluted fresh water >100 ppm; 48 h, undiluted salt water

8.2 **Waterfowl Toxicity:** Data not available

8.3 **Biological Oxygen Demand (BOD):** Data not available

8.4 **Food Chain Concentration Potential:** None

NOTES

REVISED 1978

DMD — DIMETHYLDICHLOROSILANE

Common Synonyms

Liquid Colorless Sharp irritating odor

Reacts violently with water. Irritating gas is produced on contact with water.

Fire

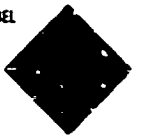
FLAMMABLE
POISONOUS GASES MAY BE PRODUCED IN FIRE
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
[illegible]
DO NOT USE WATER ON FIRE

Exposure

VAPOR
Irritating to eyes, nose and throat
[illegible]

LIQUID
Will burn skin and eyes
Harmful if swallowed
[illegible]
IF SWALLOWED [illegible]
[illegible]

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
[illegible]

1 RESPONSE TO DISCHARGE

See Response Methods Handbook, CG-446-4.

Immediate Precautionary Measures
[illegible]
Removal Procedures
Evacuation Areas
Disposal Method: Burn with care

2 LABEL

3 CHEMICAL DESIGNATIONS

3.1 Synonyms: [illegible]
3.2 Coast Guard Compatibility Classification: Not applicable
3.3 Chemical Formula: $(CH_3)_2SiCl_2$
3.4 IMCO/United Nations Numerical Designation: 1162

4 OBSERVABLE CHARACTERISTICS

4.1 Physical State (as shipped): Liquid
4.2 Color: Colorless
4.3 Odor: Sharp irritating odor

5. HEALTH HAZARDS

5 Personal Protective Equipment: Acid vapor type respirator. Impervious clothing, chemical safety goggles, other protective equipment as necessary to prevent skin and eye contact.

5.2 Symptoms Following Exposure: Inhalation creates mucous membranes of nose to throat to lungs and severe burns of eyes and skin. Ingestion burns mouth, throat and stomach.

5.3 Treatment for Exposure: INHALATION: remove from exposure and apply artificial respiration if necessary, oxygen if available. EYES: flush with water for 15 min. Seek medical attention immediately. SKIN: flush with water. Wash with soap and water. Seek medical attention immediately. INGESTION: if conscious, induce vomiting by drinking large amounts of water. Do not induce vomiting if victim is unconscious.

5.4 Toxicity by Inhalation (Threshold Limit Value): Data not available

5.5 Short Term Inhalation Limits: Data not available

5.6 Toxicity by Ingestion: Grade 4. Dose: 50-500 mg/kg

5.7 Late Toxicity: Data not available

5.8 Vapor (Gas) Irritant Characteristics: Vapor causes severe irritation to eyes and throat and can cause eye and lung injury. Does not cause delayed effects after exposure ceases.

5.9 Liquid or Solid Irritant Characteristics: Severe irritant. Causes severe skin burns and eye damage on contact. Can cause severe damage to the eyes.

5.10 Odor Threshold: Data not available

6 FIRE HAZARDS

6.1 Flash Point: [illegible]
6.2 Flammable Limits in Air: [illegible]
6.3 Fire Extinguishing Agents: Dry chemical, carbon dioxide
6.4 Fire Extinguishing Agents Not to be Used: Water or foam
6.5 Special Hazards of Combustion Products: Hydrogen chloride and phosgene may be produced
6.6 Behavior in Fire: Difficult to ignite. Reacts with water and forms flammable hydrogen gas. Vapor is heavier than air and may travel to source of ignition and flash back.
6.7 Ignition Temperature: Above 70°F
6.8 Electrical Hazard: Data not available
6.9 Burning Rate: [illegible]

7. CHEMICAL REACTIVITY

7.1 Reactivity with Water: Reacts violently with water, generating hydrogen chloride gas. Hydrogen chloride gas forms hydrochloric acid in contact with moisture.
7.2 Reactivity with Common Materials: Will react with surface moisture on containers to generate hydrogen chloride which can cause containers to rupture.
7.3 Stability During Transport: Stable
7.4 Neutralizing Agents for Acids and Caustics: Sodium bicarbonate or lime
7.5 Polymerization: Will not occur
7.6 Inhibitor of Polymerization: Not applicable

8 WATER POLLUTION

8.1 Aquatic Toxicity: Data not available
8.2 Waterfowl Toxicity: Data not available
8.3 Biological Oxygen Demand (BOD): Data not available

Comments on Properties

NOTES

DIM — DIMETHYL ETHER

Common Synonyms

Methyl ether

Liquefied gas | Colorless | Pleasant odor

Floats and boils on water. Flammable. Irritating vapor is produced.

Fire

FLAMMABLE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR

Irritating to eyes, nose and throat.
If inhaled will cause headache, dizziness, or loss of consciousness.

LIQUID

Irritating to skin and eyes.
Will cause frostbite.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1. RESPONSE TO DISCHARGE

(See Response Manual, CG-446-4)

Issue warning. Keep flammables, Restrict access. Evacuate area.

2. LABEL

3. CHEMICAL DESIGNATIONS

3.1 **Synonyms:** Methyl ether; Wood ether

3.2 **Coast Guard Compatibility Classification:** Ether(2)

3.3 **Chemical Formula:** CH_3OCH_3

3.4 **IMCO/United Nations Numerical Designation:** 2 1033

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid under pressure

4.2 **Color:** Colorless

4.3 **Odor:** Slightly sour-sweet

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Mask for organic vapor; plastic or rubber gloves; safety shoes

5.2 **Symptoms Following Exposure:** Inhalation produces an anesthesia at less than that of ether; others: blurring of vision, headache, unconsciousness. Liquid or concentrated vapor contact causes frostbite. Contact of liquid with skin may cause frostbite.

5.3 **Treatment for Exposure:** INHALATION: remove from exposure and support respiration. If [illegible] with water for at least [illegible] minutes. EYES: consult an eye specialist. SKIN: [illegible] by use of mild soap and water or by wrapping the affected parts in blanket.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** Data not available

5.5 **Short-Term Inhalation Limits:** Data not available

5.6 **Toxicity by Ingestion:** Not pertinent

5.7 **Late Toxicity:** Data not available

5.8 **Vapor (Gas) Irritant Characteristics:** Data not available

Combustible

Exposure

CALL FOR MEDICAL AID

LIQUID
Will burn skin and eyes

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes

1. RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Restrict access
Disperse and flush

2. LABELS

No hazard label is required by
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms.**
N,N Dimethylformamide
DMF

3 2 **Coast Guard Compatibility Classification**
Amide

3 3 **Chemical Formula**
HCON(CH3)2

3 4 **IMCO United Nations Numerical Designation:** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped)** Liquid

4 2 **Color** Colorless

4 3 **Odor** Slight ammoniacal or essentially odorless

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Safety glasses or face shield, rubber apron and boots

5 2 **Symptoms Following Exposure** Irritation of eyes, skin and nose. May cause nausea

5 3 **Treatment for Exposure.** INHALATION: remove victim to fresh air; if he is not breathing, give artificial respiration; if breathing is difficult, give oxygen. SKIN OR EYES: flush with plenty of water while removing contaminated clothing and shoes.

5 4 **Toxicity by Inhalation (Threshold Limit Value)** 10 ppm

5 5 **Short-Term Inhalation Limits** Data not available

5 6 **Toxicity by Ingestion.** Grade 1 Dose: 50 to 15 g/kg (rat)

5 7 **Late Toxicity** Causes abortions in pregnant rats, possibly in humans also

5 8 **Vapor (Gas) Irritant Characteristics** Vapors cause moderate irritation; most exposed personnel will find high concentrations unpleasant. The effect is temporary.

5 9 **Liquid or Solid Irritant Characteristics** Causes smarting of the skin and first degree burns on short exposure and may cause second degree burns on long exposure.

5 10 **Odor Threshold** 100 ppm

6 FIRE HAZARDS

6 1 **Flash Point** 136°F OC, 136°F CC

6 2 **Flammable Limits in Air.**
2.2 — 15.2%

6 3 **Fire Extinguishing Agents.** Water, foam, carbon dioxide, or dry chemical

6 4 **Fire Extinguishing Agents Not to be Used** Not pertinent

6 5 **Special Hazards of Combustion Products** Vapors are irritating

6 6 **Behavior in Fire** Not pertinent

6 7 **Ignition Temperature** 833°F

6 8 **Electrical Hazard** Not pertinent

6 9 **Burning Rate** 2.2 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water** No reaction

7 2 **Reactivity with Common Materials:** No reaction

7 3 **Stability During Transport.** Stable

7 4 **Neutralizing Agents for Acids and Caustics:** Not pertinent

7 5 **Polymerization** Not pertinent

7 6 **Inhibitor of Polymerization.** Not pertinent

8 WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity.** Data not available

8 3 **Biological Oxygen Demand (BOD):** 0.9 lb/lb 5 days

8 4 **Food Chain Concentration Potential.** None

9 SELECTED MANUFACTURERS

NOTES

REVISED 1978

DDW — DIMETHYLHEXANE DIHYDROPEROXIDE, WET

Common Synonyms
2,5-Dimethylhexane-2,5-dihydroperoxide
2,5-Dihydroperoxy-2,5-dimethylhexane

Wet solid — White

May float or sink in water

Stop discharge if possible. Keep people away
Call fire department
Avoid contact with spilled material
Isolate and keep unnecessary people away from spill
Notify local health and pollution control agencies

Fire

Not flammable when wet
Will increase the intensity of a fire
May explode if exposed to heat or flames
Flash back fire may occur if water is applied to burning material
Extinguish with dry chemical, foam, carbon dioxide, or water
Water may be ineffective on fire
Cool exposed containers with water

Exposure

CALL FOR MEDICAL AID

VAPOR
Irritating to eyes, nose and throat
If inhaled will cause coughing or difficult breathing
If in eyes: Hold eyelids open and flush with plenty of water
If breathing has stopped, give artificial respiration
If breathing is difficult, give oxygen

SOLID
Irritating to skin and eyes
Harmful if swallowed
Remove contaminated clothing and shoes
Flush affected areas with plenty of water
IF IN EYES: hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS: have victim drink water or milk; call physician immediately
IF SWALLOWED and victim is UNCONSCIOUS OR HAVING CONVULSIONS: do not induce vomiting; keep victim warm

Water Pollution

Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: oxidizing material
Restrict access
Mechanical containment
Should be removed
Chemical and physical treatment

NOTES

DMH — 1,1-DIMETHYLHYDRAZINE

Common Synonyms
UDMH
Dimazine
unsym-Dimethylhydrazine

Watery liquid | Colorless | Fishy or ammonia-like odor

Floats and mixes with water

AVOID CONTACT WITH LIQUID AND VAPOR. Keep people away
Wear protective clothing and self-contained breathing apparatus
Stop flow if possible
Stop spill from spreading by containing runoff with soil or sand
Keep out of sewers, confined areas
Notify fire department

Fire

FLAMMABLE
POISONOUS GASES ARE PRODUCED WHEN HEATED
Flashback along vapor trail may occur
Vapor may explode if ignited in an enclosed area
Wear fire-resistive clothing and self-contained breathing apparatus
Use dry chemical, foam or water
Extinguish with water

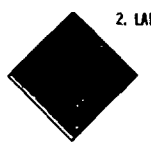
Exposure

CALL FOR MEDICAL AID

VAPOR
POISONOUS IF INHALED OR IF SKIN IS EXPOSED
Irritating to eyes
Move victim to fresh air
Begin artificial respiration if victim is not breathing
Keep victim quiet and warm

LIQUID
POISONOUS IF SWALLOWED OR IF SKIN IS EXPOSED
Will burn eyes
Remove contaminated clothing and shoes immediately
Flush affected areas with plenty of water
IF IN EYES, hold eyelids open and flush with plenty of water
IF SWALLOWED and victim is CONSCIOUS, induce vomiting by drinking water or milk
DO NOT INDUCE VOMITING

Water Pollution



Effect of low concentrations on aquatic life is unknown
May be dangerous if it enters water intakes
Notify local health and wildlife officials
Notify operators of nearby water intakes

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning: high flammability
Restrict access
Evacuate area
Disperse and flush

2. LABELS

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:** Dimazine
UDMH
unsym-Dimethylhydrazine

3 2 **Coast Guard Compatibility Classification**
Not applicable

3 3 **Chemical Formula:** $(CH_3)_2NNH_2$

3 4 **IMCO, United Nations Numerical Designation** 3 2 1163

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor:** Sharp ammoniacal fish

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment** Rubber gloves, boots and apron; plastic face shield; Gas mask with ammonia (GMN) canister approved for 30 min. across 1% concentration; for lower ppb or higher concentrations use self-contained breathing apparatus

5 2 **Symptoms Following Exposure** Breathing of vapor causes pulmonary irritation; delayed gastrointestinal irritation, tremors and convulsions. Contact with skin or eyes causes irritation; chronic cases chemical burns. Can be absorbed through skin in toxic amounts; irritation and convulsions

5 3 **Treatment for Exposure** INHALATION: assist with fresh air; compound 1 oxygen if needed; artificial respiration and oxygen if needed; watch for signs of pulmonary edema; a corticosteroid aerosol may be effective. INGESTION: do NOT induce vomiting. Hospitalize. SKIN OR EYES: flood with water; treat as for alkaline burn

5 4 **Toxicity by Inhalation (Threshold Limit Value)** 0 ppm

5 5 **Short-Term Inhalation Limits.** 100 ppm for 30 min; 50 ppm for 30 min; 25 ppm for 1 hr

5 6 **Toxicity by Ingestion:** Grade 4; LD_{50} = 300 mg/kg (rat, mouse)

5 7 **Late Toxicity:** Data not available
Mild anemia, upper respiratory irritation, and muscle tremors in dogs following chronic exposure

5 8 **Vapor (Gas) Irritant Characteristics** Vapor is moderately irritating such that personnel will normally tolerate moderate or high concentrations

5 9 **Liquid or Solid Irritant Characteristics.** Severe skin irritant. Causes second and third degree burns on short contact and severe injury to the eyes

5 10 **Odor Threshold:** 0.14 ppm

6 FIRE HAZARDS

6 1 **Flash Point.** 34°F (1°C)

6 2 **Flammable Limits in Air:** 2 - 95%

6 3 **Fire Extinguishing Agents** Flood with water

6 4 **Fire Extinguishing Agents Not to be Used** In large fires, water for carbon dioxide and bicarbonate types may allow flash back and explosive re-ignition

6 5 **Special Hazards of Combustion Products** None

6 6 **Behavior in Fire.** Tends to ignite unless diluted with much water

6 7 **Ignition Temperature** 482 - 482°F

6 8 **Electrical Hazard:** Class I, Group D

6 9 **Burning Rate:** 3 mm/min

7. CHEMICAL REACTIVITY

7 1 **Reactivity with Water** No reaction

7 2 **Reactivity with Common Materials:** Dissolves swells and disintegrates many plastics

7 3 **Stability During Transport** Stable below 1112°F

7 4 **Neutralizing Agents for Acids and Caustics:** Flush with water

7 5 **Polymerization:** Not pertinent

7 6 **Inhibitor of Polymerization:** Not pertinent

8. WATER POLLUTION

8 1 **Aquatic Toxicity:** Data not available

8 2 **Waterfowl Toxicity** Data not available

3.1 **Synonyms.**
No common synonyms

3.2 **Coast Guard Compatibility Classification:**
Fair

3.3 **Chemical Formula:** $(CH_3)_2SO_4$

3.4 **IMCO United Nations Numerical Designation:** 6.1/1595

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped):** Liquid

4.2 **Color:** Colorless

4.3 **Odor:** Small characteristic odor
slight, not distinctive, weak onion

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment:** Chemical goggles; self-contained breathing apparatus; rubber shoes; rubber gloves; safety boots and coveralls impervious to chemical

5.2 **Symptoms Following Exposure:** Severe irritation to eyes, eyelids, respiratory tract and skin
Dry pain, tearing, burning, white spots, difficulty in breathing, malaise and fever
Inflammation, edema of lungs

5.3 **Treatment for Exposure:** Contact with dimethyl sulfate (liquid or vapor) may require immediate treatment. Call physician even if there is no evidence of illness. Symptoms may not appear for several hours. INHALATION of vapors: get to fresh air immediately. If not breathing, give artificial respiration. If breathing is weak, inhale by demand inhalator. Keep victim warm and quiet. Keep under observation at least 48 hours because of danger of delayed pulmonary edema. Perhaps physician may administ[illegible] under pressure. INGESTION: DO NOT induce vomiting. SKIN: Remove contaminated clothing. Wash with soap or mild detergent and water for at least 15 minutes. EYES: Wash with running water for at least 15 minutes.

5.4 **Toxicity by Inhalation (Threshold Limit Value):** 1 ppm

5.5 **Short-Term Inhalation Limits.** Data not available

5.6 **Toxicity by Ingestion:** Grade 3; Oral LD50 = 205 mg/kg

5.7 **Late Toxicity:** Causes birth defects in rat (malignant tumors in nervous system)

5.8 **Vapor (Gas) Irritant Characteristics.** Vapors cause severe irritation of eyes and throat, and in advanced case lung injury. They cannot be tolerated even at low concentration.

5.9 **Liquid or Solid Irritant Characteristics.** Severe skin irritant. Causes second and third degree burns on prolonged contact in concentrated form.

5.10 **Odor Threshold:** Data not available

13. PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm:** Liquid

13.2 **Molecular Weight:** 126.13

13.3 **Boiling Point at 1 atm**
370.5°F = 188.5°C = 462.0°K

13.4 **Freezing Point.**
−25.2°F = −31.8°C = 241.4°K

13.5 **Critical Temperature:** Not pertinent

13.6 **Critical Pressure:** Not pertinent

13.7 **Specific Gravity:** 1.33 at 15°C (liquid)

13.8 **Liquid Surface Tension**
40.1 dynes/cm = 0.0401 N/m at 15°C

13.9 **Liquid-Water Interfacial Tension:**
not 120 dynes/cm = 0.02 N/m at 20°C

13.10 **Vapor (Gas) Specific Gravity**
Not pertinent

13.11 **Ratio of Specific Heats of Vapor (Gas):**
Not pertinent

13.12 **Latent Heat of Vaporization**
Not pertinent

13.13 **Heat of Combustion.** Not pertinent

13.14 **Heat of Decomposition.** Not pertinent

13.15 **Heat of Solution:** Not pertinent

13.16 **Heat of Polymerization.** Not pertinent

NOTES

REVISED 1978

DSL

DIMETHYL SULFIDE

Common Synonyms

Methyl sulfide
2 Thiapropane
Methanethiomethane

Liquid | Colorless to light yellow | Unpleasant odor

Floats and mixes slowly with water. Irritating vapor is produced. Boiling point is 99° F.

Fire

FLAMMABLE.
POISONOUS GASES ARE PRODUCED IN FIRE.
Containers may explode in fire.
Flashback along vapor trail may occur.
Vapor may explode if ignited in an enclosed area.

Exposure

VAPOR

Irritation to eyes, nose and throat.

LIQUID

Irritating to skin and eyes.
Harmful if swallowed.

Water Pollution

Effect of low concentrations on aquatic life is unknown.
May be dangerous if it enters water intakes.

1 RESPONSE TO DISCHARGE

(See Response Methods Handbook CG 446-4)

Issue warning. High flammability.
Restrict access.
Evacuate area.
Disperse and flush.

2. LABEL

3 CHEMICAL DESIGNATIONS

3.1 **Synonyms** DMS
Methanethiomethane
Methyl sulfide
2-Thiapropane

3.2 **Coast Guard Compatibility Classification** Not applicable

3.3 **Chemical Formula** C_2H_6S

3.4 **IMCO/United Nations Numerical Designation.** 3.1 1164

4 OBSERVABLE CHARACTERISTICS

4.1 **Physical State (as shipped)** Liquid

4.2 **Color.** Colorless to straw

4.3 **Odor** Ethereal, pungent and disagreeable odor at low concentrations

5 HEALTH HAZARDS

5.1 **Personal Protective Equipment** Respirator with organic vapor cartridge, rubber or plastic gloves, goggles or face shield.

5.2 **Symptoms Following Exposure** Inhalation causes moderate irritation of upper respiratory system. Contact of liquid with eyes causes moderate irritation. Repeated contact with skin may extract oils and results in irritation. Ingestion causes nausea and irritation of mouth and throat.

5.3 **Treatment for Exposure** INHALATION: If not serious, remove to fresh air; if serious, get medical attention immediately. EYES: flush with water for at least 15 min.; if irritation persists, get medical attention. SKIN: flush with plenty of water and wash thoroughly; get treatment for any lasting irritation. INGESTION: If large amounts are swallowed, induce vomiting by tickling the back of the throat with the fingers or by giving an emetic such as two tablespoons of mustard in a glass of warm water; get medical attention.

5.4 **Toxicity by Inhalation (Threshold Limit Value)** Data not available.

5.5 **Short-Term Inhalation Limits:** Data not available.

5.6 **Toxicity by Ingestion** Grade 2; oral LD_{50} = 2.45 mg/kg (rats).

5.7 **Late Toxicity** Data not available.

5.8 **Vapor (Gas) Irritant Characteristics.** Vapors are moderately irritating to eyes and nose; personnel can usually tolerate moderate to high vapor concentrations.

5.9 **Liquid or Solid Irritant Characteristics** Causes severe irritation of the skin and first degree burns on short exposure and may cause second degree burns on long exposure.

5.10 **Odor Threshold:** 0.001 ppm

6. FIRE HAZARDS

6.1 **Flash Point** −46 [illegible] C

6.2 **Flammable Limits in Air** 2.2 [illegible]

6.3 **Fire Extinguishing Agents** Dry chemical, foam, Kohol foam, carbon dioxide.

6.4 **Fire Extinguishing Agents Not to be Used.** Water may be ineffective.

6.5 **Special Hazards of Combustion Products** Toxic and irritating sulfur dioxide is formed.

6.6 **Behavior in Fire** Vapor is heavier than air and may travel considerable distance to source of ignition and flash back.

6.7 **Ignition Temperature** 403° F

6.8 **Electrical Hazard** Data not available.

6.9 **Burning Rate** 4.8 mm/min.

7 CHEMICAL REACTIVITY

7.1 **Reactivity with Water** No reaction

7.2 **Reactivity with Common Materials** No reaction

7.3 **Stability During Transport.** Stable

7.4 **Neutralizing Agents for Acids and Caustics.** Not pertinent

7.5 **Polymerization** Not pertinent

7.6 **Inhibitor of Polymerization** Not pertinent

8 WATER POLLUTION

8.1 **Aquatic Toxicity** Data not available

8.2 **Waterfowl Toxicity** Data not available

8.3 **Biological Oxygen Demand (BOD)** Approximately 1 lb/lb

8.4 **Food Chain Concentration Potential:** None

9 SELECTED MANUFACTURERS

1. Crown Zellerbach Corp
Chemical Products Division
Camas, Wash. 98607

2. Phillips Petroleum Company
Chemical Department
Special Products Division
Bartlesville, Okla. 74004

3. United States Steel Corp.
USS Chemicals Division
P. O. Box 86
Pittsburgh, Pa. 15230

10 SHIPPING INFORMATION

10.1 **Grades or Purity:** 99%

10.2 **Storage Temperature** Ambient

10.3 **Inert Atmosphere** No requirement

10.4 **Venting.** Pressure vacuum

11 HAZARD ASSESSMENT CODE

(See Hazard Assessment Handbook CG 446-3)

VPQTUVW

12 HAZARD CLASSIFICATIONS

12.1 **Code of Federal Regulations.**

13 PHYSICAL AND CHEMICAL PROPERTIES

13.1 **Physical State at 15°C and 1 atm** Liquid

13.2 **Molecular Weight** 62.1

13.3 **Boiling Point at 1 atm**
99°F = 37° C = 310° K

13.4 **Freezing Point:**
−144°F = −98° C = 175° K

13.5 **Critical Temperature**
444°F = 229° C = 502° K

13.6 **Critical Pressure**
826 psia = 56 Atm = 5.69 MN/m

13.7 **Specific Gravity** 0.85 at 20° C (liquid)

13.8 **Liquid Surface Tension:**
26.7 dynes/cm = 0.0267 N/m at 11° C

13.9 **Liquid-Water Interfacial Tension** (est.)
30 dynes/cm = 0.030 N/m at 20° C

13.10 **Vapor (Gas) Specific Gravity:** 2.14

13.11 **Ratio of Specific Heats of Vapor (Gas)**
1.1277 at 16° C

13.12 **Latent Heat of Vaporization** 192 Btu/lb
= 108 cal/g = 4.52 × 10⁵ J/kg

13.13 **Heat of Combustion** −13,200 Btu/lb
= −7340 cal/g = −307 × 10⁵ J/kg

13.14 **Heat of Decomposition** Not pertinent

13.15 **Heat of Solution** Not pertinent

13.16 **Heat of Polymerization** Not pertinent

Continued on page 7 and A

NOTES

DMS	DIMETHYL SULFOXIDE

Common Synonyms
Methyl Sulfoxide
DMSO

Liquid | Colorless | Mild garlic odor

Sinks and mixes with water

No discharge if possible
Call fire department
Avoid contact if leaking
Evacuate and remove discharged material
Notify [illegible] agencies

Fire

Combustible
POISONOUS GASES MAY BE PRODUCED IN FIRE
Wear goggles, self-contained breathing apparatus and rubber protective clothing
Extinguish with water fog, carbon dioxide, dry chemical or foam

Exposure

CALL FOR MEDICAL AID
LIQUID
Irritating to skin and eyes
Flush affected areas with plenty of water
IF IN EYES, hold eyelids apart and flush with plenty of water

Water Pollution

Dangerous to aquatic life in high concentrations
May be dangerous if it enters water intakes
Notify [illegible]
Notify [illegible]

1. RESPONSE TO DISCHARGE

See Response Methods Handbook CG-446-1

Disperse and flush

2. LABELS

No hazard labels required by
Code of Federal Regulations

3 CHEMICAL DESIGNATIONS

3 1 **Synonyms:**
DMSO
Methyl sulfoxide

3 2 **Coast Guard Compatibility Classification:**
Not applicable

3 3 **Chemical Formula:** CH_3SOCH_3

3 4 **IMCO United Nations Numerical Designation.** Not listed

4 OBSERVABLE CHARACTERISTICS

4 1 **Physical State (as shipped):** Liquid

4 2 **Color:** Colorless

4 3 **Odor** Slight garlic or odorless

5 HEALTH HAZARDS

5 1 **Personal Protective Equipment:** Rubber gloves, safety goggles, Respirator, Protective clothing, Chemical cartridge respirator or dust mask if exposed

5 2 **Symptoms Following Exposure:** Slight eye irritation
